MEN'S SHORTS

The Premio Bibshort has been engineered to provide the ultimate in long-distance comfort and to be your favorite bibshort ever. That's a big claim, but there's a lot of research and development in this short to back it up.

The seat pad is central to the Premio's exceptional comfort and our top-of-the-line Progetto X² Air Seamless pad is actually two separate components: a soft, stretchy Skin Care Layer next to your skin, which has the sole purpose of preventing any rubbing on your skin, and, under that, the Cushioning Layer, which features two separate densities of foam along with breathable perforated gel inserts under the ischia bones and perineum.

Comfort continues through the construction of the short with reduced seams and only 3 panels. We engineered a new fabric that changes depending on the needs over various parts of the body. The lower leg has a raw-cut leg ending and rubberized yarns to guarantee a flat grip to keep the leg in place. The fabric becomes lighter in the thigh, while the four-way stretch provides just the right amount of muscle support. In the pelvis area, the compression and support increase to keep the seat pad and everything else in place,. At the back there's a thicker fabric to avoid any transparency issues.

The premium fabrics extend to the bib straps. The perforated back keeps you cool and the edge is bonded so you don't feel the thickness of a stitched edge. The elastic straps have just enough modulus (return) to hold your shorts securely in place without cutting in to your shoulders.

We've carried the less-is-more theme into the design, with minimalist laser-etched logos and subtle finishing. It looks as premium as it feels. You can tell that every component, every stitch, every detail has been obsessed over. You'll not find a better bibshort.

WHAT IT IS /PRODUCT FEATURES

For our lightest-ever road short, we use the first seamless graduated-ventilation stretch woven fabric to make a short that's both impossibly light and cool yet supportive for the longest rides.

- The premium lightweight hot weather short
- Gradient stretch woven fabric for minimal weight with optimum support
- Ultralight fabric to reduce weight by up to 50% while improving durability
- Minimalist stripe mesh bib to minimize weight and keep you cool
- Integrated gripper elastic with exposed Lycra® to hold leg in place
- Laser etched logos and stretch silicone scorpion heat transfers
- Progetto X² Air Seamless seat pad

LIGHT, COOL AND STRAIGHT OUT
OF THE FUTURE

We've been pushing the envelope on lightweight shorts since 2011 but have butted up against the limits of compromising durability for ever lighter weight. We needed to step back and find a better way.

We examined what the short really needs to do: it needs to hold the seat pad securely in place while otherwise adding as little weight or fabric as absolutely necessary (without being transparent, obviously), and it needs to last a season of hard use. So we engineered a brand-new fabric using a woven rather than a knit that shaves 30% in weight for the same level of support and non-transparency. Then we worked with the world's leading mill to construct a gradient fabric that becomes increasingly lighter the farther down the leg it extends, with the last part weighing a mere 90 g/m² compared to normal short fabric, which weighs around 220 g/m².

This fabric, while being insanely light, maintains a decent durability along with excellent abrasion resistance, at least against the saddle. We don't guarantee it against unplanned slides across the asphalt, so please keep the rubber side down!

Note that while the short saves a mere 48 grams while dry, this means it also absorbs around 30% less moisture when you're sweating. So when you're sweating your way up the Alpe d'Huez you're actually saving closer to 150 grams.

This short doesn't compromise on comfort. We use our top Progetto X² Air Seamless seat pad, the spectacular striped mesh bibs from the Free Aero Race 4 Bibshort and a flat stretch woven leg gripper to keep everything in place.

But it's the finishing that sets this short apart. The logos are embossed into the surface of the fabric for a very discreet rich tone-on-tone effect. With this short you don't need brightly colored logos to shout out that you've achieved the ultimate in cycling comfort and performance.

INNOVATIVE EVOLUTION

The Free Aero RC Bibshort is our top race short, which also means that it's insanely comfortable even if you never pin on a number.

It's fair to say that we've been working on this short for the past 15 years. That's how long it's been since the original Free Aero Race Bibshort was first introduced, initially as our top-of-the-line race short. Since then it has won three Tours de France, three Giri d'Italia, one Vuelta and San Remo, but it also became the best-selling product in the history of Castelli because, simply put, this is the short that does everything well.

The concept is quite simple: start with the best pad we know how to make, surround it with a supportive short with good muscle compression, and then remove everything else that's not absolutely necessary.

You feel Free thanks to the reduced number of panels and the reduced number of seams. In fact, the short portion has just 5 panels compared to 10 in the previous generation.

You feel Free because of further refinements to the Progetto X² Air seamless seat pad. The two densities of foam plus the gel pads provide progressive damping, while the separate Skin Care Layer is soft and stretchy to move with your skin.

You feel Free thanks to the most minimal bibs you've ever seen in a short, including open-weave straps for maximum airflow. But we reinforced the yoke so the straps stay in place and made the mesh back narrow for coverage that is minimal yet just enough to hold the shorts in place. And the bib elegantly frames a convenient pocket at the center back.

You feel Free because this is the first high-end short that doesn't need any sort of gripper or elastic at the end of the leg to keep the leg in place. Getting this right meant 28 prototypes and our most extensive test program ever, and it results in the most comfortable leg ending we've ever made.

The Forza 2 fabric has 32% Lycra[®] with a high modulus for exceptional muscle support and just the right amount of compression. There's reflective piping on the back. And all logos are either stitched or embossed for durability.

ENDURANCE 3 SHORT
4521006

SIZES	WEIGHT	progetto X ² THERMOCOOL
XS-3XL	186 g (L)	
TEMPERATURE RANGE		
15°-38°C / 59°-100°F		

WHAT IT IS /PRODUCT FEATURES

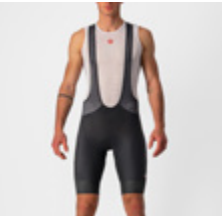

Endurance-level comfort for every ride with Castelli's most comfortable seat pad.

- Endurance Evolution fabric provides optimum muscle support and feels drier in nearly all conditions
- Anatomic cut for perfect on-bike fit
- Mesh bib straps and back to keep you cooler
- Progetto X² Air Seamless seat pad for even greater comfort and improved airflow
- GIRO³ leg grippers lie flat

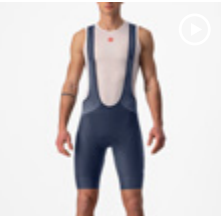

The main story of this short is the use of our renowned top-of-the-line Progetto X² Air Seamless seat pad in an otherwise traditional short, but in fact every little detail has been obsessed over to ensure your comfort on your next long endurance ride. A great pad is useless without great fit. The seams are placed around the hip area to create a perfect shape on the bike. The Endurance Evolution fabric has a soft hand while providing good compression and excellent moisture management. And it's all held in place with the amazingly comfortable GIRO³ leg gripper. This short offers exceptional value and is ready to deliver lasting comfort on your longest rides.

THE THRILL OF COMPETITION

We made this short to incorporate as much technology as possible from our top-of-the-line pro-level race shorts at a more accessible price. And although it's certainly capable of weekend racing, it's also a great comfort performance short even if you never pin on a number. The main Vortex textured fabric and the GIRO⁴ leg gripper come straight from our top Free Aero Race 4 Bibshort, while the KISS Air² seat pad has most of the comfort of our top seat pad but represents maximum value. The intangible part that you'll appreciate most is our knack for building in perfect fit, thanks to the Castelli pattern engineering team.

This is the short that brings the best of Castelli's know-how in building comfort performance shorts into an accessible product in your cycling wardrobe.

ENTRATA 2 BIBSHORT
4523003

SIZES	WEIGHT	KISS ^{AIR} 2
XS-3XL	173 g (L)	

TEMPERATURE RANGE

15-35°C / 59-95°F

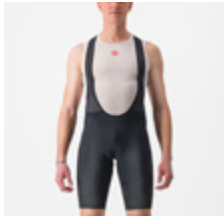

WHAT IT IS /PRODUCT FEATURES

To carry the scorpion logo, a bibshort needs to be amazing even if it's "entry level." This short brings together quality fabrics, our KISS Air² seat pad, and eight-panel construction with an overall focus on comfort and durability.

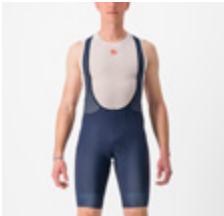

- KISS Air² seat pad for all-day comfort
- Pro Dry matte Lycra[®] for good compression and moisture management
- 8-panel construction for perfect fit
- Rear reflective panels on lower leg
- GIRO³ engineered flat leg band
- Mesh straps for comfort and breathability

IT JUST WORKS RIGHT

This short gives you every reason to step up to Castelli. We have innovation in our DNA. We've brought you most of the innovations in a cycling short over the years: the first Lycra[®] shorts on the market, the first minimalist and flat bib straps, and the first flat leg grippers. All these advances have become industry standards, and we keep pushing and innovating in our high-end shorts. The Entrata short is where all that knowledge and experience trickles down into a short that just plain works. The fabric is just the right weight with just the right stretch and with a matte finish that looks just right. The KISS Air² seat pad is just right, as is the GIRO³ leg gripper. And the short fits just right because we obsess over the fit of every short we make. We wanted this short to be just right for many years to come, so we stitch on the logos and stitch in the reflective panels on the back. The Entrata short is just right for you.

MEN'S SPEED SUITS

PUSHING THE LIMITS OF SPEED

Military test pilots in the 1960s coined a phrase for pushing the aircraft to its limits, going all in, and risking their lives at the edge. The throttle levers with the knobs or balls at the top were pushed all the way forward against the cockpit wall: Balls to the Wall.

BTW is for those days, those races where you never drop out of your 53x11 or 12, when you're sometimes in the gutter or cornering at the limit of adhesion. When you're all in, taking risks.

Like the planes that inspired the phrase, the BTW Speed Suit uses cutting-edge research and construction in the pursuit of speed: CFD analysis, 3D test mannequins, fabric research and testing, numerous wind tunnel tests, and then testing in the WorldTour. At the beginning of the research project, we were set to sacrifice comfort in the name of speed, but in the end we kept fully breathable, fully stretchy fabrics. There's a little more Lycra®, so you won't stay quite as dry, and the shoulder fabric is slightly heavier. And it doesn't have the Sanremo front opening, so your pee stops will be a bit more challenging.

All that is a small price to pay for an incredible THREE PERCENT total aero drag savings compared to the fastest-in-class Sanremo Speed Suit. That 3 percent is at higher speeds, especially in the 45-65 kph range, when it really counts.

You can get the BTW suit in your team graphics through Castelli's custom program, or this stealthy version to tear up your local Strava segments or group rides.

WHAT IT IS /PRODUCT FEATURES

This road speed suit brings aero performance like a TT suit with all the comfort, function, and moisture management needed for the road. Over a decade of development on the roads of the WorldTour.

- CFD-based fabric placement and seam construction
- Engineered for aero efficiency at 30 to 55 km/h
- Airflow shoulder construction
- Velocity Rev2 fabric on front and sleeves
- 3D mesh back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- YKK® Vislon® zipper
- Pockets with floating design for increased capacity
- High-compression 215 g Forza 2 fabric with 32% Lycra® content provides exceptional muscle support and compression
- Progetto X² Air seamless seat pad is soft against the skin but well padded for long-distance comfort
- 5-panel construction for reduced seams and less chafing
- Stitched scorpion logo patch and embossed Castelli word-mark for durability
- Reflective piping on back of leg
- Raw-cut leg ending engineered to stay put without silicone gripper

The suit that started a revolution. Before the Sanremo Speed Suit made its debut in 2011 at Paris-Roubaix, the thought of wearing a speed suit for anything but a time trial seemed insane. But after Johan Vansummeren crossed the line to win Paris-Roubaix in the Sanremo Speed Suit, the way cyclists dressed for racing changed forever. In this most recent evolution of the Sanremo Speed Suit, we combine the Aero Race 6 Jersey with the Free Aero RC Bibshort. This road speed suit has the aero performance of a TT suit with all the comfort, function, and moisture management of a jersey and bibshort that you need for the road.

BODY PAINT 4.X SPEED SUIT

4523007

SIZES	WEIGHT	
XS-3XL	285 g (L)	

TEMPERATURE RANGE

15°-35°C / 59°-95°F

WHAT IT IS /PRODUCT FEATURES

Simply engineered to be the fastest suit for racing against the clock.

- Pure speed equipment, created for World Tour racing
- Developed over two years based on hundreds of hours of CFD analysis, wind tunnel testing and WorldTour racing
- Fabrics developed and tested extensively for maximum aerodynamics at speeds of 45 km/h and up
- Reduced seaming for maximum aerodynamics
- No-sew race number window to prevent number flapping in the wind
- Extra-long legs with flat leg endings with PU grip elastic on the inside

YOU'LL THANK THE UCI

If we could we would keep this suit an industrial secret, a competitive advantage for our pro riders. But the UCI rules say we have to make it commercially available to keep the playing field even for all teams. So here it is.

We don't want to give away too many of the secret details that make it so fast, but there are a few details that you can see: amazing fit in the TT position, slippery fabrics, reduced seaming, and long legs with flat endings and flat grip tape to keep them in place. The long sleeves have a thumb loop to prevent them from riding up. There's a window pocket on the back so you can place the race number out of the wind — and the window stretches and breathes, unlike others on the market.

This suit was made for WorldTour riders. It's optimized for speeds above 45 km/h and for extreme positions. At those speeds and with the right setup it's the fastest suit we've ever tested. Thanks, UCI.

The name says it all. The Premio Jersey is designed for maximum comfort and performance. We've taken the technology and fabrics used in the Premio Bibshort and adapted them into the jerseys. Two separate stretch woven fabrics provide numerous benefits: great fit, excellent moisture management, maximum aerodynamics, light weight, durability, and a beautiful smooth finish with a premium feel. The sleeves have a ribbed construction like the Premio short for a snug but not tight fit and an exact color match. The recycled polyester stretch woven fabric on the body is lightweight, soft, and stretchy for an excellent fit. It's also excellent at wicking away sweat on those hot days. To finish the Premio Jersey, we've paid close attention to all the little details as well, such as the zipper pull and the gripper elastic. When we brought out the Premio Black Bibshort, everyone asked, "What jersey do I wear with it?" Here's the jersey that matches perfectly, in style, comfort, and performance.

THE FIRST AERO JERSEY PROJECT
WAS CALLED SPLIT SECOND

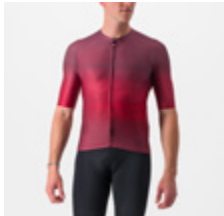

When Castelli engineered the first aero jersey for road racing back in 2006, everyone thought we were crazy. Back then, aero was only for TTs. Performance clothing meant moisture management. And you could win the Tour de France with a baggy jersey that was little more than a polyester T-shirt. Even our aerodynamic consultants expected limited gains, so we named the jersey Split Second, though, like now, we thought even small gains were worth pursuing. In the end the gains were pretty substantial, and we completely revolutionized the look of the pro peloton. We're now on the sixth major revision of our aero jersey. Each generation has become more aero and better fitting. The Aero Race 6.0 benefits heavily from CFD analysis of wake flow in the riding position for fabric and seam placement. It also benefits from pro riders' feedback, as we've worked to make the jersey comfortable for their long hours of training and then racing in every possible weather condition. Version 6.0 is our most aero and most comfortable Aero Race Jersey yet. But we're already at work on 6.1...

SUPERLEGGERA 3 JERSEY
4523011

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	93 g (M)	22-40°C / 72-104°F

WHAT IT IS /PRODUCT FEATURES

An exceptional performer on hot days, the Superleggera Jersey is so light you'll hardly notice it's there. It's the most comfortable in warm to hot weather.

- The deluxe, impossibly lightweight performance jersey
- Oltre 70 g stripe mesh base fabric
- Stretch woven pocket reinforcement
- Ultralight mesh elastic gripper
- Floating pocket construction with 3 main pockets and zippered key pocket
- YKK® zipper
- Tone-on-tone Superleggera logo on back

The goal for this jersey was to make it as lightweight and breathable as possible without sacrificing transparency, sun protection, and convenient features like a zippered key pocket. We call the fabric Oltre, which roughly translates to "beyond," and it really goes beyond what you normally find in a jersey, with the horizontal stripes giving great breathability and stretch while providing good support for the pockets. The jersey will do double duty in your wardrobe: It's the jersey to reach for on hot days or big climbing days in the mountains. But it's also the jersey you'll pull out when you just want to look good, thanks to the no-sew construction around the sleeves and hem and the close attention to detail in every stitch, seam, and component. It's designed with a fit that is close to body but slightly more relaxed than the fit of our race jerseys.

CLIMBER'S 3.0 SL 2 JERSEY
4523012

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	106 g (M)	22-40°C / 72-104°F

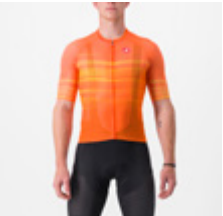

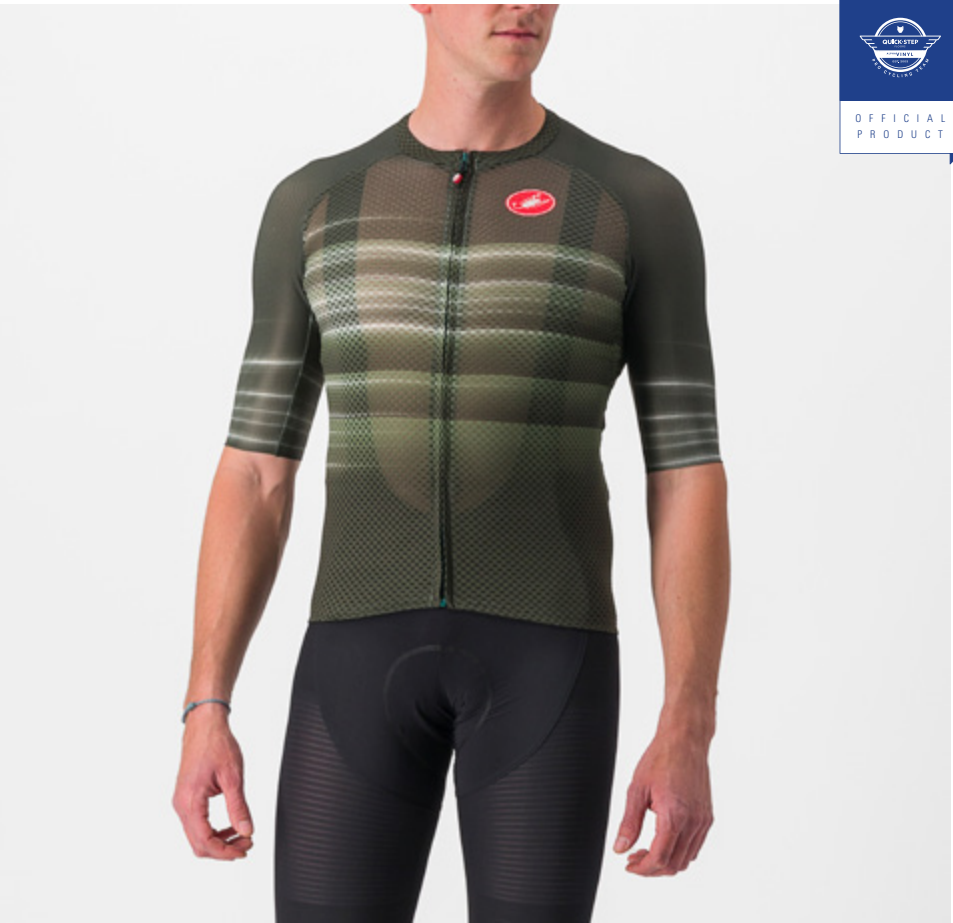

WHAT IT IS /PRODUCT FEATURES

Created for the hottest days when aerodynamics still matter. This jersey allows ample airflow, is quick to dry, and blocks more than 90% of UV rays on your back. A great choice for long summer rides or hot lunchtime rides in the middle of summer — or just add a base layer and it becomes a three-season jersey.

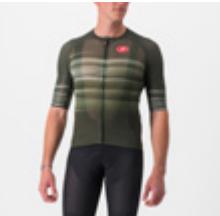

- CFD-based fabric placement and seam construction
- Engineered rapid cooling, light weight, and aero efficiency
- Airflow shoulder construction
- Flusso 3D fabric on front and sleeves
- StradaPro 3D back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- YKK® Vislon® zipper
- Drop tail for perfect pocket placement while maintaining a good fit at waist

LIGHT, DRY AND FAST

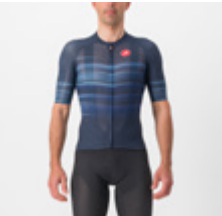

Racing in the Alps in July is for a select few, but the products that come out of that experience are absolutely amazing for the rest of us. We made this jersey for the hot days in the high mountains, based on direct feedback from the pros. They wanted a jersey that helped keep them cool on hot days but did not sacrifice aerodynamics. From that feedback we created an extremely lightweight jersey that features open fabrics for additional airflow and quick drying. It uses the same patterning as the Aero Race Jersey, so it still offers maximum aerodynamics. Even if you don't race over the Galibier this summer, you'll love the soft stretch and great fit of this jersey, and you'll appreciate how it keeps you cool on the hottest days. Maybe you'll even do like the pro riders do and use it on wet days because it doesn't soak up any moisture. And you'll certainly appreciate that the fabric on the back blocks more than 90% of UV rays.

CASTELLI CYCLING

ENDURANCE PRO 2 JERSEY
4523013

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	148 g (M)	16-35°C / 61-95°F

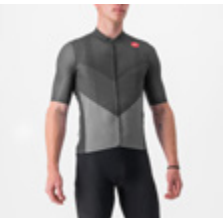

WHAT IT IS /PRODUCT FEATURES

The ideal all-around jersey for endurance rides, offering comfort and convenience features, excellent moisture management, and Castelli's aerodynamic wizardry.

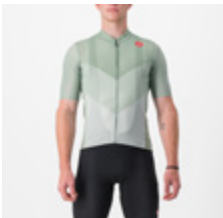

- Endurance and all-around jersey combining aerodynamics, comfort, and convenience
- Velocity dimpled fabric on front and shoulders for faster drying
- Air Mesh sleeves with raw-cut sleeve ending
- Multifilament fabric on back blocks 94% of UV rays
- Nervato fabric at armholes for improved aerodynamics
- Full-length YKK® Vislon® zipper with neck protector
- Silicone gripper elastic at waist
- Zippered security pocket
- Drop-pocket design for optimal pocket placement

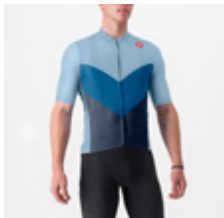

If you had to choose one jersey to do it all, this would be the one. The name kind of says it all: Endurance. For your long rides, a jersey needs to be able to do it all, offering comfort, carrying capacity, coverage of a wide temperature range with sun protection, and good aerodynamics. This jersey checks all those boxes. The comfort comes from a close-to-body fit with stretchy fabrics so the jersey doesn't feel tight. Four different fabrics keep you dry while covering temperatures ranging from mild to hot. And extra comfort comes from details like the flap behind the zipper to protect your neck and the stretch sleeves with raw-cut edges that never bind or constrict. The pockets feature Castelli's drop-pocket design, which places the pockets lower on the back for easier access. There's even a fourth zippered pocket for valuables. Your long rides and even your short rides will be faster with less effort because this jersey is also highly aerodynamic, especially through the sleeves and shoulders, which feature the same fabric used on several generations of our pro-level race jerseys. The old saying is "jack of all trades, master of none," but the Endurance Pro Jersey really is master of all.

PROLOGO 7 JERSEY4522023

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	130 g (M)	16-38°C / 61-100°F

WHAT IT IS /PRODUCT FEATURES

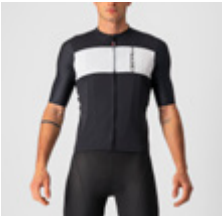

The perfect all-around jersey for everything but racing. Comfortable stretch fit, excellent moisture management, four-way-stretch sleeves with raw-cut edges, and full sun protection are just some of the features.

- Micro-piqué polyester knit on the body for great moisture management with a soft hand
- Velocity Rev2 fabric on sleeves with raw-cut sleeve endings
- Full-length YKK® Vislon® zipper with neck protector
- 3 rear pockets with drop-pocket design for optimal pocket placement
- Silicone gripper elastic at waist
- Reflective details on both sides of pocket

This jersey is made for those JRA rides. Just Riding Along. You're not aiming for new Strava records or to win the city-limit sprints, but you do want a jersey that's comfortable and looks great. The jersey has a neutral cut — not racy but also not flapping in the wind. But the high-stretch micro-piqué fabric means it fits more shapes than a Castelli race jersey. Adding to the fit and comfort are the four-way-stretch sleeves that seem to disappear, since you don't really feel them at all, right down to the raw-cut sleeve ending that never constricts. This jersey offers full sun protection: the main body is rated at UPF 50 while the sleeves are UPF 30, which means they still block 97% of damaging UV rays. Important Castelli features like the drop-pocket design, easy-sliding full-length YKK® Vislon® zipper, and reflective details on the back will keep this jersey in the short rotation in your wardrobe.

PROLOGO 7 LONG SLEEVE JERSEY4522024

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	157 g (M)	14-32°C / 57-90°F

WHAT IT IS /PRODUCT FEATURES

Perfect for cool spring or autumn rides, or at the height of summer when you want sun protection.

- Micro-piqué polyester knit on the body for great moisture management with a soft hand and UPF 50 rating
- Velocity Rev2 fabric on the sleeves with UPF 30 sun protection
- Full-length YKK® Vislon® zipper with neck protector
- 3 rear pockets with drop-pocket design for optimal pocket placement
- Silicone gripper elastic at waist
- Reflective details on both sides of pocket

This long-sleeve jersey is primarily designed to provide sun protection without weighing you down. The main body is a lightweight micro-piqué polyester that offers plenty of airflow while providing UPF 50 protection. The sleeves are exceptional for a summer-weight sun-protection jersey, since they're very light and stretchy so they don't weigh you down while blocking 97% of UV rays (UPF 30). The Prologo 7 Long Sleeve is also a great jersey for cool spring and autumn days. With a heavier base layer you can take it down below 15°C/60°F, and then add a vest to go even colder.

A BLOCCO JERSEY

4522017

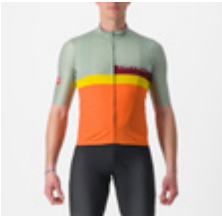

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	131 g (M)	16-35°C / 61-95°F

WHAT IT IS /PRODUCT FEATURES

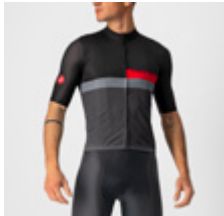

Classic design based on the Castelli Squadra Jersey construction that updates a traditional cut with technical details like a drop-pocket design and stretch raw-cut sleeves for great fit and comfort.

- ProSecco Micromesh main body fabric to keep you dry
- Mesh side panels for breathability
- Velocity Rev2 fabric on sleeves with close-to-body fit and raw-cut endings
- Covered YKK® Vislon® zipper
- Drop tail with 3 rear pockets
- Reflective piping at back

The A Blocco Jersey is built on our Squadra base model, our all-around performer for everything from weekend club rides to training to long days in the saddle. The main ProSecco Micromesh fabric ensures lightness and quick drying; the perforated side panels enhance breathability; and the construction of the sleeves, with no seams at the ends, provides unrivaled comfort. The YKK® zipper and the structure of the back pockets, which faithfully reproduce the characteristics of our WorldTour team's racing jerseys, complete the A Blocco. The result? A jersey that offers outstanding fit, rapid drying, and exceptional comfort.

SPEED STRADA JERSEY

4523014

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	112 g (M)	18-38°C / 64-100°F

WHAT IT IS /PRODUCT FEATURES

Designed to depict the feeling of lights zipping by you as you speed down your favorite street on your favorite bike ride. Built around the Competizione 2 model, it's the ideal all-around jersey for all your riding, offering comfort in training and speed on fast group rides.

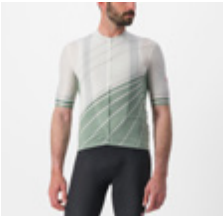

- Strada micromesh ventilated stretch fabric on front, back, and sleeves for great fit and moisture management
- Tailwind dimpled stretch fabric on side panels and pockets for perfect fit
- Anatomic side panels that wrap around to back
- Full-length YKK® Vislon® zipper is easiest-sliding zipper available
- Silicone gripper elastic at waist prevents jersey from riding up

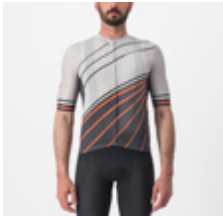

The Speed Strada Jersey is built around the Competizione 2 Jersey. It's the ideal all-around jersey for all your rides: it offers comfort during training and speed on fast group rides or in races. The fit is not too tight, and the fabrics are stretchy enough to fit all body shapes well. The Strada micromesh on the front, back, and sleeves helps to keep you cool as you speed down the road. The pockets are roomy to fit everything you need during your ride and are designed and placed for easy access on the bike. The YKK® Vislon® zipper is easy to use. This is the go-to jersey for when you want to feel the speed heading out of town.

CLASSIFICA JERSEY4521021

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	130 g (L)	16°-35°C / 61°-95°F

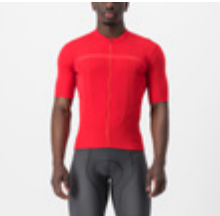

WHAT IT IS /PRODUCT FEATURES

This jersey wins the classification for combining a clean look with great performance. Its cross-dyed micro-piqué fabric brings comfort and sophistication in a jersey you'll be happy to ride in all day.

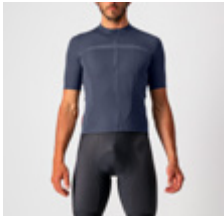

- Micro-piqué polyester knit for great moisture management with a soft hand
- Color-matched YKK® Vislon® zipper
- 3 rear pockets
- Zippered key pocket
- Embossed tone-on-tone stripe across chest
- Reflective vertical stripe on rear pocket

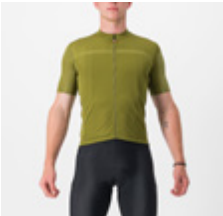

For those days when you're not racing the clock but simply clocking the hours in the saddle. You want to be comfortable and look good. We engineered everything but speed into this jersey. It uses a brand-new fabric that lets us cross-dye it to give a richer depth of color to the shoulders and sides on an otherwise solid-colored jersey. Since it's made for long rides, we've added a zippered pocket to keep your valuables safe. The fit is close to body for comfort but not as revealing as that of our race pieces.

ENTRATA VI JERSEY

4522025

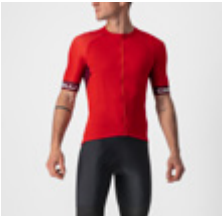

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	148 g (M)	16-38°C / 61-100°F

WHAT IT IS /PRODUCT FEATURES

Trickle-down technology for both comfort and aerodynamics from Castelli’s extensive R&D, combined with Italian fabrics, a YKK® zipper, and aero mesh sleeves, makes the Entrata VI Jersey punch above its weight.

- Italian-made ProSecco body fabric with hydrophilic treatment to wick moisture away from your body
- Air Mesh sleeves in modified raglan pattern provide more comfort and better aerodynamics
- Raw-cut sleeve endings lie flat and never constrict
- Full-length easy-sliding YKK® Vislon® zipper
- 3 rear pockets, with center pocket with extra stretch insert and reflective panel
- Silicone gripper elastic at waist

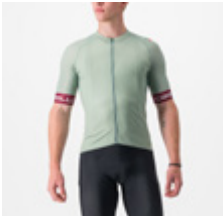

There’s a lot of technology that goes into the Entrata Jersey. While technically the entry-level jersey in the Castelli collection, it has been engineered to incorporate as much race-level performance as possible while still offering unmatched value. It benefits from the aero learnings from Castelli’s race R&D through the one-piece sleeves with aero-optimized seaming. Not only is it aerodynamic, it’s also more comfortable thanks to the four-way-stretch Air Mesh fabric and raw-cut sleeve ending that’s stretchy to fit every arm without constricting. The main body fabric is just the right weight to keep you cool, while the ProSecco treatment carries away moisture to keep you dry. It’s stretchy for great fit and provides UPF 30 sun protection, filtering 97% of UV rays. Thoughtful design and functional details abound, like the stretch panel in the center pocket, the highly reflective insert on the pocket, the full-length easy-sliding YKK® Vislon® zipper, and the silicone gripper elastic to keep the back of the jersey in place.

The mesh side panels provide extra stretch and ventilation, while the full-length zip allows you to open up on a hot climb.

MEN'S UNLIMITED

UNLIMITED

UNLIMITED ALLROAD JERSEY
4522006

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	158 g (M)	16-35°C / 61-95°F

WHAT IT IS /PRODUCT FEATURES

All the performance of a Castelli race jersey, just without the aerodynamics and tight fit.

- Interlock 115 g 100% polyester fabric for excellent moisture management
- Medium fit for comfort on the trail or road
- Partially covered YKK® Vislon® zipper
- 3 rear pockets with extra zippered security pocket
- Embossed stripe across chest
- No-sew sleeve hem finishing
- Silicone gripper elastic

Does gravel need a new dress code? Maybe, but with fat tires and big-tubed bikes with bags on them, an aero jersey just doesn't look right. But why should you give up performance and comfort? That's the concept behind this jersey: all the performance of Castelli's best jerseys except the aerodynamics. First we created a new fabric with leading Italian knitter Borgini. The lightweight fabric has a small horizontal stripe and a gorgeous soft hand. It maintains outstanding moisture management and ample horizontal stretch but has limited vertical stretch so your pockets don't sag. And it blocks 98% of UV rays. The jersey has a neutral fit to it: straighter in the body, extra space across the chest. Less drop from front to back. The design is clean and technical; even the chest stripe is embossed for tone-on-tone detailing. No more feeling self-conscious at your coffee stop. The jersey is full of thoughtful details, like a covered YKK® front zipper, a fourth zippered key pocket, and bonded no-sew sleeve endings.

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	123 g (M)	16-35°C / 61-95°F

WHAT IT IS /PRODUCT FEATURES

All the performance of a Castelli race jersey, just without the aerodynamics and tight fit.

- Lightweight polyester/elastane blend fabric for excellent fit and moisture management
- Medium fit for comfort on the trail or road
- Partially covered YKK® Vislon® zipper
- 3 rear pockets with extra zippered security pocket
- Embossed stripe across chest
- Silicone gripper elastic

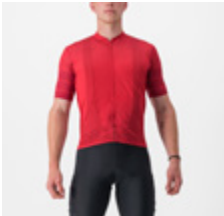

Some days it's not about how fast or how far you go; it's just about being out there and going. The Unlimited Terra Jersey is a great choice for those days. It performs like a jersey meant for race day but without the aerodynamics. This jersey is full of features to help you enjoy the ride. The feature list includes a new 95 g 92/8 polyester/elastane fabric that keeps you dry while providing plenty of stretch. It has a YKK® Vislon® front zipper that's partially covered for a clean look. There's a fourth zippered key pocket and silicone gripper elastic at the waist. The jersey has a neutral fit to it: straighter in the body, with extra space across the chest. Less drop from front to back. The sublimation-printed graphic looks equally at home on dirt or tarmac.

UNLIMITED ENTRATA JERSEY

4523017

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	132 g (M)	15-34°C / 59-93°F

WHAT IT IS /PRODUCT FEATURES

Core riding performance in a jersey that delivers everything you need for any surface, with a neutral fit.

- Italian lightweight yet durable fabric for a soft hand and great fit
- Sublimated overprint tone-on-tone graphic
- YKK® Vislon® zipper for easy open/close
- Jacquard rear elastic for extra pocket support
- Neutral fit for a more relaxed look and comfort on any bike on any surface

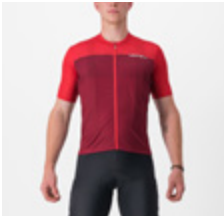

An all-road fit and graphic make the Unlimited Entrata Jersey at home on any bike. The high level of attention to performance quality components makes it feel just right. The Italian fabric is soft, wicking, and light. The zip is Japanese, YKK®'s easy-sliding Vislon® zipper. The gripper elastic is Italian and supports the pockets just so. The cut is Castelli in that it's made to fit on a bike, but in this case is a bit more relaxed to fit more people without promising aero gains. Even the graphic has a story: a sublimated overprint on dyed fabrics to give a rich, durable tone-on-tone look that will last the life of the jersey.

TRAIL TECH TEE 2
4523018

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	120 g (M)	18-38°C / 64-100°F

WHAT IT IS /PRODUCT FEATURES

A performance tech jersey with a relaxed fit for style and comfort. Ready for an all-day adventure ride no matter which bike you choose or what surface you ride on. This jersey offers unlimited options.

- Relaxed-fit trail tee
- V-neck
- Shaped longer rear hem for full coverage when in the riding position
- Subtle sublimation-printed graphics

There are lots of trail tees out there, but most seem to not really be made to ride in. The Castelli Trail Tee features a lighter-weight 100% polyester fabric for quick drying and excellent moisture management, with a 3D mesh construction that lets air flow through to keep you cool. No more feeling like you are riding in a plastic bag. And the fabric is Bluesign approved, so it's good for the planet. And because all the Unlimited shorts have pockets, you can complete the relaxed look and feeling of freedom with this performance trail tee.

FRONT ONLY

DI CHE COSA SI TRATTA / CARATTERISTICHE TECNICHE

Warm yet extremely packable vest for your adventure or multi-day rides. Woven microfiber windproof outer layer with Polartec® Alpha® Direct insulation.

- Coated windproof microfiber woven outer shell with DWR treatment
- Polartec® Alpha® Direct insulation layer for maximum loft with minimum bulk
- Nano Flex stretch woven fabric on sides and pockets adds stretch and breathability
- Zippered pocket on chest
- 2 large rear pockets
- YKK® Vislon® zipper with U-shaped zipper pull
- Woven inner label and vintage scorpion logo

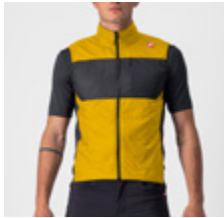

Good for everything from road riding to bikepacking, this vest packs a surprising amount of warmth into a surprisingly small amount of space.

The microfiber shell fabric keeps the wind out, while the Polartec® Alpha® Direct insulating layer provides exceptional warmth with minimal weight. The stretch side panels improve fit and ventilation and are treated to be water repellent, as is the rest of the vest. There's a zippered chest pocket for valuables, and two large back pockets for easy access.

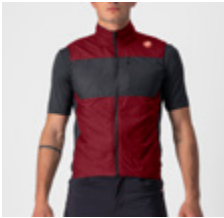

The wide range of conditions that this vest covers means that you'll use it on the road in the spring and autumn, wear it on your gravel rides in the mountains during the summer, and stash it in your handlebar bag on your next bikepacking adventure.

4522011

SIZES	WEIGHT	<div><div></div><div>PROGETTO X²</div><div>PROGETTO X²</div></div>
XS-3XL	190 g (M)	

TEMPERATURE RANGE

14-35°C / 57-95°F

WHAT IT IS / PRODUCT FEATURES

Comfort, performance, protection, and storage. Designed for gravel but equally at home for adventure, endurance, or if you just love pockets.

- High-compression 215 g Forza 2 fabric with 32% Lycra® content provides exceptional muscle support and compression
- Dyneema® side panels to protect in the event of a tumble, 15x stronger than steel
- Progetto X² Air seamless seat pad is soft against the skin but well padded for long-distance comfort
- Minimalist bib straps allow maximum airflow, while a reinforced yoke keeps the straps flat over the shoulders
- 2 rear mesh pockets
- Large compression pocket on each leg
- Raw-cut edge at waist for extra stretch and comfort
- Raw-cut leg ending engineered to stay put without silicone grippers

This is the no-compromise gravel or endurance MTB short. It combines the best features of Castelli's premier race short, the Free Aero RC Bibshort, with Dyneema® side panels for protection in case of a fall, and four pockets for storage. It's made first and foremost for riding comfort. It uses the top-of-the-line Progetto X² Air seamless seat pad that provides progressive damping and the softest, stretchiest skin contact layer available. The Forza 2 fabric provides just the right level of compression and muscle support for your longest rides. The comfort is further enhanced by the minimalist Free bib straps — less material to keep you cooler, but just enough to keep your short in place. At the leg ending there's a raw-cut edge that you'll hardly feel, and the combination of the Forza 2 fabric with just the right length and circumference means that no silicone gripper is required. It's a big leap forward in terms of comfort. The two large leg pockets are lined with an extremely light and fast-wicking fabric so you won't notice the extra layer, yet they hold a surprising amount of gear. The two mesh pockets at the lower back mean you have enough storage space that you can forgo a traditional pocketed cycling jersey. The Unlimited short really does know no limits.

61MEN'S UNLIMITED

Long-distance comfort, all-surface durability, and lots of carrying capacity is the story of the Unlimited Cargo Bib-short. With the Affinity Pro fabric and KISS Air² seat pad, it's made for comfort in the saddle. Then we added pockets. Four of them, in fact. On each leg you have a cargo pocket that can expand to hold a lot of gear, yet it compresses to prevent your stuff from bouncing around. The side pockets have a flap over the top to keep stuff from falling out. The GIRO⁴ grippers finish things off, making this a comfortable and useful piece of kit for your next ride. Perfect for gravel rides, but also a great choice for the increasing number of riders who want more pockets for their road rides.

UNLIMITED TRAIL BAGGY SHORT
4522012

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	194 g (M)	14-35°C / 57-95°F

WHAT IT IS /PRODUCT FEATURES

The performance baggy short with ultralight stretch woven fabric and adjustable ventilation to keep you cool.

- 165 g 4-way-stretch woven Cordura® fabric with DWR finish
- Double-slider zippered ventilation along full length of legs
- Extremely light so you won't even feel it on
- 2 front pockets
- Adjustable webbing belt for secure fit at waist, with zippered front opening
- Scorpion button logo
- Looser fit at home on any trail

This baggy short is made for hard trail duty, when you want the look of a baggy but the freedom of Lycra®. The fabric is extremely light, just 165 grams per square meter, but hard wearing thanks to 64% Cordura® yarns. The 10% elastane gives it four-way stretch. Not only does it dry quickly, but the water-repellent fabric treatment means it sheds light rain and stays cleaner. The cut is slightly looser so it moves with you, never restricting. Yet the adjustable webbing belt at the waist lets you lock it in place so it won't slide down. With the ultimate trail short you should never feel too hot, so you can open up the zippered ventilation openings that run the full length of the legs, made to work with the mesh legs of the Castelli Unlimited Ultimate Liner. You've never been this cool in a baggy short.

UNLIMITED BAGGY SHORT4520027

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	108 g (L)	18°-32°C / 59°-90°F

WHAT IT IS /PRODUCT FEATURES

The baggy-short look without the feel, thanks to the slimmer fit and stretch woven fabric. It's ready for long-distance endurance rides, but it's also a great-looking casual short off the bike.

- Stretch woven fabric with DWR finish
- Extremely light so you won't even feel it on
- 2 front pockets and 1 zippered rear pocket
- Stretch waistband with zippered front opening
- Scorpion button logo

IF YOU HAVE TO GO BAGGY

There are those days when a baggy short just seems like the right look. But you always debate whether you're willing to compromise comfort for that look, and you end up wearing Lycra®. So we set out to make a better baggy. We reached for a stretch woven fabric that gives great stretch but in an unbelievably lightweight yet durable fabric. We gave it a DWR finish so mud and water roll off. We gave the short two top-opening pockets like jeans so that whatever you put in there won't fall out. We made the cut fairly close to body so you look good off the bike but the short doesn't balloon out when you're on the bike. It all just kinda disappears. The short doesn't have its own seat pad, so wear this over your favorite Castelli short. The Superleggera is a good choice for warmer weather, or the Unlimited if you want the extra pockets.

The short doesn't have its own seat pad, so wear this over the Unlimited Ultimate Liner or your favorite Castelli short. The Superleggera is a good choice for warmer weather, or the Unlimited Bibshort if you want the extra pockets.

UNLIMITED ULTIMATE LINER4522013

SIZES	WEIGHT	PROGETTO X ²
XS-3XL	179 g (M)	
TEMPERATURE RANGE		
14-35°C / 57-95°F		

WHAT IT IS /PRODUCT FEATURES

Made to be the ultimate liner under your baggy shorts. Featuring the supremely comfortable Progetto X² Air seamless pad in the coolest minimalist short, with three pockets on the back.

- Progetto X² Air seamless pad for long rides and rough trails
- 170 g Force fabric through hips to keep pad in place
- Perforated leg panels are light for maximum ventilation and cooling
- GIRO Air leg grippers are cool and hold legs in place
- Minimalist bib straps as found on Free Aero RC Bibshort
- 3 rear pockets sit above waistband of baggy shorts

There's no reason to accept a mediocre short just because you want to wear baggies. This liner is made for ultimate comfort under your baggies.

First and foremost, this short features the top-of-the-line Proget-to X² Air seamless seat pad. The pad has two separate compo-nents: a soft, stretchy Skin Care Layer that cuddles your skin, and a separate Cushioning Layer with dual-density foam and gel pads for progressive damping. The best pad is worthless if moves around, so we've constructed the hip area in our compressive Force fabric, which holds the pad in place while providing good ventilation.

The legs are light and airy with perforated fabric to keep you cool, and are held in place by our gauze-like GIRO Air elastic. The beauty of this leg construction is that you can adjust the length to your preference — so they're long enough to keep your baggy short from rubbing against your leg, for example.

Likewise, the top of the short is an exercise in minimalism. The front of the thin bib straps is an open knit that lets air flow right through, while the back is also narrow to stay cool. However, we reinforce the yoke so the straps stay in the right place and don't bunch up.

On the back, just above the height of the waist of your baggy, there are three pockets so you can wear this short with a T-shirt and still have space to stash your gear.

TRAIL LINER
4523021

SIZES	WEIGHT	KISS ^{AIR} ²
XS-3XL	124 g (M)	

TEMPERATURE RANGE

14-35°C / 57-95°F

WHAT IT IS /PRODUCT FEATURES

The light and simple liner under your baggies that emphasizes maximum breathability with Castelli's renowned KISS Air² seat pad.

- KISS Air² seat pad
- GIRO⁴ leg gripper with raw edge for comfort and silicone stripes for grip
- Elastic at waist to hold shorts securely in place
- Flat-lock stitching
- Mesh material throughout to provide maximum airflow

Breathability, temperature control, and moisture management are key to keeping you comfortable on the bike. The Trail Liner is designed to provide these. Made from a super-breathable mesh material throughout, which provides for maximum breathability and airflow to keep you cool and dry throughout your ride. For comfort at the leg ending we use our GIRO⁴ leg gripper with raw edges. The silicone runs in vertical stripes to avoid the sausage effect. And, of course, you need a great seat pad to enjoy your ride. The KISS Air² seat pad provides all-day comfort for your next gravel, mountain bike, or adventure ride.

WHAT IT IS /PRODUCT FEATURES

Made to keep you dryer in cool to warm conditions, this base layer moves moisture away from the skin.

- 100% polyester 3D mesh fabric
- Reduced seaming at shoulders for extra comfort
- Wider collar to fit under aero jerseys
- Flat waist hem to lie flat in shorts

001
WHITE

001
WHITE

This is the piece our pros requested for those in-between conditions where the Prosecco Tech base layer is too warm and the Core Mesh isn't quite enough, like Spain in February or Belgium in April. You're not looking for warmth from your base layer, just something to move the moisture away from your body and help your race jersey perform. Our 3D mesh fabric creates dead air space next to your skin, while the polyester capillary action moves sweat away.

Time to give seamless base layers another try. Seamless construction promises stretch and comfort, but most base layers on the market have a nylon and Lycra® mix that feels comfortable when you put it on but then ends up feeling wet when you’re actually riding, and you freeze when you stop. We’ve worked hard to make this Core Seamless base layer keep you warm and dry, thanks to the addition of polypropylene and polyester yarns, while not compromising the stretch comfort of seamless. We think we’ve found the sweet spot that also provides a nice level of warmth for cool to cold days.

CASTELLI CYCLING

CORE MESH 3 SHORT SLEEVE4517027

CORE MESH 3 SLEEVELESS4517028

SIZES	WEIGHT	TEMPERATURE RANGE
SM/LX/2XL	88 g (L)	20°-40°C / 68°-104°F

WHAT IT IS /PRODUCT FEATURES

Our lightest and airiest base layer wicks moisture away from your skin, while the open mesh helps hold the jersey up and away from the skin. It’s good for warm conditions, and some riders even like it on a hot day, as it allows airflow between the jersey and skin.

- Magic Mesh 90% polyester, 10% Elastane wicking fabric
- Minimalist lightweight construction
- Reduced seams for maximum comfort

001
WHITE

010
BLACK

001
WHITE

010
BLACK

WARMER CONDITIONS

This is our base layer for the warmest conditions. The mesh is open to create a space on the skin for sweat to evaporate. The 10% elastane content makes it very stretchy and helps in the moisture retention so that you’re always getting evaporative cooling.

CASTELLI CYCLING

ACTIVE COOLING SLEEVELESS4520030

SIZES

XS-2XL

WEIGHT

84 g (L)

POLARTEC®
Delta™

TEMPERATURE RANGE

25°-35°C / 68°-95°F

WHAT IT IS /PRODUCT FEATURES

Made to hold a bit of moisture close to your skin to actively cool you on hot days through evaporative cooling.

- Base layer to cool you on hot days
- Polartec® Delta fabric features regulated drying so that the evaporative effect cools your core
- Sleeveless design with minimalist construction
- Sublimated overprint

COOLING TECHNOLOGY

By using hydrophilic and hydrophobic yarns, this base layer holds a bit of moisture next to your body while allowing free airflow through the fabric, thanks to the special open knit. You get evaporative cooling directly on your skin. We recommend using this with our coolest jerseys, like the Climber's or Superleggera, though it will work under any breathable jersey.

WHAT IT IS /PRODUCT FEATURES

In cool conditions the mesh construction gives the warmth of wool but won't wet out on high-intensity rides.

- Merino wool mesh mixed with nylon for strength and elastane for stretch
- Minimalist lightweight construction for reduced bulk
- Woven scorpion logo label at side of collar

008
GRAY

008
GRAY

"What is that?" Social media lit up when Tao Geoghegan Hart wore a prototype of this base layer up and over the Stelvio on his way to winning the 2020 Giro d'Italia. Those conditions high-light where this piece excels: it provides a surprising amount of warmth by pulling moisture away from the body to keep you warm, but the mesh construction means it's never too hot. Great under a jersey for high-intensity riding or those chilly early-season races.

ROSSO CORSA
PROSECCO TECH LONG SLEEVE

PROSECCO TECH SHORT SLEEVE
4520530

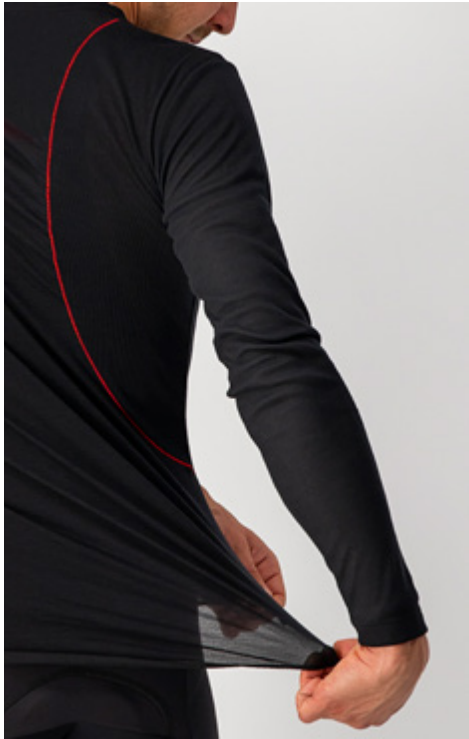

SIZES	WEIGHT
XS-2XL	151 g (L)
TEMPERATURE RANGE	
6°-16°C / 43°-61°F	

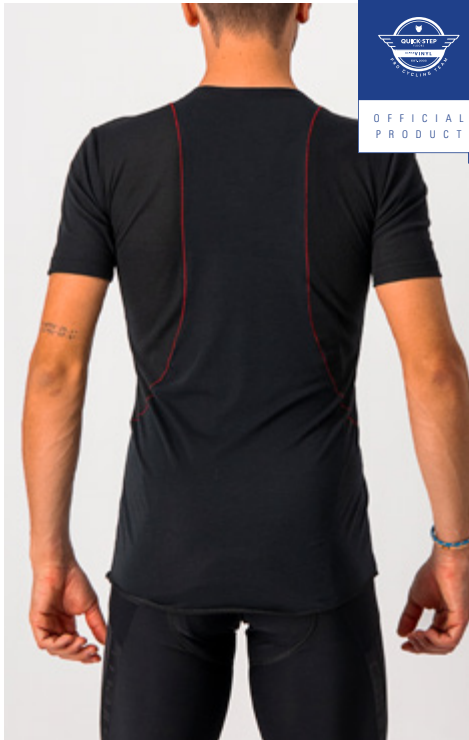

WHAT IT IS /PRODUCT FEATURES

Made to keep you dry in cool conditions, this base layer features body mapping construction with Prosecco hydrophilic treatment on the main body fabric and lighter-weight PrimaLoft® fabric aligned to the parts of the body covered by the bibtight straps.

- Proprietary stretch rib knit 100% polyester main body fabric with Prosecco hydrophilic treatment for maximum wicking
- PrimaLoft® panels at waist and back where bibtight covers upper body, to reduce uneven insulation
- Crew neck closure to fit under short-collared jerseys

010
BLACK

010
BLACK

The first goal of this base layer is to move moisture away from your skin while adding minimal insulation for those cool days when your riding intensity is high enough and your outer layers are warm enough. The areas covered by the bibtight around the waist and up the back can get hot, so we used a lightweight PrimaLoft® fabric to help even out the temperature. This base layer works best when in contact with the skin, so both fabrics are very stretchy and the cut is slim. On extremely cold days we'll use this as a first layer under a Flanders Warm second base layer, or under a thermal jersey. It's very effective at moving sweat away from the body.

When we put the name Premio on a product, that's what it is, premium. This glove uses technology from the Premio bibshort on the back of the hand. The stretch woven fabric provides all-day comfort and support. For easy on and off we use a Velcro wrist closure that also keeps the glove in place. One of the most important parts of the glove is the palm: it needs to protect, and it's also one of the four points you use to contact the bike. Our Castelli Damping System protects the median nerve, and silicone grips make sure you always have a good grip on the bar. If you are looking for a premium glove or product to keep you comfortable all day, look no further than Premio.

PRO SEAMLESS LEG WARMER

4520583

PRO SEAMLESS KNEE WARMER

4520584

SIZES	WEIGHT
SM-LX	67 g / 74 g / 52 g (Pair)

TEMPERATURE RANGE
10°-20°C / 50°-98°F

A wide temperature range combined with seamless comfort makes this our most versatile warmer.

- Mid-weight seamless arm warmer
- Surprisingly warm without causing overheating
- Unique polyester/nylon/Lycra® 78%/15%/7% blend
- Fully seamless construction
- Folds up extra small

A BETTER ARM WARMER

After years of collaborations with the best teams in the World Tour we set out to make a better seamless arm warmer. Others on the market are made with a nylon/Lycra® blend that tends to hold moisture, but we knew we could get better moisture management with a polyester yarn. Working with polyester makes it more difficult to get the right stretch, return and manufacturing consistency, though. It took a year longer than we thought, but we're all glad we stuck with it. These warmers are a pro rider favorite because they're crazy light and they're extremely warm for their weight, yet even in milder conditions you don't overheat. They're so stretchy you hardly feel them on, yet when you take them off they occupy a fraction of the space that normal warmers would take in your pocket.

WEIGHT	TEMPERATURE RANGE
67 g (Pair)	8°-18°C / 45°-70°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

For maximum sun protection with minimal insulation.

- Solare fabric keeps the chill off without causing overheating
- UPF 50+ protection
- Polyester based for excellent moisture management
- Double-side silicone elastic at top for excellent grip

SURPRISINGLY USEFUL

We can officially only rate these warmers at UPF 50+, but in our laboratory tests they actually blocked 99.8 percent of damaging UV rays. We used a polyester base that is not only more effective than nylon at blocking UV rays but is also much better at keeping you dry, which means these arm sleeves are better in both cooler and warmer conditions. We've kept the construction very clean to eliminate seams that can rub, and we used our double-sided silicone elastic to make sure they stay in place. They fold up extremely small, so they're great to stick in your pockets for your next big mountain day.

	LIGHT RAIN

WHAT IT IS /PRODUCT FEATURES

Nano Flex for the ultimate warmer: warm and comfortable in dry conditions, water repellent in damp conditions, and still warm in extreme conditions.

- Water-repellent thermal and breathable Nano Flex fabric
- Flat-lock stitching with single seam
- Double-sided silicone grippers to keep warmers in place

NANO FLEX ALL-CONDITION
WARMERS

Choose Nano Flex for warmers that are great in dry conditions but also give some extra protection and warmth in wet conditions. We invented the category of water-protective thermal fabrics, and Castelli's proprietary Nano Flex is often imitated but never equaled. No compromises for any conditions.

WHAT IT IS /PRODUCT FEATURES

This is the original jacket/jersey that started an entire new product class: the Gabba. It's a water-resistant short-sleeve jacket that's equally ideal for dry conditions. Made to be worn with our Nano Flex arm warmers, it allows you to keep your core warm without overheating.

- The 5th generation of the Gabba, from the inventors of the Gabba
- Now more water-resistant than ever
- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for greater stretch and breathability
- Taped shoulder seams for extra rain protection
- Top- and bottom-opening YKK® Vislon® zipper for easy sliding, covered for additional wind and rain protection
- 3 rear pockets
- Reflective panel at bottom of pockets

FRONT ONLY

WHAT IT IS /PRODUCT FEATURES

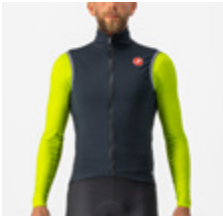

Made to be the perfect vest. GORE-TEX INFINIUM™ WINDSTOPPER® wind and water protection on the front, and a breathable nanotechnology water-repellent back. Stretch fit, and packable into half a pocket when not needed. This is a core piece of your cycling wardrobe.

- Best race or training vest with windproof front and breathable rain-repelling back
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front
- Nano Flex Light Woven on back for breathable stretch with good water protection
- Top- and bottom-opening YKK® Vislon® zipper for easy ventilation adjustment on the fly
- 3 rear pockets
- Reflective panel at bottom of pockets and around armholes

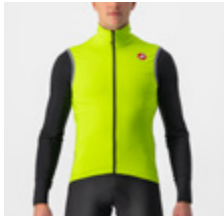

The Perfetto RoS 2 Vest is our attempt at the perfect vest. It's warm and windproof yet breathable thanks to the Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabric on the front and the membrane-free Nano Flex stretch woven back fabric. It's splash resistant for wet roads or changing conditions. It's light and packable, easily fitting in a jersey pocket with room to spare. It has three rear pockets of its own and a two-way YKK® Vislon® zipper you can open it from the bottom to access gear in your jersey pockets. It has 360° reflectivity thanks to the reflective trim on the armholes and reflective band below the pockets. It fits close to body with a high collar that feels oh-so-comfy for cooler conditions.

LIGHT RAIN

FRONT/SLEEVES

WHAT IT IS /PRODUCT FEATURES

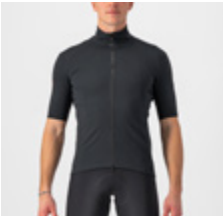

With just a base layer, this is a wind-protection jersey for mild conditions. Alternatively, use it over a jersey like a vest with added protection on your shoulders. Lightweight, breathable front wind protection with allover water repellency.

- Lightest Castelli short-sleeve wind protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front and sleeves
- Nano Flex Light Woven on back for breathable stretch with good water protection
- Top- and bottom-opening YKK® Vislon® zipper for easy ventilation adjustment on the fly
- 3 rear pockets
- Reflective panel at bottom of pockets

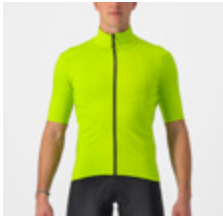

The Perfetto RoS 2 Wind Jersey started life as a request from our pro riders: I want to wear the Gabba all the time, but sometimes it's too hot. So a somewhat lighter and more breathable Gabba became the Perfetto Light. With the fourth generation, we've also changed the name from Perfetto Light to Perfetto RoS 2 Wind Jersey. And it has become a staple in our autumn and spring wardrobes because it's so useful in so many situations ... which makes it very hard to define. In one sense it's a warmer vest, since it has the same construction as the Perfetto RoS 2 Vest but with short sleeves. In another sense it's a less warm Gabba. In another sense it's a jersey with front wind protection. Regardless of how YOU define it, you'll appreciate how it gives the right amount of protection on cool days while maintaining a high level of breathability. It makes you feel warm and protected, yet offers almost the same lightness and freedom of movement as a summer jersey. For mild days, we'll use it as a jersey over a light base layer with Seamless arm warmers. For rides in cooler or changeable conditions, we'll layer it over a jersey, with either Seamless or Nano Flex arm warmers. The "2" part of the name refers to the updates to the latest version, including a YKK® Vislon® zipper with both top and bottom openings for more adjustable ventilation. The reflectivity on the back is more visible, the three

WHAT IT IS /PRODUCT FEATURES

The long-sleeve Gabba is one of our most versatile pieces. 100% wind protection with GORE-TEX INFINIUM™ WINDSTOPPER® water protection and best-in-class breathability. With a light base layer it's good for mild temperatures, or with a thermal layer you can ride it below freezing. If you have just one jacket in your cycling wardrobe, this should be it.

- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for greater stretch and breathability

Slicker Pro Jacket
4522575

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	182 g (M)	4°-18°C / 39°-64°F
	WATERPROOF	

WHAT IT IS /PRODUCT FEATURES

The waterproof jacket for when you know you have to ride in the rain. Our pros love this jacket because it keeps them dry, breathes, fits great, and has pockets. All this and it packs away into a jersey pocket.

- Castelli Microshell 2-layer ultralight 50 g/m2 waterproof breathable fabric with PFC-free external microporous polyurethane membrane
- Stretch waterproof side panel, shoulder, and sleeve give close-to-body fit
- Stretch wrist closure seals wrist and can cover gloves to keep water out
- YKK® Vislon® waterproof zipper
- 2 external rear pockets
- Silicone elastic waistband
- Fully taped seams for total waterproof construction
- Reflective trim
- Packs up small to easily stash away in jersey pocket

If your passion, or your job, is riding bikes, then you'll eventually need to spend some hours in bad weather. The Slicker Pro is the jacket you need. The fabric sheds water at an amazing rate but also breathes to keep you from getting wet from the inside. The stretch inserts allow us to create a close, more aerodynamic fit so the jacket doesn't flap in the breeze like those old-school rain jackets. Since this jacket might be on for a while, we've added pockets to the back for quick access to what you might need. And since this is a rain jacket, we've added drain holes to the pockets so they don't fill up with water. Even with all this, the jacket will still pack down to fit in a pocket should the rain stop and the sun come out. Its packability also means you can easily take it with you if you know rain is likely before you finish your ride.

TEMPESTA LITE JACKET
4522090

SIZES	WEIGHT	
S-3XL	166 g (M)	
TEMPERATURE RANGE		
4°-18°C / 39°-64°F		
	WATERPROOF	

WHAT IT IS /PRODUCT FEATURES

The waterproof, packable jacket to take on all your rides. It's highly breathable and extremely light, with a great fit. Perfect to have if there is a chance of rain or if you just want extra protection on a long descent.

- The lightest and most packable fully waterproof Castelli GORE-TEX® jacket
- GORE-TEX® waterproof fabric is fully waterproof yet offers unmatched breathability
- The entire lower back is in GORE-TEX® Topo stretch fabric to allow the jacket to expand in diameter if you have a few extra winter kilos or full pockets
- Reflective tape on back of both sleeves for high visibility in low-light conditions
- YKK® Vislon® waterproof zipper slides easily for ventilation adjustments
- Internal wrist gaiter seals wrist and integrates with glove to keep water out

Some days you look out the window and the clouds in the sky look ominous, but you just want to ride. The Tempesta Lite is the jacket to throw in your pocket when you head out the door. It's extremely light so you'll hardly notice it's in your pocket, and it packs down so small (about half a pocket!) that you won't sacrifice any storage space if you want to bring it with you "just in case." The fabric is waterproof so you'll stay dry if those clouds do decide to open up, but it's breathable too, to keep you from getting wet from the inside. It's also the perfect piece to put on for those long descents when you want to keep the wind off your chest and arms.

GAVIA JACKET

4520510

SIZES	WEIGHT		
S-3XL	236 g (L)		
TEMPERATURE RANGE			
2°-16°C / 36°-61°F			
	WATERPROOF		WINDPROOF

WHAT IT IS /PRODUCT FEATURES

Mid-weight GORE-TEX® shell jacket for all-day riding in the rain, cut to fit over insulation layers but with Topo stretch panels to help the jacket move with you. This is serious equipment for your wettest, nastiest days on the bike, when anyone else would stay inside.

- 3-layer mid-weight GORE-TEX® fabric for total rain protection
- Stretch panels in GORE-TEX® Topo fabric bring better fit in shoulders and stretch in wrist for easy on/off with gloves
- 2 large rear pockets for easy access with gloved hands
- Long tail for splash protection
- Covered YKK® AquaGuard® zipper
- Zipper flap at neck for extra comfort

This jacket is made for those days when speed and light weight are sacrificed for the most effective barrier possible against the rain and cold outside. If you’ve never had a jacket like this, you’ve never experienced the feeling of going out only because you have to and then enjoying one of the most epic days ever.

We went with a heavier-weight GORE-TEX® fabric for extra durability and because we gave this jacket a little more generous cut and don’t want the fabric flapping around. But we still made it so that you can ride in an aggressive position, helped by stretch panels around the shoulders. We’ve added the same stretch panels around the wrists so that you can put it on and take it off over your Diluvio gloves, and we added stretch panels on the sides in case you load up your pockets.

Even though this is an absolute extreme-conditions jacket, it can still fold up small enough to be stuffed in a jersey pocket—or, more likely, in a bag, because this jacket is a must on your next multiday adventure.

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

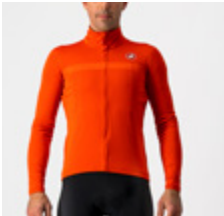

This elegant jacket provides full waterproof protection with a stretch fit for comfort and aerodynamic performance. The jacket is protective enough to wear all day yet looks good on a gravel ride or when you’re meeting your mates at the café.

- Tempesta Stretch fabric with windproof PU membrane provides 10,000 mm waterproofness with 20,600 g/m²/24h breathability
- Taped shoulder seams for waterproofing
- Stretchy for extremely comfortable fit that moves with you
- Packable enough to fit in jersey pocket
- Covered easy-sliding YKK® Vislon® zipper
- Extra-long tail for protection from wheel spray
- Vent on back
- Reflective stripe at lower back

This jacket does three things really well: the Tempesta Stretch fabric provides full waterproof protection, the four-way stretch makes it fit any body type, and it looks great on and off the bike. Compared with our more expensive GORE-TEX® Idro jackets, you give up the best-in-class breathability and extreme packability, but you gain stretch fit and increased durability. We developed the fabric to our own specifications to make a jacket that is fully waterproof, comfortably stretchy, packable enough to fit in a jersey pocket, and with an appearance and hand that make it look great. This is meant to be a rain shell worn over a jersey, so we’ve foregone the external pockets and kept the construction simple to minimize seams. We’ve given it a vent on the back to prevent overheating, a covered zip to keep spray out and reflectivity for safety.

EMERGENCY 2 RAIN JACKET

4521500

SIZES	WEIGHT	TEMPERATURE RANGE
S-3XL	149 g (M)	6°-18°C / 43°-64°F

WATERPROOF

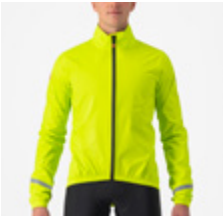

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

The go-to jacket for rain protection, whether for all-day use or emergency use, since it easily stashes away in a jersey pocket. With discreet styling and 360° reflectivity, it can do double duty as a commute jacket.

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Stuff pocket integrated into mesh vent at top of back
- Waterproof zipper and contrast seam sealing keep water out
- 360° reflectivity

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you’d expect from Castelli, we also gave it an amazing on-bike fit, yet it’s still roomy enough to fit over a Gabba. It has all the trappings of a performance rain jacket, with the waterproof zipper, long tail, long sleeves, and wrist closures that can go over gloves, yet we knew you wouldn’t want to break the bank with it, so the only real compromise compared to our top-of-the-line offerings is in breathability. We kept the styling toned down and added a bright colorway in Fiery Red so that you can easily use this as a commute jacket and still look great when you get to the office. If you’re going to wear it over office attire you may want to go up one size.

WET ROADS

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

An extremely light and packable wind shell that fits close to body, with stretch breathability panels, allowing you extend the temperature range of your favorite Castelli pieces.

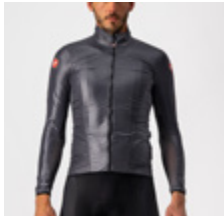

- Ultralight windproof woven microfiber front
- Striped mesh fabric at sides and sleeve back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Integrated pack sack
- YKK® Vislon® zipper
- Reflective Castelli wordmark

NOT YOUR OLD-STYLE WIND JACKET

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to re-invent a classic. In reality, the Aria Shell Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era. This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

ARIA VEST

4520057

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	75 g (L)	12°-20°C / 54°-68°F

FRONT ONLY

WHAT IT IS /PRODUCT FEATURES

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

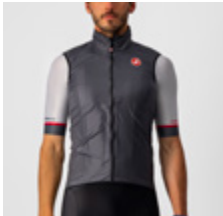

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective piping

NEAR WEIGHTLESS PROTECTION

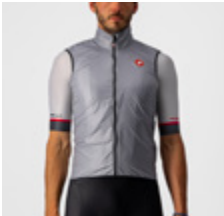

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

SQUADRA STRETCH JACKET

4521511

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	102 g (M)	10°-18°C / 50°-64°F

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

The Squadra Stretch shell keeps the wind off on cool-weather rides or long descents, while the stretch panels keep the jacket fitting close to body and eliminate flapping fabric.

- Coated ripstop nylon front and back and front of sleeves to keep wind off
- Tightly knit stretch panels on sides and sleeves allow for perfect fit
- High collar to keep drafts out
- Reflective details on chest and lower back for low-light visibility

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to re-invent a classic. In reality, the Aria Shell Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. SQUADRA STRETCH VEST

4521512

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	66 g (M)	12°-20°C / 54°-68°F

FRONT/SLEEVES

WHAT IT IS /PRODUCT FEATURES

The Squadra Stretch Vest is the simple yet elegant solution to keep the wind off your core in cool conditions while providing a close-to-body fit and excellent ventilation.

- Coated ripstop nylon front and back to keep wind off
- Tightly knit stretch panels on sides for perfect fit and ventilation
- High collar to keep drafts out
- Reflective details on chest and lower back for low-light visibility

We've completely reengineered our entry-level vest. A new coated ripstop fabric keeps the wind off the front and spray off the back, while the tightly knit side panels allow the vest to stretch to fit a wide range of shapes while keeping a close-to-body fit that eliminates fabric flapping in the wind. The collar is cut high and the back long for extra protection, and the color blocking of the stretch panels and the reflective details on the chest and tail give it an elegant design touch.

BIBSHORTS OVERVIEW

THE RIGHT SHORTS
MAKE A DIFFERENCE

When it comes to performance cycling, whether it's long weekend rides, road races or granfondos, bibshorts are where it's at for outright comfort. A perfect pair of bibshorts will provide just the right balance of comfort and support for your legs when you're pounding out those kilometers.

ROSSO CORSA

PREMIO BLACK W
BIBSHORT

Innovatively engineered for ultimate long-distance comfort, support, speed and durability.

CASTELLI CYCLING

FREE AERO RC W
BIBSHORT

The perfect mix of comfort and speed. Engineered for top-level racing, which also makes it supremely comfortable for every ride and rider.

ENDURANCE W
BIBSHORT

Endurance-level comfort for every ride with Castelli's most comfortable seat pad.

VELOCISSIMA 3
BIBSHORT

Premium fabrics, a flattering cut, drop-tail bib straps, and our everyday-comfort KISS Air² Donna seat pad make this short right for everything but the longest rides.

PRIMA
BIBSHORT

Castelli's entry-level short still needs to be an amazing short in order to carry the scorpion logo. Comfort from quality fabrics, our KISS Air² Donna seat pad and anatomic construction are brought together with an overall focus on durability.

PROGETTO X²
SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISSair²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

The Premio Bibshort has been engineered to provide the ultimate in long-distance comfort and to be your favorite bib-short ever. That's a big claim, but there's a lot of research and development in this short to back it up.

The seat pad is central to the Premio's exceptional comfort and our top-of-the-line women's specific Progetto X² Air Seamless Donna pad is actually two separate components: a soft, stretchy Skin Care Layer next to your skin, which has the sole purpose of preventing any rubbing on your skin, and, under that, the Cushioning Layer, which features two separate densities of foam along with breathable perforated gel inserts under the ischia bones and perineum.

Comfort continues through the construction of the short with reduced seams and only 3 panels. We engineered a new fabric that changes depending on the needs over various parts of the body. The lower leg has a raw-cut leg ending and rubberized yarns to guarantee a flat grip to keep the leg in place. The fabric becomes lighter in the thigh, while the four-way stretch provides just the right amount of muscle support. In the pelvis area, the compression and support increase to keep the seat pad and everything else in place,. At the back there's a thicker fabric to avoid any transparency issues.

The premium fabrics extend the bib straps. The perforated back keeps you cool and the edge is bonded so you don't feel the thickness of a stitched edge. The elastic straps have just enough modulus (return) to hold your shorts securely in place without cutting in to your shoulders.

We've carried the less-is-more theme into the design, with minimalist laser-etched logos and subtle finishing. It looks as premium as it feels. You can tell that every component, every stitch, every detail has been obsessed over. You'll not find a better bibshort.

ENDURANCE W SHORT

4522049

SIZES	WEIGHT	
XS-XL	170 g (S)	
TEMPERATURE RANGE		
15-38°C / 59-100°F		

WHAT IT IS /PRODUCT FEATURES

Endurance-level comfort for every ride with Castelli's most comfortable seat pad.

- Endurance Evolution fabric provides optimum muscle support and feels drier in nearly all conditions
- Anatomic cut for perfect on-bike fit
- Soft elastic at waist lies flat without binding
- Women's-specific Progetto X² Air Donna seamless seat pad for even greater comfort and improved airflow
- GIRO³ leg grippers lie flat

The main story of this short is the use of our renowned top-of-the-line Progetto X² Air Donna seamless seat pad in a mostly traditional short, but in fact every little detail has been obsessed over to ensure your comfort on your next long endurance ride. A great pad is useless without great fit. The seams are placed around the hip area to create a perfect shape on the bike. The Endurance Evolution fabric has a soft hand while providing good compression and excellent moisture management. And it's all held in place with the amazingly comfortable GIRO³ leg gripper.On your long endurance rides you'll especially appreciate Castelli's drop-tail bib construction. The wider bib straps are free floating so you can cross them in front or back. They pull tight enough to keep your shorts in place, but when the need arises they stretch long enough that you can take a bathroom break without having to remove your jersey and bibs. This short offers exceptional value and is ready to deliver lasting comfort on your longest rides.

KISSAIR²

Castelli’s entry-level short still needs to be an amazing short in order to carry the scorpion logo. Comfort from quality fabrics, our KISS Air² Donna seat pad and anatomic construction are brought together with an overall focus on durability.

- KISS Air² Donna seat pad for all-day comfort
- Pro Dry Soft matte Lycra® is sleek looking and ultra-breathable
- Anatomic construction for perfect fit
- Rear reflective panels
- GIRO³ engineered flat leg band
- Mesh bib straps for comfort and breathability

Shorts are an obsession at Castelli. They’re the most vital piece of clothing and one of the hardest to get right. Even though the Prima is our entry-level short, it shows that we won’t compromise anything for comfort and performance. It starts with the women’s-specific KISS Air² Donna seat pad. Just the name gives an idea of the process of constant improvement, which started with a soft KISS pad that was improved by making it more breathable (Air) and then improved again in the latest update to use the softest-ever top fabric (2). It’s ready for your next big ride indoors or out. We’ve updated the fabric to the new Pro Dry Soft, which has a smooth matte finish that feels cool on the skin while being very supportive and quick to dry. We wanted this short to be just right for many years to come, so little details like the reflective patches are stitched in instead of being glued on, and the GIRO³ elastic has the grip woven right into the fabric. This attention to detail — go ahead and call it an obsession — is why Castelli’s entry-level short is just a better short.

PREMIO W JERSEY

4523035

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	87 g (S)	16-35°C / 61-95°F

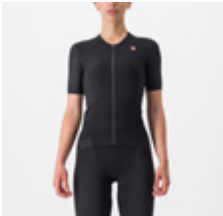

WHAT IT IS /PRODUCT FEATURES

Engineered to be the convergence of speed, comfort, and style.

- Stretch woven lightweight body fabric in recycled microfiber polyester for excellent moisture management and 26% elastane for stretch
- Main body fabric provides UPF 50+ maximum sun protection
- Shoulder panel in recycled ribbed stretch woven mesh to keep you cool and comfortable while adding world-class aerodynamics
- Collarless construction makes it feel lighter and cooler
- Reverse-coil self-locking YKK® zipper with U-shaped zipper pull for easy adjustment
- Silicone gripper elastic on back with no-sew bonded front elastic panel
- 3 rear pockets with additional hidden zippered security pocket
- Reflective logo on back

Created to be the perfect complement to the Premio Black Bibshort. The Premio W Jersey takes technology and fabrics from the bibshort to create a piece with premium aerodynamics, comfort, durability, and style. The sleeves use the same ribbed fabric from the bibshort to make sure they stay in place without being too snug — all while being a perfect color match. The stretch woven fabric on the torso is soft with enough stretch to make it fit just the way you want it to. Three pockets on the back sit low enough to be easily accessible and are big enough to hold what you need for your ride. To finish this Premio W Jersey off, we've paid close attention to all the little details, like the zipper pull and the gripper at the waist. Put all this together and you have a jersey to match your Premio Black Bibshort.

AERO PRO W JERSEY
4523036

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	102 g (S)	18-35°C / 64-95°F

WHAT IT IS /PRODUCT FEATURES

Engineered to be the most aerodynamic jersey for road racing, this jersey features extremely comfortable high-stretch fabric with excellent moisture management and three full-size pockets for cargo to make it ideal even if you never pin on a number.

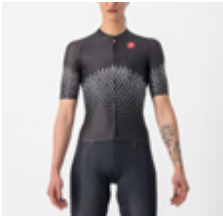

- CFD-based fabric placement and seam construction
- Engineered for aero efficiency at 30 to 55 km/h
- Airflow shoulder construction
- Velocity Rev2 fabric on front and sleeve
- 3D mesh back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- YKK® Vislon® zipper
- Drop tail allows perfect pocket placement while keeping jersey fitting well at waist

THE FIRST AERO JERSEY PROJECT
WAS CALLED SPLIT SECOND

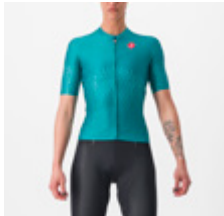

When Castelli engineered the first aero jersey for road racing back in 2006, everyone thought we were crazy. Back then, aero was only for TTs. Performance clothing meant moisture management. And you could win the Tour de France with a baggy jersey that was little more than a polyester T-shirt. Even our aerodynamic consultants expected limited gains, so we named the jersey Split Second, though, like now, we thought even small gains were worth pursuing. In the end the gains were pretty substantial, and we completely revolutionized the look of the pro peloton. We're now on the sixth major revision of our aero jersey. Each generation has become more aero and better fitting. The Aero Race W Jersey benefits heavily from CFD analysis of wake flow in the riding position for fabric and seam placement. It also benefits from pro riders' feedback, as we've worked to make the jersey comfortable for their long hours of training and then racing in every possible weather condition. It's our most aero and most comfortable Aero Race Jersey yet. But we're already working on an update.

CLIMBER'S 2.0 W JERSEY
4523037

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	98 g (S)	22-40°C / 72-104°F

WHAT IT IS /PRODUCT FEATURES

Created for hot weather, this jersey allows ample airflow through the front fabric, is quick to dry and blocks more than 90% of UV rays on your back. A great choice for your long summer rides, or add a base layer and it's a three-season jersey.

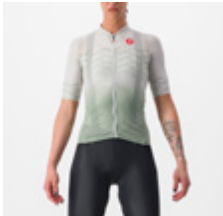

- Flusso 3D fabric on front and sleeve
- StradaPro 3D back for breathability
- Engineered rapid cooling, light weight and aero efficiency
- Raw-cut sleeve ending lies flat for comfort without binding
- YKK® Vislon® zipper

DEFENDER GREEN

424
BELGIAN BLUE/PERSIAN RED

We made this jersey specifically for hot weather, with a meshy fabric on the front that allows a lot of air to flow through the fabric to cool you, while on the back we've created a fabric that blocks over 90% of UV rays while also being airy and lightweight. But don't think of it as a niche jersey that you only bring out for hot days. Add a base layer underneath it and you'll use it from mid spring to early fall, and the stretch of the fabrics that make it fit so great mean that it's extremely comfortable.

CASTELLI CYCLING

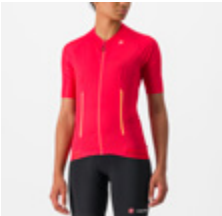

ENDURANCE W JERSEY

4523038

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	132 g (S)	20-40°C / 68-104°F

- WHAT IT IS /PRODUCT FEATURES
- The jersey for all-day comfort, carrying capacity, temperature regulation, sun protection, and aerodynamics for the longest endurance rides and events.
- ProSecco Air Donna fabric on body and sleeves for maximum airflow and cooling
 - Raw-cut sleeve ending lies flat for comfort
 - Ultralight mesh elastic gripper
 - 3 rear pockets
 - Reflective stripes on pockets
 - YKK® Vislon® zipper

This jersey was designed specifically for the dedicated cyclist. More and more women are looking for a beautifully constructed solid-color jersey. The Endurance W Jersey is built with technical fabrics and a construction that satisfies the needs of the most demanding rider. We use a new fabric with a polyester mesh for excellent moisture management but with 13% Lycra® content for plenty of stretch. This jersey has all the features: a tone-on-tone external elastic at the waist, sleeves with raw-cut endings that are long enough to work great with arm warmers, reflective tabs, and three spacious pockets with a zippered fourth pocket. We've paid close attention to the aesthetics, with the discreet logo treatment and contrasting colored lines along the waist darts and center back. The Endurance W Jersey is THE jersey for performance, reliability, and comfort for the dedicated cyclist.

VELOCISSIMA JERSEY

4522065

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	96 g (S)	16-38°C / 61-100°F

WHAT IT IS /PRODUCT FEATURES

Performance and comfort align in the Velocissima Jersey, which uses three different dyed fabrics for rich color in a technical construction.

- ProSecco Strada Donna main body fabric for great moisture management
- Velocity Rev2 fabric for 4-way-stretch sleeves with raw-cut sleeve endings
- Stretch-mesh side panels for better fit and breathability
- Dyed fabrics for rich colors with sublimated overprint
- Drop-pocket design for better placement of 3 rear pockets
- Silicone gripper elastic
- YKK® Vislon® zipper with scorpion zipper pull for easier grip

The name Velocissima means “very fast” in Italian, and indeed there’s a lot of speed in this jersey, even though it wasn’t designed as a race jersey. It brings together three different fabrics for fit as well as comfort. The main jersey fabric is a soft 100% polyester micromesh with Castelli’s ProSecco wicking treatment to keep you dry. Side panels are in a stretch mesh for ventilation and improved fit. The sleeves are lifted directly from Castelli’s pro race jersey, but in this case because the four-way-stretch fabric with raw-cut sleeve endings is as comfortable as it is aerodynamic. The Velocissima Jersey is not lacking in technical details, but it was also designed to look good. The fabrics are piece dyed for rich color, and then they get a sublimated overprint for the tone-on-tone graphic over the shoulders. It’s finished with construction details like the three pockets that drop below the silicone waistband for easier access, while the easy-sliding YKK® zipper makes ventilation adjustment easy.

DOLCE JERSEY
4522060

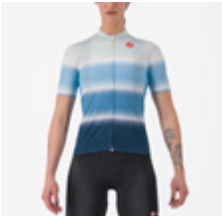

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	106 g (S)	18-38°C / 64-100°F

WHAT IT IS /PRODUCT FEATURES

A fresh take on gradient fades, built on our Competizione 2 model with performance fit but stretchy fabrics that flatter.

- Strada micromesh ventilated stretch fabric on front and back for great fit and moisture management
- Tailwind dimpled stretch fabric on sleeves, side panels, and pockets for perfect fit
- Anatomic side panels that wrap around to back
- Full-length YKK® Vislon® zipper is easiest-sliding zipper available
- Silicone gripper elastic at waist prevents jersey from riding up

Gradient fades have been the fad for a few seasons now, but the Dolce Jersey graphic breathes new life into the theme. It's built using our new Competizione 2 base jersey. We've updated the construction with the side panels that finish in the pockets. We've updated the fabrics so that the back doesn't stretch too long when you load up the pockets. And we've updated the sleeve fabric as well as the fit, maintaining super-stretchy fabrics for a great fit on any body shape without feeling too tight.

MARMO JERSEY
4523039

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	117 g (S)	18-38°C / 64-100°F

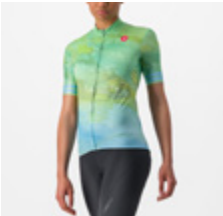

WHAT IT IS /PRODUCT FEATURES

A cycling jersey needs to look great as well as perform. The Marmo Jersey has a stunning "oil in water" graphic while still offering the performance you expect from a Castelli jersey.

- ProSecco Micromesh body fabric to keep you dry
- Mesh side panels for breathability
- Velocity Rev2 fabric on sleeves with close-to-body fit and raw-cut edges
- Covered YKK® Vislon® zipper
- Drop tail with 3 rear pockets with reflective piping

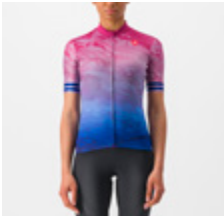

The first thing that pops out about this jersey is the design, with a graphic that recalls the fluid, effortless movement of oil in water. Movement like that fluid, effortless-looking pedal stroke we all strive for when riding a bike. The Marmo Jersey reminds us of how riding should feel. Its ProSecco Micromesh on the front and mesh on the sides let the air flow in as you move down the road or up the trail. The stretch in the sleeves and raw-cut finish allow for freedom of movement in the arms. Finally, the drop tail and pocket construction allow you to easily reach into your pockets for whatever you might need. At the end of the day, this jersey is about feeling free, fluid, and effortless while out on the bike.

Some days out on the bike it feels like all the pieces have fallen into place and you can ride as fast as you want and tackle any obstacle out there. The Pezzi Jersey depicts the pieces falling into place for that magic day to happen. Not only does the jersey show this, it's crafted to help you truly enjoy that special day out on the bike. The Strada micromesh fabric is stretchy enough to offer a great fit and allows enough airflow for cooling and moisture management. The full-length YKK® Vislon® zipper is the easiest-sliding zipper available. The gripper at the bottom is lined with silicone to make sure the jersey stays put. When you head out for your next ride, this jersey will help those pieces fall into place for an enjoyable ride.

CASTELLI CYCLING

ANIMA 4 JERSEY
4523042

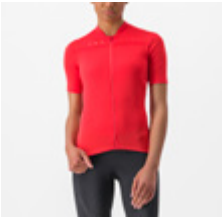

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	108 g (S)	18°-32°C / 64°-90°F

- WHAT IT IS /PRODUCT FEATURES
- The perfect solid-color jersey with all the Castelli technical details for performance on every ride.
- ProSecco Velo Donna fabric provides great moisture management
 - Contrast inner collar and zipper protection
 - YKK® Vislon® zipper with scorpion zipper pull
 - Silicone gripper elastic at waist
 - Reflective stripes on pocket

Anima means "soul" in Italian, and that's what this jersey captures. The previous version of the Anima was a favorite, but we felt we could make it better. Aside from some small cosmetic updates, the biggest improvement is an update to the ProSecco Velo Donna fabric to make it softer and more comfortable. This Italian-made fabric is exclusive to Castelli and makes the new Anima 4 feel like it can't be an entry-level jersey. The details on this jersey are what set it apart: the perfect fit, the raised stitching detailing, the classy discreet logos, the easy-sliding zipper, and the reflective details. And one final feature to make you choose this jersey is the sun protection. This fabric is rated at UPF 45, meaning it's filtering out nearly 98% of harmful UV rays despite weighing only 120 grams per square meter.

This top isn't your first choice for a long ride under the summer sun — by all means use one of our more protective jerseys for that! But for hot days, especially without direct sun, this is made to keep you cool and comfortable. Cycling means freedom, and the Bavette Top brings even more of it. But it's made to ride too, with coverage on the back, three rear pockets, reflective stripes, and our excellent Softlex fabric.

CASTELLI CYCLING

SOLARIS SLEEVELESS JERSEY

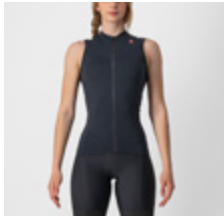

4521058

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	112 g (S)	22°-40°C / 72°-104°F

WHAT IT IS /PRODUCT FEATURES

Castelli's least-constructed jersey is great for hot days or for giving a feeling of freedom.

- Softflex fabric for soft stretch with a cotton-like hand
- Full-length YKK® Vislon® zipper
- 2 rear pockets

For those days when you don't need to load up the pockets or deal with changing weather conditions, the Solaris Sleeveless Jersey leaves you feeling freer. We've stripped it down to the bare essentials, even leaving off the gripper elastic so there's nothing to bind or distract from the extreme comfort of this jersey.

SOLARIS TOP

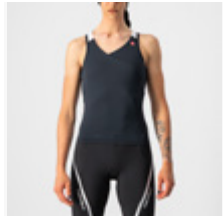

4522062

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	109 g (S)	22-40°C / 72-104°F

WHAT IT IS /PRODUCT FEATURES

Hot-weather riding top with a double-layer front and racer back with two rear pockets.

- Softflex fabric for soft stretch with a cotton-like hand
- Racer back construction
- Double-layer cross-wrap front with 3 cm elastic band under bust
- 2 rear pockets

We don't recommend this for long or even medium-length rides in full sun, but this is the best option we know of for those evening rides in the hottest days of summer, or if you're trying to even out your tan. The top features a wrap construction across the front with an elastic band under the bust, but with the racer back construction it works well with many sports bras. The Softflex fabric is stretchy for a great fit, and there are 2 pockets on the back.

All the performance you've come to expect from a Castelli jersey, except for the aerodynamics. That's why this is the ideal jersey when you're riding anything from asphalt to gravel to dirt — anytime you value comfort over aerodynamics. The list of features on this jersey is extensive: a new 95 g 92/8 polyester/elastane fabric that keeps you dry while providing plenty of stretch, a YKK® Vislon® front zipper that's partially covered for a clean look, a fourth zippered key pocket, silicone gripper elastic at the waist, and bonded no-sew sleeve endings. It's perfectly at home on the trail or the road.

UNLIMITED

TRAIL TECH 2 W TEE

4523047

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	93 g (S)	18-38°C / 64-100°F

WHAT IT IS /PRODUCT FEATURES

Performance-jersey tech with a relaxed fit, style, and comfort. Ready for an all-day adventure.

- Relaxed-fit trail tee
- Bluesign 110 g quick-drying polyester allows airflow to keep you cool
- V-neck
- Shaped longer rear hem for full coverage when in riding position
- Subtle sublimation-printed graphic

There are lots of trail tees out there, but most seem to not really be made to ride in. The Castelli Trail Tee features a lighter-weight 100% polyester fabric for quick drying and excellent moisture management, with a 3D mesh construction that lets airflow through to keep you cool. No more feeling like you're riding in a plastic bag. And the fabric is Bluesign approved, so it's good for the planet. The tee is cut for everything from fast trail riding to enduro, since it fits with a back protector and elbow pads. And because all the Unlimited shorts have pockets, you can complete the relaxed look and feeling of freedom with this performance trail tee.

FRONT ONLY

WHAT IT IS /PRODUCT FEATURES

Warm yet extremely packable vest for your adventure or multi-day rides. Woven microfiber windproof outer layer with Polartec® Alpha® Direct insulation.

- Coated windproof microfiber woven outer shell with DWR treatment
- Polartec® Alpha® Direct insulation layer for maximum loft with minimum bulk
- Nano Flex stretch woven fabric on sides and pockets adds stretch and breathability
- Zippered pocket on chest
- 2 large rear pockets
- YKK® Vislon® zipper with U-shaped zipper pull
- Woven inner label and vintage scorpion logo

Good for everything from road riding to bikepacking, this vest packs a surprising amount of warmth into a surprisingly small amount of space. The microfiber shell keeps the wind out, while the Polartec® Alpha® Direct insulating layer provides exceptional warmth with minimal weight. The stretch side panels improve fit and ventilation and are treated to be water repellent, as is the rest of the vest. There's a zippered chest pocket for valuables and two large, easily accessible back pockets for storage. The wide range of conditions that this vest covers means you'll use it on the road in the spring and autumn, wear it on your gravel rides in the mountains during the summer, and stash it in your handlebar bag on your next bikepacking adventure.

FREE UNLIMITED W BIBSHORT

4522055

SIZES	WEIGHT	
XS-XL	157 g (S)	
TEMPERATURE RANGE		
15-35°C / 59-95°F		

WHAT IT IS /PRODUCT FEATURES

Comfort, performance, protection, and storage. Designed for gravel but equally at home on adventure or endurance rides, or if you just love pockets. Drop-tail bib straps.

- High-compression 215 g Forza 2 fabric with 32% Lycra® content provides exceptional muscle support and compression
- Dyneema® side panels to protect in the event of a tumble, 15x stronger than steel
- Women's-specific Progetto X² Air Donna seamless seat pad is soft against the skin but well padded for long-distance comfort
- Drop-tail bib straps can cross in front or back and allow pee breaks without removing bibs
- Large compression pocket on each leg
- Raw-cut edge at waist for extra stretch and comfort
- Raw-cut leg ending engineered to stay put without silicone grippers

This is the no-compromise gravel or endurance MTB short. It combines the best features of Castelli's premier race short, the Free Aero RC Bibshort, with Dyneema® side panels for protection in case of a fall, and side pockets for storage. It's made first and foremost for riding comfort. It uses the top-of-the-line Progetto X² Air Donna seamless seat pad that provides progressive damping and the softest, stretchiest skin contact layer available. The Forza 2 fabric provides just the right level of compression and muscle support for your longest rides. The bib straps are Castelli's drop-tail design, stretchy enough to be pulled down for a pee break while providing enough pull to keep your shorts in place. They're free floating so you can choose to cross them in front or back. At the leg ending there's a raw-cut edge that you'll hardly feel, and the combination of the Forza 2 fabric with just the right length and circumference means that no silicone gripper is required. It's a big leap forward in terms of comfort. The two large leg pockets are lined with an extremely light and fast-wicking fabric so you won't notice the extra layer, yet they hold a surprising amount of gear, allowing you to forgo a traditional pocketed cycling jersey. The Unlimited short really does know no limits.

UNLIMITED CARGO W BIBSHORT

4523048

SIZES	WEIGHT	
XS-XL	184 g (S)	
TEMPERATURE RANGE		
15-35°C / 59-95°F		

WHAT IT IS /PRODUCT FEATURES

Equally at home on tarmac or gravel, the Unlimited Cargo Bibshort knows no limits. This cargo-pocket short is ready for your next adventure.

- Made for fast riding on unlimited terrain
- Affinity Pro Lycra® fabric on inside of leg for outstanding stretch and rebound
- Drop-tail bib construction for more convenient nature breaks
- 2 cargo-style side pockets with flap over top to keep stuff from falling out
- KISS Air² Donna seat pad for long-distance comfort
- GIRO⁴ leg grippers

Long-distance comfort, all-surface durability, and lots of carrying capacity is the story of the Unlimited Cargo Bibshort. With the Affinity Pro fabric and women's-specific KISS Air² Donna seat pad, it's made for comfort in the saddle. Our drop-tail bib construction allows for convenient nature breaks, and the cargo-style side pockets have a flap over the top to keep stuff from falling out. The GIRO⁴ grippers finish things off, making this a comfortable and useful piece of kit for your next ride. Perfect for gravel rides, but also a great choice for the increasing number of riders who want more pockets for their road rides.

UNLIMITED W BAGGY SHORT4521544

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	188 g (S)	15-35°C / 59-95°F

WHAT IT IS /PRODUCT FEATURES

The baggy short that’s not too baggy. It’s so light and stretchy you might forget you’re wearing a baggy short. It has no liner so you can wear it with your favorite cycling short.

- Stretch woven fabric with DWR finish
- Extremely light so you won’t even feel it on
- 2 front pockets and 1 zippered pocket
- Stretch jacquard waistband with zippered front opening
- Scorpion button logo

There are those days when a baggy short just seems like the right look. But you always debate whether you’re willing to compromise comfort for that look, and you end up wearing Lycra®. So we set out to make a better baggy. We reached for a stretch woven fabric that gives great stretch but in an unbelievably light-weight yet durable fabric. We gave it a DWR finish so mud and water roll off. We gave the short two top-opening pockets like jeans so that whatever you put in there won’t fall out. We made the cut fairly close to body so you look good off the bike but the short doesn’t balloon out when you’re on the bike. It all just kinda disappears. The short doesn’t have its own seat pad, so wear this over your favorite Castelli short.

UNLIMITED DT W LINER BIBSHORT4522056

SIZES	WEIGHT	PROGETTO X ² AIR DONNA
XS-XL	145 g (S)	
TEMPERATURE RANGE		
15-35°C / 59-95°F		

WHAT IT IS /PRODUCT FEATURES

Made to be the ultimate liner under your baggy shorts. Featuring the supremely comfortable Progetto X² Air Donna seamless seat pad in the coolest minimalist short, with drop-tail construction for pee breaks without removing the bib straps.

- Women's-specific Progetto X² Air Donna seamless seat pad for long rides and rough trails
- 170 g Force fabric through hips to keep seat pad in place
- Perforated leg panels are light for maximum ventilation and cooling
- Giro Air leg grippers are cool and hold legs in place
- Drop-tail bib straps can cross in front or back and allow pee breaks without removing bibs

There's no reason to accept a mediocre short just because you want to wear baggies. This liner is made for ultimate comfort under your baggies. First and foremost, this short features the top-of-the-line Progetto X² Air Donna seamless seat pad. The pad has two separate components: a soft, stretchy Skin Care Layer that cod-dles your skin, and a separate Cushioning Layer with dual-den-sity foam and gel pads for progressive damping. The best pad is worthless if moves around, so we’ve constructed the hip area in our compressive Force fabric, which holds the pad in place while providing good ventilation. The legs are light and airy with perforated fabric to keep you cool, and are held in place by our gauze-like Giro Air elastic. The beauty of this leg construction is that you can adjust the length to your preference — so they’re long enough to keep your baggy short from rubbing against your leg, for example. The bib straps are Castelli’s drop-tail design, stretchy enough to be pulled down for a pee break while provid-ing enough pull to keep your shorts in place. They’re free floating so you can choose to cross them in front or back.

KISS^{AIR}2

TEMPERATURE RANGE

14-35°C / 57-95°F

WHAT IT IS / PRODUCT FEATURES

Made to be the perfect complement to your Unlimited Baggy Short. Provides performance, breathability, and the KISS Air² Donna seat pad for all-day comfort on your next adventure.

- KISS Air² Donna seat pad
- GIRO⁴ leg gripper with raw edge for comfort and silicone stripes for grip
- Elastic at waist to hold short securely in place
- Flat-lock stitching
- Mesh material throughout for maximum airflow

The perfect complement to a baggy short. Breathability, temperature, and moisture management are key to keeping you comfortable on the bike. The Trail Liner is designed to provide these. Made from a super-breathable mesh material throughout, which provides for maximum breathability and airflow to keep you cool and dry throughout your ride. For comfort at the leg ending, we use our GIRO⁴ leg gripper with raw-cut edges. The silicone runs in vertical stripes to avoid the sausage effect. And, of course, you need a great seat pad to enjoy your ride. The KISS Air² Donna seat pad provides all-day comfort for your next gravel, mountain bike, or adventure ride.

PRO ISSUE 2 W SHORT SLEEVE

4520121

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	39 g (S)	15°-35°C / 59°-95°F

WHAT IT IS /PRODUCT FEATURES

Made to keep you dryer in cool to warm conditions, this base layer moves moisture away from the skin.

- 100% polyester 3D mesh fabric
- Reduced seaming at shoulders for extra comfort
- Wider collar to fit under aero jerseys
- Flat waist hem to lie flat in shorts

001
WHITE

001
WHITE

This is the piece our pros requested for those in-between conditions, like Spain in February or Belgium in April. You're not looking for warmth from your base layer, just something to move the moisture away from your body and help your race jersey perform. Our 3D mesh fabric creates dead air space next to your skin, while the polyester capillary action moves sweat away.

ROSSO CORSA

ROSSO CORSA BRA
4518550

SIZES	WEIGHT
XS-XL	38 g (S)

WHAT IT IS /PRODUCT FEATURES

It's a cycling bra, not a sports bra. Not overly restrictive like a jogging bra, it's cool and offers just enough support for cycling.

- Superlight stretch fabric perfect for cycling
- Mesh inserts for extreme breathability keep you cool and dry
- Back hook-and-eye closure with 3-position regulation for easy on and off
- Molded cups with full coverage
- Medium support thanks to contoured seams and underbust elastic for enhanced fit and support

010
BLACK

001
WHITE

IT'S JUST FOR CYCLING

We wanted to make a bra for the unique demands of cycling. Compared to other sports there's less impact but requires a higher level of moisture management. We've engineered in just the right amount of support - you'd certainly never go running in this bra but it's just right for cycling.

WHAT IT IS /PRODUCT FEATURES

This is the original jacket/jersey that started an entire new product class: the Gabba. It's a water-resistant short-sleeve jacket that's equally ideal for dry conditions. Made to be worn with our Nano Flex arm warmers, it allows you to keep your core warm without overheating.

- The 5th generation of the Gabba, from the inventors of the Gabba
- Now more water-resistant than ever
- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for greater stretch and breathability
- Taped shoulder seams for extra rain protection
- Top- and bottom-opening YKK® Vislon® zipper for easy sliding, covered for additional wind and rain protection
- 3 rear pockets
- Reflective panel at bottom of pockets

FRONT ONLY

WHAT IT IS /PRODUCT FEATURES

Made to be the perfect vest. GORE-TEX INFINIUM™ WINDSTOPPER® wind and water protection on the front, and a breathable nanotechnology water-repellent back. Stretch fit, and packable into half a pocket when not needed. This is a core piece of your cycling wardrobe.

• Best race or training vest with windproof front and breathable rain-repelling back

• GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front

• Nano Flex Light Woven on back for breathable stretch with good water protection

• Top- and bottom-opening YKK® Vislon® zipper for easy ventilation adjustment on the fly

• 3 rear pockets

• Reflective panel at bottom of pockets and around armholes

The Perfetto RoS 2 Vest is our attempt at the perfect vest. It's warm and windproof yet breathable thanks to the Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabric on the front and the membrane-free Nano Flex stretch woven back fabric. It's splash resistant for wet roads or changing conditions. It's light and packable, easily fitting in a jersey pocket with room to spare. It has three rear pockets of its own and a two-way YKK® Vislon® zipper you can open from the bottom to access gear in your jersey pockets. It has 360° reflectivity thanks to the reflective trim on the armholes and reflective band below the pockets. It fits close to body with a high collar that feels oh-so-comfy for cooler conditions.

🌀

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

The waterproof, packable jacket to take on all your rides. It's highly breathable and extremely light, with a great fit. Perfect to have if there is a chance of rain or if you just want extra protection on a long descent.

- The lightest and most packable fully waterproof Castelli GORE-TEX® jacket
- GORE-TEX® waterproof fabric is fully waterproof yet offers unmatched breathability
- The entire lower back is in GORE-TEX® Topo stretch fabric to allow the jacket to expand in diameter if you have a few extra winter kilos or full pockets
- Reflective tape on back of both sleeves for high visibility in low-light conditions
- YKK® Vislon® waterproof zipper slides easily for ventilation adjustments
- Internal wrist gaiter seals wrist and integrates with glove to keep water out

CASTELLI CYCLING

EMERGENCY 2 W RAIN JACKET

4521550

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	143 g (S)	6°-18°C / 43°-64°F

WATERPROOF

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

The go-to jacket for rain protection, whether for all-day use or emergency use, since it easily stashes away in a jersey pocket. With discreet styling and 360° reflectivity, it can do double duty as a commute jacket.

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Stuff pocket integrated into mesh vent at top of back
- Waterproof zipper and contrast seam sealing keep water out
- 360° reflectivity

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you'd expect from Castelli, we also gave it an amazing on-bike fit, yet it's still roomy enough to fit over a Gabba. It has all the trappings of a performance rain jacket, with the waterproof zipper, long tail, long sleeves, and wrist closures that can go over gloves, yet we knew you wouldn't want to break the bank with it, so the only real compromise compared to our top-of-the-line offerings is in breathability.

We kept the styling toned down and added a bright colorway in Brilliant Pink so that you can easily use this as a commute jacket and still look great when you get to the office. If you're going to wear it over office attire you may want to go up one size.

WET ROADS

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

An extremely light and packable wind shell that fits close to body, with stretch breathability panels, allowing you extend the temperature range of your favorite Castelli pieces.

- Ultralight windproof woven microfiber front
- Striped mesh fabric at sides and sleeve back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Integrated pack sack
- YKK® Vislon® zipper
- Reflective piping

NOT YOUR OLD-STYLE
WIND JACKET

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to re-invent a classic. In reality, the Aria Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era. This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

ARIA W VEST

4520088

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	60 g (S)	12°-20°C / 54°-68°F

FRONT ONLY

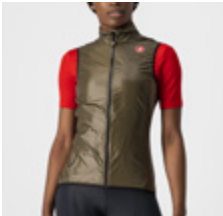

WHAT IT IS /PRODUCT FEATURES

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective pipin

NEAR WEIGHTLESS PROTECTION

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

CASTELLI CYCLING

SQUADRA STRETCH W JACKET

4521529

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	99 g (S)	10°-18°C / 50°-64°F

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

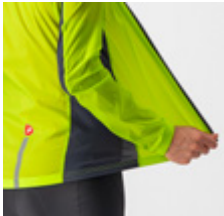

The Squadra Stretch shell keeps the wind off on cool-weather rides or long descents, while the stretch panels keep the jacket fitting close to body and eliminate flapping fabric.

- Coated ripstop nylon front and back and front of sleeves to keep wind off
- Tightly knit stretch panels on sides and sleeves allow for perfect fit
- High collar to keep drafts out
- Reflective details on chest and lower back for low-light visibility

This is a modern interpretation of the wind shell jacket, the one you keep in your pocket for a long descent or put on for the first hour of the ride until the day warms up. That jacket used to be a simple affair — a nylon shell — but the lack of stretch meant that it had to be cut on the generous side to fit all body shapes, both on and off the bike.

We've completely reimagined what the shell jacket should be and how it's constructed. We've added panels on the sides and the sleeves in a very high-stretch yet tightly knit fabric that allows us to give the jacket a modern, close-to-body fit for aero gains on any terrain, and it actually keeps more heat in than a jacket that's flapping about. We've kept it very compact so that it can pack away into minimal space in a jersey pocket.

The stretch panels are treated for water repellency, which will help in a light mist, but this is not meant to be a true rain jacket.

TRIATHLON DISCIPLINES

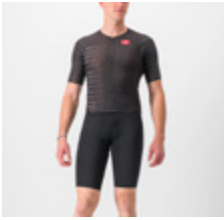

Evolution of the record-breaking PR Speed Suit. Premio-based short portion for exceptional comfort and improved aerodynamics, especially in crosswind conditions. CFD and in-depth wind tunnel testing create the fastest triathlon racing suit, optimized for high speeds.

- Made to be the fastest option for half- and long-distance triathlons
- Significant aero benefits on the bike while providing comfort and cooling on the run
- Premio-based short portion for seamless comfort and outstanding aerodynamics
- 50-denier upper-body fabric is the thinnest, smoothest fabric for light weight and maximum aerodynamics
- Active cooling for the run, with moisture evaporating directly next to the skin
- Silicone speed ribs on the sleeves induce turbulence to reduce drag on one of the most exposed parts of the body
- Elbow-length sleeves and knee-length legs for maximum aerodynamics
- 2 rear pockets for ample nutrition storage
- KISS Tri pad

When starting from a suit that already holds the Kona bike course record and has achieved numerous 70.3 and long-distance victories in the past few years, potential for improvements might not be identifiable at first glance. But at Castelli we never tire of looking for that extra speed to provide a real performance advantage for top athletes. From extensive tests in the wind tunnel, we discovered significant differences in the leg portion, especially at certain yaw. That process led us to our fastest long-course race suit, which even provides improved comfort compared to its predecessor due to an almost seamless construction of the short portion and without any additional silicone gripper needed.

SIZES	WEIGHT	KISS TRI
XS-3XL	174 g (L)	

TRIATHLON DISCIPLINES

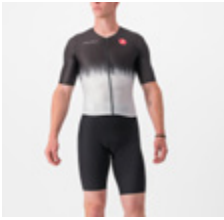

Performance race suit ideal for 70.3 and full-distance racing. Perfect synergy of comfort and speed.

- Upper part from our best-selling Free Sanremo Short Sleeve suit
- Premio-based short portion taken from the new PR 2 Speed Suit
- Velocity Rev2 main body fabric delivers aerodynamics with excellent fit and moisture management
- Back fabric is our Velocity mesh for breathability, yet it blocks 94% of UV rays for significant sun protection (UPF 16)
- Elbow-length sleeves with raw-cut edges for maximum comfort and aerodynamics
- Castelli's Sanremo front opening makes it easier to bend for cycling and straighten out for the run and swim, while also allowing for easier nature breaks or opening up for extra-hot runs
- 2 rear pockets that lie flat in the swim but allow generous room for nutrition
- KISS Tri seat pad that provides comfort on the bike and that you almost don't feel during the run

The core idea in the development of this new suit was to combine the flexibility and fit of our powerhouse Free Sanremo Short Sleeve suit and the performance and comfort of our new PR 2 Speed Suit. The upper part is identical to our regular Free Sanremo suit. The Samremo opening construction doesn't pull you forward, and it makes pee stops easier and lets you open the top up when you feel too hot. The fabrics are quick drying, light, and cool. The bottom benefits from the aero research conducted for our PR 2 Speed Suit project. The new "Ultra" features a completely redesigned short portion with exceptional comfort and aerodynamics. The benefits of this concept with almost no seams and no additional leg gripper will most notably come to light during the concluding marathon of a long-distance triathlon, when comfort and support are key for a successful and strong finish.

WHAT IT IS /PRODUCT FEATURES

Speed top for full-distance racing, or even to use just for the bike leg for improved aero performance. Includes a fastener to attach to shorts.

- Freedom of movement in the water, aerodynamics on the bike, comfort on the run
- Velocity Rev2 aero fabric on front-facing surfaces
- UPF 16 Velocity mesh back blocks 94% of UV light with generous breathability
- 2 rear pockets lie flat and prevent nutrition from bouncing around
- GIRO® flat gripper elastic lies flat on lower back
- SnapLock fastener at lower back to clip to your Castelli triathlon short to prevent riding up during swim or bike leg
- YKK® Camlock® zipper
- Elbow-length sleeves for maximum aerodynamics

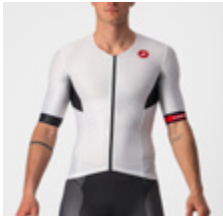

THE RIGHT RACE JERSEY
FOR SPEED AND COMFORT

Some triathletes choose long sleeves for the extra speed. Some for the comfort. Some for sun protection. This jersey gives you all three. The aerodynamic speed is unmatched. It's what Castelli does best. We have a year-round testing and development program with the Norwegian Technical University in Trondheim to make our race gear the slickest around. The comfort is what comes from our expert pattern engineers and soft performance Italian fabrics. We reduce the number of seams so that there is less chafing and less to bother you when you should be concentrating on pounding out the run. Sun protection ... well, you've trained untold hours for this day. We focus on speed, but we still manage to block 94% of UV rays with our back Velocity mesh fabric that doesn't compromise speed, comfort or breathability. You may want to add some sunscreen, but this fabric provides UPF 16 protection, which is a significant help. Your cotton T-shirt is probably UPF 8. Take note of the well-thought-out details: Castelli's generous two pockets lie flat but hold a lot of gear and nutrition. The SnapLock fasteners clip to Castelli shorts to prevent the top from riding up during the swim or bike.

WHAT IT IS /PRODUCT FEATURES

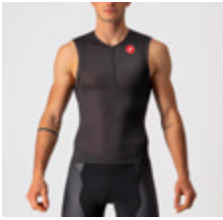

As much speed and comfort as you can get in a traditional sleeveless tri top.

- Freedom of movement in the water, aerodynamics on the bike, comfort on the run
- Velocity Rev2 aero fabric on front-facing surfaces
- UPF 16 Velocity mesh back blocks 94% of UV rays, with generous breathability
- 2 rear pockets lie flat and prevent nutrition from bouncing around
- GIRO³ flat gripper elastic lies flat on lower back
- SnapLock fastener at lower back to clip to your Castelli triathlon short to prevent top from riding up during swim or bike leg
- YKK® Camlock® zipper

A TRI TOP HAS NEVER BEEN THIS COMFORTABLY FAST

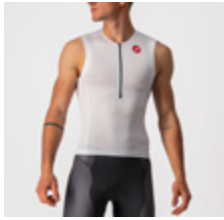

Tri fashion (and the wind tunnel) have pushed toward short-sleeve tops, but we think there's still a place for the traditional sleeveless top. It's more comfortable on the run and cooler in hot weather ... and maybe you're just a traditionalist.

We've packed this top full of features: the front fabric comes straight from our Tour de France winning Aero Race Jersey, and the back fabric offers maximum breathability. The top has two generous pockets for whatever you need to carry. It has SnapLock fastners that clip on to Castelli shorts to prevent the top from riding up during the swim and to keep coverage of the lower back on the bike — then you unclip for added comfort during the run. The YKK® zipper makes adjusting the ventilation easier than ever. Finally, we've taken extra care around the armhole to make it lie flat for speed yet remain soft to prevent chafing.

TRIATHLON DISCIPLINES

WHAT IT IS /PRODUCT FEATURES

Meant to be the most comfortable and lightweight triathlon short for training and racing. Engineered for ultimate long-distance comfort, support, speed, and durability.

- The comfort performance short
- Gradient stretch woven fabric for the right support in the right place
- Extremely lightweight and quick-drying woven fabric
- Integrated gripper elastic at leg ending holds short in place without need for additional silicone gripper
- Laser-etched logos, with Rosso Corsa at center back and black scorpion shadow logos at lower legs
- KISS Tri seat pad is comfortable on the bike and virtually disappears on the run
- SnapLock fastener at waist to clip jersey into place for swim and bike
- Internal pocket at center back for gel

The Premio Tri Speed Short has been designed to provide the ultimate long-distance comfort and to be your favorite short for training and racing. The cycling version of the Premio is our most comfortable short ever, and it was only natural to bring its technology into the sport of triathlon, where comfort is key when racing a long distance. This comfort has been achieved via a minimalist construction and reduced seams and a fabric that changes depending on the needs in various parts of the body. The lower leg has a raw-cut leg ending and rubberized yarns to guarantee a flat grip to keep the leg in place. The four-way stretch provides just the right amount of muscle support. The minimalist laser-etched logos give a premium stealth look.

The SnapLock closure clips to your Castelli top to keep it from riding up. The KISS Tri seat pad is thin enough you don't really notice it on the run.

WHAT IT IS /PRODUCT FEATURES

Innovative fabrics, patterning, and construction make the fastest short-distance race suit.

- Fastest suit for sprint and Olympic-distance racing
- Engineered stretch woven fabric with woven-in leg grippers allows nearly seamless construction for maximum speed in the water
- Polyester mesh stretch woven fabric over chest for better breathability on bike and run
- Necessary seams are bonded rather than stitched to lie flat
- Saddle liner for on-bike comfort
- Rear 40cm YKK® zipper with elastic cord closing at bottom to prevent unintentional opening during swim
- Water-repellent finish for maximum swim speed

DON'T TAKE OUR WORD FOR IT

Internal testing by the German Triathlon Federation (DTU) shows that this is the fastest swimming tri suit they've ever tested. Then Castelli adds the aero speed on the bike and run. You'll get to the finish line faster. The secret is in Castelli's unique engineered stretch woven fabric. Rather than stitching together different fabrics for different functions, we actually change the texture and performance of the fabric in the areas where it needs to perform different functions. This is most evident at the leg opening, where a gripper elastic is woven into the inside of the fabric to hold the leg in place, while the rest of the leg is smooth for speed in the water. This technique allows the lower portion of the suit to be made from a single piece of fabric. And the suit tests fast in the wind tunnel on the bike as well. But the DTU also wanted extra cooling on the upper body for the run, so there's a different fabric on the chest and back that stays cooler and wicks away moisture. This suit was developed for pure speed, and it delivers in every discipline.

ELITE SWIM SKIN
8623082

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XS-3XL	229 g (M)	

WHAT IT IS /PRODUCT FEATURES

Innovative patterning and fabrics to create an extremely comfortable and almost seamless swim skin for best swim performance in non-wetsuit races.

- Designed to be worn over your race suit in non-wetsuit races
- Engineered stretch woven fabric with woven-in leg grippers allows nearly seamless construction for maximum speed in the water
- Necessary seams are bonded rather than stitched to lie flat
- Rear 40 cm YKK® zipper with elastic cord closing at bottom to prevent unintentional opening during swim
- Water-repellent finish for maximum swim speed

Here it is: Castelli's very first swim skin. Perfect for Kona or any other non-wetsuit race of the season. During the process of creating the fastest short-course race suit for DTU for Tokyo, we immediately realized that we were only one step away from something revolutionary. New possibilities in the choice of materials open up when breathability isn't a top priority anymore, as it is for a race suit. We've used our engineered stretch woven fabric with woven-in leg grippers and designed a nearly seamless construction for maximum speed in the water. The swim skin's softness and stretch provide enormous comfort, and it supports your movements without skin irritation. The necessary seams are sealed on the inside to avoid any drag in the water. Now you can rely on the best-performing race apparel from your favorite triathlon brand for all three disciplines.

WHAT IT IS /PRODUCT FEATURES

Innovative fabrics, patterning, and construction make the fastest short-distance race suit.

- Fastest suit for sprint and Olympic-distance racing
- Engineered stretch woven fabric with woven-in leg grippers allows nearly seamless construction for maximum speed in the water
- Polyester mesh stretch woven fabric over chest for better breathability on bike and run
- Necessary seams are bonded rather than stitched to lie flat
- Bonded internal 2nd layer modesty panels at critical points
- Open back construction
- Saddle liner for on-bike comfort
- Water-repellent finish for maximum swim speed

DON'T TAKE OUR WORD FOR IT

Internal testing by the German Triathlon Federation (DTU) shows that this is the fastest swimming tri suit they've ever tested. Then Castelli adds the aero speed on the bike and run. You'll get to the finish line faster. The secret is in Castelli's unique engineered stretch woven fabric. Rather than stitching together different fabrics for different functions, we actually change the texture and performance of the fabric in the areas where it needs to perform different functions. This is most evident at the leg opening, where a gripper elastic is woven into the inside of the fabric to hold the leg in place, while the rest of the leg is smooth for speed in the water. This technique allows the lower portion of the suit to be made from a single piece of fabric. And the suit tests fast in the wind tunnel on the bike as well. But the DTU also wanted extra cooling on the upper body for the run, so there's a different fabric on the chest that stays cooler and wicks away moisture. This suit was developed for pure speed, and it delivers in every discipline.

CASTELLI TRIATHLON

CORE W SPR-OLY SUIT
8620098

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XS-XL	149 g (S)	  

WHAT IT IS /PRODUCT FEATURES

Created for sprint and Olympic-distance events, bringing speed and comfort along with durability to last your full race season.

- Short-distance race suit for speed and comfort
- Endurance Evolution fabric is lightweight but supportive
- Close-cut top with longer legs
- Reduced seaming for faster swims
- Rear envelope pocket stays closed in the water but makes it easy to carry a gel
- Fleece seat liner smooths out the bike ride while disappearing on the run

ROSSO CORSA

ELITE W SWIM SKIN
8623087

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XS-XL	149 g (S)	

WHAT IT IS /PRODUCT FEATURES

Innovative patterning and fabrics to create an extremely comfortable and almost seamless swim skin for best swim performance in non-wetsuit races.

- Designed to be worn over your race suit in non-wetsuit races
- Engineered stretch woven fabric with woven-in leg grippers allows nearly seamless construction for maximum speed in the water
- Necessary seams are bonded rather than stitched to lie flat
- Rear 40 cm YKK® zipper with elastic cord closing at bottom to prevent unintentional opening during swim
- Water-repellent finish for maximum swim speed

Here it is: Castelli's very first swim skin. Perfect for Kona or any other non-wetsuit race of the season. During the process of creating the fastest short-course race suit for DTU for Tokyo, we immediately realized that we were only one step away from something revolutionary. New possibilities in the choice of materials open up when breathability isn't a top priority anymore, as it is for a race suit. We've used our engineered stretch woven fabric with woven-in leg grippers and designed a nearly seamless construction for maximum speed in the water. The swim skin's softness and stretch provide enormous comfort, and it supports your movements without skin irritation. The necessary seams are sealed on the inside to avoid any drag in the water. Now you can rely on the best-performing race apparel from your favorite triathlon brand for all three disciplines.

PROGETTO X²
SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISSair²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

KISSTRI

Specifically designed for the triathlete. Minimum bulk doesn't get in the way during the swim and run legs. Extra fast drying foam prevents chafing on the bike.

A SMALL GESTURE CAN MAKE A BIG DIFFERENCE

At Castelli we know how important it is to make a contribution to our planet in terms of sustainability and environmental impact. This catalog is the result of small steps taken with a view toward making more responsible choices, and we have decided to work with partners who can respect this vision of ours. We have chosen more natural papers, originating from forests that are managed more carefully, and inks and printing methods that ensure the lowest possible ecological impact and easy recyclability once this catalog has served its purpose. It's a small contribution to a healthier planet.
