# MADE TO PERFORM IN SUNNY, DRY CONDITIONS

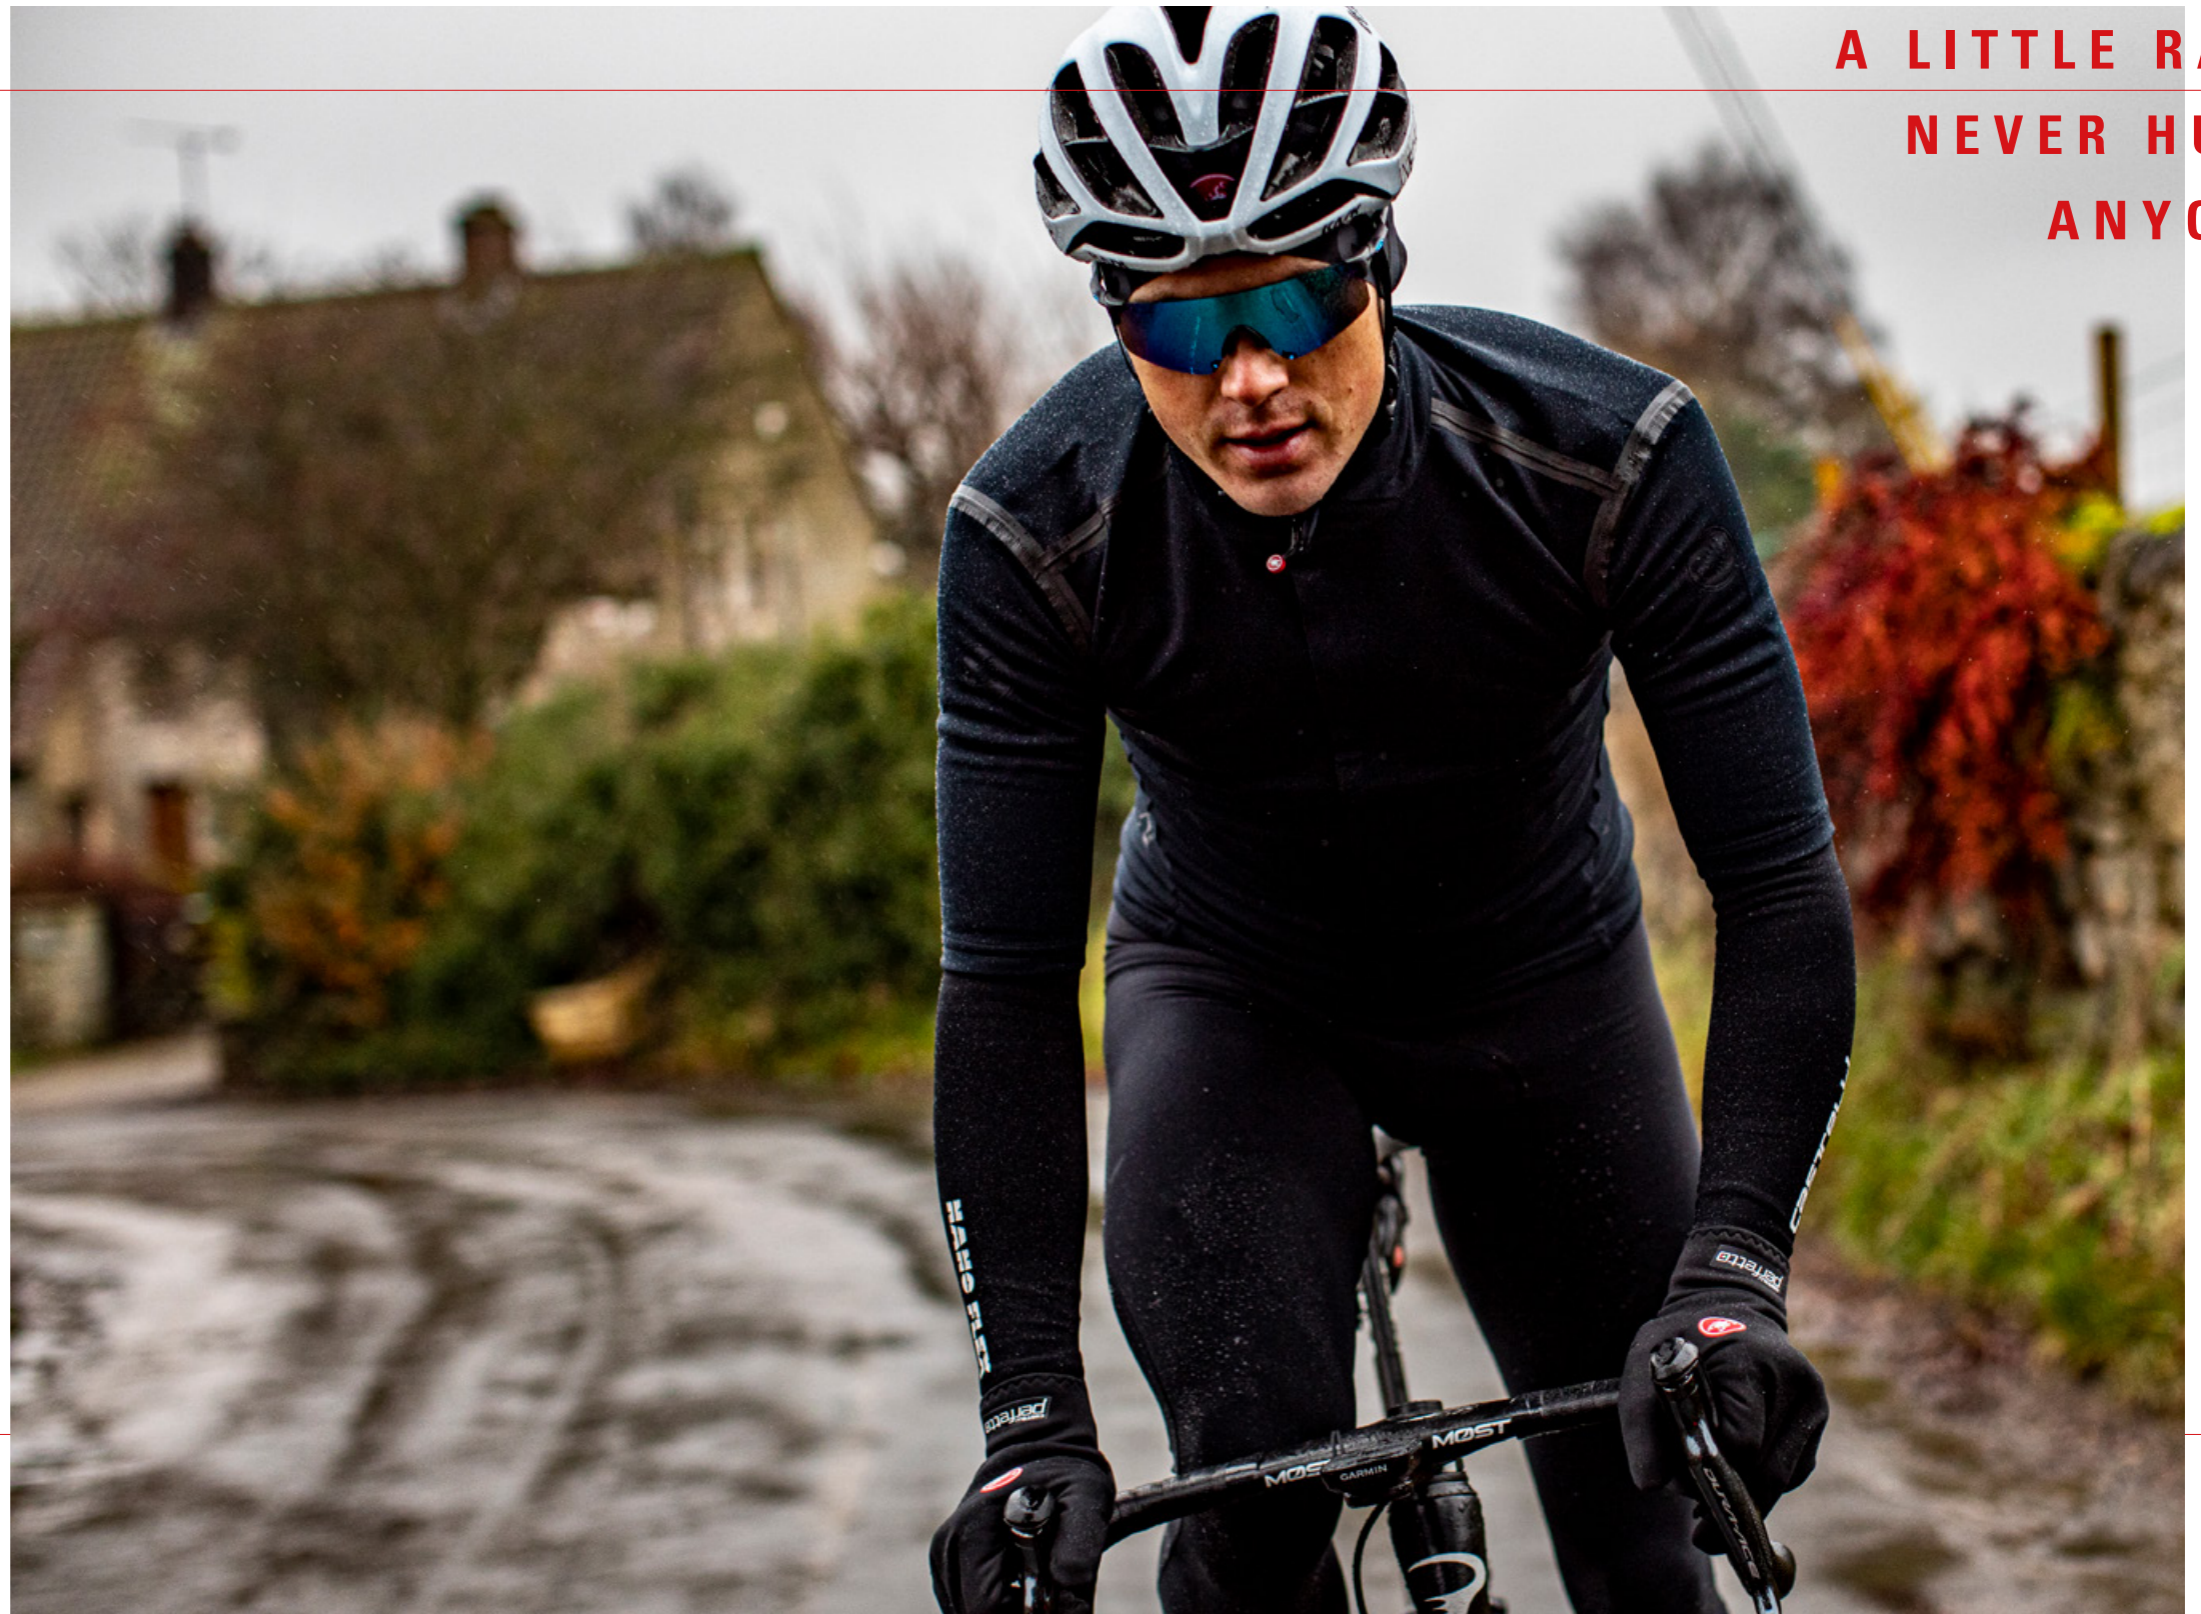

The products carrying the RoS badge are our best products ever for dry conditions. Don't let the name fool you: these products are designed to excel in cool to cold conditions even when there's not a cloud on the horizon. We focus on wind protection, ventilation, breathability and just the right amount of insulation. Even if you're lucky enough to live in an area that sees little rain, or you decide to stay indoors when bad weather strikes, the SHINE part of the Rain or Shine name is your guarantee that these are our best dry-weather products.

The RoS badge tells you that these products will let you laugh off surprise rain showers, mist and wet roads. Now you don't have to compromise dry-weather breathability and comfort to add a high level of water protection. When we say Rain or Shine we mean that you can stay warm, comfortable and mostly dry in damp conditions, in road spray from the group, and even under persistent rain for an hour or so. RoS is perfect for mixed conditions that might include the occasional shower, but we don't sacrifice dry-weather breathability for complete impermeability. For nonstop rain conditions we still reach for a rain shell, but for all the other days RoS takes the guesswork out of deciding what to wear.

A LITTLE RAIN  
NEVER HURT  
ANYONE

# ALPHA R o S 2 JACKET

This is the ultimate winter jacket. Every detail is designed to let you ride longer and in complete comfort throughout the winter months.

## DUAL LAYER CONSTRUCTION

We invented a double-layer construction that allows you to open an outer wind-protection layer while keeping the insulation layer closed and thereby allowing airflow inside the jacket to evacuate moisture while avoiding direct contact with the skin. On a long climb we'll completely open the outer layer to allow moisture to escape, and when we start the descent we close the outer layer and are completely dry inside.

## SELECTIVE SEAM TAPING

Waterproof seam taping on critical seams around the shoulder together with water-resistant **GORE-TEX INFINIUM™ WINDSTOPPER®** fabric keep you dry through mist, wet roads, and even incessant light rain. Other seams are hidden out of direct water flow and with the water-repellent treatment on the fabric it's sufficient to prevent most moisture from entering.

## NEW WRIST CLOSURE

New for this year is an innovative double-layer wrist opening with an inner layer to go under your glove that seals tight to your wrist, and an outer layer that goes over your glove so that any rain will roll down the outside of the glove and not end up inside.

## BACK VENTILATION

There are two vents on the back to let moisture and heat escape. You won't feel any cold coming in, but they significantly help keep you drier on the inside.

# SORPASSO R0S BIBTIGHT

The name of this tight, Sorpasso, means “overtaking” in Italian. That’s what we’ve tried to do with this tight, to make it a bit faster, better, more comfortable. It’s made to be technical equipment for riding in the widest range of winter conditions.

## A CORE OF NANO FLEX

The main part of the tight uses our **Nano Flex 3G** fabric, the third generation of our nanotechnology fabric treatment that adds a high level of water repellency without affecting the breathability, stretch or warmth of the fabric. You get a highly stretchy, compressive fit that moves with you, focusing on warmth and comfort.

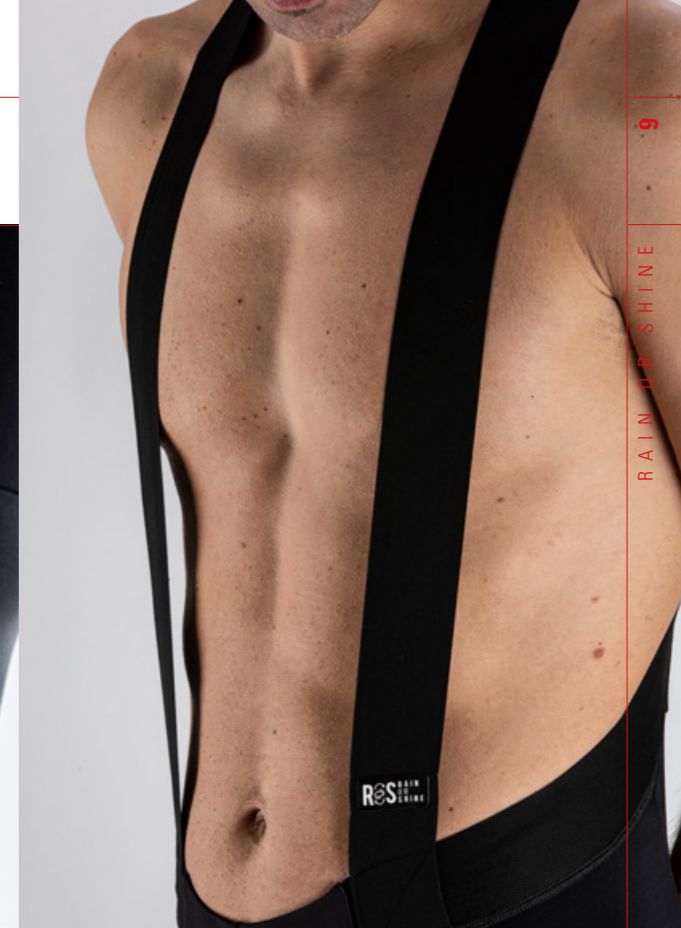

But then we add a few panels of the **Nano Flex Xtra Dry** fabric to provide a bit more wind protection and warmth in the front panel and over the thighs, and in the back for extra protection from road spray.

## EVERY DETAIL MATTERS

Anatomical patterning gives a bend at the knee and the hip, while the seamless bib straps lie flat and securely keep everything in place.

Our generously padded **Progetto X<sup>2</sup> Air seamless** seat pad make long rides more comfortable, and you have multiple reflective panels to keep you visible.

# BETA ROS JACKET

As summer turns to autumn we still have a few months of amazing riding, but when we have to start dressing warmer we miss the freedom of wearing just a jersey. That's why we made this jacket.

## IT'S A JACKET BUT FITS LIKE A JERSEY

We used the lightest, stretchiest fabrics we have to make a jacket that cuts out most of the wind, remains highly breathable, provides remarkably high levels of water protection, and just basically disappears so you don't really notice it.

## THIS IS A PERFORMANCE PIECE

The minimalist construction is focused on performance. There's nothing superfluous on it, unless you consider the big reflective panel on the back to be unnecessary. We've given it a close-to-body fit so there's no fabric flapping in the wind, which also helps keep the jacket warmer. The pockets are generous and easily reachable, the zip slides easily, and the logoing is discreet.

# TUTTO NANO RoS JERSEY

Ready to move up to a better cool-weather jersey?  
The Tutto Nano RoS Jersey features a number of upgrades compared to what you've probably been using.

## MIRACLE FABRIC

The first thing you'll notice is the stretch fit that moves perfectly with you, made possible by the **Nano Flex 3G** fabric, the same fabric we use to make our arm and leg warmers as well as our Sorpasso tights.

This close-to-body fit actually makes the jersey warmer by avoiding fabric flapping in the wind. Castelli's proprietary nanotechnology water-repellent finish gives this jersey the Rain or Shine badge: on dry days you won't even know it's there, but when you get some light rain or wet roads then you stay drier.

## 360° REFLECTIVITY

Third, thanks to the reflective panels on the shoulders and lower back you have the guarantee of be seen even in low light conditions.

## WARMER YET LIGHTER

The tighter knit of the fabric compared to traditional thermal jersey fabrics. It lets less air through so you stay warmer without having to use a heavier fabric.

# JACKETS CHART

**ALPHA RoS 2 JACKET**  
4520502

Castelli's ultimate jacket, bringing warmth, breathability and a high level of rain protection along with a soft, comfortable fit.

**ROS RAIN OR SHINE**

☀️ ☁️ ☔️ ❄️ 🌀

-5°-10°C / 23°-50°F

**ALPHA RoS 2 LIGHT JACKET**  
4520503

Castelli's best jacket for mild conditions, with front wind protection, light insulation, maximum breathability, and water repellency to keep you dry in mist, light rain or spray from wet roads.

**ROS RAIN OR SHINE**

☀️ ☁️ ☔️ 🌀

7°-15°C / 45°-59°F

**BETA RoS JACKET**  
4520505

This thin wind and splash barrier provides a surprising amount of warmth while being so light and stretchy you'll hardly notice it.

**ROS RAIN OR SHINE**

☀️ ☁️ ☔️ 🌀

8°-18°C / 46°-64°F

**DOUBLE ESPRESSO JACKET**  
4519559

Maximum warmth with a slightly more generous fit and elegant finishing details make this a jacket to live in all winter.

**ROS RAIN OR SHINE**

☀️ ☁️ ❄️ 🌀

-5°-8°C / 23°-46°F

**RADDOPPIA 2 JACKET**  
4519506

Made for serious winter riding where full wind protection, serious insulation and 360° reflectivity are required.

**ROS RAIN OR SHINE**

☀️ ☁️ ❄️ 🌀

0°-10°C / 32°-50°F

**PROLOGO JACKET**  
4520504

Great for cool spring and fall conditions where you want to keep the cool wind out but not feel weighed down.

**ROS RAIN OR SHINE**

☀️ ☁️ ❄️ 🌀

6°-14°C / 43°-57°F

**MORTIROLO VI JACKET**  
4520506

The perfect jacket for mild winters or for the rider who tends to overheat.

**ROS RAIN OR SHINE**

☀️ ☁️ ❄️ 🌀

6°-14°C / 43°-57°F

**TRANSITION 2 JACKET**  
4520507

This mid-weight wind jacket is perfect for those autumn and spring rides when you want to cut the chill but don't want to overheat.

**ROS RAIN OR SHINE**

☀️ ☁️ 🌀

8°-16°C / 46°-61°F

**PERFETTO RoS LONG SLEEVE**  
4519500

The long-sleeve Gabba is one of our most versatile pieces: wind and water protection with a wide temperature range depending on how you layer under it.

**ROS RAIN OR SHINE**

☀️ ☁️ ☔️ ❄️ 🌀

4°-14°C / 39°-57°F

**PERFETTO RoS CONVERTIBLE JACKET**  
4519501

The two-in-one jacket: it's a Perfetto Long Sleeve, the most versatile jacket in the Castelli line, but the sleeves zip off to turn it into a short-sleeve Gabba.

**ROS RAIN OR SHINE**

☀️ ☁️ ☔️ ❄️ 🌀

**WHAT IT IS**

Castelli's ultimate jacket, bringing warmth, breathability and a high level of rain protection along with a soft, comfortable fit. With a fresh update in its third generation, this jacket leads the way in demonstrating how a winter jacket should perform.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Rain or Shine engineering makes this our best jacket ever for dry conditions while also providing significant rain protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 150 fabric for wind protection with high breathability and effective rain protection
- Reduced seaming with seam sealing on shoulders reduces chances for water to enter through stitching
- Double-layer Alpha construction separates insulating layer from wind/water barrier to let you better regulate ventilation
- Water-resistant YKK® Vislon® zipper slides easily for better regulation of airflow
- Raw-edge waist with silicone gripper lies flat and seals out wind
- Double-layer cuff integrates with glove to prevent cold wind or water from entering at wrist
- Stretch fabrics with advanced patterning make for excellent close-to-body fit that still accommodates a wide range of body types
- Back ventilation
- 3 rear pockets with reflective laser-cut drain holes
- Zippered secure side pocket for valuables

**DOUBLE ESPRESSO JACKET**

4519559

S-3XL

533 g (Large)

-5°-8°C / 23°-46°F

**WHAT IT IS**

This is our warmest jacket for maximum comfort during cold-weather riding. Thanks to the two-layer construction featuring a full GORE-TEX INFINIUM™ WINDSTOPPER® outer layer with a separate fleece inner layer, winter riding has never been so luxuriously warm.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Allover GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch fabric has brushed fleece inner layer for extra warmth
- Articulated shoulder for perfect on-bike fit
- Zippered chest pocket for keys and money
- Zippered ventilation openings
- 3 rear pockets
- Reflective inserts at back

085  
LIGHT BLACK/RED

**ENJOY WINTER**

We've all been there: suffering through our cold-weather training because we should, not because we wanted to. We built this jacket to be warm and comfortable in those cold winter conditions. And to make you look really good doing it, so you can show that you're not the guy suffering.

We've used our lightweight weatherproof GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch fabric layered over a separate brushed microfleece insulation layer. The cut is slightly larger so that it moves with you and you can add an extra layer for super-cold conditions. We've built in articulated shoulders for greater ease of movement and shaped the collar to close comfortably around the neck. You have three ample rear pockets plus a secure zippered pocket on the chest for keys or money.

Think of this as our speed jacket: it'll help you through your January and February sessions so that you'll beat them all in July.

RESCUE BLUE WHITE CELESTE

414  
SAVILE BLUE WHITE RED

This jacket is made for cozy riding in cool to nearly cold conditions but with extra emphasis on letting excess heat and sweat escape through the fleecy Warmer fabric back. It's a construction we've been using for a few years now, and you may know it from our Mortirolo jacket. What sets this jacket apart is the bold use of color, loosely inspired by the classic three-color national jerseys of yesteryear. In the past few years, jackets from all brands have trended toward a single solid color, so we felt it was time to change that. You still get Mortirolo-level protection, but you'll stand out on your next winter group ride.

**MORTIROLO VI JACKET**

4520506

S-3XL

377 g (Large)

6°-14°C / 43°-57°F

**WHAT IT IS**

The perfect jacket for mild winters or for the rider who tends to overheat, this piece features our warmly insulated GORE-TEX INFINIUM™ WINDSTOPPER® fabric on the front and sleeves while the back forgoes the membrane to let moisture escape. It's a non-race-fit jacket to fit most body shapes.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast fabric with fleece liner as main body fabric
- Embossed contrasting panel across chest
- Warmer back allows heat and moisture to escape
- Reflective panel below pockets for maximum visibility

This jacket is the perfect companion to a Velocissimo or Entrata tight for cool fall days or even full winter for those of you living in warmer climates. For the front of this jacket we've used the same fabric as on our pro-level Gabba jacket, but in this case we've paired it with a fleece back for extra breathability and we've given it a more generous cut for easier wearing. The details are there, from the perfectly placed and sized three rear pockets to the silicone gripper elastic and the YKK® Vislon® zipper for easy opening and closing. Make the transition from summer to fall easier than ever.

- Zippered ventilation opening on side of chest
- 2 rear pockets with pump sleeve are easily accessed with gloved hands

*LOWER BODY*

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- Nano Flex Xtra Dry fabric panel on upper front and thigh for increased warmth
- Anatomic cut to hip and knee
- Reflective panels at ankle for maximum visibility from behind
- YKK® Camlock® zipper at ankle

**710**  
LIGHT BLACK REFLEX

The new-for-2020 Sanremo RoS Thermosuit brings together two of our most functional and comfortable products: the upper part is based on the Perfetto RoS Long Sleeve jacket, while from the waist down you get the new Sorpasso RoS Tight.

If you're reading this then you're probably already familiar with both of those products, which offer our best mix of warmth, comfort, and protection from wind and light rain while remaining light and breathable.

By literally joining these two products at the waist, we add a bit of comfort by eliminating some layers at the waist while also preventing cold air from coming in. Keeping the air out allows you to dress lighter. And, of course, in the stealth black colorway it looks like you mean business when you show up to the January group ride.

TEAM  
INEOS  
OFFICIAL PARTNER**WHAT IT IS**

The Idro Pro Jacket is workwear for the pros. If your job (or passion) means long rides in inclement weather, this jacket is just what you need. It uses the amazing GORE-TEX® SHAKEDRY™ fabric with extra features to make it more functional for all-day use, yet it still packs away into a jersey pocket.

**WEATHER CONDITIONS****PRODUCT FEATURES**

- GORE-TEX® SHAKEDRY™ 2-layer ultralight waterproof breathable fabric
- Stretch Gore-Tex® water- and windproof inserts at elbow, shoulder and side panel
- Stretch wrist closure eliminates flapping fabric yet facilitates ingress/egress
- YKK® Vislon® waterproof zipper
- 2 external rear pockets
- Silicone elastic waistband
- Fully taped seams for total waterproof construction
- Reflective trim
- Packs up small to easily store in jersey pocket

**WHAT IT IS**

Mid-weight GORE-TEX® shell jacket for all-day riding in the rain, cut to fit over insulation layers but with Topo stretch panels to help the jacket move with you. This is serious equipment for your wettest, nastiest days on the bike, when anyone else would stay inside.

**WHEATHER CONDITIONS****PRODUCT FEATURES**

- 3-layer mid-weight GORE-TEX® fabric for total rain protection
- Stretch panels in GORE-TEX® Topo fabric bring better fit in shoulders and stretch in wrist for easy on/off with gloves
- 2 large rear pockets for easy access with gloved hands
- Long tail for splash protection
- Covered YKK® AquaGuard® zipper
- Zipper flap at neck for extra comfort

**010**  
 BLACK
**WHEN DUTY CALLS**

This jacket is made for those days when speed and light weight are sacrificed for the most effective barrier possible against the rain and cold outside. If you've never had a jacket like this, you've never experienced the feeling of going out only because you have to and then enjoying one of the most epic days ever.

We went with a heavier-weight GORE-TEX® fabric for extra durability and because we gave this jacket a little more generous cut and don't want the fabric flapping around. But we still made it so that you can ride in an aggressive position, helped by stretch panels around the shoulders. We've added the same stretch panels around the wrists so that you can put it on and take it off over your Diluvio gloves, and we added stretch panels on the sides in case you load up your pockets.

Even though this is an absolute extreme-conditions jacket, it can still fold up small enough to be stuffed in a jersey pocket—or, more likely, in a bag, because this jacket is a must on your next multiday adventure.

**656**  
 FIERY RED

**GOCCIA JACKET**

4520511

**S-3XL****204 g (Large)****5°-14°C / 41°-57°F****WHAT IT IS**

This elegant jacket provides full waterproof protection with a stretch fit for comfort and aerodynamic performance. The jacket is protective enough to wear all day yet looks good on a gravel ride or when you're meeting your mates at the café.

**WEATHER CONDITIONS****PRODUCT FEATURES**

- Tempesta Stretch fabric with windproof PU membrane provides 10,000 mm waterproofness with 20,600 g/m<sup>2</sup>/24h breathability
- Taped shoulder seams for waterproofing
- Stretchy for extremely comfortable fit that moves with you
- Packable enough to fit in jersey pocket
- Covered easy-sliding YKK® Vislon® zipper
- Extra-long tail for protection from wheel spray
- Vent on back
- Reflective stripe at lower back

**030**  
DARK GRAY

This jacket does three things really well: the Tempesta Stretch fabric provides full waterproof protection, the four-way stretch makes it fit any body type, and it looks great on and off the bike. Compared with our more expensive GORE-TEX® Idro jackets, you give up the best-in-class breathability and extreme packability, but you gain stretch fit and increased durability.

We developed the fabric to our own specifications to make a jacket that is fully waterproof, comfortably stretchy, packable enough to fit in a jersey pocket, and with an appearance and hand that make it look great.

This is meant to be a rain shell worn over a jersey, so we've forgone the external pockets and kept the construction simple to minimize seams. We've given it a vent on the back to prevent overheating, a covered zip to keep spray out and reflectivity for safety.

**656**  
FIERY RED

**EMERGENCY RAIN JACKET**

4517500

**S-3XL****175 g (Large)****5°-18°C / 40°-65°F****WHAT IT IS**

Fully waterproof yet very compact, this is the jacket to stuff in your pocket when rain is in the forecast. It provides emergency protection, though not with the same level of breathability and packability as our Idro jacket.

**WEATHER CONDITIONS****PRODUCT FEATURES**

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Innovative "gutters" drain water away from hands and off back
- Waterproof zipper and seam sealing keep all water out

**032**  
YELLOW FLUO

**READY IN CASE OF EMERGENCY**

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you'd expect from Castelli, we also gave it an amazing on-bike fit, yet it's still roomy enough to fit over a Gabba. This jacket is an emergency piece, so we knew you wouldn't want to break the bank with it, but the only real compromise compared to our top-of-the-line offerings is in breathability. We didn't make this for an all-day rain ride, but it's just right for your next emergency.

**ARIA SHELL JACKET**

4520058

S-3XL

99 g (Large)

10°-18°C / 50°-65°F

**WHAT IT IS**

An extremely light and packable wind shell that fits close to body, with stretch breathability panels, allowing you extend the temperature range of your favorite Castelli pieces.

**WEATHER CONDITIONS****PRODUCT FEATURES**

- Ultralight windproof woven microfiber front
- Striped mesh fabric at sides and sleeve back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective piping

030  
DARK GRAY**NOT YOUR OLD-STYLE WIND JACKET**

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to reinvent a classic. In reality, the Aria Shell Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era.

This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

870  
SILVER GRAY**ARIA VEST**

4520057

S-3XL

75 g (Large)

12°-20°C / 54°-68°F

**WHAT IT IS**

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

**WEATHER CONDITIONS****PRODUCT FEATURES**

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective piping

030  
DARK GRAY**NEAR WEIGHTLESS PROTECTION**

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

085  
LIGHT BLACK

Lighter but warmer. And more comfortable. For this performance minimalist jersey, we use our pros favorite Warmer X-Stretch fabric and then add overlays on the chest and the shoulders from the Gabba. The result is a highly stretchy race-fit jersey. You'll hardly feel that you have it on, but it still provides some welcome wind protection to keep your core warm. It's ideal as a dry-weather garment, though if you get caught in some light rain or your gravel ride takes you through some puddles, the nanotechnology water-repellent finish will help keep you dry.

**WHAT IT IS**

Warm, stretchy, water-repellent and highly visible: the ideal mix for a spring and autumn jersey. Using the same fabric as our Nano Flex arm warmers, this premium jersey provides our best performance fit and 360° reflectivity. Ideal with the Perpetto RoS Vest.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Nano Flex 3G fabric features warm brushed fleece inside with 20% elastane for stretch and Castelli's unequaled Nano Flex water-repellent finish
- Reflective fabric inserts at shoulder and on central pocket
- 3 rear pockets
- YKK® Vislon® zipper
- Embossed logo

010 BLACK

Ready to move up to a better cool-weather jersey? The Tutto Nano RoS Jersey features a number of upgrades compared to what you've probably been using.

First is the stretch fit that moves perfectly with you, made possible by the Nano Flex 3G fabric, the same fabric we use to make our arm and leg warmers as well as our Sorpasso tights. This close-to-body fit actually makes the jersey warmer by avoiding fabric flapping in the wind.

Second is the tighter knit of the fabric compared to traditional thermal jersey fabrics. It lets less air through so you stay warmer. Next is Castelli's proprietary nanotechnology water-repellent finish. On dry days you won't even know it's there, but when you get some light rain or wet roads then you stay drier.

Last is the 360° reflectivity, thanks to the panels on the shoulders and lower back.

Of course, the Castelli attention to detail is there, with the easy-sliding YKK® Vislon® zipper with rubberized pull and the silicone gripper elastic to prevent the jersey from riding up.

INEOS

NANO FLEX

OFFICIAL PARTNER

**WHAT IT IS**

The ultimate tool for winter riding in dry or wet conditions, with our most padded chamois. Reflective splashproof panels make it the choice for wet roads as well as night rides.

**WEATHER CONDITIONS****PRODUCT FEATURES**

- Nano Flex Xtra Dry fabric brings higher level of water protection and warmth
- Double-face knit keeps you warmer because less wind comes in
- Reflective waterproof splash guards on inside of lower legs
- Double layer over backside protects from water coming off rear wheel
- Fewer seams to reduce chance of water coming in
- Lie-flat bib construction
- Progetto X<sup>2</sup> Air seamless pad for long hours in the saddle

**RAIN OR SHINE  
BIBTIGHT**

Introducing Nano Flex Xtra Dry fabric. Eight years have passed since Castelli pioneered nanotechnology coatings in cycling clothing to provide a higher level of water protection without sacrificing breathability or stretch. We never stopped working on improving the fabric, and after numerous small improvements we're ready with the first major update. The base fabric is a tighter-knit double-layer construction, and the water repellency treatment is improved to offer even more protection. We're not quite there yet on our goal of bringing full waterproofness to a non-membrane fabric, but this is a significant improvement in making your foul-weather riding much more comfortable. This will also be your go-to tight for dry conditions. It's a no-compromise piece for all your cool-weather riding.

It's not just about the fabric, though. This is a serious training tight, so it gets our Progetto X<sup>2</sup> Air seamless seat pad. For total protection in the high-splash area of the inner leg, we use a fully reflective waterproof fabric that adds a high degree of nighttime safety to this tight. The tight is constructed with the bare minimum of seaming, which helps keep the rain out and also makes it more comfortable. This is the best all-around tight that we know how to make with today's technology, but we're still working to make it obsolete as soon as possible.

010  
BLACK

**SORPASSO RoS BIBTIGHT**

4520522

S-3XL

302 g (Large)

0°-12°C / 32°-54°F

**WHAT IT IS**

Made for long hours in the widest range of conditions, this tight features our ultra-stretchy, warm and water-repellent Nano Flex 3G fabric with the extra warmth of Nano Flex Xtra Dry on the hips and thighs, along with an anatomical cut and the Progetto X<sup>2</sup> Air seamless seat pad for long-distance comfort.

**WEATHER CONDITIONS****PRODUCT FEATURES**

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- Nano Flex Xtra Dry fabric panel on upper front and thighs for extra warmth, and on back to protect from road spray
- Anatomic cut to hips and knee
- Reflective inserts for maximum visibility from behind
- Lie-flat elastic bib straps
- YKK® Camlock® zippers at ankles
- Progetto X<sup>2</sup> Air seamless pad for long hours in the saddle

656  
BLACK FIERY RED

The name of this tight, Sorpasso, means "overtaking" in Italian. That's what we've tried to do with this tight, to make it a bit faster, better, more comfortable. It's made to be technical equipment for riding in the widest range of winter conditions. The main part of the tight uses our Nano Flex 3G fabric, the third generation of our nanotechnology fabric treatment that adds a high level of water repellency without affecting the breathability, stretch or warmth of the fabric. You get a highly stretchy, compressive fit that moves with you, focusing on warmth and comfort.

But then we add a few panels of the Nano Flex Xtra Dry fabric to provide a bit more wind protection and warmth in the front panel and over the thighs, and in the back for extra protection from road spray.

It's not only about the fabrics: anatomical patterning gives a bend at the knee and the hip, while the seamless bib straps lie flat and securely keep everything in place. Our generously padded Progetto X<sup>2</sup> Air seamless seat pad make long rides more comfortable, and you have multiple reflective panels to keep you visible.

We've designed this as the go-to tight for a full winter's riding.

**IT JUST HAPPENS  
 TO BE GOOD  
 IN THE RAIN TOO**

Our Nano Flex 3G fabric is the result of a decade of development. It's our best all-around fabric for winter tights: warm, stretchy, luxuriously soft, highly breathable and on top of that it features our proprietary third generation of nanotechnology water-repellent finish. While other companies are using simple chemical water-repellent finishes, we create a nanotechnology mechanical repellency to enhance a chemical DWR finish. You stay drier and more comfortable.

Even though this tight features our latest water-repellency technology, don't think of it as just a niche rain tight. The fabric makes for a great dry-weather tight, and the reduced-seam anatomical cut makes it extremely comfortable. We use the pro-level Kiss Air<sup>2</sup> seat pad along with a mesh bib and zippered ankles.

This is the tight that's good at everything.

PROGETTO X<sup>2</sup>

TEAM INEOS OFFICIAL PARTNER

**WHAT IT IS**

This lightweight winter cool-weather tight keeps the upper leg warm but reduces coverage on the lower leg for a greater feeling of freedom and "just right" warmth.

**WEATHER CONDITIONS**

**PRODUCT FEATURES**

- Thermoflex upper portion, Nano Flex Light fabric below the knee
- Anatomic cut taken from the Free Aero Race Bibshort, Castelli's top race short as used by Team Ineos
- Lower leg is non-brushed to prevent overheating yet features a water-repellent finish to protect from road spray
- Progetto X<sup>2</sup> Air seamless seat pad

**COVERAGE FOR COOL WEATHER**

We've been making our tights better and better for colder weather, and at the same time we've seen a drop-off in demand for ¾ knickers. So we fill that gap with the LW Bibtight. LW stands for Light Winter, the conditions that are becoming more and more common. So we build the upper portion to Team Ineos's specs with the Thermoflex fabric that keeps your thighs and intimate parts warm, and then we add a thinner non-brushed water-repellent Lycra® to the lower legs. To keep the lightweight feel we avoid zippers at the ankles, but we put in our Progetto X<sup>2</sup> Air seamless seat pad because we know this will be your go-to piece for long fall and spring rides.

KISS<sup>AIR</sup><sup>2</sup>

**WHAT IT IS**

This tight features quality fabrics, our simply comfortable Kiss Air<sup>2</sup> seat pad, an anatomical cut and reflectivity. This is the right tight if you don't need the rain and splash protection or the extra padding of our higher-end models.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Thermoflex fabric for warmth and comfort
- Kiss Air<sup>2</sup> seat pad for all-day comfort
- Mesh bib straps for breathability
- Reflective leg ending with ankle zip

010  
BLACK

**SIMPLY GREAT**

With this product we simply use great components to create a warm, comfortable tight. Our Thermoflex fabric is an 80/20 nylon/Lycra® blend with a thick, warm brushed fleece inside that keeps you warm while allowing total freedom of movement. We bring reflective details, mesh bib straps and YKK® Camlock® zippers at the ankles, and then top it off with our outstanding KISS Air<sup>2</sup> seat pad for long-distance comfort.

**WHAT IT IS**

"Less is more" is the concept behind this tight. With quality fabrics, a soft seat pad and reduced seam patterning, this tight simply keeps you warm and comfortable on all but the coldest days.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Thermoflex fabric for warmth and comfort
- Kiss Air<sup>2</sup> seat pad is so good it's the choice of some of our pro riders
- Mesh bib straps
- Ankle zippers for easy on/off
- Reflective logo below knee
- Reflective flap over ankle zipper for extra visibility

010  
BLACK

The Entrata Bibtight reflects the same obsessive drive for function, comfort and performance seen in all our tights, combined with fabrics and components that were top of the line a few years ago. Our Thermoflex fabric was considered a breakthrough, the best you could get, until a decade ago when we developed Nano Flex and added water repellency. If you don't ride in cold, wet conditions you'll appreciate the luxurious warmth and stretch of this fabric. The tight has minimal seams for comfort, and our Kiss Air<sup>2</sup> seat pad features generous padding and quite possibly the softest surface fabric in the business. It's everything you need to comfortably enjoy dry winter rides.

SIZES / WEIGHT / TEMPERATURE RANGE

S-3XL

327 g (Large)

-5°-8°C / 23°-46°F

**010**  
BLACK**WHAT IT IS**

Made for serious riding in cold conditions, this tight brings GORE-TEX INFINIUM™ WINDSTOPPER® wind protection to the upper front portions, combined with Nano Flex 3G fabric for soft, stretchy, warm and water-repellent protection on the rest of the tight. A Progetto X<sup>2</sup> Air seamless seat pad confirms this tight's aim of satisfying the most determined and demanding cold-weather riders.

**WHEATHER CONDITIONS****PRODUCT FEATURES**

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast fleece-backed fabric panel on upper front and thighs for extra warmth
- Nano Flex 3G back panel to protect from road spray
- Anatomic cut to hips and knee
- Reflective inserts for maximum visibility from behind
- Lie-flat elastic bib straps
- YKK® Camlock® zippers at ankles

Our Sorpasso tight is our workhorse performance tight for the cyclist who rides seriously right through the winter months. With the Sorpasso Wind we add a GORE-TEX INFINIUM™ WINDSTOPPER® fleece-backed panel covering your most sensitive parts as well as your thigh muscles to keep them at ideal operating temperature. While many wind tights will sacrifice fit or comfort or breathability for that wind protection, the two-way stretch of this fabric combined with careful patterning makes for minimal compromise and maximum comfort.

Everything else on this tight represents our commitment to performance and comfort: the nonwindproof parts are in Nano Flex 3G and Nano Flex Xtra Dry to provide stretch, warmth, breathability and our proprietary water-repellent finish. They're the best tights fabrics we've developed to date. The seat pad is our top-of-the-line Progetto X<sup>2</sup> Air for comfort on long rides, and the bib construction is designed for comfort as well. Large reflective panels at the back of the ankle provide moving reflectivity that is more noticeable to approaching cars.

This is the tight for you if subfreezing temperatures aren't going to hold you back.

## WHAT IT IS

The original Omloop knee-length thermal short now in full Nano Flex 3G fabric for all conditions from dry to cold to wet.

## WHEATHER CONDITIONS

## PRODUCT FEATURES

- Nano Flex 3G fabric is water repellent, stretchy and warm thanks to the luxuriously soft brushed inside
- Reduced seams for comfort and to prevent water from coming in during wet rides
- Knee-length cut for extra warmth that doesn't require a gripper elastic
- Mesh bibs don't add warmth to the upper body so you can dress for the conditions
- Progetto X<sup>2</sup> Air seamless seat pad for long hours in the saddle

010  
BLACK

You could call this a "convergence" product. A few years back we pioneered the first Omloop thermal short, inspired by pro riders cutting off their knee warmers to just the bend of the knee at the Omloop Het Nieuwsblad on a brisk sunny morning. We set about making a bibshort cut right to the bend of the knee and realized that we could make it without a gripper elastic and that the extra 10 centimeters of fabric add a lot of warmth. Those first Omloop shorts were made for cool, dry conditions, like the race that inspired them, using our Thermoflex fabric.

Fast-forward to 2020 and the new third generation of our Nano Flex fabric is as soft, stretchy, breathable and warm as our Thermoflex fabric, so now we can make this short ideal for cool and dry conditions, but it's also excellent on wet days.

It's still a pro tool: this short is identical to the model supplied to Team Ineos.

**INSIDER JERSEY**

4519574

XS-3XL

88 g (Large)

**WHAT IT IS**

The lightest jersey we've ever made is ideal for your cybersport suffer sessions.

**PRODUCT FEATURES**

- 3D Mesh lightweight 100% polyester wicks moisture and dries quickly
- Semi open mesh allows maximum air flow without becoming too transparent
- Full length zip makes for easy on and off
- 2 rear pockets for stashing whatever you need
- Can be used as hot weather outdoor jersey

085  
LIGHT BLACK**INDOOR TRAINING  
NEVER LOOKED THIS GOOD**

We made this jersey for the rigors of indoor training. The 3D Mesh fabric allows maximum airflow for cooling while the 100% polyester content means it provides maximum moisture wicking. We made it on the limit of not being too transparent in case you want to wear it for group training sessions, or if you're using it at home and want to take it off after warming up the long zipper means it comes off easy. We put a couple of pockets on the back so you can stash your AirPods or phone or headband or whatever you haul to your training station. We've kept the collar low and the waist short for maximum cooling. It just happens to be a great hot weather jersey that you'll pull back out come August.

**ESPRESSO GT GLOVE**

4520532

SIZES / WEIGHT / TEMPERATURE RANGE

XS-2XL | 138 g (Pair) | -4°-10°C / 25°-50°F

010  
BLACK

**WHAT IT IS**

PrimaLoft® for warmth, a GORE-TEX® waterproof liner and easy on/off thanks to the innovative Castelli zip construction. It's our ultimate extreme-weather glove.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Extreme warmth for cold rides with PrimaLoft® Gold insulation
- GORE-TEX® grip glove with windproof/waterproof membrane, GUARANTEED TO KEEP YOU DRY™
- Easy on/off with YKK® water-repellent zipper
- Grip control construction prevents palm from slipping
- Reflectivity for nighttime visibility

**WINTER SLAYER**

Insulated and waterproof, the Espresso GT is our warmest glove. And it's completely waterproof and windproof. And it's super easy to put on and take off, and it's super comfortable, and it's got amazing grip ... and you get the point. The only downside is that you'll no longer be able to use weather as an excuse not to ride on those miserably cold days.

**SPETTACOLO RoS GLOVE**

4518526

S-2XL

200 g (Pair)

-10°-5°C / 8°-41°F

**WHAT IT IS**

For those days when most people ride the trainer. We use a fleece-lined GORE-TEX INFINIUM™ outer layer with a full Polartec® Power Stretch® inner layer to make our warmest bootie ever.

**WEATHER CONDITIONS**

**PRODUCT FEATURES**

- Castelli's warmest shoecover for extreme conditions
- GORE-TEX INFINIUM™ WINDSTOPPER® fabric for windproof water protection with maximum breathability
- Polartec® Power Stretch® Pro™ lining to keep you warm
- Reflective details provide high visibility
- YKK® AquaGuard® zipper
- High-durability material under foot

010  
BLACK

**ONE GOAL:  
KEEP YOUR FEET WARM**

We set out to create our warmest bootie ever, which meant rethinking how booties are made. For the windproofing we went with GORE-TEX INFINIUM™ WINDSTOPPER® fleece-backed fabric, which also lets more moisture escape than any other windproof fabric. Then we added a second fleece layer with Polartec® Power Stretch® Pro™, which is unrivaled in overall loft. The two layers are thick enough that we had to do a "wheel well" single-layer construction by the ball of the foot to prevent the fabric from rubbing on the crank. We made the bootie high for extra warmth and gave reasonable splash protection. We recommend our Venti Soft Sock for maximum warmth.

## RoS 2 SHOECOVER

4520535

SIZES / WEIGHT / TEMPERATURE RANGE

S-2XL

155 g (Pair)

0°-14°C / 32°-57°F

010

## WHAT IT IS

Does everything pretty well: easy on/off, warm, splash resistant, breathable. Meant to be an excellent all-around performance bootie.

## WHEATHER CONDITIONS

## PRODUCT FEATURES

- Castelli's Rain or Shine label means this product is made to excel in both dry and wet conditions
- Polartec® Power Stretch® fleece liner provides extra warmth at front
- YKK® water resistant zipper
- Reflective heel cap with pull tab

WHEN ANY WEATHER  
IS GOOD WEATHER

Our Rain or Shine collection is designed to perform, and the name implies, in brilliant sunshine or with drizzle or wet roads. With an added Polartec® panel on the front and 3-layer fleece-backed waterproof side panels, you'll never miss a day because of your feet again.

**NANO FLEX**

**WHAT IT IS**

Nano Flex for the ultimate warmer: warm and comfortable in dry conditions, water repellent in damp conditions, and still warm in extreme conditions.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Water-repellent thermal and breathable Nano Flex fabric
- Flat-lock stitching with single seam
- Double-sided silicone grippers to keep warmers in place

**NANO FLEX  
 ALL-CONDITION  
 WARMERS**

Choose Nano Flex for warmers that are great in dry conditions but also give some extra protection and warmth in wet conditions. We invented the category of water-protective thermal fabrics, and Castelli's proprietary Nano Flex is often imitated but never equaled. No compromises for any conditions.

**THERMOFLEX 2 ARMWARMER**

4519532	S-XL	84 g (Pair)	12°-20°C / 54°-68°F

**WHAT IT IS**

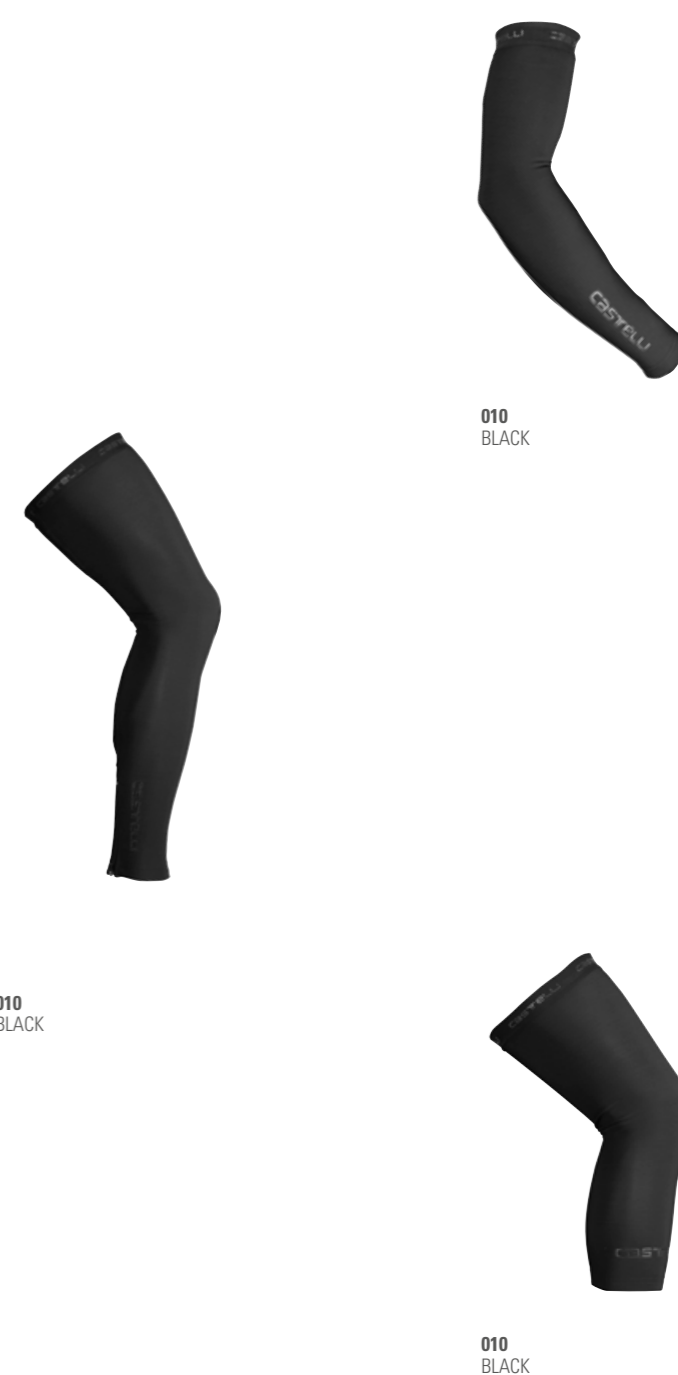

Thermoflex is luxuriously warm and stretchy in dry conditions but is not intended for wet conditions.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Thermoflex fleece fabric is warm, stretchy and soft
- Single-piece construction with flat-lock seams
- Embossed Castelli wordmark logos
- Dual-sided silicone gripper elastic at top prevents sliding down

**THERMOFLEX  
 LUXURIOUS FLEECE  
 WARMTH**

If you don't need the extra wet weather protection of Nano Flex, or if you've always been happy with traditional warmers, you'll find that Castelli's Thermoflex warmers offer the softest, most luxurious fabric combined with careful attention to construction details.

**WHAT IT IS**  
A wide temperature range combined with seamless comfort makes this our most versatile warmer.

**WEATHER CONDITIONS**  
☀️ ☁️

- PRODUCT FEATURES**
- Mid-weight seamless arm warmer
  - Surprisingly warm without causing overheating
  - Unique polyester/nylon/Lycra® 78%/15%/7% blend
  - Fully seamless construction
  - Folds up extra small

010 BLACK

010 BLACK

010 BLACK

**A BETTER ARM WARMER**

With Team Ineos we set out to make a better seamless arm warmer. Others on the market are made with a nylon/Lycra® blend that tends to hold moisture, but we knew we could get better moisture management with a polyester yarn. Working with polyester makes it more difficult to get the right stretch, return and manufacturing consistency, though. It took a year longer than we thought, but we're all glad we stuck with it. These warmers are a pro rider favorite because they're crazy light and they're extremely warm for their weight, yet even in milder conditions you don't overheat. They're so stretchy you hardly feel them on, yet when you take them off they occupy a fraction of the space that normal warmers would take in your pocket.

# JACKETS CHART

Want to stay off the turbo trainer and out on the road during the winter? Then you need to choose an appropriate winter jacket for the type of weather you're likely to encounter. A good jacket will keep you warm in winter conditions – rain, wind and cold, down to the freezing point or below – and will also be able to handle the heat and sweat that you produce on club rides or high-intensity training in March. Here's a guide to help you pick the right jacket to keep you warm, dry and comfortable.

**ALPHA RoS 2 W JACKET**  
4520553

Castelli's ultimate jacket, bringing warmth, breathability and a high level of rain protection along with a soft, comfortable fit.

-5°-10°C / 23°-50°F

**ALPHA RoS 2 W LIGHT JACKET**  
4520554

Castelli's best jacket for mild conditions, with front wind protection, light insulation, maximum breathability, and water repellency to keep you dry in mist, light rain or spray from wet roads.

8°-15°C / 46°-59°F

**BETA RoS W JACKET**  
4520558

This thin wind and splash barrier provides a surprising amount of warmth while being so light and stretchy you'll hardly notice it.

10°-18°C / 50°-64°F

**DINAMICA JACKET**  
4518541

The extra warm 100% wind proof fleece-lined jacket for riding in cold to cool conditions.

-2°-10°C / 28°-50°F

**COMO JACKET**  
4520555

The right jacket for cool days thanks to front wind protection, all-around fleece insulation, and extra breathability on the back.

6°-15°C / 43°-59°F

**TRANSITION W JACKET**  
4519539

Great for cool spring and fall conditions where you want to keep the cool wind out but not feel weighed down.

8°-16°C / 46°-60°F

**PEREFETTO RoS W LONG SLEEVE**  
4519535

The long-sleeve Gabba is one of our most versatile pieces: wind and water protection with a wide temperature range depending on how you layer under it.

4°-14°C / 39°-57°F

**ALPHA RoS 2 W JACKET**

-5°-10°C / 23°-50°F

**SPETTACOLO RoS W GLOVE**

**WHAT IT IS**

Castelli's ultimate jacket, bringing warmth, breathability and a high level of rain protection along with a soft, comfortable fit. With a fresh update in its third generation, this jacket leads the way in demonstrating how a winter jacket should perform.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Rain or Shine engineering makes this our best jacket ever for dry conditions while also providing significant rain protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 150 fabric for wind protection with high breathability and effective rain protection
- Reduced seaming with seam sealing on shoulders reduces chances for water to enter through stitching
- Double-layer Alpha construction separates insulating layer from wind/water barrier to let you better regulate ventilation
- Water-resistant YKK® Vislon® zipper slides easily for better regulation of airflow
- Raw-edge waist with silicone gripper lies flat and seals out wind
- Double-layer cuff integrates with glove to prevent cold wind or water from entering at wrist
- Stretch fabrics with advanced patterning make for excellent close-to-body fit that still accommodates a wide range of body types
- Back ventilation
- 3 rear pockets with reflective laser-cut drain holes
- Zippered secure side pocket for valuables

**WHAT IT IS**

This thin wind and splash barrier provides a surprising amount of warmth while being so light and stretchy you'll hardly notice it. Race fit for performance on fast autumn and spring rides on any terrain.

**WEATHER CONDITIONS**

**PRODUCT FEATURES**

- Polartec® NeoShell® 4-way-stretch fabric on front and upper sleeves is windproof, waterproof and highly breathable
- Nano Flex Light woven fabric on back is highly breathable while blocking wind and splashes from light rain or wet roads
- Close-to-body cut remains very comfortable thanks to 4-way stretch of all fabrics
- YKK® Vislon® zipper is easy sliding for quick ventilation control
- 3 rear pockets
- Reflective panel at lower back

030 DARK GRAY BLACK

As summer turns to autumn we still have a few months of amazing riding, but when we have to start dressing warmer we miss the freedom of wearing just a jersey. That's why we made this jacket. We used the lightest, stretchiest fabrics we have to make a jacket that cuts out most of the wind, remains highly breathable, provides remarkably high levels of water protection, and just basically disappears so you don't really notice it.

This is a performance piece, so we've kept it focused on the task at hand. There's nothing superfluous on it, unless you consider the big reflective panel on the back to be unnecessary. We don't. We've given it a close-to-body fit so there's no fabric flapping in the wind, which also helps keep the jacket warmer. The pockets are generous and easily reachable, the zip slides easily, and the logoing is discreet.

## IDRO W JACKET

4518049

SIZES / WEIGHT / TEMPERATURE RANGE

XS-XL

89 g (Small)

6°-20°C / 43°-68°F

## WHAT IT IS

100% waterproof protection is only the start: it's the lightest, most compact, most breathable waterproof jacket we've ever made. It's so versatile you'll use it as the shell layer any time you need to keep out wind or rain, yet when not in use it fills only half of a jersey pocket.

## WEATHER CONDITIONS

## PRODUCT FEATURES

- GORE-TEX® SHAKEDRY™ 2-layer waterproof breathable fabric
- YKK® waterproof Vislon® zipper
- Silicone elastic waistband
- Fully taped seams for total waterproof construction
- Reflective Castelli wordmark
- Packs up small to easily store in jersey pocket

010  
BLACK

## UNBELIEVABLY LIGHT

A jacket that weighs less than a jersey? Real Gore-Tex®, no less? And it packs up to fit in half a jersey pocket? And it's the most breathable Gore-Tex® ever? Hard to believe, but it's all true. This jacket is a game changer. It's fully waterproof, as you expect from Gore-Tex®, but with its exceptional breathability and packability you'll find that it replaces all your other shell jackets. If your ride has the slightest chance of rain or a long descent or the possibility of temperatures dropping, this jacket will automatically go in your pocket. You can confidently do longer rides in conditions that you would have avoided with all your old jackets. While you can get this fabric from other brands, you can't get the Castelli fit, design and construction.

CASTELLI COLLECTION

## EMERGENCY W JACKET

4517538

SIZES / WEIGHT / TEMPERATURE RANGE

XS-XL

149 g (Small)

6°-15°C / 43°-59°F

## WHAT IT IS

Compact and fully waterproof, this jacket folds up small so it's ready for any emergency. It's not as breathable as the Idro W Jacket, but it's good for lower-intensity rides or cold descents.

## WEATHER CONDITIONS

## PRODUCT FEATURES

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Innovative "gutters" drain water away from hands and off back
- Waterproof zipper and seam sealing keep all water out

032  
YELLOW FLUO

## READY IN CASE OF EMERGENCY

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you'd expect from Castelli, we also gave it an amazing on-bike fit, yet it's still roomy enough to fit over a Gabba. This jacket is an emergency piece, so we knew you wouldn't want to break the bank with it, but the only real compromise compared to our top-of-the-line offerings is in breathability. We didn't make this for an all-day rain ride, but it's just right for your next emergency.

010  
BLACK

**ARIA SHELL W JACKET**

4520089

**XS-XL****82 g (Small)****10°-18°C / 50°-65°F****WHAT IT IS**

An extremely light and packable wind shell that fits close to body, with stretch breathability panels, allowing you extend the temperature range of your favorite Castelli pieces.

**WEATHER CONDITIONS****PRODUCT FEATURES**

- Ultralight windproof woven microfiber front
- Striped mesh fabric at sides and sleeve back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective piping

**030**  
DARK GRAY

**NOT YOUR OLD-STYLE WIND JACKET**

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to reinvent a classic. In reality, the Aria Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era. This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

**870**  
SILVER GRAY

**ARIA W VEST**

4520088

**XS-XL****60 g (Small)****12°-20°C / 54°-68°F****WHAT IT IS**

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

**WEATHER CONDITIONS****PRODUCT FEATURES**

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective piping

**030**  
DARK GRAY

**NEAR WEIGHTLESS PROTECTION**

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

NANO FLEX

**WHAT IT IS**

Warm, stretchy, water-repellent and highly visible: the ideal mix for a spring and autumn jersey. Using the same fabric as our Nano Flex arm warmers, this premium jersey provides our best performance fit and 360° reflectivity. Ideal with the Perfetto RoS Vest.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Nano Flex 3G fabric features warm brushed fleece inside with 20% elastane for stretch and Castelli's unequaled Nano Flex water-repellent finish
- Reflective fabric inserts at shoulder and on central pocket
- 3 rear pockets
- YKK® Vislon® zipper
- Embossed logo

010 BLACK

Ready to move up to a better cool-weather jersey? The Tutto Nano RoS Jersey features a number of upgrades compared to what you've probably been using.

First is the stretch fit that moves perfectly with you, made possible by the Nano Flex 3G fabric, the same fabric we use to make our arm and leg warmers as well as our Sorpasso tights. This close-to-body fit actually makes the jersey warmer by avoiding fabric flapping in the wind.

Second is the tighter knit of the fabric compared to traditional thermal jersey fabrics. It lets less air through so you stay warmer.

Next is Castelli's proprietary nanotechnology water-repellent finish. On dry days you won't even know it's there, but when you get some light rain or wet roads then you stay drier.

Last is the 360° reflectivity, thanks to the panels on the shoulders and lower back.

Of course, the Castelli attention to detail is there, with the easy-sliding YKK® Vislon® zipper with rubberized pull and the silicone gripper elastic to prevent the jersey from riding up.

MULTICOLOR PURPLE

991  
MULTICOLOR PINK

This jersey is an evolution of a riders' favorite at Team Ineos—the Mid Weight Pro Jersey—a short-sleeve jersey for training and even racing in cool conditions. The pros like it so much they wanted a long-sleeve version, and that's what you have here, exactly what the pros asked for. The magic is in the fabric: a lightly brushed fleece inside a polyester/elastane mix that provides excellent wicking with good stretch while allowing us to give it a fit that's aero without constricting. It's ideal for those days when you could get by with a short-sleeve jersey and arm warmers, but this is just a more comfortable kit.

**NANO FLEX PRO 2 W BIBTIGHT**  
4518547

The ultimate tool for winter riding in dry or wet conditions, with our most padded chamois.

-2°-10°C / 28°-50°F

**SORPASSO RoS W BIBTIGHT**  
4520563

Comfort for long hours in the widest range of conditions.

0°-12°C / 32°-54°F

**TUTTO NANO W BIBTIGHT**  
4519542

The do-everything tight: great in dry conditions, water repellent for light rain and wet roads.

4°-16°C / 39°-61°F

**VELOCISSIMA BIBTIGHT**  
4519544

This tight features quality fabrics, our simply comfortable Kiss Air<sup>2</sup> seat pad, an anatomical cut and reflectivity.

5°-15°C / 41°-59°F

**MENO WIND W BIBTIGHT**  
4515565

For when you just want maximum warmth.

-4°-10°C / 25°-50°F

## RAIN OR SHINE BIBTIGHT

Better in cold and dry and better in wet conditions, the new Nano Flex Xtra Dry fabric makes this your most technical tight. The base fabric is a tighter-knit double-layer construction, and the water repellency treatment is improved to provide even more protection. We're not quite there yet on our goal of bringing full waterproofness to a non-membrane fabric, but this is a significant improvement in making your foul-weather riding much more comfortable. It will also be your go-to tight for dry conditions, though. It's a no compromise piece for all your cool-weather riding.

But it's not just about the fabric. This is a serious training tight, so it gets our Progetto X<sup>2</sup> Air seamless Donna seat pad. For total protection in the high-splash area of the inner leg, we use a fully reflective waterproof fabric that adds a high degree of nighttime safety to this tight. The tight is constructed with the bare minimum of seaming, which helps keep the rain out and also makes it more comfortable. This is the best all-around tight that we know how to make with today's technology.

#### WHAT IT IS

The ultimate tool for winter riding in dry or wet conditions, with our most padded chamois. Reflective splashproof panels make it the choice for wet roads as well as night rides.

#### WEATHER CONDITIONS

#### PRODUCT FEATURES

- Nano Flex Xtra Dry fabric brings new, higher level of water protection
- Double-face knit keeps you warmer because less wind comes in
- Reflective waterproof splash guards on inside of lower legs
- Double layer over backside protects from water coming off rear wheel
- Fewer seams to reduce chance of water coming in
- Lie-flat bib construction
- Progetto X<sup>2</sup> Air seamless Donna seat pad for long hours in the saddle

**WHAT IT IS**

Made for long hours in the widest range of conditions, this tight features our ultra-stretchy, warm and water-repellent Nano Flex 3G fabric with the extra warmth of Nano Flex Xtra Dry on the hips and thighs, along with an anatomical cut and the Progetto X² Air seamless seat pad for long-distance comfort.

**WHEATHER CONDITIONS**

**PRODUCT FEATURES**

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- Nano Flex Xtra Dry fabric panel on upper front and thighs for extra warmth
- Anatomic cut to hips and knee
- Reflective inserts for maximum visibility from behind
- Lie-flat elastic bib straps
- YKK® Camlock® zippers at ankles
- Progetto X² Air seamless Donna seat pad for long hours in the saddle

414 SAVILE BLUE REFLEX

We made this tight for serious winter riding. That means keeping you protected and comfortable in the widest possible range of conditions. Easy to say, but harder to actually do.

The main part of the tight uses our Nano Flex 3G fabric, the third generation of our proprietary nanotechnology fabric treatment that adds a high level of water repellency without affecting the breathability, stretch or warmth of the fabric. You get a highly stretchy, compressive fit that moves with you, for luxurious comfort with the best protection on the market. We add Nano Flex Xtra Dry panels to provide a bit more wind protection and warmth in the front and over the thighs.

It's not only about the fabrics: anatomical patterning gives a bend at the knee and the hip, while the seamless bib straps lie flat so you hardly notice them. Our generously padded women's-specific Progetto X² Air seamless seat pad make long rides more comfortable, and you have multiple reflective panels to keep you visible.

We've designed this as the go-to tight for a full winter's riding.

- Soft dual-layer waistband for extra comfort
- Kiss Air<sup>2</sup> Donna seat pad for long-distance comfort
- Reflective leg ending with ankle zip
- Embossed logos for durability

**IT JUST HAPPENS  
TO BE GOOD  
IN THE RAIN TOO**

Our Nano Flex 3G fabric is the result of a decade of development. It's our best all-around fabric for winter tights: warm, stretchy, luxuriously soft, highly breathable and on top of that it features our proprietary third generation of nanotechnology water-repellent finish. While other companies are using simple chemical water-repellent finishes, we create a nanotechnology mechanical repellency to enhance a chemical DWR finish. You stay drier and more comfortable.

Even though this tight features our latest water-repellency technology, don't think of it as just a niche rain tight. The fabric makes for a great dry-weather tight, and the reduced-seam anatomical cut makes it extremely comfortable. We use the pro-level Kiss Air<sup>2</sup> Donna seat pad along with a mesh bib and zippered ankles.

This is the tight that's good at everything.

# LINEA PELLE

001

**LINEA PELLE COMBO PACK 8800103**

All three Linea Pelle products delivered in a mesh drawstring bag.

001

**CHAMOIS DRY LUBE 8800100**

Moist skin is softer and more susceptible to abrasion, as any rider who has done a long race in the rain can attest. Our dry lube reduces friction without weakening the skin through moisturizers. We also use 100% natural tea tree oil for antibacterial and antimicrobial properties to help prevent infections and saddle sores

001

**FOUL WEATHER CREAM 8800102**

This cream is designed to protect your skin from wet, dirty conditions. It is not petroleum based and won't damage the fabric of your bike shorts. It is also easier to clean off with soap and warm water.

001

**WARMING EMBRO CREAM 8800101**

This cream creates a warming sensation that helps "wake up" muscles on cooler days or can also help relieve sore muscles. We used mostly natural ingredients to create a strong warming sensation but without the burning feeling that you get with some products. This cream can be used underneath the Foul Weather Cream for racing in cold and wet conditions

# RACE BAGS

## RACE BRIEFCASE 8900112

SIZE: 36 x 28 x 10 - 14 cm

- Bag to carry computers and documents
- Outer pocket with lots of small shelves
- Sleeve with access from the outside
- Zipper to expand the briefcase
- Main compartment divided in 3 incl. padded computer space
- Back compartment that can also be opened to slide onto a trolley handle

010 BLACK

## GEAR DUFFLE BAG 2 8900110

CAPACITY: 50 LITER

- Water and stain resistant materials
- Removable padded shoulder strap
- Multiple internal pockets
- Vented external shoe or dirty laundry pocket
- Semi rigid bottom for support and protection
- Reflective accents

010 BLACK

## ROLLING TRAVEL BAG 8900100

SIZE: 35 x 54 x 25cm CAPACITY: 43 LITER

- Water and stain resistant materials
- Semi rigid bottom for support and protection
- Molded bottom skid plates
- Low density wheels
- Telescoping handle
- 2 main compartments
- Front and top carry handles
- Multiple internal pockets
- Fleece lined electronics pocket
- Easy access laptop sleeve
- ID window
- Reflective accents

010 BLACK

## GEAR BACKPACK 8900103

CAPACITY: 26 LITER

- Water and stain resistant materials
- Water resistant zippers
- Padded laptop sleeve
- Tablet sleeve
- Hidden waist belt
- Helmet attachment loops
- Adjustable sternum strap
- External bottle pocket
- Reflective accents

010 BLACK

## PRO RACE RAIN BAG 8900111

SIZE: 48 x 24 x 26 cm Main Bag 33 x 24 x 16 cm Shoe Bag

- Developed with Team Ineos
- Separate compartment for each garment (jerseys, Gabbas, shoes, head, hands and feet, jackets)
- Removeable shoe bag
- Separate and removable Grab Bag compartment

# CASTELLI PADS

## PROGETTO X<sup>2</sup> SEAMLESS

### 01. SKIN CARE LAYER

The Progetto X<sup>2</sup> Air Seamless seat pad is used to protect your skin while providing just the right level of padding for maximum comfort, no matter how long your epic ride is.

### 02. SEAMLESS INTEGRATED TECHNOLOGY CUSHIONING LAYER

A separate component provides no-compromise cushioning, with Castelli's infinitely variable thickness to bring the right shape to the right part of the body: thicker under the sit bones and thinner on the sides and under the perineum.

### 03. VISCIOUS COMFORT INSERTS

Perforated viscous padding is added under the highly sensitive ischial and perineum pressure areas.

## KISS<sup>AIR<sup>2</sup></sup>

### 01. SEAMLESS SKIN CARE LAYER

The softest-ever fabric next to your skin for immediate and long-lasting comfort. Seamlessly engineered to reduce chafing and abrasion. Stretchy to move with you.

### 02. DUAL DENSITY, INFINITELY VARIABLE THICKNESS

Dual-density infinitely variable thickness gives you the perfect cushioning in every part of the pad. Maximum thickness and density in the ischial zone, tapering to moderate thickness under the perineum and minimum thickness at the perimeter.

### 03. ANATOMICAL SHAPE

Comfort is further enhanced by the creation of a perfect interface to your body during every pedal stroke.

# NANO FLEX FABRICS

## NANO FLEX XTRA DRY

### NANO FLEX XTRA DRY

The double face base fabric gives maximum warmth, maximum water repellency, and low air permeability to keep the wind out. Not as stretchy as Nano Flex 3G for a compressive fit. Castelli's Nano Flex treatment comprises a topical nanotechnology microfilament mechanical water repellent finish combined with a short chain chemical DWR finish for class leading water repellency.

## NANO FLEX 3G

### NANO FLEX 3G

Castelli's Nano Flex treatment comprises a topical nanotechnology microfilament mechanical water repellent finish combined with a short chain chemical DWR finish for class leading water repellency. The proprietary 3rd generation of Nano Flex fabric is based on a new thermal fabric with a tighter knit for improved water protection. More comfortable, warmer, softer, drier and stretchier.

## A SMALL GESTURE CAN MAKE A BIG DIFFERENCE

At Castelli we know how important it is to make a contribution to our planet in terms of sustainability and environmental impact. This catalog is the result of small steps taken with a view toward making more responsible choices, and we have decided to work with partners who can respect this vision of ours. We have chosen more natural papers, originating from forests that are managed more carefully, and inks and printing methods that ensure the lowest possible ecological impact and easy recyclability once this catalog has served its purpose. It's a small contribution to a healthier planet.
