ROSSO CORSA

AERO RACE 6.1 JERSEY
4233000

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	109 g (M)	18-35°C / 64-95°F

WHAT IT IS /PRODUCT FEATURES

Class-leading aerodynamics is only the beginning. This jersey is engineered for all-day comfort with excellent moisture management, comfortable fit and three full-size pockets for cargo.

- CFD-based fabric placement and seam construction
- Engineered for aero efficiency at 30 to 55 km/h
- Airflow shoulder construction
- Velocity Rev2 fabric on front and sleeve
- 3D mesh back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- YKK® Vislon® zipper
- Drop tail allows perfect pocket placement while keeping jersey fitting well at waist
- 3 rear pockets

THE FIRST
AERO JERSEY PROJECT
WAS CALLED SPLIT SECOND

When Castelli engineered the first aero jersey for road racing back in 2006, everyone thought we were crazy. Back then, aero was only for TTs. Performance clothing meant moisture management. And you could win the Tour de France with a baggy jersey that was little more than a polyester T-shirt. Even our aerodynamic consultants expected limited gains, so we named the jersey Split Second, though, like now, we thought even small gains were worth pursuing. In the end the gains were pretty substantial, and we completely revolutionized the look of the pro peloton. We're now on the sixth major revision of our aero jersey. Each generation has become more aero and better fitting. The Aero Race 6.1 benefits heavily from CFD analysis of wake flow in the riding position for fabric and seam placement. It also benefits from pro riders' feedback, as we've worked to make the jersey comfortable for their long hours of training and then racing in every possible weather condition. Version 6.1 is our most aero and most comfortable Aero Race Jersey yet.

ROSSO CORSA

CLIMBER'S 3.1 JERSEY
4233002

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	106 g (M)	22-40°C / 72-104°F

WHAT IT IS /PRODUCT FEATURES

Created for the hottest days, this jersey allows ample airflow, is quick to dry and blocks more than 90% of UV rays on your back. A great choice for your long summer rides, or add a base layer and it's a three-season jersey.

- CFD-based fabric placement and seam construction
- Engineered rapid cooling, light weight and aero efficiency
- Flusso 3D fabric on front and side panels
- StradaPro 3D back for breathability
- Air Mesh sleeves with raw-cut sleeve ending
- YKK® Vislon® zipper
- 3 rear pockets

LIGHT, DRY AND FAST

Racing in the Alps in July is for a select few, but the products that come out of that experience are absolutely amazing for the rest of us. We made this jersey for the rigors of pro racing in hot weather and in the high mountains. It's extremely lightweight and features open fabrics for additional airflow and quick drying. And by using the same patterning as the Aero Race Jersey, we make sure you get maximum aerodynamics as well. Even if you don't race over the Galibier this summer, you'll love the soft stretch and great fit of this jersey, and you'll appreciate how it keeps you cool on the hottest days. Maybe you'll even do like the pro riders do and use it on wet days because it doesn't soak up any moisture. And you'll certainly appreciate that the fabric on the back blocks more than 90 percent of UV rays.

LONG SLEEVE THERMAL JERSEY
4233004

SIZES
XS-3XL

WEIGHT
245 g (M)

TEMPERATURE RANGE

12°-18°C / 54°-64°F

WEATHER CONDITIONS

Made to keep your core warm while providing enough ventilation to keep you from overheating. Brushed fleece inside for warmth. Stretch side panels keep it fitting perfectly.

- Mid-weight Warmer X-Stretch brushed fabric
- Ideal for cool conditions, with or without a vest
- Race cut with highly elastic fabric provides close-to-body fit without feeling tight
- Drop-pocket construction for better fit around waist and better pocket position
- Covered YKK® Vislon® zipper
- 3 rear pockets

The thermal jersey is the first step into cool weather clothing, where Castelli has set the standard for what clothing can do. We've taken the same approach here. You'll wear this jersey on cool days, so we've given it a brushed fleece backing but kept the fabric stretchy for a great fit. Since you're using it in conditions that aren't cold enough for a jacket, we've engineered the fabric to let some air in so you don't overheat. We think a jersey like this should be pure function, so you've got our three spacious rear pockets, silicone gripper elastic, and easy-sliding YKK® Vislon® zipper.

SORPASSO RoS BIBTIGHT
4233200

SIZES
XS-3XL

WEIGHT
302 g (L)

TEMPERATURE RANGE

0°-12°C / 32°-54°F

WEATHER CONDITIONS

Made for long hours in the widest range of conditions, this tight features our ultra-stretchy, warm and water-repellent Nano Flex 3G fabric with the extra warmth of Nano Flex Xtra Dry on the hips and thighs, along with an anatomical cut and the Progetto X² Air Seamless seat pad for long-distance comfort.

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- Nano Flex Xtra Dry fabric panel on upper front and thighs for extra warmth, and on back to protect from road spray
- Anatomic cut to hips and knee
- Reflective inserts for maximum visibility from behind
- Lie-flat elastic bib straps
- YKK® Camlock® zippers at ankles
- Progetto X² Air Seamless pad for long hours in the saddle

The name of this tight, Sorpasso, means “overtaking” in Italian. That's what we've tried to do with this tight, to make it a bit faster, better, more comfortable. It's made to be technical equipment for riding in the widest range of winter conditions. The main part of the tight uses our Nano Flex 3G fabric, the third generation of our nanotechnology fabric treatment that adds a high level of water repellency without affecting the breathability, stretch or warmth of the fabric. You get a highly stretchy, compressive fit that moves with you, focusing on warmth and comfort. But then we add a few panels of the Nano Flex Xtra Dry fabric to provide a bit more wind protection and warmth in the front panel and over the thighs, and in the back for extra protection from road spray. It's not only about the fabrics: anatomical patterning gives a bend at the knee and the hip, while the seamless bib straps lie flat and securely keep everything in place. Our generously padded Progetto X² Air Seamless seat pad make long rides more comfortable, and you have multiple reflective panels to keep you visible. We've designed this as the go-to tight for a full winter's riding.
