DEVELOPED AND TESTED WITH THE PROS

Just like INEOS Grenadiers, we leave nothing to chance, and we share the same focus on results-driven innovation in everything we do. The race clothing is the result of CFD modeling followed by extensive pattern engineering and fabric research, then further testing in the wind tunnel and on the road. And those products in the collection that are not made for WorldTour racing are still heavily influenced by the feedback and knowledge we acquire from working with the pros.

With Castelli Servizio Corse you can have the exact same pieces as the professional athletes. Not less—expensive replicas, but the exact same pieces made using the same fabrics, and components, with the same fit and finish, by the same people who produce the pieces you see on the pros racing in the WorldTour.

HOW IT WORKS

01. CONTACT

To request information, please contact Castelli Servizio Corse by e-mail: please contact the Castelli Office in your country (www.castelli-cycling.com), or send your request to Castelli Servizio Corse, castelli.team@mvc46.eu or visit us at www.castelli-cycling.com/custom

To request a quote, download and fill out the order form from serviziocorse.com with the styles we offer. Indicate quantities needed per style and submit via e-mail. Size breakdowns are helpful, but unnecessary for a quote. You will receive the requested quote shortly.

04. FINAL ORDER SUBMISSION

Submit your final order and you will be provided with a PDF copy to approve. This is your last opportunity to make revisions or correct errors.

02. DESIGN

Completed designs prepared on Castelli templates need to be submitted with your quote request. For every logo not supplied in vector-graphic format, a small fee will be incurred. Vector formats include: .ai, .eps, and .pdf (open).

After submitting your design and quote, you will receive shortly an electronic art file of your final design. A full-size color proof printed on fabric can be ordered for an additional fee.

05. PRODUCTION

Once approvals for art, color and units, and deposit money have been received production will begin. No additional changes can be made at this time. Completion time is 8 weeks from the day approvals are received.

03. FIT KIT REQUEST

We will put you in contact with our representatives in your area so that you can see samples of all the pieces and check sizes, fit, and materials.
