DEVELOPED AND TESTED WITH THE PROS

Castelli is dedicated to making the fastest clothing in the world.

We know that race results come through relentless attention to the smallest of details.

So we approach every garment questioning how we can make it faster.

We do the basic research, then we test the concepts internally, then we test them with professional athletes and in the wind tunnel.

Right from the start of our triathlon activities we partnered with professional athletes. Together with them we are continuously improving and innovating our triathlon range to make sure that our athletes have the best and fastest equipment for their races.

Servizio Corse

AVAILABLE FOR YOUR TEAM

Already much of the Castelli range consists of products that we've engineered for the highest levels of pro racing. And those products in the collection that are not made for WorldTour racing are still heavily influenced by the feedback and knowledge we acquire from working with the pros.

And you can have the exact same pieces as the professional athletes. Not less expensive replicas, but the exact same pieces made using the same fabrics, components, fit and finish, **by the same people who produce the pieces you see on the pros on TV.**

This booklet will help you decide which garments you need to help you achieve your racing goals.

ALL OUT SPEED SUIT 4300314

SIZES: XXS-3XL	DISTANCE
WEIGHT: 210g (Large)	LONG
	HALF
KISS TRI	OLYMPIC
	SPRINT

TRIATHLON DISCIPLINES   

Our fastest long-course race suit
Upper portion built from the T1:Stealth Top for all-out aero performance on the bike
Short portion based on Free Tri Short for comfort on the bike and support on the run
Sanremo front construction allows nature breaks and comfort
2 rear pockets
KISS Tri seat pad
GIRO Air leg gripper

IT SHOULDN'T BE
A SURPRISE

When we originally designed the T1:Stealth top we imagined it being put on in T1 and coming off in T2. Then we saw swimming and running in it. Marino Vanhoenacker was the first one to ask for a Sanremo style suit with the T1:Stealth upper part. He helped us work through the development phase, then debuted it at IM Kagenfurt for his 8th victory in that race. This suit is no-compromise speed equipment. It's not the most flexible for the swim, nor the coolest in the run. But if all-out speed is what you want, then you want this suit.

2 rear pockets can hold nutrition and insulation
Sun protection from UPF 16 and up
Lightweight to prevent overheating
SnapLock fasteners to attach to Free Tri Short

QUEEN K AND
WIND TUNNEL TESTED!

Aerodynamic race shirt to reduce aero drag for the bike leg. We created this top to shorten your bike leg. And wind tunnel testing shows that an Ironman bike leg will go by almost 6 minutes quicker compared to our sleeveless Free top. The second generation now fits even better and includes updated pocket designs for easier access and a new waist to stay flatter and even more aero.

FREE SPEED RACE JERSEY 4300292

SIZES: XXS-3XL	DISTANCE
WEIGHT: 107g (Large)	LONG

YKK® Camlock® zipper

FreeAero 2 hydro- and aero-optimized pockets

Elastic shoulder area for swim and run comfort

SHORT-SLEEVED
ADVANTAGE
AND TWO-PIECE
CONVENIENCE

Many top stars of the tri scene don't want to race without short-sleeved kits any longer. Depending on the weather or personal preferences, our athletes can choose from different short-sleeved options. Those who prefer a two-piece combo will get another option now.

While the updated T1:Stealth Top 2 is a no-compromise piece especially designed for the bike leg, the all new Free Speed Race Jersey is meant to be worn for the entire race, from start to finish. The short-sleeved construction ensures good aerodynamics on the bike and additional sun protection. Its real benefits come into play during the run. The highly breathable and stretchy fabric allows excellent freedom of movement and breathability. For those who opt to swim without any race top underneath their wetsuit, the Free Speed Race Jersey can be put on instantly in T1, even with wet skin, thanks to its full-length front zip.

Elbow-length sleeves for aerodynamics on bike
Castelli-innovated Sanremo front construction allows easy nature breaks and ventilation in one-piece race suit
Instadry Speed fabric on short is fast in the swim with minimal water absorption
KISS Tri seat pad is comfortable on the bike and virtually disappears on the run
2 small pockets on hip for nutrition during run
GIRO Air leg gripper elastic

ALL IN ONE

The comfort and speed of a one-piece suit, most of the convenience of a two-piece suit, and most of the speed of a T1:Stealth on the bike leg. No wonder it's the pros' choice for most races. We've sweated the little details—from fabrics to construction to fit and cooling—even the details you won't notice until you're on that last lap in the run.

THE LONG DISTANCE
1 PIECE SUIT

This suit is for you if you race 70.3 and Ironman distance and like the convenience of a 2 piece suit but the comfort of a 1 piece. The Sanremo front makes it easy to ventilate, easy to respond when nature calls, and maintains the aero performance of a 2 piece suit. The full pockets on the back lay flat for the swim while providing plenty of space for carrying nutrition on the bike or run.

FOR OLYMPIC
TO IRONMAN DISTANCES

We made this suit to be compliant with ITU rules but with the fabrics, aerodynamics and cargo-carrying capacity to be ideal for 70.3 races, and even to win the odd Ironman World Championships, like Fred Van Lierde did in this suit in 2013. It has the fabrics, the pockets and the KISS Tri seat pad of our Free long-distance race suits to offer exceptional performance in a wide variety of races.

	SPRINT

TRIATHLON DISCIPLINES

A-Vent 70g 100% polyester microfiber fabric
Open-mesh knit for excellent ventilation
UPF 15 rating blocks 93% of UV rays
Looser fit for airflow between top and skin
Self-fabric collar

MADE FOR ALI'I DRIVE

This product comes into the Castelli lineup as a direct request from Timothy O'Donnell when he wanted to do better than his fifth place Kona finish. The objective is clear: keep cool and comfortable during the run. We took our insanely light and ventilated A-Vent fabric and gave it a loosish cut to allow maximum airflow between the top and the body. The top weighs next to nothing but covers a wide range of conditions: the fabric is excellent at keeping you dry when you want it too but really shines when you need cooling and can pour water over it at the aid stations.

UPF 50+ ARM SKINS 4516036
(NON-CUSTOMIZABLE)

SIZES: **S-XL**

SURPRISINGLY USEFUL

We can officially only rate these warmers at UPF 50+, but in our laboratory tests they actually blocked 99.8 percent of damaging UV rays. We used a polyester base that is not only more effective than nylon at blocking UV rays but is also much better at keeping you dry, which means these skins are better in both cooler and warmer conditions. We've kept the construction very clean to eliminate seams that can rub, and we used our double-sided silicone elastic to make sure they stay in place. They fold up extremely small, so they're great to stick in your pockets for your next big mountain day.

HOW IT WORKS

01. CONTACT

To request information, please contact Castelli Servizio Corse by e-mail: please contact the Castelli Office in your country (www.castelli-cycling.com), or send your request to Castelli Servizio Corse, castelli.team@mvc46.eu or visit us at www.serviziocorse.com

04. FIT KIT REQUEST

We will put you in contact with our representatives in your area so that you can see samples of all the pieces and check sizes, fit, and materials.

07. PRODUCTION

Once approvals for art, color and units, and deposit money have been received production will begin. No additional changes can be made at this time. Completion time is 8 weeks from the day approvals are received.

02. GET A QUOTE

To request a quote, download and fill out the order form from serviziocorse.com with the styles we offer. Indicate quantities needed per style and submit via e-mail. Size breakdowns are helpful, but unnecessary for a quote. You will receive the requested quote shortly.

05. FINAL ORDER SUBMISSION

Submit your final order and you will be provided with a PDF copy to approve. This is your last opportunity to make revisions or correct errors.

08. PRODUCTION MINIMUMS

The production minimum for any item is 10 pieces. For reorders, the minimum is 10 pieces per item.

*Product information and images, as well a design templates, can be found at www.serviziocorse.com.

03. DESIGN

Completed designs prepared on Castelli templates need to be submitted with your quote request. For every logo not supplied in vector-graphic format, a small fee will be incurred. Vector formats include: .ai, .eps, and .pdf (open).

After submitting your design and quote, you will receive shortly an electronic art file of your final design. A full-size color proof printed on fabric can be ordered for an additional fee.

06. DEPOSIT

Deposit equal to 30% of the total order will be requested after review of the quote in order to begin the graphic design.

FABRICS AND PAD TECHNOLOGY

SPEEDBREAK

This ventilated and light weight fabric is ideal for the front of our Free tri suits to maximize aerodynamics on the bike and to keep you as cool as possible on the run. The micro mesh front allows ample air flow and has just the right stretch to keep you comfortable.

VELOCITY FABRIC

Silky and soft, Velocity fabric provides maximum comfort the entire race. Lightweight polyester fits like a second skin for maximum aerodynamics and dries almost instantly.

A-VENT

We chose this fabric because its semi open knit structure allows the air to flow through and cool your body. It's extremely light weight, and with 100% polyester yarns it doesn't stay wet for long. We like the way it cools the body if you pour water over it, yet otherwise is very good at staying dry.

VELOCITY MESH

The 3D weave reduces contact area with your skin to provide excellent wicking. Used in key areas to improve boundary layer aerodynamics.

PROSECCO STRADA

Prosecco Strada is a major step forward in classic jersey fabric. Its controlled stretch allows designers to engineer a perfect fit. Prosecco hydrophylic treatment helps keep you dryer and more comfortable than ever before.

INSTADRY SPEED FABRIC

Gives you just enough compression to support muscles but never constricts movement. Doesn't absorb moisture so it stays light in the water.

KISS^{TRI}

Multi-density KISS TRI-pad foam is optimized for aerobar position on the bike, and practically disappears during the swim and run.

01. SEAMLESS SKIN CARE LAYER

A super soft, brushed microfiber top that maximizes comfort and fit. Seamlessly engineered to eliminate chafing and abrasion. Flexible to move with you. Bacteriostatic treatment to avoid saddle sores and infection.

02. MULTI DENSITY FOAM

Specifically designed for the triathlete. Minimum bulk doesn't get in the way during the swim and run legs. Extra fast drying foam prevents chafing on the bike.
