When the challenge is distance rather than speed, this jacket brings warmth and comfort with styling that looks right both on the bike and at the food stop. We're doing more and more long adventure rides. Sometimes that means rides with major elevation changes. Or riding through the cold of night and the heat of the day. Or multiday bikepacking rides. This jacket shines in those situations because it provides a lot of insulation and warmth when you need it, but it packs down small in your seat bag when you don't need it. The outer layer is a fabric you've seen on some high-end down jackets from some big brands. We like it because it's so light yet it keeps the wind out. Then on the inside, Polartec® Alpha® Direct is the lightest, most packable, and highest-wicking insulation available. It's warm like a synthetic down but doesn't require an inner layer that would reduce breathability and add weight. For your next Unlimited adventure, just stick this jacket and a GORE-TEX Idro Jacket in your bag and you're ready for anything.

WEATHER CONDITIONS

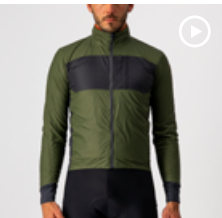

WHAT IT IS /PRODUCT FEATURES

For cool-weather gravel rides, the Unlimited Thermal Jersey keeps your core warm while providing enough ventilation to keep you from overheating. Stretch side panels keep it fitting perfectly. Pair it with a Perfetto Vest to extend the comfort range of this jersey.

- Warmer fabric on body and sleeves
- Warmer X-Stretch side panels
- Gripper elastic at waist
- 3 rear pockets
- Easy-sliding YKK® Vislon® zipper with neck protector

Riding on gravel often means a little bit lower speeds at a higher effort level, so breathability becomes even more important and you can dress a bit lighter. Our Unlimited Thermal Jersey features our Warmer brushed fleece fabric, which provides a high level of insulation while letting just the right amount of air through for ventilation without causing a chill. We keep this piece very functional with the three rear pockets and a silicone gripper at the waist, while the YKK® Vislon® zipper is the easiest sliding we’ve ever found, so it’s quick to adjust as your temperature changes.

| | |
|---------------------|--|
| TEMPERATURE RANGE | |
| 18°-32°C / 59°-90°F | |

WHAT IT IS /PRODUCT FEATURES

The baggy-short look without the feel, thanks to the slimmer fit and stretch woven fabric. It’s ready for long-distance endurance rides, but it’s also a great-looking casual short off the bike.

- Stretch woven fabric with DWR finish
- Extremely light so you won’t even feel it on
- 2 front pockets and 1 zippered rear pocket
- Stretch waistband with zippered front opening
- Scorpion button logo

There are those days when a baggy short just seems like the right look. But you always debate whether you’re willing to compromise comfort for that look, and you end up wearing Lycra®. So we set out to make a better baggy.

We reached for a stretch woven fabric that gives great stretch but in an unbelievably lightweight yet durable fabric. We gave it a DWR finish so mud and water roll off. We gave the short two top-opening pockets like jeans so that whatever you put in there won’t fall out. We made the cut fairly close to body so you look good off the bike but the short doesn’t balloon out when you’re on the bike. It all just kinda disappears.

The short doesn’t have its own seat pad, so wear this over your favorite Castelli short. The Superleggera is a good choice for warmer weather, or the Unlimited if you want the extra pockets.

MEN'S JACKETS

ALPHA RoS 2 JACKET

Castelli's ultimate jacket, bringing warmth, breathability and a high level of rain protection along with a soft, comfortable fit.

ALPHA RoS 2 LIGHT JACKET

Castelli's best jacket for mild conditions, with front wind protection, light insulation, maximum breathability, and water repellency to keep you dry in mist, light rain or spray from wet roads.

BETA RoS JACKET

This thin wind and splash barrier provides a surprising amount of warmth while being so light and stretchy you'll hardly notice it.

ELITE RoS JACKET

Exceptional stretch makes this jacket fit like nothing you've ever used. Fully lined for just the right amount of warmth on moderately cold days.

RADDOPPIA 3 JACKET

GORE-TEX INFINIUM™ WINDSTOPPER® outer layer, thick fleece inner layer make this jacket right for cold weather while the large reflective bands on chest and pocket keep you visible.

GO JACKET

The thinner 3-layer GORE-TEX INFINIUM™ WINDSTOPPER® shell gives maximum flexibility to layer for any condition with go-anywhere styling.

FINESTRE JACKET

The mid weight partial protection jacket for big challenges on tarmac or gravel just like its namesake Colle delle Finestre climb.

MORTIROLO VI JACKET

The perfect jacket for mild winters or for the rider who tends to overheat.

TRANSITION 2 JACKET

This mid-weight wind jacket is perfect for those autumn and spring rides when you want to cut the chill but don't want to overheat.

PERFETTO RoS LONG SLEEVE

The long-sleeve Gabba is one of our most versatile pieces: wind and water protection with a wide temperature range depending on how you layer under it.

WHAT IT IS /PRODUCT FEATURES

Castelli’s ultimate jacket, bringing warmth, breathability and a high level of rain protection along with a soft, comfortable fit. With a fresh update in its third generation, this jacket leads the way in demonstrating how a winter jacket should perform.

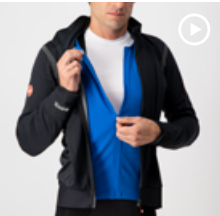

- Rain or Shine engineering makes this our best jacket ever for dry conditions while also providing significant rain protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 150 fabric for wind protection with high breathability and effective rain protection
- Reduced seaming with seam sealing on shoulders reduces chances for water to enter through stitching
- Double-layer Alpha construction separates insulating layer from wind/water barrier to let you better regulate ventilation
- Water-resistant YKK® Vislon® zipper slides easily for better regulation of airflow
- Raw-edge waist with silicone gripper lies flat and seals out wind
- Double-layer cuff integrates with glove to prevent cold wind or water from entering at wrist
- Stretch fabrics with advanced patterning make for excellent close-to-body fit that still accommodates a wide range of body types
- Back ventilation
- 3 rear pockets with reflective laser-cut drain holes
- Zippered secure side pocket for valuables

Cyclingnews.com says this jacket is “sets an all-new benchmark in what a winter cycling jacket can achieve” and it’s exactly what we think the perfect winter jacket should be. We started with a list of things we didn’t like about the current jackets and set out to solve them—and in the process made our best jacket ever.

The first issue to resolve related to moisture management. Even the best of the currently available fabrics provide a good level of breathability but can’t keep up with the sweat generated during high-intensity riding. So we invented a double-layer construction that allows you to open an outer wind-protection layer while keeping the insulation layer closed and thereby allowing airflow inside the jacket to evacuate moisture while avoiding direct contact with the skin. On a long climb we’ll completely open the outer layer to allow moisture to escape, and when we start the descent we close the outer layer and are completely dry inside. It works so well that sometimes it feels like magic. New for this year is a softer, warmer 3D insulation-layer fabric that provides better warmth, moisture management and fit.

Next we focused on the openings: neck, waist and, most of all, wrists. The neck comes up high and is shaped to move with you, whether you’re standing or in an aero position being a January hero and attacking your mates. For the waist we’ve created a stretch layer with a silicone bead that lies flat and completely seals out wind without bunching or riding up. New for this year is a brand-new double-layer wrist opening with an inner layer to go under your glove that seals tight to your wrist, and an outer layer that goes over your glove so that any rain will roll down the outside of the glove and not end up inside.

Of course, the ultimate jacket will also hold up well in wet conditions, so we used GORE-TEX INFINIUM™ WINDSTOPPER® fabric along with waterproof seam taping on critical seams around the shoulder. Other seams are hidden out of direct water flow, and the water-repellent treatment on the fabric is sufficient to prevent most moisture from entering. We call it “essentially waterproof,” using our own subjective judgment to find a balance between water protection, breathability and comfort. It doesn’t mean that no drop will ever come in, but we do longish rides in real rain and stay completely dry. All these features make it a favorite of the INEOS Grenadiers riders, and the most versatile performance jacket for cold-weather training we’ve ever created.

WHAT IT IS /PRODUCT FEATURES

This thin wind and splash barrier provides a surprising amount of warmth while being so light and stretchy you'll hardly notice it. Race fit for performance on fast autumn and spring rides on any terrain.

- Polartec® NeoShell® 4-way-stretch fabric on front and upper sleeves is windproof, waterproof and highly breathable
- Nano Flex Light woven fabric on back is highly breathable while blocking wind and splashes from light rain or wet roads
- Close-to-body cut remains very comfortable thanks to 4-way stretch of all fabrics
- YKK® Vislon® zipper is easy sliding for quick ventilation control
- 3 rear pockets
- Large reflective panel at lower back

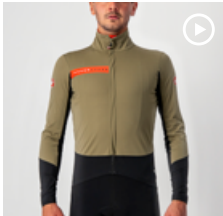

As summer turns to autumn we still have a few months of amazing riding, but when we have to start dressing warmer we miss the freedom of wearing just a jersey. That's why we made this jacket. We used the lightest, stretchiest fabrics we have to make a jacket that cuts out most of the wind, remains highly breathable, provides remarkably high levels of water protection, and just basically disappears so you don't really notice it. This is a performance piece, so we've kept it focused on the task at hand. There's nothing superfluous on it, unless you consider the big reflective panel on the back to be unnecessary. We don't. We've given it a close-to-body fit so there's no fabric flapping in the wind, which also helps keep the jacket warmer. The pockets are generous and easily reachable, the zip slides easily, and the logoing is discreet.

GORE-TEX

INFINIUM™

WINDSTOPPER®

TEMPERATURE RANGE

-3°-10°C / 27°-50°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

The Raddoppia 3 Jacket is clearly designed to hit all the prerequisites for winter riding without added complications: windproof, warmly insulated, water repellent, breathable, and with 360° reflectivity, along with Castelli's functional attention to detail and fit.

- Warm and reflective, the ideal winter cycling jacket
- GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast fabric with fleece backing for warmth
- GORE-TEX INFINIUM™ WINDSTOPPER® 150 lighter-weight side panels and sleeve inserts for extra stretch and ventilation
- Large reflective stripes on chest and rear pocket
- YKK® Vislon® zipper for easy-sliding ventilation adjustment while riding
- 3 rear pockets with 4th zippered key/money pocket
- Drop-tail panel for extra protection from wheel spray

085
LIGHT BLACK/BLACK REFLEX

414
SAVILE BLUE/RED REFLEX

622
PRO RED/ORANGE REFLEX

656
FIERY RED/BLACK REFLEX

This is the workhorse jacket in the Castelli winter lineup. We use our warmest GORE-TEX INFINIUM™ WINDSTOPPER® fleece-lined fabric on the front and back to keep the wind out and the heat in. For the back of the sleeves and side panels we use a lighter-weight GORE-TEX INFINIUM® WINDSTOPPER® for better fit and breathability. We keep the lines clean and don't add anything superfluous — unless you think the big reflective stripes front and back are superfluous. Functional details are all there, as you expect from Castelli: an easy-sliding YKK® Vislon® zipper and three big pockets for storage, along with a zippered key pocket for valuables. The Raddoppia 3 Jacket will keep you warm and seen all winter long.

If you're looking for just one jacket to do it all, start here. We used our lightest GORE-TEX INFINIUM™ WINDSTOPPER® three-layer stretch fabric, which makes it great for milder conditions, and the stretch gives it a great fit. It's the same outer fabric as we use for our Alpha RoS 2 Jacket, called "The benchmark in how the best winter jackets should perform" by Cyclingnews.com, but the Go Jacket forgoes the Alpha's integrated liner so you can decide how much insulation you need. Add a Flanders Warm base layer and thermal jersey to extend the comfort range to subfreezing temperatures.

But the fabric is only the start. We've tailored the fit to be close to body but not too close. It gives a good drape to the jacket, rounded out by details like the no-sew finishing to the hem and the zippered colored chest pocket. The hidden internal cuffs are a nice comfort touch, and you'll appreciate how they eliminate drafts from the wrist. There are three pockets on the back, with a large reflective strip stretching across the entire bottom of the pockets for nighttime visibility.

Where does this jacket fit in our line? It's similar in warmth to the Perfetto RoS Long Sleeve, but it has a more tailored and elegant look, with a slightly more relaxed fit, and it's not quite as protective in wet weather.

WEATHER CONDITIONS

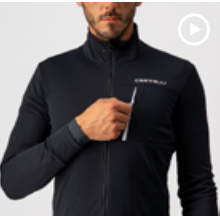

WHAT IT IS /PRODUCT FEATURES

Named after the famous Giro d'Italia climb up the Colle delle Finestre, this jacket is equally at home on tarmac or gravel, providing excellent breathability with warm fleece insulation and GORE-TEX INFINIUM™ protection from the elements.

- GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast fabric with fleece liner as main body fabric
- Sublimation-printed graphic over upper chest and sleeves
- Warmer back allows heat and moisture to escape
- Reflective panel below pockets for maximum visibility
- 3 rear pockets
- YKK® Vislon® zipper

The Finestre Jacket was designed to be great on the road or on gravel. It combines warmth with breathability and a neutral fit so it looks great no matter what surface you take it on. It uses our warmest GORE-TEX INFINIUM™ WINDSTOPPER® shell fabric with a brushed fleece backing to keep you comfortable on cold days, but with a panel on the back in our Warmer brushed fleece fabric that forgoes a membrane for extra breathability. The construction details show this jacket is all business: easy-sliding YKK® Vislon® zipper for quick ventilating, three rear pockets, silicone gripper elastic waist, big reflective panel just below the pockets.

CONFORT AND PERFORMANCE

GORE-TEX

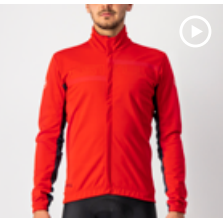

INFINIUM

This mid-weight wind jacket is perfect for those autumn and spring rides when you want to cut the chill but don't want to overheat. A neutral fit and reflective panels make this jacket exceptionally useful.

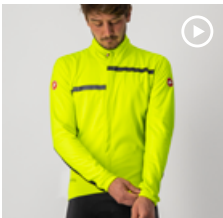

- GORE-TEX INFINIUM™ WINDSTOPPER® X-Mid front and sleeves for wind protection with exceptional breathability
- Warmer fleece fabric on back for additional breathability
- YKK® Vislon® zipper
- 3 rear pockets
- Embossed logo on chest with reflective stripes for visibility
- Reflective panel below pockets for maximum visibility

This jacket is the perfect companion to a Velocissimo or Entrata tight for cool fall days or even full winter for those of you living in warmer climates. For the front of this jacket we've used the same fabric as on our pro-level Gabba jacket, but in this case we've paired it with a fleece back for extra breathability and we've given it a more generous cut for easier wearing. The details are there, from the perfectly placed and sized three rear pockets to the silicone gripper elastic and the YKK® Vislon® zipper for easy opening and closing. Make the transition from summer to fall easier than ever.

IF YOU HAD
JUST ONE JACKET

The Perfetto RoS is the one jacket that does everything well. We initially designed it as a cool-weather training and extreme-weather race piece for our pro riders, but in reality it excels in many conditions thanks to its full wind protection, great fit through stretchy fabrics, and best-in-class breathability.

The current version represents the biggest performance upgrade in the four generations of this jacket. RoS in the name signifies Rain or Shine. The emphasis should be on dry-weather comfort, which is where this jacket really excels, but then you get near waterproof protection if you do get caught in the rain. We worked with Gore to develop two new Castelli exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabrics. We use a light fleece-lined water resistant version on the forward-facing surfaces and a lighter, stretchier fabric on the back that maintains the breathability of the previous fabric while improving water repellency at the same time.

The Perfetto RoS is that ideal weight: no built-in insulation so you can layer over a light base layer for moderate conditions. Or you can add a thermal jersey underneath and take it to very cold conditions. You decide.

The Perfetto family features are all there: excellent fit, easy-sliding YKK® zipper, long tail to protect from wheel spray, reflective panel on the back, and discreet styling that belies the jacket's racing pedigree.

This is the one jacket that belongs in every cyclist's quiver.

WHAT IT IS /PRODUCT FEATURES

The two-in-one jacket: it's a Perfetto Long Sleeve, the most versatile jacket in the Castelli line, but the sleeves zip off to turn it into a short-sleeve Gabba. You can ride three seasons with this jacket without ever compromising protection or comfort.

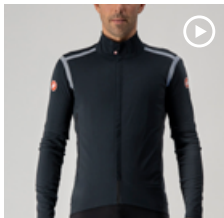

- Zips just above elbows to allow use as long- or short-sleeve jacket
- Castelli exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for extra stretch and breathability
- Taped shoulder seams (reflective for color 085) for extra rain protection
- YKK® Vislon® zipper for easy sliding, covered for extra wind and rain protection
- Zippered ventilation opening on side of chest
- 2 rear pockets with pump sleeve are easily accessed with gloved hands
- Gabba-style dropped tail with large black reflective panel

NANO FLEX

WHAT IT IS /PRODUCT FEATURES

Combining two of our best-performing products, the Perfetto RoS Long Sleeve with the Sorpasso RoS Bibtight, this suit brings our widest range of winter riding comfort. Why go for the one-piece suit? Eliminating the layers around the waist and the bib straps brings extra comfort, and the lack of an opening at the waist keeps you warmer by preventing cold air from coming in.

- UPPER BODY:
- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
 - GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for extra stretch and breathability
 - Taped reflective shoulder seams for extra rain protection
 - YKK® Vision® zipper for easy sliding, covered for greater wind and rain protection
 - Zippered ventilation opening on side of chest
 - 2 rear pockets with pump sleeve are easily accessed with gloved hands

- LOWER BODY:
- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
 - Nano Flex Xtra Dry fabric panel on upper front and thigh for increased warmth
 - Anatomic cut to hip and knee
 - Reflective panels at ankle for maximum visibility from behind
 - YKK® Camlock® zipper at ankle

WHAT IT IS /PRODUCT FEATURES

The Idro Pro Jacket is workwear for the pros. If your job (or passion) means long rides in inclement weather, this jacket is just what you need. The amazing GORE-TEX® SHAKEDRY™ fabric sheds rain better than any other, while the stretch panels make this jacket fit like none other, yet it still packs away into a jersey pocket.

- GORE-TEX® SHAKEDRY™ 2-layer ultralight waterproof breathable fabric
- Stretch GORE-TEX® side panel, shoulder, and sleeve give close-to-body fit
- Stretch wrist closure seals wrist and can cover gloves to keep water out
- YKK® Vislon® waterproof zipper
- 2 external rear pockets
- Silicone elastic waistband
- Fully taped seams for total waterproof construction
- Reflective trim
- Packs up small to easily stash away in jersey pocket

010
BLACK

This is the ultimate waterproof cycling jacket. Light, packable, highly breathable, durably waterproof, and aero fitting. This is the first piece that brings all those features together into a jacket made for the rider who has to (or chooses to) ride in any weather conditions.

The unbelievably light GORE-TEX® SHAKEDRY™ fabric lets us make waterproof jackets that are lighter than ever while also being more breathable than ever. This miracle fabric has no stretch, though, so we've combined it with GORE-TEX® Topo inserts to give a close fit and extreme packability to a jacket that's fully protective for all-day riding in the rain. We've given it two external pockets so you don't have to unzip to reach your jersey pockets. We've given it a longer tail to shield you from the spray coming off your back wheel. And we've given it reflectivity for safety.

Compared to our Idro 3 Jacket, this is more of a workhorse jacket. It's made for the rider who leaves his house for an all-day ride in the rain, for the rider whose jacket is a necessity and not a piece that stays in a pocket until it's needed.

WHAT IT IS /PRODUCT FEATURES

This fully waterproof, highly breathable, and extremely lightweight and packable (half a pocket) jacket featuring an innovative fit system is perfect for any rain ride or long descent.

- The lightest and most packable fully waterproof Castelli GORE-TEX® jacket
- GORE-TEX® SHAKEDRY™ product technology sheds water yet offers unmatched breathability
- The entire lower back is in GORE-TEX® Topo stretch fabric to expand in diameter if you have a few extra winter kilos or full pockets
- Reflective tape on back of both sleeves for high visibility in low-light conditions
- YKK® Vislon® waterproof zipper slides easily for ventilation adjustments
- Internal wrist gaiter seals wrist and integrates with glove to keep water out

WHAT IT IS /PRODUCT FEATURES

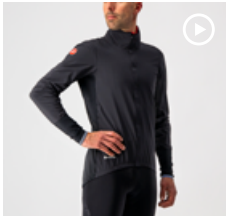

Mid-weight GORE-TEX® shell jacket for all-day riding in the rain, cut to fit over insulation layers but with Topo stretch panels to help the jacket move with you. This is serious equipment for your wettest, nastiest days on the bike, when anyone else would stay inside.

- 3-layer mid-weight GORE-TEX® fabric for total rain protection
- Stretch panels in GORE-TEX® Topo fabric bring better fit in shoulders and stretch in wrist for easy on/off with gloves
- 2 large rear pockets for easy access with gloved hands
- Long tail for splash protection
- Covered YKK® AquaGuard® zipper
- Zipper flap at neck for extra comfort

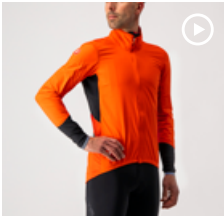

This jacket is made for those days when speed and light weight are sacrificed for the most effective barrier possible against the rain and cold outside. If you've never had a jacket like this, you've never experienced the feeling of going out only because you have to and then enjoying one of the most epic days ever.

We went with a heavier-weight GORE-TEX® fabric for extra durability and because we gave this jacket a little more generous cut and don't want the fabric flapping around. But we still made it so that you can ride in an aggressive position, helped by stretch panels around the shoulders. We've added the same stretch panels around the wrists so that you can put it on and take it off over your Diluvio gloves, and we added stretch panels on the sides in case you load up your pockets.

Even though this is an absolute extreme-conditions jacket, it can still fold up small enough to be stuffed in a jersey pocket—or, more likely, in a bag, because this jacket is a must on your next multiday adventure.

WHAT IT IS /PRODUCT FEATURES

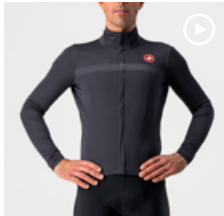

This elegant jacket provides full waterproof protection with a stretch fit for comfort and aerodynamic performance. The jacket is protective enough to wear all day yet looks good on a gravel ride or when you’re meeting your mates at the café.

- Tempesta Stretch fabric with windproof PU membrane provides 10,000 mm waterproofness with 20,600 g/m2/24h breathability
- Taped shoulder seams for waterproofing
- Stretchy for extremely comfortable fit that moves with you
- Packable enough to fit in jersey pocket
- Covered easy-sliding YKK® Vislon® zipper
- Extra-long tail for protection from wheel spray
- Vent on back
- Reflective stripe at lower back

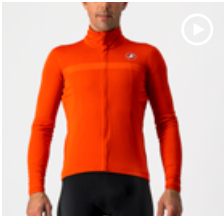

This jacket does three things really well: the Tempesta Stretch fabric provides full waterproof protection, the four-way stretch makes it fit any body type, and it looks great on and off the bike. Compared with our more expensive GORE-TEX® Idro jackets, you give up the best-in-class breathability and extreme packability, but you gain stretch fit and increased durability.

We developed the fabric to our own specifications to make a jacket that is fully waterproof, comfortably stretchy, packable enough to fit in a jersey pocket, and with an appearance and hand that make it look great.

This is meant to be a rain shell worn over a jersey, so we’ve forgone the external pockets and kept the construction simple to minimize seams. We’ve given it a vent on the back to prevent overheating, a covered zip to keep spray out and reflectivity for safety.

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

The go-to jacket for rain protection, whether for all-day use or emergency use, since it easily stashes away in a jersey pocket. With discreet styling and 360° reflectivity, it can do double duty as a commute jacket.

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Stuff pocket integrated into mesh vent at top of back
- Waterproof zipper and contrast seam sealing keep water out
- 360° reflectivity

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you’d expect from Castelli, we also gave it an amazing on-bike fit, yet it’s still roomy enough to fit over a Gabba. It has all the trappings of a performance rain jacket, with the waterproof zipper, long tail, long sleeves, and wrist closures that can go over gloves, yet we knew you wouldn’t want to break the bank with it, so the only real compromise compared to our top-of-the-line offerings is in breathability.

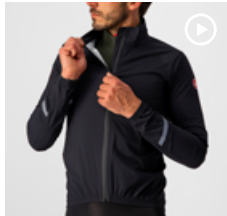

We kept the styling toned down and added a bright colorway in Fiery Red so that you can easily use this as a commute jacket and still look great when you get to the office. If you’re going to wear it over office attire you may want to go up one size.

WHAT IT IS /PRODUCT FEATURES

An extremely light and packable wind shell that fits close to body, with stretch breathability panels, allowing you extend the temperature range of your favorite Castelli pieces.

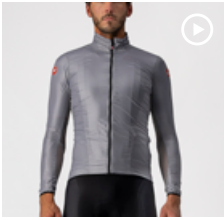

- Ultralight windproof woven microfiber front
- Striped mesh fabric at sides and sleeve back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Integrated pack sack
- YKK® Vislon® zipper
- Reflective Castelli wordmark

NOT YOUR OLD-STYLE WIND JACKET

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to re-invent a classic. In reality, the Aria Shell Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era. This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

WHAT IT IS /PRODUCT FEATURES

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

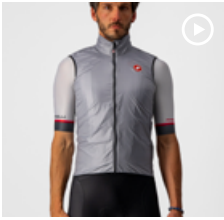

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective piping

NEAR WEIGHTLESS PROTECTION

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

WHAT IT IS /PRODUCT FEATURES

This thermal vest is a favorite of our pro riders since it adds some extra warmth for your core without sacrificing breathability or causing overheating. We built it without a windproof membrane, so you'll never feel damp inside.

- Mid-weight Warmer X-Stretch brushed fabric
- 3 back pockets
- Elastic at waist
- YKK® Vislon® zipper
- 3 rear pockets

PRO EQUIPMENT

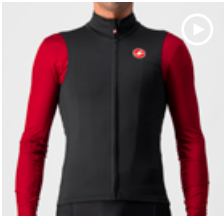

This is a piece that pro riders consider essential but that isn't used very often by regular cyclists. It's a thermal vest with no wind protection; the simple use of our mid-weight Warmer X-Stretch fabric provides a good bit of extra warmth for your core, but without trapping moisture inside a membrane. It's ideal for high-intensity riding in cool weather or staying comfortably warm on a mild-temperature recovery day. Find out why the pros always have one in their race bag.

| <div><div></div><div></div><div></div></div> | | |

WHAT IT IS /PRODUCT FEATURES

Warm, stretchy, water-repellent and highly visible: the ideal mix for a spring and autumn jersey. Using the same fabric as our Nano Flex arm warmers, this premium jersey provides our best performance fit and 360° reflectivity. Ideal with the Perfetto RoS Vest.

- Nano Flex 3G fabric features warm brushed fleece inside with 20% elastane for stretch and Castelli's unequaled Nano Flex water-repellent finish
- Reflective fabric inserts at shoulder and on central pocket
- 3 rear pockets
- YKK® Vislon® zipper
- Embossed logo

Ready to move up to a better cool-weather jersey? The Tutto Nano RoS Jersey features a number of upgrades compared to what you've probably been using.

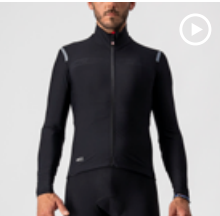

First is the stretch fit that moves perfectly with you, made possible by the Nano Flex 3G fabric, the same fabric we use to make our arm and leg warmers as well as our Sorpasso tights. This close-to-body fit actually makes the jersey warmer by avoiding fabric flapping in the wind.

Second is the tighter knit of the fabric compared to traditional thermal jersey fabrics. It lets less air through so you stay warmer.

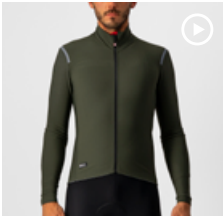

Next is Castelli's proprietary nanotechnology water-repellent finish. On dry days you won't even know it's there, but when you get some light rain or wet roads then you stay drier.

Last is the 360° reflectivity, thanks to the panels on the shoulders and lower back.

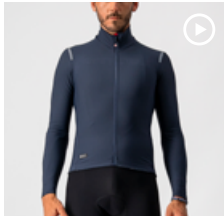

Of course, the Castelli attention to detail is there, with the easy-sliding YKK® Vislon® zipper with rubberized pull and the silicone gripper elastic to prevent the jersey from riding up.

| | | |
| WEATHER CONDITIONS | | |
| <div><div></div><div></div></div> | | |

WHAT IT IS /PRODUCT FEATURES

A favorite piece among our sponsored pros, this jersey is a bit lighter and a bit stretchier and features a closer cut for an aero fit.

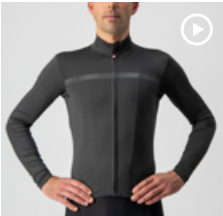

- Mid-weight Warmer X-Stretch brushed fabric
- Ideal for cool conditions, with or without a vest
- Race cut with highly elastic fabric provides close-to-body fit without feeling tight
- Drop-pocket construction for better fit around waist and better pocket position
- Easy-sliding YKK® Vislon® zipper
- Embossed line across chest
- Reflective vertical stripe on center pocket

For those first cool fall days or the last remnants of spring, the Pro Thermal Mid LS Jersey gives you some extra warmth.

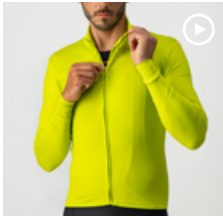

The secret is in the fabric. Compared to our standard Warmer fabric, we've lightened it up a touch and added some spandex/elastane for more stretch. It has a close-to-body aero fit without feeling too tight. It's a performance piece for every ride, with our drop-pocket construction and YKK® Vislon® zipper for easy one-handed adjustment.

Why would you want a less warm thermal jersey? One situation is in conditions that are too cool for a short-sleeve jersey and it just feels better to cover up and add this bit of warmth. Another situation is a higher-intensity ride where it's easy to overheat.

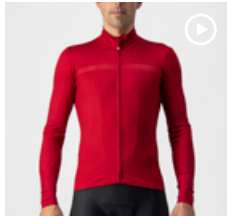

In keeping with the pro technical function of this jersey, we've kept the design details very clean, with an embossed stripe across the chest and a reflective vertical stripe on the pocket for low-light visibility.

WHAT IT IS /PRODUCT FEATURES

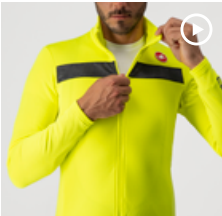

Our most popular jersey, thanks to the warmth and excellent moisture management of our Warmer brushed-fleece fabric; the clean, purposeful design; and the large reflectivity panels on the chest and below the pockets on the back.

- Warmer fabric is a thickly brushed polyester fleece giving comfortable warmth with excellent moisture management
- Reflective panels on front and back
- Gripper elastic at waist
- 3 rear pockets
- Easy-sliding YKK® Vislon® zipper

The third generation of the Puro Jersey, our most popular winter jersey, is better than ever. The thickly brushed fabric is warm inside yet with excellent breathability with enough stretch for non-restrictive fit. The reflective panels front and back provide excellent day and night visibility. Otherwise it's a no-nonsense technical piece aimed at comfort and warmth while making you look good.

WHAT IT IS /PRODUCT FEATURES

This core layering piece, warm and with a neutral fit and reflective details, is designed to look great whether you use it on its own or under a vest.

- Made from 100% polyester fleece for extra warmth and wicking
- Easy-sliding YKK® Vislon® zipper
- 3 rear pockets
- Silicone gripper elastic at waist
- Large reflective panels on both sleeves and center pocket

We designed this jersey with the idea that you'll wear it half the time on its own and half the time under a vest in cooler conditions. So we made it look great no matter which way you use it. We made it highly functional using our Warmer fabric, which is thickly brushed on the inside, yet the 100% polyester composition means it doesn't hold sweat. The bands on the sleeves and the vertical stripe on the pocket are reflective for low-light visibility.

Made to keep your core warm while providing enough ventilation to keep you from overheating. Brushed fleece inside for warmth. Stretch side panels keep it fitting perfectly.

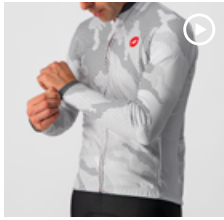

- Warmer fabric on body and sleeves
- Warmer X-Stretch side panels
- Gripper elastic at waist
- 3 rear pockets
- Easy-sliding YKK® Vislon® zipper with neck protector

The thermal jersey is the first step into cool weather clothing, where Castelli has set the standard for what clothing can do. We've taken the same approach here. You'll wear this jersey on cool days, so we've given it a brushed fleece backing but kept the fabric stretchy for a great fit. Since you're using it in conditions that aren't cold enough for a jacket, we've engineered the fabric to let some air in so you don't overheat. We think a jersey like this should be pure function, so you've got our three spacious rear pockets, silicone gripper elastic, and easy-sliding YKK® Vislon® zipper.

WHAT IT IS /PRODUCT FEATURES

The ultimate tool for winter riding in dry or wet conditions, with our most padded chamois. Reflective splashproof panels make it the choice for wet roads as well as night rides.

- Nano Flex Xtra Dry fabric brings higher level of water protection and warmth
- Double-face knit keeps you warmer because less wind comes in
- Reflective waterproof splash guards on inside of lower legs
- Double layer over backside protects from water coming off rear wheel
- Fewer seams to reduce chance of water coming in
- Lie-flat bib construction
- Progetto X² Air Seamless pad for long hours in the saddle

Introducing Nano Flex Xtra Dry fabric. Eight years have passed since Castelli pioneered nanotechnology coatings in cycling clothing to provide a higher level of water protection without sacrificing breathability or stretch. We never stopped working on improving the fabric, and after numerous small improvements we're ready with the first major update. The base fabric is a tighter-knit double-layer construction, and the water repellency treatment is improved to offer even more protection. We're not quite there yet on our goal of bringing full waterproofness to a non-membrane fabric, but this is a significant improvement in making your foul-weather riding much more comfortable. This will also be your go-to tight for dry conditions. It's a no-compromise piece for all your cool-weather riding.

It's not just about the fabric, though. This is a serious training tight, so it gets our Progetto X² Air Seamless seat pad. For total protection in the high-splash area of the inner leg, we use a fully reflective waterproof fabric that adds a high degree of nighttime safety to this tight. The tight is constructed with the bare minimum of seaming, which helps keep the rain out and also makes it more comfortable. This is the best all-around tight that we know how to make with today's technology, but we're still working to make it obsolete as soon as possible.

WHAT IT IS /PRODUCT FEATURES

The original Omloop knee-length thermal short now in full Nano Flex 3G fabric for all conditions from dry to cold to wet.

- Nano Flex 3G fabric is water repellent, stretchy and warm thanks to the luxuriously soft brushed inside
- Reduced seams for comfort and to prevent water from coming in during wet rides
- Knee-length cut for extra warmth that doesn't require a gripper elastic
- Mesh bibs don't add warmth to the upper body so you can dress for the conditions
- Progetto X² Air Seamless seat pad for long hours in the saddle

You could call this a "convergence" product. A few years back we pioneered the first Omloop thermal short, inspired by pro riders cutting off their knee warmers to just the bend of the knee at the Omloop Het Nieuwsblad on a brisk sunny morning. We set about making a bibshort cut right to the bend of the knee and realized that we could make it without a gripper elastic and that the extra 10 centimeters of fabric add a lot of warmth. Those first Omloop shorts were made for cool, dry conditions, like the race that inspired them, using our Thermoflex fabric. Fast-forward to 2020 and the new third generation of our Nano Flex fabric is as soft, stretchy, breathable and warm as our Thermoflex fabric, so now we can make this short ideal for cool and dry conditions, but it's also excellent on wet days. It's still a pro tool: this short is identical to the model supplied to INEOS Grenadiers.

WHAT IT IS /PRODUCT FEATURES

Made for long hours in the widest range of conditions, this tight features our ultra-stretchy, warm and water-repellent Nano Flex 3G fabric with the extra warmth of Nano Flex Xtra Dry on the hips and thighs, along with an anatomical cut and the Progetto X² Air Seamless seat pad for long-distance comfort.

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- Nano Flex Xtra Dry fabric panel on upper front and thighs for extra warmth, and on back to protect from road spray
- Anatomic cut to hips and knee
- Reflective inserts for maximum visibility from behind
- Lie-flat elastic bib straps
- YKK® Camlock® zippers at ankles
- Progetto X² Air Seamless pad for long hours in the saddle

The name of this tight, Sorpasso, means “overtaking” in Italian. That’s what we’ve tried to do with this tight, to make it a bit faster, better, more comfortable. It’s made to be technical equipment for riding in the widest range of winter conditions. The main part of the tight uses our Nano Flex 3G fabric, the third generation of our nanotechnology fabric treatment that adds a high level of water repellency without affecting the breathability, stretch or warmth of the fabric. You get a highly stretchy, compressive fit that moves with you, focusing on warmth and comfort.

But then we add a few panels of the Nano Flex Xtra Dry fabric to provide a bit more wind protection and warmth in the front panel and over the thighs, and in the back for extra protection from road spray.

It’s not only about the fabrics: anatomical patterning gives a bend at the knee and the hip, while the seamless bib straps lie flat and securely keep everything in place. Our generously padded Progetto X² Air Seamless seat pad make long rides more comfortable, and you have multiple reflective panels to keep you visible. We’ve designed this as the go-to tight for a full winter’s riding.

WEATHER CONDITIONS

The do-everything tight: great in dry conditions, water repellent for light rain and wet roads, reduced seams for comfort, reflective band for visibility. And the tone-on-tone embossed logos give it that tech stealth look.

- The bibtight that’s great in every possible condition
- New Nano Flex 3G fabric is exceptionally warm and soft yet with even better rain protection
- Reduced seaming for improved comfort and fit
- Mesh bib straps don’t hold moisture
- KISS Air² seat pad for long-distance comfort
- Reflective leg ending with ankle zip
- Embossed logos for durability

IT JUST HAPPENS
TO BE GOOD
IN THE RAIN TOO

Our Nano Flex 3G fabric is the result of a decade of development. It’s our best all-around fabric for winter tights: warm, stretchy, luxuriously soft, highly breathable and on top of that it features our proprietary third generation of nanotechnology water-repellent finish. While other companies are using simple chemical water-repellent finishes, we create a nanotechnology mechanical repellency to enhance a chemical DWR finish. You stay drier and more comfortable.

Even though this tight features our latest water-repellency technology, don’t think of it as just a niche rain tight. The fabric makes for a great dry-weather tight, and the reduced-seam anatomical cut makes it extremely comfortable. We use the pro-level KISS Air² seat pad along with a mesh bib and zippered ankles. This is the tight that’s good at everything.

WHAT IT IS /PRODUCT FEATURES

This lightweight winter cool-weather tight keeps the upper leg warm but reduces coverage on the lower leg for a greater feeling of freedom and “just right” warmth.

- Thermoflex upper portion, Nano Flex Light fabric below the knee
- Anatomic cut taken from the Free Aero Race Bibshort, Castelli's top race short as used by INEOS Grenadiers
- Lower leg is non-brushed to prevent overheating yet features a water-repellent finish to protect from road spray
- Progetto X² Air Seamless seat pad

COVERAGE
FOR COOL WEATHER

We've been making our tights better and better for colder weather, and at the same time we've seen a drop-off in demand for 3/4 knickers. So we fill that gap with the LW Bibtight. LW stands for Light Winter, the conditions that are becoming more and more common. So we build the upper portion to INEOS Grenadiers' specs with the Thermoflex fabric that keeps your thighs and intimate parts warm, and then we add a thinner non-brushed water-repelling Lycra® to the lower legs. To keep the lightweight feel we avoid zippers at the ankles, but we put in our Progetto X² Air Seamless seat pad because we know this will be your go-to piece for long fall and spring rides.

WHAT IT IS /PRODUCT FEATURES

Minimalist meets performance in this tight with extreme-comfort Thermoflex fabric along with our fleeced Nano Flex stretch-woven lower leg for splash protection. Especially good when you don't want a deep-winter tight.

- Thermoflex fabric from knee to waist for warmth and comfort
- Nano Flex stretch-woven fabric with brushed fleece inside at lower leg for splash protection from wet roads
- KISS Air² seat pad
- Mesh bib straps
- Zipperless ankle to reduce bulk inside shoe covers
- Reflective inserts on thighs for visibility on back and sides

The ideal tight for most of your winter riding, the Velocissimo is focused on comfort for riding in mild to cool conditions.

We've used our Thermoflex fabric for most of the tight. It's not our warmest fabric, nor does it repel water like Nano Flex, but it is the softest, stretchiest winter tight fabric. The comfort is immediate and lasting. For the lower leg from just below the knee, we switch to our Nano Flex fleeced stretch-woven fabric that's both warm and highly water repellent for protection against spray coming off wet roads. It's also highly stretchy, and we leave a raw edge so we can construct the ankles without zippers while making sure the tight remains easy to put on and take off. The KISS Air² seat pad and mesh bibs keep your bum and upper body happy, while large reflective detailing keeps you visible.

WHAT IT IS /PRODUCT FEATURES

Our warmest tight, providing full-length front wind protection. This is the right choice if you love extreme riding or just want to dress very warmly in cool/cold conditions.

- Full GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast front for total wind protection
- Nano Flex G3 on seat and lower back leg for splash protection from wet roads
- Thermoflex back of thigh for extra warmth and stretch
- Mesh bibs don't hold moisture
- KISS Air² seat pad gives great cushioning without excessive bulk
- High-visibility reflective stripes above knee in front and above calf on back
- Ankle zips for easy on/off

010
BLACK

This is our warmest tight, for tough guys who don't let a little cold keep them indoors. Our warmest GORE-TEX INFINIUM™ WINDSTOPPER® fabric covers the entire front of the tight to keep the cold wind out. We use water-repellent Nano Flex 3G on the bum and the back of the lower legs for splash protection from wet roads, while Thermoflex on the back of the thighs gives extra stretch for the renowned Castelli fit. This is now the most comfortable wind tight we've ever made. We've kept the bib straps to a minimum so that you can layer your upper body exactly as you wish, without an unwanted thermal layer covering your stomach. With more of us riding at night, we've placed large reflective inserts on both the front and back of the legs, where the up-and-down pedaling motion grabs the attention of approaching motorists.

CASTELLI CYCLING

INSIDER JERSEY
4519574

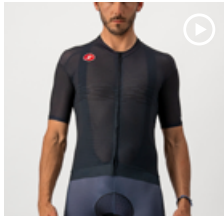

| SIZES | WEIGHT |
|--------|----------|
| XS-3XL | 88 g (L) |

WHAT IT IS /PRODUCT FEATURES

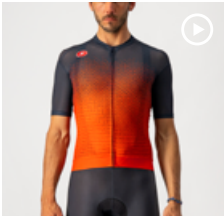

The lightest jersey we’ve ever made is ideal for your cybersport suffer sessions.

- 3D Mesh lightweight 100% polyester wicks moisture and dries quickly
- Semi open mesh allows maximum air flow without becoming too transparent
- Full length zip makes for easy on and off
- 2 rear pockets for stashing whatever you need
- Can be used as hot weather outdoor jersey

We made this jersey for the rigors of indoor training. The 3D Mesh fabric allows maximum airflow for cooling while the 100% polyester content means it provides maximum moisture wicking. We made it on the limit of not being too transparent in case you want to wear it for group training sessions, or if you’re using it at home and want to take it off after warming up the long zipper means it comes off easy. We put a couple of pockets on the back so you can stash your AirPods or phone or headband or whatever you haul to your training station. We’ve kept the collar low and the waist short for maximum cooling. It just happens to be a great hot weather jersey that you’ll pull back out come August.

WHAT IT IS /PRODUCT FEATURES

For our lightest-ever road short, we use the first seamless graduated-ventilation stretch woven fabric to make a short that’s both impossibly light and cool yet supportive for the longest rides.

- The premium lightweight hot weather short
- Gradient stretch wove fabric for minimal weight with optimum support
- Ultralight fabric to reduce weight by up to 50% while improving durability
- Minimalist stripe mesh bib to minimize weight and keep you cool
- Integrated gripper elastic with exposed Lycra® to hold leg in place
- Embossed logos and stretch silicone scorpion heat transfers
- Progetto X² Air Seamless seat pad

| SIZES | WEIGHT | TEMPERATURE RANGE |
|--------|-----------|--------------------|
| XS-2XL | 112 g (M) | 4°-15°C / 39°-59°F |

WHAT IT IS /PRODUCT FEATURES

In cool conditions the mesh construction gives the warmth of wool but won't wet out on high-intensity rides.

- Merino wool mesh mixed with nylon for strength and elastane for stretch
- Minimalist finishing at collar, wrist, and waist for minimal bulk
- Raglan sleeve to avoid seam on shoulder under bib strap
- Woven scorpion logo label at side collar

008 GRAY

"What is that?" lit up our social media channels when Tao Geoghegan Hart wore a prototype of this base layer up and over the Stelvio on his way to winning the 2020 Giro d'Italia. Those conditions highlight where this piece excels: it provides a surprising amount of warmth by pulling moisture away from the body, keeping you warm always, but the mesh construction means it's not too hot. Great under a jersey for high intensity, or for layering under a jacket.

WHAT IT IS /PRODUCT FEATURES

Neoprene protection. A thicker neoprene and taller cuff provide extra warmth for racing and training in wet, cold weather.

- 4 mm neoprene fabric will stand up to the wettest and coldest winter riding conditions
- Seams are glued and stitched for added protection from the rain
- Water-resistant YKK® zipper at back
- Pro fit with added height to cover your 20cm socks
- Reflective heel and side print for safety

WHAT IT IS /PRODUCT FEATURES

Nano Flex for the ultimate warmer: warm and comfortable in dry conditions, water repellent in damp conditions, and still warm in extreme conditions.

- Water-repellent thermal and breathable Nano Flex fabric
- Flat-lock stitching with single seam
- Double-sided silicone grippers to keep warmers in place

NANO FLEX
ALL-CONDITION
WARMERS

Choose Nano Flex for warmers that are great in dry conditions but also give some extra protection and warmth in wet conditions. We invented the category of water-protective thermal fabrics, and Castelli's proprietary Nano Flex is often imitated but never equaled. No compromises for any conditions.

WHAT IT IS /PRODUCT FEATURES

Thermoflex is luxuriously warm and stretchy in dry conditions but is not intended for wet conditions.

- Thermoflex fleece fabric is warm, stretchy and soft
- Single-piece construction with flat-lock seams
- Embossed Castelli wordmark logos
- Dual-sided silicone gripper elastic at top prevents sliding down

THERMOFLEX
LUXURIOUS FLEECY
WARMTH

If you don't need the extra wet weather protection of Nano Flex, or if you've always been happy with traditional warmers, you'll find that Castelli's Thermoflex warmers offer the softest, most luxurious fabric combined with careful attention to construction details.

| WEIGHT | TEMPERATURE RANGE |
| 67 g / 74 g / 52 g (Pair) | 10°-20°C / 50°-98°F |
| WEATHER CONDITIONS | |
|   | |

WHAT IT IS /PRODUCT FEATURES

A wide temperature range combined with seamless comfort makes this our most versatile warmer.

- Mid-weight seamless arm warmer
- Surprisingly warm without causing overheating
- Unique polyester/nylon/Lycra® 78%/15%/7% blend
- Fully seamless construction
- Folds up extra small

A BETTER ARM WARMER

With Ineos Grenadiers we set out to make a better seamless arm warmer. Others on the market are made with a nylon/Lycra® blend that tends to hold moisture, but we knew we could get better moisture management with a polyester yarn. Working with polyester makes it more difficult to get the right stretch, return and manufacturing consistency, though. It took a year longer than we thought, but we're all glad we stuck with it. These warmers are a pro rider favorite because they're crazy light and they're extremely warm for their weight, yet even in milder conditions you don't overheat. They're so stretchy you hardly feel them on, yet when you take them off they occupy a fraction of the space that normal warmers would take in your pocket.

| WEATHER CONDITIONS | | |
| <div><div></div><div></div><div></div><div></div></div> | | |

WHAT IT IS /PRODUCT FEATURES

The jacket that’s very warm yet extremely packable for your adventure or multiday rides. Woven microfiber windproof outer layer with Polartec® Alpha® Direct insulation.

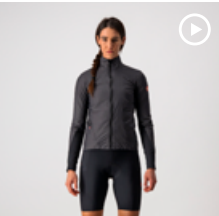

- Coated windproof microfiber woven outer shell with DWR treatment
- Polartec® Alpha® Direct insulation layer for maximum loft with minimum bulk
- Nano Flex stretch woven fabric on underside of sleeves, sides, and lower back adds stretch and breathability
- Zippered pockets on chest
- 2 large rear pockets covered with flap to look right when off the bike
- YKK® Vislon® zipper with U-shaped zipper pull
- Woven inner label and vintage scorpion logo on sleeve

When the challenge is distance rather than speed, this jacket brings warmth and comfort with styling that looks right both on the bike and at the food stop.

We’re doing more and more long adventure rides. Sometimes that means rides with major elevation changes. Or riding through the cold of night and the heat of the day. Or multiday bikepacking rides. This jacket shines in those situations because it provides a lot of insulation and warmth when you need it, but it packs down small in your seat bag when you don’t need it.

The outer layer is a fabric you’ve seen on some high-end down jackets from some big brands. We like it because it’s so light yet it keeps the wind out. Then on the inside, Polartec® Alpha® Direct is the lightest, most packable, and highest-wicking insulation available. It’s warm like a synthetic down but doesn’t require an inner layer that would reduce breathability and add weight.

For your next Unlimited adventure, just stick this jacket and a GORE-TEX Idro Jacket in your bag and you’re ready for anything.

| SIZES | WEIGHT | |
| XS-XL | 301 g (S) | |

TEMPERATURE RANGE

12°-18°C / 54°-64°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

The thermal jersey that's ideal for Unlimited riding, both on tarmac and on dirt, thanks to the exceptional warmth of our heavier-weight Warmer fabric.

- Maximum warmth from printable version of our Warmer polyester fabric with brushed fleece inner layer
- YKK® Vislon® zipper with protective tab at top
- 3 rear pockets with Castelli drop-pocket construction
- Reflective piping

With the changing speeds and intensities of riding on gravel, a thermal jersey becomes even more useful. The sublimation-printed Warmer fabric has a luxurious fleece inside yet offers enough breathability to keep you from overheating. We've kept the construction simple on this jersey with three rear pockets, a full-length YKK® Vislon® zipper, and silicone gripper elastic at the waist. This piece layers well with a Perfetto or Aria vest.

UNLIMITED W BAGGY SHORT
4521544

| | |
|--------|-----------|
| SIZES | WEIGHT |
| XS-3XL | 174 g (S) |

WHAT IT IS /PRODUCT FEATURES

The baggy short that's not too baggy. It's so light and stretchy you might forget you're wearing a baggy short. It has no liner so you can wear it with your favorite cycling short.

- Stretch woven fabric with DWR finish
- Extremely light so you won't even feel it on
- 2 front pockets and 1 zippered pocket
- Stretch jacquard waistband with zippered front opening
- Scorpion button logo

There are those days when a baggy short just seems like the right look. But you always debate whether you're willing to compromise comfort for that look, and you end up wearing Lycra®. So we set out to make a better baggy.

We reached for a stretch woven fabric that gives great stretch but in an unbelievably lightweight yet durable fabric. We gave it a DWR finish so mud and water roll off. We gave the short two top-opening pockets like jeans so that whatever you put in there won't fall out. We made the cut fairly close to body so you look good off the bike but the short doesn't balloon out when you're on the bike. It all just kinda disappears.

The short doesn't have its own seat pad, so wear this over your favorite Castelli short.

WHAT IT IS /PRODUCT FEATURES

Castelli's ultimate jacket, bringing warmth, breathability and a high level of rain protection along with a soft, comfortable fit. With a fresh update in its third generation, this jacket leads the way in demonstrating how a winter jacket should perform.

- Rain or Shine engineering makes this our best jacket ever for dry conditions while also providing significant rain protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 150 fabric for wind protection with high breathability and effective rain protection
- Reduced seaming with seam sealing on shoulders reduces chances for water to enter through stitching
- Double-layer Alpha construction separates insulating layer from wind/water barrier to let you better regulate ventilation
- Water-resistant YKK® Vislon® zipper slides easily for better regulation of airflow
- Raw-edge waist with silicone gripper lies flat and seals out wind
- Double-layer cuff integrates with glove to prevent cold wind or water from entering at wrist
- Stretch fabrics with advanced patterning make for excellent close-to-body fit that still accommodates a wide range of body types
- Back ventilation
- 3 rear pockets with reflective laser-cut drain holes
- Zippered secure side pocket for valuables

WHAT IT IS /PRODUCT FEATURES

This thin wind and splash barrier provides a surprising amount of warmth while being so light and stretchy you'll hardly notice it. Race fit for performance on fast autumn and spring rides on any terrain.

- Polartec® NeoShell® 4-way-stretch fabric on front and upper sleeves is windproof, waterproof and highly breathable
- Nano Flex Light woven fabric on back is highly breathable while blocking wind and splashes from light rain or wet roads
- Close-to-body cut remains very comfortable thanks to 4-way stretch of all fabrics
- YKK® Vislon® zipper is easy sliding for quick ventilation control
- 3 rear pockets
- Reflective panel at lower back

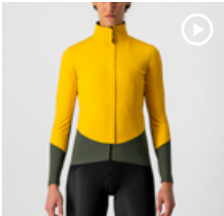

As summer turns to autumn we still have a few months of amazing riding, but when we have to start dressing warmer we miss the freedom of wearing just a jersey. That's why we made this jacket. We used the lightest, stretchiest fabrics we have to make a jacket that cuts out most of the wind, remains highly breathable, provides remarkably high levels of water protection, and just basically disappears so you don't really notice it. This is a performance piece, so we've kept it focused on the task at hand. There's nothing superfluous on it, unless you consider the big reflective panel on the back to be unnecessary. We don't. We've given it a close-to-body fit so there's no fabric flapping in the wind, which also helps keep the jacket warmer. The pockets are generous and easily reachable, the zip slides easily, and the logoing is discreet.

WINDSTOPPER®

TEMPERATURE RANGE
4°-14°C / 39°-57°F

WEATHER CONDITIONS

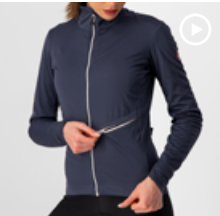

WHAT IT IS /PRODUCT FEATURES

The Go Jacket is Castelli's most versatile jacket. It can be used as a light shell in mild conditions or go to cold conditions by adding insulating layers underneath. Stretchy, comfortable, breathable, wind-proof, water resistant, elegant, and lightweight, this jacket has it all. Get out and Go.

- Full soft-shell construction with GORE-TEX INFINIUM™ WINDSTOPPER® 150 keeps cold wind out while offering exceptional breathability
- Excellent stretch with neutral fit for extra comfort
- Stretch panel at wrist
- Zippered front pocket
- YKK® Vislon® zipper with rubberized zipper pull
- No-sew waist construction for clean, technical look
- 3 rear pockets
- Large reflective strip across pockets for low-light visibility

If you're looking for just one jacket to do it all, start here. We used our lightest GORE-TEX INFINIUM™ WINDSTOPPER® three-layer stretch fabric, which makes it great for milder conditions, and the stretch gives it a great fit. It's the same outer fabric as we use for our Alpha RoS 2 Jacket, called "The benchmark in how the best winter jackets should perform" by Cyclingnews.com, but the Go Jacket forgoes the Alpha's integrated liner so you can decide how much insulation you need. Add a Flanders Warm base layer and thermal jersey to extend the comfort range to subfreezing temperatures. But the fabric is only the start. We've tailored the fit to be close to body but not too close. It gives a good drape to the jacket, rounded out by details like the no-sew finishing to the hem and the zippered colored front pocket. The hidden internal cuffs are a nice comfort touch, and you'll appreciate how they eliminate drafts from the wrist. There are three pockets on the back, with a large reflective strip stretching across the entire bottom of the pockets for nighttime visibility. Where does this jacket fit in our line? It's similar in warmth to the Perfetto RoS W Long Sleeve, but it has a more tailored and elegant look, with a slightly more relaxed fit, and it's not quite as protective in wet weather.

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

This mid-weight wind jacket is perfect for those autumn and spring rides when you want to cut the chill but don't want to overheat. Add an extra insulating layer and it can take you through most of the winter.

- Our lightest jacket for fall or light winter riding
- GORE-TEX INFINIUM™ WINDSTOPPER® X-Mid front and sleeves for wind protection with exceptional breathability
- Warmer fleece fabric on back for additional breathability
- Asymmetrical YKK® Vislon® zipper
- 3 rear pockets

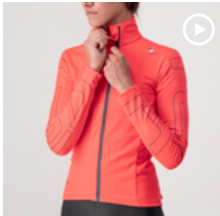

With warmer fall and spring temperatures, or if you're lucky enough to live where winter means mild conditions, this jacket is ideal for those days when it's not cold enough to cover your ears. The GORE-TEX INFINIUM™ WINDSTOPPER® mid-weight fabric on the front keeps the wind at bay, while our fleecy Warmer fabric on the back allows moisture and excess heat to escape. It provides a surprising amount of protection without causing overheating. You can also add an insulating layer underneath and use it in quite cold conditions.

WHAT IT IS /PRODUCT FEATURES

The long-sleeve Gabba is one of our most versatile pieces. 100% wind protection with GORE-TEX INFINIUM™ WINDSTOPPER® water protection and best-in-class breathability. With a light base layer it's good for mild temperatures, or with a thermal layer you can ride it below freezing. If you have just one jacket in your cycling wardrobe, this should be it.

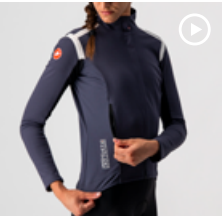

- Castelli exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for extra stretch and breathability
- Taped shoulder seams (reflective for color 085) for extra rain protection
- YKK® Vislon® zipper for easy sliding, covered for extra wind and rain protection
- Zippered ventilation opening on side of chest
- 2 rear pockets with pump sleeve are easily accessed with gloved hands

WHAT IT IS /PRODUCT FEATURES

This is the original jacket/jersey that started an entire new product class: the Gabba. It's a functionally water resistant short-sleeve jacket that's equally ideal for dry conditions. Made to be worn with our Nano Flex arm warmers, it allows you to keep your core warm without overheating.

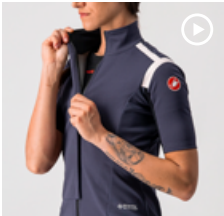

- The 4th generation of the Gabba from the inventors of the Gabba
- Now more water resistant than ever
- Castelli exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ 203 WINDSTOPPER® Stretch on rear-facing surfaces for extra stretch and breathability

WHAT IT IS /PRODUCT FEATURES

With just a base layer it's a wind-protection jersey for mild conditions. Alternatively, use it like a vest over a jersey with added protection over your shoulders. Lightweight, breathable front wind protection with allover water repency.

- Lightest Castelli short-sleeve wind protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front and sleeves
- Nano Flex Light Woven on back for breathable stretch with good water protection
- YKK® Vislon® zipper for easy ventilation adjustment on the fly
- 2 rear pockets with pump sleeve
- Gabba-style dropped tail with reflective panel

LIGHTER, MORE PACKABLE,
MORE BREATHABLE

The Perfetto Light started life as a request from our pro riders: "I want to wear the Gabba all the time, but sometimes it's too hot." So a somewhat lighter and more breathable Gabba became the Perfetto Light.

The Perfetto Light is improved in nearly every way: it's now lighter, with thinner fabrics on the front and back, which make it easier to stuff in a pocket. It has both better rain protection and improved breathability. It has two larger pockets that better complement the three pockets on the jersey you wear underneath this jacket.

The new Perfetto Light is closer to a Perfetto Vest with sleeves, which makes it perfect for your spring and fall training and racing in cool conditions.

PERFETTO VEST
IS NOW EVEN MORE
PERFECT

The Perfetto Vest has been a favorite with everyone from our pro riders to Castelli staff to performance cyclists everywhere. But we wanted to make it even more perfect, so we developed a new exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabric that is both lighter and more water repellent than the old fabric while maintaining the stretch and breathability. We matched it up with better water repellency in the back while maintaining the breathability, and further improved details like the back pockets and reflectivity. A more perfect Perfetto Vest.

|     | | |

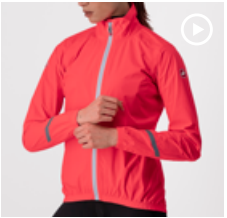

WHAT IT IS /PRODUCT FEATURES

The go-to jacket for rain protection, whether for all-day use or emergency use, since it easily stashes away in a jersey pocket. With discreet styling and 360° reflectivity, it can do double duty as a commute jacket.

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Stuff pocket integrated into mesh vent at top of back
- Waterproof zipper and contrast seam sealing keep water out
- 360° reflectivity

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you'd expect from Castelli, we also gave it an amazing on-bike fit, yet it's still roomy enough to fit over a Gabba. It has all the trappings of a performance rain jacket, with the waterproof zipper, long tail, long sleeves, and wrist closures that can go over gloves, yet we knew you wouldn't want to break the bank with it, so the only real compromise compared to our top-of-the-line offerings is in breathability.

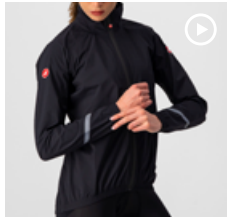

We kept the styling toned down and added a bright colorway in Brilliant Pink so that you can easily use this as a commute jacket and still look great when you get to the office. If you're going to wear it over office attire you may want to go up one size.

WHAT IT IS /PRODUCT FEATURES

An extremely light and packable wind shell that fits close to body, with stretch breathability panels, allowing you extend the temperature range of your favorite Castelli pieces.

- Ultralight windproof woven microfiber front
- Striped mesh fabric at sides and sleeve back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Integrated pack sack
- YKK® Vislon® zipper
- Reflective Castelli wordmark

NOT YOUR OLD-STYLE WIND JACKET

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to re-invent a classic. In reality, the Aria Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era. This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

WHAT IT IS /PRODUCT FEATURES

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

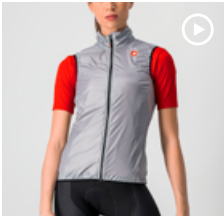

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective pipin

NEAR WEIGHTLESS PROTECTION

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

SQUADRA STRETCH W JACKET

4521529

SIZES

XS-XL

WEIGHT

99 g (S)

TEMPERATURE RANGE

10°-18°C / 50°-64°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

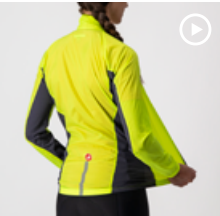

The Squadra Stretch shell keeps the wind off on cool-weather rides or long descents, while the stretch panels keep the jacket fitting close to body and eliminate flapping fabric.

- Coated ripstop nylon front and back and front of sleeves to keep wind off
- Tightly knit stretch panels on sides and sleeves allow for perfect fit
- High collar to keep drafts out
- Reflective details on chest and lower back for low-light visibility

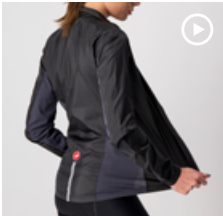

This is a modern interpretation of the wind shell jacket, the one you keep in your pocket for a long descent or put on for the first hour of the ride until the day warms up. That jacket used to be a simple affair — a nylon shell — but the lack of stretch meant that it had to be cut on the generous side to fit all body shapes, both on and off the bike.

We've completely reimagined what the shell jacket should be and how it's constructed. We've added panels on the sides and the sleeves in a very high-stretch yet tightly knit fabric that allows us to give the jacket a modern, close-to-body fit for aero gains on any terrain, and it actually keeps more heat in than a jacket that's flapping about. We've kept it very compact so that it can pack away into minimal space in a jersey pocket.

The stretch panels are treated for water repellency, which will help in a light mist, but this is not meant to be a true rain jacket.

WHAT IT IS /PRODUCT FEATURES

Warm, stretchy, water-repellent and highly visible: the ideal mix for a spring and autumn jersey. Using the same fabric as our Nano Flex arm warmers, this premium jersey provides our best performance fit and 360° reflectivity. Ideal with the Perfetto RoS Vest.

- Nano Flex 3G fabric features warm brushed fleece inside with 20% elastane for stretch and Castelli's unequaled Nano Flex water-repellent finish
- Reflective fabric inserts at shoulder and on central pocket
- 3 rear pockets
- YKK® Vislon® zipper
- Embossed logo

Ready to move up to a better cool-weather jersey? The Tutto Nano RoS Jersey features a number of upgrades compared to what you've probably been using.

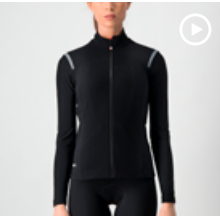

First is the stretch fit that moves perfectly with you, made possible by the Nano Flex 3G fabric, the same fabric we use to make our arm and leg warmers as well as our Sorpasso tights. This close-to-body fit actually makes the jersey warmer by avoiding fabric flapping in the wind.

Second is the tighter knit of the fabric compared to traditional thermal jersey fabrics. It lets less air through so you stay warmer.

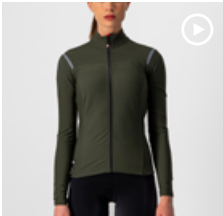

Next is Castelli's proprietary nanotechnology water-repellent finish. On dry days you won't even know it's there, but when you get some light rain or wet roads then you stay drier.

Last is the 360° reflectivity, thanks to the panels on the shoulders and lower back.

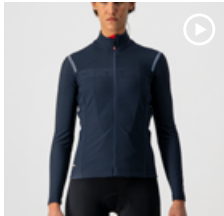

Of course, the Castelli attention to detail is there, with the easy-sliding YKK® Vislon® zipper with rubberized pull and the silicone gripper elastic to prevent the jersey from riding up.

WHAT IT IS /PRODUCT FEATURES

The perfect foundation thermal jersey for fall and spring riding. The warm fabric and the drop-pocket construction are the keys to this jersey's performance.

- Warmer fabric
- Castelli stripe logo across upper chest
- Lightweight YKK® Vislon® easy-sliding zipper
- 3 rear pockets with Castelli drop-pocket construction
- Reflective piping at back

Most of us use long-sleeve jerseys for a few days in the spring and fall, then extend their range with a vest in cooler weather, and then pull them back out for insulation duty under a jacket in extreme cold. So a thermal jersey shouldn't be too bulky or complicated, yet you don't want boring.

We built this with all the essential features, like great fabric and fit, perfect pockets, and our lightweight easy-sliding YKK® Vislon® zipper.

WHAT IT IS /PRODUCT FEATURES

The ultimate tool for winter riding in dry or wet conditions, with our most padded chamois. Reflective splashproof panels make it the choice for wet roads as well as night rides.

- Nano Flex Xtra Dry fabric brings new, higher level of water protection
- Double-face knit keeps you warmer because less wind comes in
- Reflective waterproof splash guards on inside of lower legs
- Double layer over backside protects from water coming off rear wheel
- Fewer seams to reduce chance of water coming in
- Lie-flat bib construction
- Progetto X² Air Seamless Donna seat pad for long hours in the saddle

010
BLACK

RAIN OR SHINE BIBTIGHT

Better in cold and dry and better in wet conditions, the new Nano Flex Xtra Dry fabric makes this your most technical tight. The base fabric is a tighter-knit double-layer construction, and the water repellency treatment is improved to provide even more protection. We're not quite there yet on our goal of bringing full waterproofness to a non-membrane fabric, but this is a significant improvement in making your foul-weather riding much more comfortable. It will also be your go-to tight for dry conditions, though. It's a no compromise piece for all your cool-weather riding.

But it's not just about the fabric. This is a serious training tight, so it gets our Progetto X² Air Seamless Donna seat pad. For total protection in the high-splash area of the inner leg, we use a fully reflective waterproof fabric that adds a high degree of nighttime safety to this tight. The tight is constructed with the bare minimum of seaming, which helps keep the rain out and also makes it more comfortable. This is the best all-around tight that we know how to make with today's technology.

- YKK® Camlock® zippers at ankles
- Progetto X² Air Seamless Donna seat pad for long hours in the saddle

We made this tight for serious winter riding. That means keeping you protected and comfortable in the widest possible range of conditions. Easy to say, but harder to actually do. The main part of the tight uses our Nano Flex 3G fabric, the third generation of our proprietary nanotechnology fabric treatment that adds a high level of water repellency without affecting the breathability, stretch or warmth of the fabric. You get a highly stretchy, compressive fit that moves with you, for luxurious comfort with the best protection on the market. We add Nano Flex Xtra Dry panels to provide a bit more wind protection and warmth in the front and over the thighs. It's not only about the fabrics: anatomical patterning gives a bend at the knee and the hip, while the seamless bib straps lie flat so you hardly notice them. Our generously padded women's-specific Progetto X² Air Seamless seat pad make long rides more comfortable, and you have multiple reflective panels to keep you visible. We've designed this as the go-to tight for a full winter's riding.

WHAT IT IS /PRODUCT FEATURES

The do-everything tight: great in dry conditions, water repellent for light rain and wet roads, reduced seams for comfort, reflective band for visibility. And the tone-on-tone embossed logos give it that tech stealth look.

- The bibtight that’s great in every possible condition
- New Nano Flex 3G fabric is exceptionally warm and soft yet with even better rain protection
- Reduced seaming for improved comfort and fit
- Mesh bib straps don’t hold moisture
- KISS Air² Donna seat pad for long-distance comfort
- Reflective leg ending with ankle zip
- Embossed logos for durability

IT JUST HAPPENS
TO BE GOOD
IN THE RAIN TOO

Our Nano Flex 3G fabric is the result of a decade of development. It’s our best all-around fabric for winter tights: warm, stretchy, luxuriously soft, highly breathable and on top of that it features our proprietary third generation of nanotechnology water-repellent finish. While other companies are using simple chemical water-repellent finishes, we create a nanotechnology mechanical repellency to enhance a chemical DWR finish. You stay drier and more comfortable. Even though this tight features our latest water-repellency technology, don’t think of it as just a niche rain tight. The fabric makes for a great dry-weather tight, and the reduced-seam anatomical cut makes it extremely comfortable. We use the pro-level KISS Air² Donna seat pad along with a mesh bib and zippered ankles. This is the tight that’s good at everything.

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

This tight features quality fabrics, our simply comfortable KISS Air² seat pad, an anatomical cut and reflectivity. This is the right tight if you don't need the rain and splash protection or the extra padding of our higher-end models.

· Thermoflex fleece-lined fabric for warmth

· Mesh bib straps are cut wide at bust for comfort

· KISS Air² Donna seat pad for all-day comfort

· Reflective leg ending with ankle zip

MADE TO RIDE

This Velocissima tight was designed to be your go-to tight for mild to cool conditions. We use our soft, fleecy and warm Thermoflex fabric with our famous KISS Air² Donna seat pad to surround you in comfort. We keep it technical too, with Camlock® ankle zips, reflective details and soft-fit waistband construction. This tight is ready for serious riding.

GORE-TEX INFINIUM

NANO FLEX

TEMPERATURE RANGE

-5°-6°C / 23°-43°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

Our warmest tight, providing full-length front wind protection. This is the right choice if you venture out in very cold conditions or just like dressing extra warm.

- Full GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast front for total wind protection
- Nano Flex G3 on seat and lower back leg for splash protection from wet roads
- Thermoflex back of thigh for extra warmth and stretch
- Mesh bibs don't hold moisture
- KISS Air² Donna seat pad gives great cushioning without excessive bulk
- High-visibility reflective stripes above knee in front and above calf on back
- Ankle zips for easy on/off

This is our warmest tight for cold riding conditions. Our warmest GORE-TEX INFINIUM™ WINDSTOPPER® fabric covers the entire front of the tight to keep the cold wind out. We use water-repellent Nano Flex 3G on the bum and the back of the lower legs for splash protection from wet roads, while Thermoflex on the back of the thighs gives extra stretch for the renowned Castelli fit. This is now the most comfortable wind tight we've ever made. We've kept the bib straps to a minimum so that you can layer your upper body exactly as you wish, without an unwanted thermal layer covering your stomach. With more of us riding at night, we've placed large reflective inserts on both the front and back of the legs, where the up-and-down pedaling motion grabs the attention of approaching motorists.

WOMEN'S BASE LAYERS

ROSSO CORSA

FLANDERS 2 W WARM LONG SLEEVE

4519547

| SIZES | WEIGHT | TEMPERATURE RANGE |
|-------|-----------|---------------------|
| XS-XL | 103 g (S) | -4°-10°C / 25°-50°F |

WHAT IT IS /PRODUCT FEATURES

Warm, dry, comfortable and very soft. This base layer feels warm from the moment you put it on. The best choice for cold-weather riding.

- SottoZero Fleece multi-denier 100% polyester fabric
- Flat-lock stitching
- Mesh armpit insert
- Flat hem tucks away in tights

BLUSTERY WEATHER?
NO PROBLEM

This product was made for the conditions of Flanders in February. Or basically any month in Flanders between September and May. High-loft fleece on the inside provides warmth to spare, and you'll love the softness on your skin with the excellent moisture management of this 100% multi-denier fabric. It's stretchy for a perfect fit, and the flat-lock seams add an extra touch of quality.

MIRACOLO W LONG SLEEVE

4521535

| SIZES | WEIGHT | TEMPERATURE RANGE |
|-------|----------|--------------------|
| XS-XL | 96 g (S) | 4°-15°C / 39°-59°F |

WHAT IT IS /PRODUCT FEATURES

In cool conditions the mesh construction gives the warmth of wool but won't wet out on high-intensity rides.

- Merino wool mesh mixed with nylon for strength and elastane for stretch
- Minimalist finishing at collar, wrist, and waist for minimal bulk
- Raglan sleeve to avoid seam on shoulder under bib strap
- Woven scorpion logo label at side collar

008
GRAY

"What is that?" lit up our social media channels when Tao Geoghegan Hart wore a prototype of this base layer up and over the Stelvio on his way to winning the 2020 Giro d'Italia. Those conditions highlight where this piece excels: it provides a surprising amount of warmth by pulling moisture away from the body, keeping you warm always, but the mesh construction means it's not too hot. Great under a jersey for high intensity, or for layering under a jacket.

ROSSO CORSA BRA
4518550

| SIZES | WEIGHT |
|-------|----------|
| XS-XL | 38 g (S) |

WHAT IT IS /PRODUCT FEATURES

It's a cycling bra, not a sports bra. Not overly restrictive like a jogging bra, it's cool and offers just enough support for cycling.

- Superlight stretch fabric perfect for cycling
- Mesh inserts for extreme breathability keep you cool and dry
- Back hook-and-eye closure with 3-position regulation for easy on and off
- Molded cups with full coverage
- Medium support thanks to contoured seams and underbust elastic for enhanced fit and support

010
BLACK

001
WHITE

IT'S JUST FOR CYCLING

We wanted to make a bra for the unique demands of cycling. Compared to other sports there's less impact but requires a higher level of moisture management. We've engineered in just the right amount of support - you'd certainly never go running in this bra but it's just right for cycling.

CASTELLI CYCLING

COMMUTER REFLEX JACKET 4521537

| SIZES | WEIGHT | TEMPERATURE RANGE |
|-------|-----------|---------------------|
| S-3XL | 319 g (M) | -2°-15°C / 28°-59°F |

WEATHER CONDITIONS

WHAT IT IS / PRODUCT FEATURES

Designed for the rigors of commuting in all weather, this jacket keeps everything out while fitting over your office attire, but where it really shines, quite literally, is with the allover reflectivity that lights up at night yet is practically unnoticeable during the day.

- Castelli-exclusive 3-layer allover reflex fabric with 20,000 mm water column waterproofing and 20,000 MVTR breathability
- Taped seams for fully waterproof construction
- Cut to fit over normal clothes, longer in front and back for extra coverage
- No-sew bottom hem for very clean look
- No-sew external zipper flap
- Inner gaiter can be closed to seal out drafts or left open for ventilation
- Velcro wrist closure to effectively seal against glove

This is the Castelli of commute jackets, made to deliver maximum function on the bike and then look great when you get to work.

We wanted a jacket that provides maximum visibility during those night commutes but doesn't look ridiculous with all kinds of silver reflective bands and strips when you get to the office. We applied a nearly unnoticeable reflective print on the entire surface of the jacket. You don't really see it when you're riding in the daytime or wearing the jacket off the bike, but at night the jacket reflects a distinctive pattern to get you noticed.

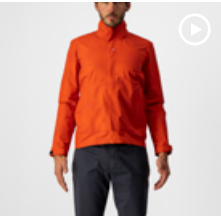

We didn't stop at the reflectivity. The 20,000 mm water column means no water is coming through, ever. And the 20,000 MVTR breathability means that a good amount of moisture will escape. But it's the ventilation details that make this jacket stand out: there's a gaiter at the waist that you can close to seal out the wind or leave open to let some air come in from the bottom to keep you cooler. This inner gaiter allows us to make a jacket that hangs straight at the bottom — a much cleaner and more refined look than a jacket with wrinkles from an internal elastic.

PROGETTO X²
SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISS air²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

PROGETTO X²
SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

A SMALL GESTURE
CAN MAKE A BIG
DIFFERENCE

At Castelli we know how important it is to make a contribution to our planet in terms of sustainability and environmental impact. This catalog is the result of small steps taken with a view toward making more responsible choices, and we have decided to work with partners who can respect this vision of ours. We have chosen more natural papers, originating from forests that are managed more carefully, and inks and printing methods that ensure the lowest possible ecological impact and easy recyclability once this catalog has served its purpose. It's a small contribution to a healthier planet.
