MEN'S SHORTS

THE RIGHT SHORTS
MAKE A DIFFERENCE

When it comes to performance cycling, whether it's long weekend rides, road races or granfondos, bibshorts are where it's at for outright comfort. A perfect pair of bibshorts will provide just the right balance of comfort and support for your legs when you're pounding out those kilometers.

ROSSO CORSA

PREMIO BLACK
BIBSHORT

Innovatively engineered for ultimate long-distance comfort, support, speed and durability.

SUPERLEGGERA
BIBSHORT

For our lightest-ever road short, we use the first seamless graduated-ventilation stretch woven fabric to make a short that's both impossibly light and cool yet supportive for the longest rides.

PROGETTO X²
SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

CASTELLI CYCLING

FREE AERO RC
BIBSHORT

The perfect mix of comfort and speed. Engineered for top-level racing, which also makes it supremely comfortable for every ride and rider.

ENDURANCE 3
BIBSHORT

Endurance-level comfort for every ride with Castelli's most comfortable seat pad.

COMPETIZIONE
BIBSHORT

This short is made to do everything right without overdoing anything. Quality fabrics, great fit, flat-lock stitching, KISS Air² seat pad, and GIRO⁴ leg grippers.

ENTRATA
BIBSHORT

Castelli's entry-level short still needs to be an amazing short in order to carry the scorpion logo. Comfort from quality fabrics, our KISS Air² seat pad and eight-panel construction are brought together with an overall focus on durability.

KISSair²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

The Premio Bibshort has been engineered to provide the ultimate in long-distance comfort and to be your favorite bibshort ever. That's a big claim, but there's a lot of research and development in this short to back it up.

The seat pad is central to the Premio's exceptional comfort and our top-of-the-line Progetto X² Air Seamless pad is actually two separate components: a soft, stretchy Skin Care Layer next to your skin, which has the sole purpose of preventing any rubbing on your skin, and, under that, the Cushioning Layer, which features two separate densities of foam along with breathable perforated gel inserts under the ischia bones and perineum.

Comfort continues through the construction of the short with reduced seams and only 3 panels. We engineered a new fabric that changes depending on the needs over various parts of the body. The lower leg has a raw-cut leg ending and rubberized yarns to guarantee a flat grip to keep the leg in place. The fabric becomes lighter in the thigh, while the four-way stretch provides just the right amount of muscle support. In the pelvis area, the compression and support increase to keep the seat pad and everything else in place. At the back there's a thicker fabric to avoid any transparency issues.

The premium fabrics extend the bib straps. The perforated back keeps you cool and the edge is bonded so you don't feel the thickness of a stitched edge. The elastic straps have just enough modulus (return) to hold your shorts securely in place without cutting in to your shoulders.

We've carried the less-is-more theme into the design, with minimalist laser-etched logos and subtle finishing. It looks as premium as it feels. You can tell that every component, every stitch, every detail has been obsessed over. You'll not find a better bibshort.

LIGHT, COOL
AND STRAIGHT OUT
OF THE FUTURE

We've been pushing the envelope on lightweight shorts since 2011 but have butted up against the limits of compromising durability for ever lighter weight. We needed to step back and find a better way.

We examined what the short really needs to do: it needs to hold the seat pad securely in place while otherwise adding as little weight or fabric as absolutely necessary (without being transparent, obviously), and it needs to last a season of hard use. So we engineered a brand-new fabric using a woven rather than a knit that shaves 30% in weight for the same level of support and non-transparency. Then we worked with the world's leading mill to construct a gradient fabric that becomes increasingly lighter the farther down the leg it extends, with the last part weighing a mere 90 g/m² compared to normal short fabric, which weighs around 220 g/m².

This fabric, while being insanely light, maintains a decent durability along with excellent abrasion resistance, at least against the saddle. We don't guarantee it against unplanned slides across the asphalt, so please keep the rubber side down!

Note that while the short saves a mere 48 grams while dry, this means it also absorbs around 30% less moisture when you're sweating. So when you're sweating your way up the Alpe d'Huez you're actually saving closer to 150 grams.

This short doesn't compromise on comfort. We use our top Progetto X² Air Seamless seat pad, the spectacular striped mesh bibs from the Free Aero Race 4 Bibshort and a flat stretch woven leg gripper to keep everything in place.

But it's the finishing that sets this short apart. The logos are embossed into the surface of the fabric for a very discreet rich tone-on-tone effect. With this short you don't need brightly colored logos to shout out that you've achieved the ultimate in cycling comfort and performance.

FREE—ER THAN EVER

The Free Aero RC Bibshort is our top race short, which also means that it's insanely comfortable even if you never pin on a number.

It's fair to say that we've been working on this short for the past 15 years. That's how long it's been since the original Free Aero Race Bibshort was first introduced, initially as our top-of-the-line race short. Since then it has won three Tours de France, three Giri d'Italia, one Vuelta and San Remo, but it also became the best-selling product in the history of Castelli because, simply put, this is the short that does everything well.

The concept is quite simple: start with the best pad we know how to make, surround it with a supportive short with good muscle compression, and then remove everything else that's not absolutely necessary.

You feel Free thanks to the reduced number of panels and the reduced number of seams. In fact, the short portion has just 5 panels compared to 10 in the previous generation.

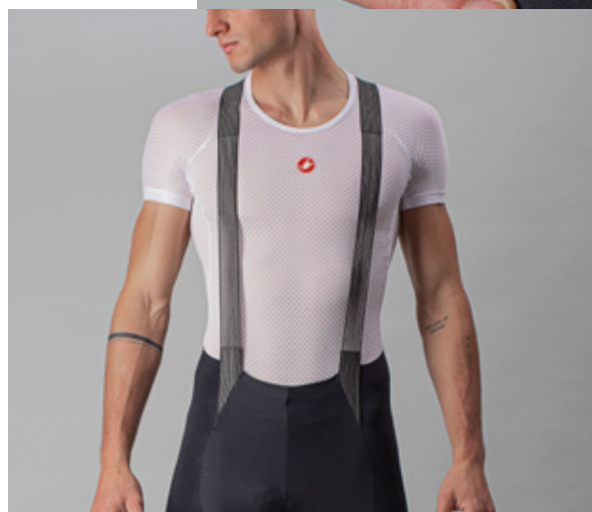

You feel Free because of further refinements to the Progetto X² Air seamless seat pad. The two densities of foam plus the gel pads provide progressive damping, while the separate Skin Care Layer is soft and stretchy to move with your skin.

You feel Free because this is the first high-end short that doesn't need any sort of gripper or elastic at the end of the leg to keep the leg in place. Getting this right meant 28 prototypes and our most extensive test program ever, and it results in the most comfortable leg ending we've ever made.

→ You feel Free thanks to the most minimal bibs you've ever seen in a short, including open-weave straps for maximum airflow. But we reinforced the yoke so the straps stay in place and made the mesh back narrow for coverage that is minimal yet just enough to hold the shorts in place. And the bib elegantly frames a convenient pocket at the center back.

→ The Forza 2 fabric has 32% Lycra® with a high modulus for exceptional muscle support and just the right amount of compression. There's reflective piping on the back. And all logos are either stitched or embossed for durability.

SAVILE BLUE

The main story of this short is the use of our renowned top-of-the-line Progetto X² Air Seamless seat pad in an otherwise traditional short, but in fact every little detail has been obsessed over to ensure your comfort on your next long endurance ride. A great pad is useless without great fit. The seams are placed around the hip area to create a perfect shape on the bike. The Endurance Evolution fabric has a soft hand while providing good compression and excellent moisture management. And it's all held in place with the amazingly comfortable GIRO³ leg gripper. This short offers exceptional value and is ready to deliver lasting comfort on your longest rides.

THE THRILL OF COMPETITION

We made this short to incorporate as much technology as possible from our top-of-the-line pro-level race shorts at a more accessible price. And although it's certainly capable of weekend racing, it's also a great comfort performance short even if you never pin on a number. The main Vortex textured fabric and the GIRO⁴ leg gripper come straight from our top Free Aero Race 4 Bibshort, while the KISS Air² seat pad has most of the comfort of our top seat pad but represents maximum value. The intangible part that you'll appreciate most is our knack for building in perfect fit, thanks to the Castelli pattern engineering team.

This is the short that brings the best of Castelli's know-how in building comfort performance shorts into an accessible product in your cycling wardrobe.

- 8-panel construction for perfect fit
- Rear reflective panels on lower leg
- GIRO³ engineered flat leg band
- Mesh bib straps for comfort and breathability

IT JUST WORKS RIGHT

Castelli has innovation in our DNA, and we've brought you most innovations in cycling shorts over the years: the first Lycra[®] shorts on the market, the first synthetic seat pads, the first anatomical seat pads, the first minimalist and flat bib straps, and the first flat leg grippers. All these have become industry standards, and we keep pushing and innovating in our high-end shorts. The Entrata short is where we bring all that knowledge and experience into a short that just plain works. The fabric is just the right weight with just the right stretch and with a matte finish that looks just right. The KISS Air² seat pad is just right, as is the GIRO³ leg gripper. And the short fits just right because we obsess over the fit of every short we make. We wanted this short to be just right for many years to come, so we stitch on the logos and stitch in the reflective panels on the back. There are no logos to peel off, and everything is stitched down securely. This short gives you every reason to step up to Castelli.

MEN'S SPEED SUITS

PUSHING THE LIMITS
OF SPEED

Military test pilots in the 1960s coined a phrase for pushing the aircraft to its limits, going all in, and risking their lives at the edge. The throttle levers with the knobs or balls at the top were pushed all the way forward against the cockpit wall: Balls to the Wall.

BTW is for those days, those races where you never drop out of your 53 × 11 or 12, when you're sometimes in the gutter or cornering at the limit of adhesion. When you're all in, taking risks.

Like the planes that inspired the phrase, the BTW Speed Suit uses cutting-edge research and construction in the pursuit of speed: CFD analysis, 3D test mannequins, fabric research and testing, numerous wind tunnel tests, and then testing in the WorldTour. At the beginning of the research project, we were set to sacrifice comfort in the name of speed, but in the end we kept fully breathable, fully stretchy fabrics. There's a little more Lycra®, so you won't stay quite as dry, and the shoulder fabric is slightly heavier. And it doesn't have the Sanremo front opening, so your pee stops will be a bit more challenging.

All that is a small price to pay for an incredible THREE PERCENT total aero drag savings compared to the fastest-in-class Sanremo Speed Suit. That 3 percent is at higher speeds, especially in the 45-65 km/h range, when it really counts. You can get the BTW suit in your team graphics through Castelli's custom program, or this stealthy ninja black version to tear up your local Strava segments or group rides.

WHAT IT IS /PRODUCT FEATURES

Class-leading aerodynamics is only the beginning. This jersey is engineered for all-day comfort with excellent moisture management, comfortable fit and three full-size pockets for cargo.

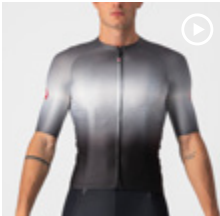

- CFD-based fabric placement and seam construction
- Engineered for aero efficiency at 30 to 55 km/h
- Airflow shoulder construction
- Velocity Rev2 fabric on front and sleeve
- 3D mesh back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- YKK® Vislon® zipper
- Drop tail allows perfect pocket placement while keeping jersey fitting well at waist

THE FIRST
AERO JERSEY PROJECT
WAS CALLED SPLIT SECOND

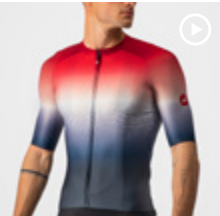

When Castelli engineered the first aero jersey for road racing back in 2006, everyone thought we were crazy. Back then, aero was only for TTs. Performance clothing meant moisture management. And you could win the Tour de France with a baggy jersey that was little more than a polyester T-shirt. Even our aerodynamic consultants expected limited gains, so we named the jersey Split Second, though, like now, we thought even small gains were worth pursuing. In the end the gains were pretty substantial, and we completely revolutionized the look of the pro peloton. We're now on the sixth major revision of our aero jersey. Each generation has become more aero and better fitting. The Aero Race 6.0 benefits heavily from CFD analysis of wake flow in the riding position for fabric and seam placement. It also benefits from pro riders' feedback, as we've worked to make the jersey comfortable for their long hours of training and then racing in every possible weather condition. Version 6.0 is our most aero and most comfortable Aero Race Jersey yet. But we're already at work on 6.1...

CLIMBER'S 3.0 SL JERSEY
4522015

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	106 g (M)	22-40°C / 72-104°F

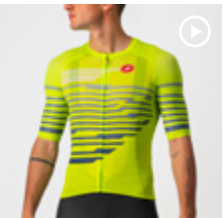

WHAT IT IS /PRODUCT FEATURES

Created for the hottest days, this jersey allows ample airflow, is quick to dry and blocks more than 90% of UV rays on your back. A great choice for your long summer rides, or add a base layer and it's a three-season jersey.

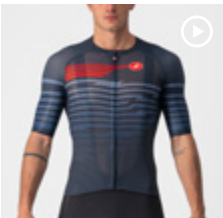

- CFD-based fabric placement and seam construction
- Engineered rapid cooling, light weight and aero efficiency
- Airflow shoulder construction
- Flusso 3D fabric on front and sleeve
- StradaPro 3D back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- YKK® Vislon® zipper
- Drop tail for perfect pocket placement while keeping jersey fitting well at waist

LIGHT, DRY AND FAST

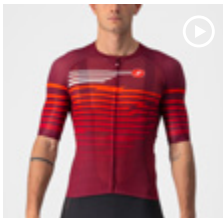

Racing in the Alps in July is for a select few, but the products that come out of that experience are absolutely amazing for the rest of us. We made this jersey for the rigors of pro racing in hot weather and in the high mountains. It's extremely lightweight and features open fabrics for additional airflow and quick drying. And by using the same patterning as the Aero Race Jersey, we make sure you get maximum aerodynamics as well. Even if you don't race over the Galibier this summer, you'll love the soft stretch and great fit of this jersey, and you'll appreciate how it keeps you cool on the hottest days. Maybe you'll even do like the pro riders do and use it on wet days because it doesn't soak up any moisture. And you'll certainly appreciate that the fabric on the back blocks more than 90 percent of UV rays.

4522016

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	147 g (M)	16-35°C / 61-95°F

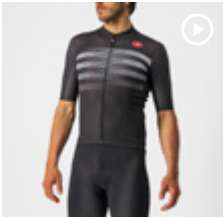

- WHAT IT IS /PRODUCT FEATURES
- The ideal all-around jersey is great for endurance rides, offering comfort and convenience features, excellent moisture management, and Castelli’s aerodynamic wizardry.
- Endurance and all-around jersey with mix of aerodynamics, comfort, and convenience
 - Velocity dimpled fabric on front and shoulders for faster drying
 - Air Mesh sleeves with raw-cut sleeve ending
 - Multifilament fabric on back blocks 94% of UV rays
 - Nervato fabric at armholes for improved aerodynamics
 - Full-length YKK® Vislon® zipper with neck protector
 - Silicone gripper elastic at waist
 - Zippered security pocket
 - Drop-pocket design for optimal pocket placement

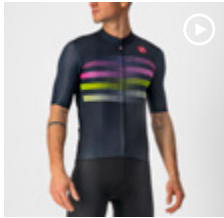

If you had to choose one jersey to do it all, this would be the one. The name kind of says it all: Endurance. For your long rides, a jersey needs to be able to do it all, offering comfort, carrying capacity, a wide temperature range with sun protection, and good aerodynamics. This jersey checks all those boxes. The comfort comes from a close-to-body fit with stretchy fabrics so it doesn’t feel tight. Four different fabrics keep you dry while covering every temperature range from mild to hot. And extra comfort comes from details like the flap behind the zipper to protect your neck and the stretch sleeves with raw-cut edges that never bind or constrict. The pockets feature Castelli’s drop-pocket design, which places the pockets lower on the back for easier access. There’s even a fourth zippered pocket for valuables. Your long rides and even your short rides will be faster with less effort because this jersey is also highly aerodynamic, especially through the sleeves and shoulders, which feature the same fabric used on several generations of our pro-level race jerseys. The old saying is “jack of all trades, master of none.” The Endurance Pro Jersey really is master of all.

A BLOCCO JERSEY4522017

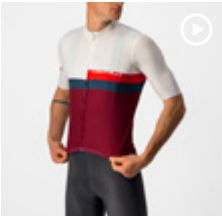

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	131 g (M)	16-35°C / 61-95°F

WHAT IT IS /PRODUCT FEATURES

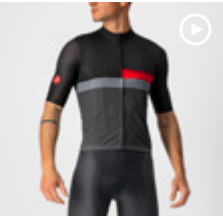

Classic design based on the Castelli Squadra Jersey construction that updates a traditional cut with technical details like a drop-pocket design and stretch raw-cut sleeves for great fit and comfort.

- ProSecco Micromesh main body fabric to keep you dry
- Mesh side panels for breathability
- Velocity Rev2 fabric on sleeves with close-to-body fit and raw-cut endings
- Covered YKK® Vislon® zipper
- Drop tail with 3 rear pockets
- Reflective piping at back

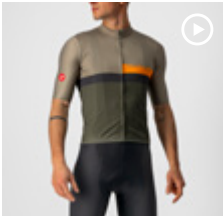

The A Blocco Jersey is built on our Squadra base model, our all-around performer for everything from weekend club rides to training to long days in the saddle. The main ProSecco Micromesh fabric ensures lightness and quick drying; the perforated side panels enhance breathability; and the construction of the sleeves, with no seams at the ends, provides unrivaled comfort. The YKK® zipper and the structure of the back pockets, which faithfully reproduce the characteristics of our WorldTour team's racing jerseys, complete the A Blocco. The result? A jersey that offers outstanding fit, rapid drying, and exceptional comfort.

BAGARRE JERSEY4522018

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	133 g (M)	16-35°C / 61-95°F

WHAT IT IS /PRODUCT FEATURES

A subtle overprinted scorpion graphic is the first thing you see on the Bagarre Jersey, but look closer and you'll find a high-performance, high-comfort jersey for every ride.

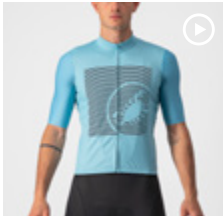

- Dyed ProSecco Micromesh main body fabric to keep you dry
- Mesh side panels for breathability
- Velocity Rev2 fabric on sleeves with close-to-body fit and raw-cut endings
- Covered YKK® Vislon® zipper
- Drop tail with 3 rear pockets
- Reflective piping at back
- Sublimated overprint graphic

CELESTE/SAVILE BLUE

622
PRO RED/BORDEAUX

Not your standard graphic jersey. We start with piece-dyed fabrics for rich color saturation, but not just a single fabric: the main body jersey has Castelli's ProSecco treatment to keep you dryer, the mesh side panels give extra stretch and ventilation, and the sleeves are in our four-way-stretch Velocity Rev2 fabric lifted straight from our Tour de France winning Aero Race 6.0 Jersey. It's a high-performance piece of kit. The graphic is added to the front through a sublimation process, but in this case it's an overprint on the dyed fabrics for a richer, more subtle look. The graphic block in the front is reminiscent of a screen-printed T-shirt, so you have the juxtaposition of a T-shirt-style graphic on a high-performance jersey.

CASTELLI CYCLING

A TUTTA JERSEY4522019

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	120 g (M)	18-38°C / 64-100°F

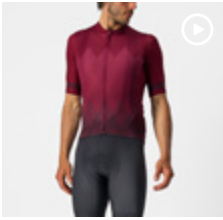

WHAT IT IS /PRODUCT FEATURES

A gradient fade through a diamond pattern brings a new graphic to a jersey built on our Competizione 2 model. It's the ideal all-around jersey for all your riding, offering comfort in training and speed in fast group rides.

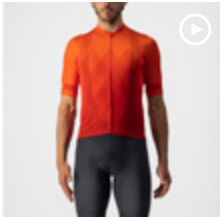

- Strada micromesh ventilated stretch fabric on front and back for great fit and moisture management
- Tailwind dimpled stretch fabric on sleeves, side panels, and pockets for perfect fit
- Anatomic side panels that wrap around to back
- Full-length YKK® Vislon® zipper is easiest-sliding zipper available
- Silicone gripper elastic at waist prevents jersey from riding up

The A Tutta Jersey is built using our new Competizione 2 base jersey. We've updated the construction with the side panels that finish in the pockets. We've updated the fabrics so that the back doesn't stretch too long when you load up the pockets. And we've updated the sleeve fabric as well as the fit, maintaining super-stretchy fabrics for a great fit on any body shape without feeling too tight. We've given the A Tutta Jersey a fade effect built of diamond shapes that highlights the texture of the fabrics and the cut of the jersey. Great for fast rides and the perfect match to the Competizione Bibshort.

CASTELLI CYCLING

GRIMPEUR JERSEY4522020

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	116 g (M)	18-38°C / 64-100°F

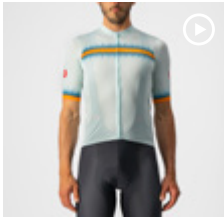

WHAT IT IS /PRODUCT FEATURES

'70s-inspired colors and graphic on this jersey built on our Competizione 2 model. It's the ideal all-around jersey for all your riding, offering comfort in training and speed in fast group rides.

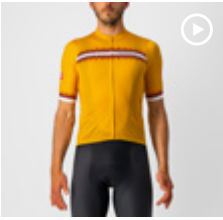

- Strada micromesh ventilated stretch fabric on front and back for great fit and moisture management
- Tailwind dimpled stretch fabric on sleeves, side panels, and pockets for perfect fit
- Anatomic side panels that wrap around to back
- Full-length YKK® Vislon® zipper is easiest-sliding zipper available
- Silicone gripper elastic at waist prevents jersey from riding up

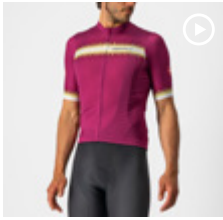

The inspiration here is a retro look from the '70s, both with the chest stripe and the very 1970s colors. The base model is the Competizione 2, so it just fits great and is right in line with the name of this jersey, which means a climbing specialist.

Classic tailoring with natural fibers meets modern performance in the Finisseur Jersey. The poly/wool fabric is as light as a modern synthetic fabric but with great moisture management and a natural look and texture. The logos are applied embroidered patches, the metal zipper pull is a quality detail, and even the internal elastic is colored to match the jersey fabric. It's a classic-looking performance jersey and a perfect match to the Premio short.

CASTELLI CYCLING

SUPERLEGGERA 2 JERSEY4520017

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	91 g (M)	22°-40°C / 70°-104°F

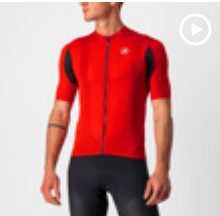

WHAT IT IS /PRODUCT FEATURES

An exceptional performer on hot days, the Superleggera Jersey is so light you'll hardly notice it's there. It's top on comfort in warm to hot weather.

- The deluxe, impossibly lightweight performance jersey
- Oltre 70g stripe mesh base fabric
- Stretch woven pocket reinforcement
- No-sew welded sleeve and waist trim
- Floating pocket construction with 3 main pockets and zippered key pocket
- YKK® zipper
- Sublimated overprint Superleggera logo on back

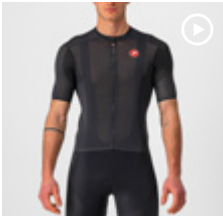

THEY'LL THINK YOU BOUGHT IT JUST TO LOOK GOOD

This is the jersey that brings Castelli's fabric and construction engineering together in one of the most refined jerseys we've ever made. The goal with this jersey was to make it as light as possible without sacrificing transparency, sun protection and convenient features like a zippered key pocket. We've brought in a new fabric that we call Oltre, which roughly translates to "beyond," and it really goes beyond what you normally find in a jersey, with the horizontal stripes giving great breathability and stretch while providing good support for the pockets. The jersey will do double duty in your wardrobe: It's the jersey to reach for on hot days or big climbing days in the mountains. But it's also the jersey you'll pull out when you just want to look good, thanks to the no-sew construction around the sleeves and hem and the close attention to detail in every stitch, seam and component. It's designed with a fit that is close to body but slightly more relaxed than our race jerseys.

PROLOGO 7 JERSEY4522023

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	130 g (M)	16-38°C / 61-100°F

WHAT IT IS /PRODUCT FEATURES

The perfect all-around jersey for everything but racing. Comfortable stretch fit, excellent moisture management, four-way-stretch sleeves with raw-cut edges, and full sun protection are just some of the features.

- Micro-piqué polyester knit on the body for great moisture management with a soft hand
- Velocity Rev2 fabric on sleeves with raw-cut sleeve endings
- Full-length YKK® Vislon® zipper with neck protector
- 3 rear pockets with drop-pocket design for optimal pocket placement
- Silicone gripper elastic at waist
- Reflective details on both sides of pocket

This jersey is made for those JRA rides. Just Riding Along. You're not aiming for new Strava records or to win the city-limit sprints, but you do want a jersey that's comfortable and looks great. The jersey has a neutral cut — not racy but also not flapping in the wind. But the high-stretch micro-piqué fabric means it fits more shapes than a Castelli race jersey. Adding to the fit and comfort are the four-way-stretch sleeves that seem to disappear, since you don't really feel them at all, right down to the raw-cut sleeve ending that never constricts. This jersey offers full sun protection: the main body is rated at UPF 50 while the sleeves are UPF 30, which means they still block 97% of damaging UV rays. Important Castelli features like the drop-pocket design, easy-sliding full-length YKK® Vislon® zipper, and reflective details on the back will keep this jersey in the short rotation in your wardrobe.

CASTELLI CYCLING

PROLOGO 7 LONG SLEEVE JERSEY4522024

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	157 g (M)	14-32°C / 57-90°F

WHAT IT IS /PRODUCT FEATURES

Perfect for cool spring or autumn rides, or at the height of summer when you want sun protection.

- Micro-piqué polyester knit on the body for great moisture management with a soft hand and UPF 50 rating
- Velocity Rev2 fabric on the sleeves with UPF 30 sun protection
- Full-length YKK® Vislon® zipper with neck protector
- 3 rear pockets with drop-pocket design for optimal pocket placement
- Silicone gripper elastic at waist
- Reflective details on both sides of pocket

This long-sleeve jersey is primarily designed to provide sun protection without weighing you down. The main body is a lightweight micro-piqué polyester that offers plenty of airflow while providing UPF 50 protection. The sleeves are exceptional for a summer-weight sun-protection jersey, since they're very light and stretchy so they don't weigh you down while blocking 97% of UV rays (UPF 30). The Prologo 7 Long Sleeve is also a great jersey for cool spring and autumn days. With a heavier base layer you can take it down below 15°C/60°F, and then add a vest to go even colder.

CLASSIFICA JERSEY

4521021

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	130 g (L)	16°-35°C / 61°-95°F

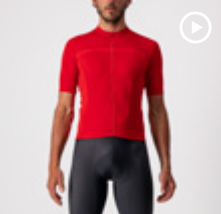

WHAT IT IS /PRODUCT FEATURES

This jersey wins the classification for combining a clean look with great performance. Its cross-dyed micro-piqué fabric brings comfort and sophistication in a jersey you'll be happy to ride in all day.

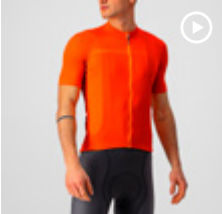

- Micro-piqué polyester knit for great moisture management with a soft hand
- Color-matched YKK® Vislon® zipper
- 3 rear pockets
- Zippered key pocket
- Embossed tone-on-tone stripe across chest
- Reflective vertical stripe on rear pocket

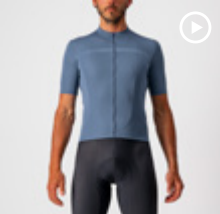

For those days when you're not racing the clock but simply clocking the hours in the saddle. You want to be comfortable and look good. We engineered everything but speed into this jersey. It uses a brand-new fabric that lets us cross-dye it to give a richer depth of color to the shoulders and sides on an otherwise solid-colored jersey. Since it's made for long rides, we've added a zippered pocket to keep your valuables safe. The fit is close to body for comfort but not as revealing as that of our race pieces.

ENTRATA VI JERSEY4522025

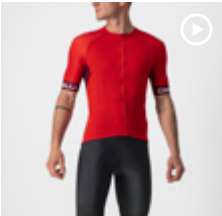

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	148 g (M)	16-38°C / 61-100°F

WHAT IT IS /PRODUCT FEATURES

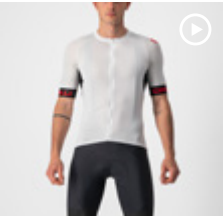

Trickle-down technology for both comfort and aerodynamics from Castelli’s extensive R&D, combined with Italian fabrics, a YKK® zipper, and aero mesh sleeves, makes the Entrata VI Jersey punch above its weight.

- Italian-made ProSecco body fabric with hydrophilic treatment to wick moisture away from your body
- Air Mesh sleeves in modified raglan pattern provide more comfort and better aerodynamics
- Raw-cut sleeve endings lie flat and never constrict
- Full-length easy-sliding YKK® Vislon® zipper
- 3 rear pockets, with center pocket with extra stretch insert and reflective panel
- Silicone gripper elastic at waist

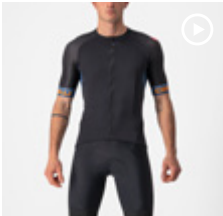

There’s a lot of technology that goes into the Entrata Jersey. While technically the entry-level jersey in the Castelli collection, it has been engineered to incorporate as much race-level performance as possible while still offering unmatched value. It benefits from the aero learnings from Castelli’s race R&D through the one-piece sleeves with aero-optimized seaming. Not only is it aerodynamic, it’s also more comfortable thanks to the four-way-stretch Air Mesh fabric and raw-cut sleeve ending that’s stretchy to fit every arm without constricting. The main body fabric is just the right weight to keep you cool, while the ProSecco treatment carries away moisture to keep you dry. It’s stretchy for great fit and provides UPF 30 sun protection, filtering 97% of UV rays. Thoughtful design and functional details abound, like the stretch panel in the center pocket, the highly reflective insert on the pocket, the full-length easy-sliding YKK® Vislon® zipper, and the silicone gripper elastic to keep the back of the jersey in place.

MEN'S UNLIMITED

UNLIMITED WITHOUT LIMITS

Gravel riding is the perfect middle ground between mountain biking and road cycling, this exciting and somewhat new discipline has been the driving force behind many riders venturing further afield, exploring new routes and boosting their bike handling skills. It's not a new phenomenon as people have been taking their road bikes off road since road bikes were invented.

We never viewed gravel as a separate sport but believe that with the perfect gravel clothing will help you to make multi-surface rides more enjoyable.

DRESS HOW YOU LIKE.
RIDE WHERE YOU LIKE.
NO LIMITS

Castelli's Unlimited is a line of technical riding clothing for every ride, every surface, every bike, every distance.

4522006

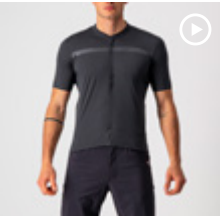

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	158 g (M)	16-35°C / 61-95°F

WHAT IT IS /PRODUCT FEATURES

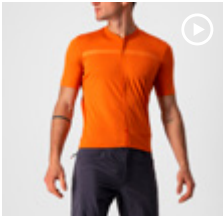

All the performance of a Castelli race jersey, just without the aerodynamics and tight fit.

- Interlock 115 g 100% polyester fabric for excellent moisture management
- Medium fit for comfort on the trail or road
- Partially covered YKK® Vislon® zipper
- 3 rear pockets with extra zippered security pocket
- Embossed stripe across chest
- No-sew sleeve hem finishing
- Silicone gripper elastic

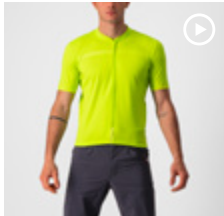

Does gravel need a new dress code? Maybe, but with fat tires and big-tubed bikes with bags on them, an aero jersey just doesn't look right. But why should you give up performance and comfort? That's the concept behind this jersey: all the performance of Castelli's best jerseys except the aerodynamics. First we created a new fabric with leading Italian knitter Borgini. The lightweight fabric has a small horizontal stripe and a gorgeous soft hand. It maintains outstanding moisture management and ample horizontal stretch but has limited vertical stretch so your pockets don't sag. And it blocks 98% of UV rays. The jersey has a neutral fit to it: straighter in the body, extra space across the chest. Less drop from front to back. The design is clean and technical; even the chest stripe is embossed for tone-on-tone detailing. No more feeling self-conscious at your coffee stop. The jersey is full of thoughtful details, like a covered YKK® front zipper, a fourth zippered key pocket, and bonded no-sew sleeve endings.

WHAT IT IS /PRODUCT FEATURES

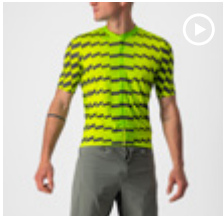

All the performance of a Castelli race jersey, just without the aerodynamics and tight fit.

- Lightweight polyester/elastane blend fabric for excellent fit and moisture management
- Medium fit for comfort on the trail or road
- Partially covered YKK® Vislon® zipper
- 3 rear pockets with extra zippered security pocket
- Embossed stripe across chest
- No-sew sleeve hem finishing
- Silicone gripper elastic

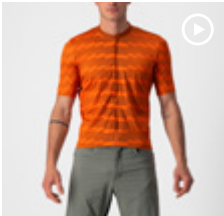

All the performance you expect from a Castelli jersey except for the aerodynamics. That's why this is the ideal jersey when you're riding anything from asphalt to gravel to dirt — anytime you value comfort over aerodynamics. The feature list includes a new 95-gram 92/8 polyester/elastane fabric that keeps you dry while providing plenty of stretch. It has a YKK® Vislon® front zipper that's partially covered for a clean look. There's a fourth zippered key pocket, silicone gripper elastic at the waist, and bonded no-sew sleeve endings. The jersey has a neutral fit to it: straighter in the body, extra space across the chest. Less drop from front to back. The sublimation-printed graphic looks equally at home on dirt or tarmac.

TRAIL TECH TEE
4522008

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	120 g (M)	18-38°C / 64-100°F

WHAT IT IS /PRODUCT FEATURES

Performance jersey tech with relaxed-fit style and comfort. Ready for an all-day adventure ride, or wear it over pads for enduro.

- Relaxed-fit trail tee
- Bluesign 110 g quick-drying polyester allows airflow to keep you cool
- V-neck
- Shaped longer rear hem for full coverage when in riding position
- Sublimation-printed graphic

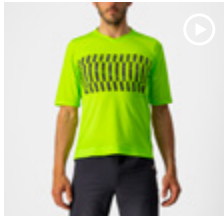

There are lots of trail tees out there, but most seem to not really be made to ride in. The Castelli Trail Tee features a lighter-weight 100% polyester fabric for quick drying and excellent moisture management, with a 3D mesh construction that lets air flow through to keep you cool. No more feeling like you're riding in a plastic bag. And the fabric is Bluesign approved, so it's good for the planet. The tee is cut for everything from fast trail riding to enduro, since it fits with a back protector and elbow pads. And because all the Unlimited shorts have pockets, you can complete the relaxed look and feeling of freedom with this performance trail tee.

Good for everything from road riding to bikepacking, this vest packs a surprising amount of warmth into a surprisingly small amount of space. The microfiber shell fabric keeps the wind out, while the Polartec® Alpha® Direct insulating layer provides exceptional warmth with minimal weight. The stretch side panels improve fit and ventilation and are treated to be water repellent, as is the rest of the vest. There's a zippered chest pocket for valuables, and two large back pockets for easy access. The wide range of conditions that this vest covers means that you'll use it on the road in the spring and autumn, wear it on your gravel rides in the mountains during the summer, and stash it in your handlebar bag on your next bikepacking adventure.

FREE UNLIMITED BIBSHORT

4522011

SIZES	WEIGHT	
XS-3XL	190 g (M)	

TEMPERATURE RANGE
14-35°C / 57-95°F

Comfort, performance, protection, and storage. Designed for gravel but equally at home for adventure, endurance, or if you just love pockets.

- High-compression 215 g Forza 2 fabric with 32% Lycra® content provides exceptional muscle support and compression
- Dyneema® side panels to protect in the event of a tumble, 15x stronger than steel
- Progetto X² Air seamless seat pad is soft against the skin but well padded for long-distance comfort
- Minimalist bib straps allow maximum airflow, while a reinforced yoke keeps the straps flat over the shoulders
- 2 rear mesh pockets
- Large compression pocket on each leg
- Raw-cut edge at waist for extra stretch and comfort
- Raw-cut leg ending engineered to stay put without silicone grippers

This is the no-compromise gravel or endurance MTB short. It combines the best features of Castelli's premier race short, the Free Aero RC Bibshort, with Dyneema® side panels for protection in case of a fall, and four pockets for storage. It's made first and foremost for riding comfort. It uses the top-of-the-line Progetto X² Air seamless seat pad that provides progressive damping and the softest, stretchiest skin contact layer available. The Forza 2 fabric provides just the right level of compression and muscle support for your longest rides. The comfort is further enhanced by the minimalist Free bib straps — less material to keep you cooler, but just enough to keep your short in place. At the leg ending there's a raw-cut edge that you'll hardly feel, and the combination of the Forza 2 fabric with just the right length and circumference means that no silicone gripper is required. It's a big leap forward in terms of comfort. The two large leg pockets are lined with an extremely light and fast-wicking fabric so you won't notice the extra layer, yet they hold a surprising amount of gear. The two mesh pockets at the lower back mean you have enough storage space that you can forgo a traditional pocketed cycling jersey. The Unlimited short really does know no limits.

UNLIMITED

UNLIMITED BIBSHORT

4520005

SIZES	WEIGHT	
XS-3XL	200 g (L)	

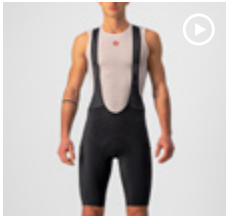

TEMPERATURE RANGE
15°-32°C / 59°-90°F

Equally at home on tarmac or gravel, the Unlimited short knows no bounds. With four discreet hidden pockets it's ready for your next adventure.

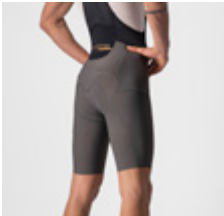

- Made for fast riding on unlimited terrain
- 200 g/m² nylon/Lycra® fabric with best-in-class abrasion and tear resistance
- 2 mesh rear pockets built into mesh bib straps
- Double-layer side panels reduce abrasion if you fall, while also creating 2 useful side pockets
- Raw-cut leg ending with vertical silicone grip strips to hold leg in place
- KISS Air² seat pad for long-distance comfort

DON'T LIMIT YOURSELF

We made this short to meet Castelli's high standards for comfort and performance in a cycling short while adding a few extra features that come in handy for riding on any surface. You'll find our normal exceptional fit as well as the KISS Air² seat pad, which provides generous anatomically placed padding with an exceptionally soft top layer. What makes this short special is the extremely durable Unlimited Lycra® fabric. It has higher abrasion resistance and tear resistance while not compromising on stretch, moisture management or comfort. In addition, we use double-layer side panels for the old track rider's trick of fabric-sliding-on-fabric should you fall. This short isn't really meant to be indestructible, but it significantly increases the chances that sliding out on gravel will mean you need to just brush yourself off rather than having to buy a new pair of shorts. That second layer on the side panel also makes for convenient side pockets, with a flap over the top to prevent the contents from falling out. For added convenience while riding on and off road, you have two mesh pockets on the lower back that compress gear next to your body to keep it from bouncing around. This short adds durability and storage without compromising comfort — for unlimited amounts of fun.

UNLIMITED TRAIL BAGGY SHORT
4522012

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	194 g (M)	14-35°C / 57-95°F

- WHAT IT IS /PRODUCT FEATURES
- The performance baggy short with ultralight stretch woven fabric and adjustable ventilation to keep you cool.
- 165 g 4-way-stretch woven Cordura® fabric with DWR finish
 - Double-slider zippered ventilation along full length of legs
 - Extremely light so you won't even feel it on
 - 2 front pockets
 - Adjustable webbing belt for secure fit at waist, with zippered front opening
 - Scorpion button logo
 - Looser fit at home on any trail

This baggy short is made for hard trail duty, when you want the look of a baggy but the freedom of Lycra®. The fabric is extremely light, just 165 grams per square meter, but hard wearing thanks to 64% Cordura® yarns. The 10% elastane gives it four-way stretch. Not only does it dry quickly, but the water-repellent fabric treatment means it sheds light rain and stays cleaner. The cut is slightly looser so it moves with you, never restricting. Yet the adjustable webbing belt at the waist lets you lock it in place so it won't slide down. With the ultimate trail short you should never feel too hot, so you can open up the zippered ventilation openings that run the full length of the legs, made to work with the mesh legs of the Castelli Unlimited Ultimate Liner. You've never been this cool in a baggy short.

UNLIMITED BAGGY SHORT
4520027

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	108 g (L)	18°-32°C / 59°-90°F

- WHAT IT IS /PRODUCT FEATURES
- The baggy-short look without the feel, thanks to the slimmer fit and stretch woven fabric. It's ready for long-distance endurance rides, but it's also a great-looking casual short off the bike.
- Stretch woven fabric with DWR finish
 - Extremely light so you won't even feel it on
 - 2 front pockets and 1 zippered rear pocket
 - Stretch waistband with zippered front opening
 - Scorpion button logo

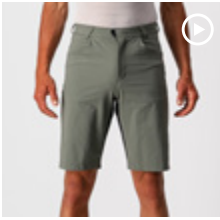

IF YOU HAVE TO GO BAGGY

There are those days when a baggy short just seems like the right look. But you always debate whether you're willing to compromise comfort for that look, and you end up wearing Lycra®. So we set out to make a better baggy. We reached for a stretch woven fabric that gives great stretch but in an unbelievably lightweight yet durable fabric. We gave it a DWR finish so mud and water roll off. We gave the short two top-opening pockets like jeans so that whatever you put in there won't fall out. We made the cut fairly close to body so you look good off the bike but the short doesn't balloon out when you're on the bike. It all just kinda disappears. The short doesn't have its own seat pad, so wear this over your favorite Castelli short. The Superleggera is a good choice for warmer weather, or the Unlimited if you want the extra pockets.

The short doesn't have its own seat pad, so wear this over the Unlimited Ultimate Liner or your favorite Castelli short. The Superleggera is a good choice for warmer weather, or the Unlimited Bibshort if you want the extra pockets.

UNLIMITED ULTIMATE LINER

4522013

SIZES	WEIGHT	
XS-3XL	179 g (M)	
TEMPERATURE RANGE		
14-35°C / 57-95°F		

WHAT IT IS /PRODUCT FEATURES

Made to be the ultimate liner under your baggy shorts. Featuring the supremely comfortable Progetto X² Air seamless pad in the coolest minimalist short, with three pockets on the back.

- Progetto X² Air seamless pad for long rides and rough trails
- 170 g Force fabric through hips to keep pad in place
- Perforated leg panels are light for maximum ventilation and cooling
- GIRO Air leg grippers are cool and hold legs in place
- Minimalist bib straps as found on Free Aero RC Bibshort
- 3 rear pockets sit above waistband of baggy shorts

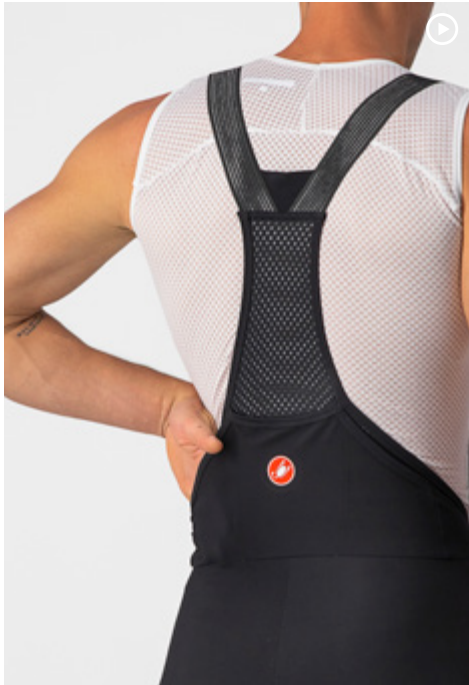

There's no reason to accept a mediocre short just because you want to wear baggies. This liner is made for ultimate comfort under your baggies.

First and foremost, this short features the top-of-the-line Proget-to X² Air seamless seat pad. The pad has two separate compo-nents: a soft, stretchy Skin Care Layer that coddles your skin, and a separate Cushioning Layer with dual-density foam and gel pads for progressive damping. The best pad is worthless if moves around, so we've constructed the hip area in our compressive Force fabric, which holds the pad in place while providing good ventilation.

The legs are light and airy with perforated fabric to keep you cool, and are held in place by our gauze-like GIRO Air elastic. The beauty of this leg construction is that you can adjust the length to your preference — so they're long enough to keep your baggy short from rubbing against your leg, for example.

Likewise, the top of the short is an exercise in minimalism. The front of the thin bib straps is an open knit that lets air flow right through, while the back is also narrow to stay cool. However, we reinforce the yoke so the straps stay in the right place and don't bunch up.

On the back, just above the height of the waist of your baggy, there are three pockets so you can wear this short with a T-shirt and still have space to stash your gear.

Tour de France winning base layer with a graphic print that shows your style on the inside.

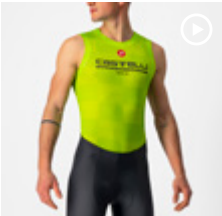

- 3D mesh fabric for excellent moisture management
- Sublimated print graphic
- Waist hem stays flat under shorts

PRO-LEVEL BASE

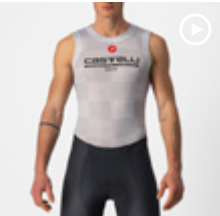

The pro cyclists we work with know the importance of the right base layer for the conditions. The Pro Mesh is made for the widest range of conditions and is designed to keep you dry in cool to mild temperatures. We'll even put it under a Flanders Warm base layer in the coldest conditions. We've given it a graphic print so you can show off that you have something special when you open your jersey zip.

PRO ISSUE SS

4515537

PRO ISSUE SLEEVELESS

4515538

SIZES	WEIGHT	TEMPERATURE RANGE
XS-2XL	48 g (L)	15°-25°C / 59°-77°F

WHAT IT IS /PRODUCT FEATURES

Made to keep you dryer in cool to warm conditions, this base layer moves moisture away from the skin.

- 100% polyester 3D mesh fabric
- Reduced seaming at shoulders for extra comfort
- Wider collar to fit under aero jerseys
- Flat waist hem to lie flat in shorts

This is the piece our pros requested for those in-between conditions where the Prosecco Tech base layer is too warm and the Core Mesh isn't quite enough, like Spain in February or Belgium in April. You're not looking for warmth from your base layer, just something to move the moisture away from your body and help your race jersey perform. Our 3D mesh fabric creates dead air space next to your skin, while the polyester capillary action moves sweat away.

CORE SEAMLESS BASE LAYER

4520031

SIZES	WEIGHT	TEMPERATURE RANGE
SM/LX/2XL	45 g (M)	8°-20°C / 46°-68°F

WHAT IT IS /PRODUCT FEATURES

Seamless for comfort and surprisingly warm for its weight, this base layer is ideal in cool conditions, providing excellent moisture management.

- 84% polyester / 16% polypropylene yarns provide soft, warm wicking and exceptional stretch fit
- Seamless construction means extra comfort
- Lighter weight on side and back
- Wide neck opening to fit under short-collared jerseys

001
WHITE

001
WHITE

Time to give seamless base layers another try. Seamless construction promises stretch and comfort, but most base layers on the market have a nylon and Lycra® mix that feels comfortable when you put it on but then ends up feeling wet when you're actually riding, and you freeze when you stop. We've worked hard to make this Core Seamless base layer keep you warm and dry, thanks to the addition of polypropylene and polyester yarns, while not compromising the stretch comfort of seamless. We think we've found the sweet spot that also provides a nice level of warmth for cool to cold days.

CASTELLI CYCLING

4517027

CORE MESH 3 SLEEVELESS

4517028

SIZES	WEIGHT	TEMPERATURE RANGE
SM/LX/2XL	88 g (L)	20°-40°C / 68°-104°F

WHAT IT IS /PRODUCT FEATURES

Our lightest and airiest base layer wicks moisture away from your skin, while the open mesh helps hold the jersey up and away from the skin. It's good for warm conditions, and some riders even like it on a hot day, as it allows airflow between the jersey and skin.

- Magic Mesh 90% polyester, 10% Elastane wicking fabric
- Minimalist lightweight construction
- Reduced seams for maximum comfort

001
WHITE

001
WHITE

WARMER CONDITIONS

This is our base layer for the warmest conditions. The mesh is open to create a space on the skin for sweat to evaporate. The 10% elastane content makes it very stretchy and helps in the moisture retention so that you're always getting evaporative cooling.

ACTIVE COOLING SLEEVELESS4520030

SIZESXS-2XL

WEIGHT84 g (L)

TEMPERATURE RANGE25°-35°C / 68°-95°F

POLARTEC®Delta™

WHAT IT IS /PRODUCT FEATURES

Made to hold a bit of moisture close to your skin to actively cool you on hot days through evaporative cooling.

- Base layer to cool you on hot days
- Polartec® Delta fabric features regulated drying so that the evaporative effect cools your core
- Sleeveless design with minimalist construction
- Sublimated overprint

COOLING TECHNOLOGY

By using hydrophilic and hydrophobic yarns, this base layer holds a bit of moisture next to your body while allowing free airflow through the fabric, thanks to the special open knit. You get evaporative cooling directly on your skin. We recommend using this with our coolest jerseys, like the Climber's or Superleggera, though it will work under any breathable jersey.

PRIMALOFT®

WHAT IT IS /PRODUCT FEATURES

Made to keep you dry in cool conditions, this base layer features body mapping construction with Prosecco hydrophilic treatment on the main body fabric and lighter-weight PrimaLoft® fabric aligned to the parts of the body covered by the bibtight straps.

- Proprietary stretch rib knit 100% polyester main body fabric with Prosecco hydrophilic treatment for maximum wicking
- PrimaLoft® panels at waist and back where bibtight covers upper body, to reduce uneven insulation
- Crew neck closure to fit under short-collared jerseys

010
BLACK

010
BLACK

The first goal of this base layer is to move moisture away from your skin while adding minimal insulation for those cool days when your riding intensity is high enough and your outer layers are warm enough. The areas covered by the bibtight around the waist and up the back can get hot, so we used a lightweight PrimaLoft® fabric to help even out the temperature. This base layer works best when in contact with the skin, so both fabrics are very stretchy and the cut is slim. On extremely cold days we'll use this as a first layer under a Flanders Warm second base layer, or under a thermal jersey. It's very effective at moving sweat away from the body.

PRO SEAMLESS KNEE WARMER

4520584

SIZES

SM-LX

WEIGHT

67 g / 74 g / 52 g (Pair)

TEMPERATURE RANGE

10°-20°C / 50°-98°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

A wide temperature range combined with seamless comfort makes this our most versatile warmer.

- Mid-weight seamless arm warmer
- Surprisingly warm without causing overheating
- Unique polyester/nylon/Lycra® 78%/15%/7% blend
- Fully seamless construction
- Folds up extra small

A BETTER ARM WARMER

With Ineos Grenadiers we set out to make a better seamless arm warmer. Others on the market are made with a nylon/Lycra® blend that tends to hold moisture, but we knew we could get better moisture management with a polyester yarn. Working with polyester makes it more difficult to get the right stretch, return and manufacturing consistency, though. It took a year longer than we thought, but we're all glad we stuck with it. These warmers are a pro rider favorite because they're crazy light and they're extremely warm for their weight, yet even in milder conditions you don't overheat. They're so stretchy you hardly feel them on, yet when you take them off they occupy a fraction of the space that normal warmers would take in your pocket.

UPF 50 + LIGHT KNEE SLEEVES

4516038

SIZES

S-XL

WEIGHT

67 g (Pair)

TEMPERATURE RANGE

8°-18°C / 45°-70°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

For maximum sun protection with minimal insulation.

- Solare fabric keeps the chill off without causing overheating
- UPF 50+ protection
- Polyester based for excellent moisture management
- Double-side silicone elastic at top for excellent grip

SURPRISINGLY USEFUL

We can officially only rate these warmers at UPF 50+, but in our laboratory tests they actually blocked 99.8 percent of damaging UV rays. We used a polyester base that is not only more effective than nylon at blocking UV rays but is also much better at keeping you dry, which means these arm sleeves are better in both cooler and warmer conditions. We've kept the construction very clean to eliminate seams that can rub, and we used our double-sided silicone elastic to make sure they stay in place. They fold up extremely small, so they're great to stick in your pockets for your next big mountain day.

WHAT IT IS /PRODUCT FEATURES

Nano Flex for the ultimate warmer: warm and comfortable in dry conditions, water repellent in damp conditions, and still warm in extreme conditions.

- Water-repellent thermal and breathable Nano Flex fabric
- Flat-lock stitching with single seam
- Double-sided silicone grippers to keep warmers in place

NANO FLEX
ALL-CONDITION
WARMERS

Choose Nano Flex for warmers that are great in dry conditions but also give some extra protection and warmth in wet conditions. We invented the category of water-protective thermal fabrics, and Castelli's proprietary Nano Flex is often imitated but never equaled. No compromises for any conditions.

GOCCIA JACKET
4520511

SIZES	WEIGHT	TEMPERATURE RANGE
S-3XL	204 g (L)	5°-14°C / 41°-57°F

WEATHER CONDITIONS

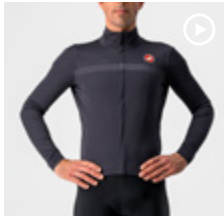

WHAT IT IS /PRODUCT FEATURES

This elegant jacket provides full waterproof protection with a stretch fit for comfort and aerodynamic performance. The jacket is protective enough to wear all day yet looks good on a gravel ride or when you’re meeting your mates at the café.

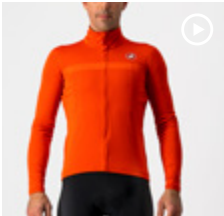

- Tempesta Stretch fabric with windproof PU membrane provides 10,000 mm waterproofness with 20,600 g/m²/24h breathability
- Taped shoulder seams for waterproofing
- Stretchy for extremely comfortable fit that moves with you
- Packable enough to fit in jersey pocket
- Covered easy-sliding YKK® Vislon® zipper
- Extra-long tail for protection from wheel spray
- Vent on back
- Reflective stripe at lower back

This jacket does three things really well: the Tempesta Stretch fabric provides full waterproof protection, the four-way stretch makes it fit any body type, and it looks great on and off the bike. Compared with our more expensive GORE-TEX® Idro jackets, you give up the best-in-class breathability and extreme packability, but you gain stretch fit and increased durability. We developed the fabric to our own specifications to make a jacket that is fully waterproof, comfortably stretchy, packable enough to fit in a jersey pocket, and with an appearance and hand that make it look great. This is meant to be a rain shell worn over a jersey, so we’ve forgone the external pockets and kept the construction simple to minimize seams. We’ve given it a vent on the back to prevent overheating, a covered zip to keep spray out and reflectivity for safety.

CASTELLI CYCLING

EMERGENCY 2 RAIN JACKET
4521500

SIZES	WEIGHT	TEMPERATURE RANGE
S-3XL	149 g (M)	6°-18°C / 43°-64°F

WEATHER CONDITIONS

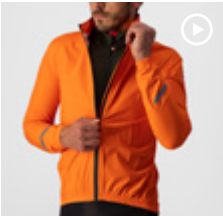

WHAT IT IS /PRODUCT FEATURES

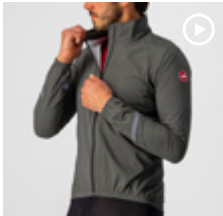

The go-to jacket for rain protection, whether for all-day use or emergency use, since it easily stashes away in a jersey pocket. With discreet styling and 360° reflectivity, it can do double duty as a commute jacket.

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Stuff pocket integrated into mesh vent at top of back
- Waterproof zipper and contrast seam sealing keep water out
- 360° reflectivity

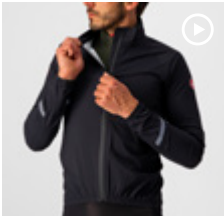

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you’d expect from Castelli, we also gave it an amazing on-bike fit, yet it’s still roomy enough to fit over a Gabba. It has all the trappings of a performance rain jacket, with the waterproof zipper, long tail, long sleeves, and wrist closures that can go over gloves, yet we knew you wouldn’t want to break the bank with it, so the only real compromise compared to our top-of-the-line offerings is in breathability. We kept the styling toned down and added a bright colorway in Fiery Red so that you can easily use this as a commute jacket and still look great when you get to the office. If you’re going to wear it over office attire you may want to go up one size.

ARIA SHELL JACKET
4520058

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	99 g (L)	10°-18°C / 50°-65°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

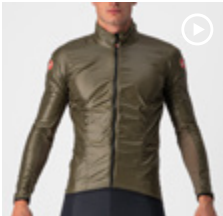

An extremely light and packable wind shell that fits close to body, with stretch breathability panels, allowing you extend the temperature range of your favorite Castelli pieces.

- Ultralight windproof woven microfiber front
- Striped mesh fabric at sides and sleeve back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Integrated pack sack
- YKK® Vislon® zipper
- Reflective piping

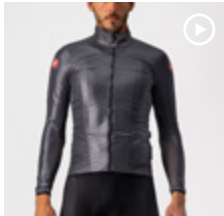

NOT YOUR OLD-STYLE
WIND JACKET

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to re-invent a classic. In reality, the Aria Shell Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era.

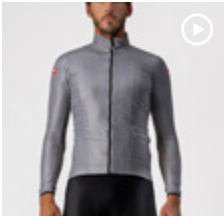

This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

WHAT IT IS /PRODUCT FEATURES

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

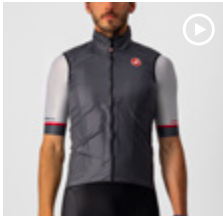

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective piping

NEAR WEIGHTLESS
PROTECTION

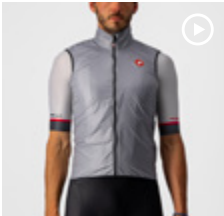

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

SQUADRA STRETCH JACKET
4521511

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	102 g (M)	10°-18°C / 50°-64°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

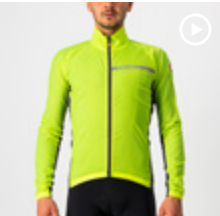

The Squadra Stretch shell keeps the wind off on cool-weather rides or long descents, while the stretch panels keep the jacket fitting close to body and eliminate flapping fabric.

- Coated ripstop nylon front and back and front of sleeves to keep wind off
- Tightly knit stretch panels on sides and sleeves allow for perfect fit
- High collar to keep drafts out
- Reflective details on chest and lower back for low-light visibility

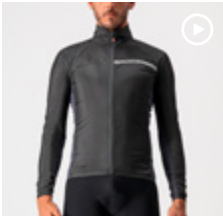

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to re-invent a classic. In reality, the Aria Shell Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era.

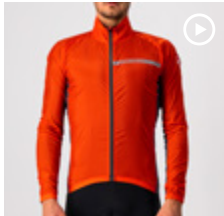

This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

SQUADRA STRETCH VEST
4521512

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	66 g (M)	12°-20°C / 54°-68°F

WEATHER CONDITIONS

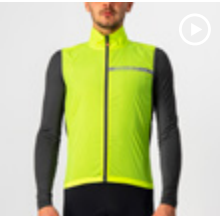

WHAT IT IS /PRODUCT FEATURES

The Squadra Stretch Vest is the simple yet elegant solution to keep the wind off your core in cool conditions while providing a close-to-body fit and excellent ventilation.

- Coated ripstop nylon front and back to keep wind off
- Tightly knit stretch panels on sides for perfect fit and ventilation
- High collar to keep drafts out
- Reflective details on chest and lower back for low-light visibility

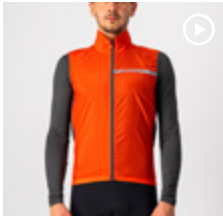

We've completely reengineered our entry-level vest. A new coated ripstop fabric keeps the wind off the front and spray off the back, while the tightly knit side panels allow the vest to stretch to fit a wide range of shapes while keeping a close-to-body fit that eliminates fabric flapping in the wind. The collar is cut high and the back long for extra protection, and the color blocking of the stretch panels and the reflective details on the chest and tail give it an elegant design touch.

BIB SHORTS OVERVIEW

THE RIGHT SHORTS
MAKE A DIFFERENCE

When it comes to performance cycling, whether it's long weekend rides, road races or granfondos, bibshorts are where it's at for outright comfort. A perfect pair of bibshorts will provide just the right balance of comfort and support for your legs when you're pounding out those kilometers.

ROSSO CORSA

PREMIO BLACK W
BIBSHORT

Innovatively engineered for ultimate long-distance comfort, support, speed and durability.

FREE AERO RC W
BIBSHORT

The perfect mix of comfort and speed. Engineered for top-level racing, which also makes it supremely comfortable for every ride and rider.

ENDURANCE W
BIBSHORT

Endurance-level comfort for every ride with Castelli's most comfortable seat pad.

VELOCISSIMA 3
BIBSHORT

Premium fabrics, a flattering cut, drop-tail bib straps, and our everyday-comfort KISS Air² Donna seat pad make this short right for everything but the longest rides.

PRIMA
BIBSHORT

Castelli's entry-level short still needs to be an amazing short in order to carry the scorpion logo. Comfort from quality fabrics, our KISS Air² Donna seat pad and anatomic construction are brought together with an overall focus on durability.

PROGETTO X²
SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISSair²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

The Premio Bibshort has been engineered to provide the ultimate in long-distance comfort and to be your favorite bib-short ever. That's a big claim, but there's a lot of research and development in this short to back it up. The seat pad is central to the Premio's exceptional comfort and our top-of-the-line women's specific Progetto X² Air Seamless Donna pad is actually two separate components: a soft, stretchy Skin Care Layer next to your skin, which has the sole purpose of preventing any rubbing on your skin, and, under that, the Cushioning Layer, which features two separate densities of foam along with breathable perforated gel inserts under the ischia bones and perineum. Comfort continues through the construction of the short with reduced seams and only 3 panels. We engineered a new fabric that changes depending on the needs over various parts of the body. The lower leg has a raw-cut leg ending and rubberized yarns to guarantee a flat grip to keep the leg in place. The fabric becomes lighter in the thigh, while the four-way stretch provides just the right amount of muscle support. In the pelvis area, the compression and support increase to keep the seat pad and everything else in place,. At the back there's a thicker fabric to avoid any transparency issues. The premium fabrics extend the bib straps. The perforated back keeps you cool and the edge is bonded so you don't feel the thickness of a stitched edge. The elastic straps have just enough modulus (return) to hold your shorts securely in place without cutting in to your shoulders. We've carried the less-is-more theme into the design, with minimalist laser-etched logos and subtle finishing. It looks as premium as it feels. You can tell that every component, every stitch, every detail has been obsessed over. You'll not find a better bibshort.

WHAT IT IS /PRODUCT FEATURES

Endurance-level comfort for every ride with Castelli's most comfortable seat pad.

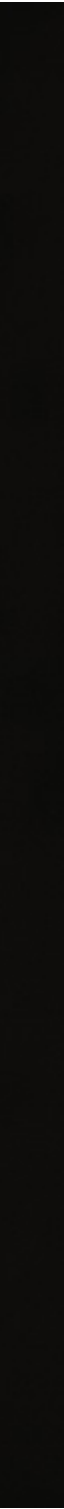

- Endurance Evolution fabric provides optimum muscle support and feels drier in nearly all conditions
- Anatomic cut for perfect on-bike fit
- Soft elastic at waist lies flat without binding
- Women's-specific Progetto X² Air Donna seamless seat pad for even greater comfort and improved airflow
- GIRO³ leg grippers lie flat

010
BLACK

010
BLACK

The main story of this short is the use of our renowned top-of-the-line Progetto X² Air Donna seamless seat pad in a mostly traditional short, but in fact every little detail has been obsessed over to ensure your comfort on your next long endurance ride. A great pad is useless without great fit. The seams are placed around the hip area to create a perfect shape on the bike. The Endurance Evolution fabric has a soft hand while providing good compression and excellent moisture management. And it's all held in place with the amazingly comfortable GIRO³ leg gripper. On your long endurance rides you'll especially appreciate Castelli's drop-tail bib construction. The wider bib straps are free floating so you can cross them in front or back. They pull tight enough to keep your shorts in place, but when the need arises they stretch long enough that you can take a bathroom break without having to remove your jersey and bibs. This short offers exceptional value and is ready to deliver lasting comfort on your longest rides.

WHAT IT IS /PRODUCT FEATURES

Castelli's entry-level short still needs to be an amazing short in order to carry the scorpion logo. Comfort from quality fabrics, our KISS Air² Donna seat pad and anatomic construction are brought together with an overall focus on durability.

- KISS Air² Donna seat pad for all-day comfort
- Pro Dry Soft matte Lycra® is sleek looking and ultra-breathable
- Anatomic construction for perfect fit
- Rear reflective panels
- GIRO³ engineered flat leg band
- Mesh bib straps for comfort and breathability

Shorts are an obsession at Castelli. They're the most vital piece of clothing and one of the hardest to get right. Even though the Prima is our entry-level short, it shows that we won't compromise anything for comfort and performance. It starts with the women's-specific KISS Air² Donna seat pad. Just the name gives an idea of the process of constant improvement, which started with a soft KISS pad that was improved by making it more breathable (Air) and then improved again in the latest update to use the softest-ever top fabric (2). It's ready for your next big ride indoors or out. We've updated the fabric to the new Pro Dry Soft, which has a smooth matte finish that feels cool on the skin while being very supportive and quick to dry. We wanted this short to be just right for many years to come, so little details like the reflective patches are stitched in instead of being glued on, and the GIRO³ elastic has the grip woven right into the fabric. This attention to detail — go ahead and call it an obsession — is why Castelli's entry-level short is just a better short.

ROSSO CORSA

AERO PRO W JERSEY
4522057

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	102 g (S)	18-35°C / 64-95°F

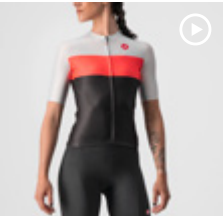

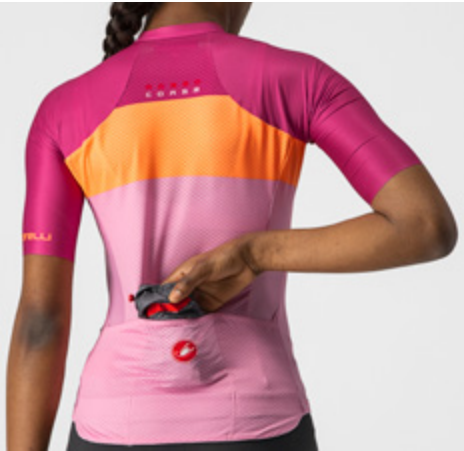

WHAT IT IS /PRODUCT FEATURES

Engineered to be the most aerodynamic jersey for road racing, this jersey features extremely comfortable high-stretch fabric with excellent moisture management and three full-size pockets for cargo to make it ideal even if you never pin on a number.

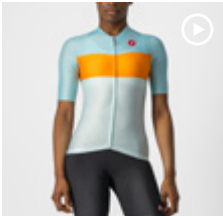

- CFD-based fabric placement and seam construction
- Engineered for aero efficiency at 30 to 55 km/h
- Airflow shoulder construction
- Velocity Rev2 fabric on front and sleeve
- 3D mesh back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- YKK® Vislon® zipper
- Drop tail allows perfect pocket placement while keeping jersey fitting well at waist

THE FIRST
AERO JERSEY PROJECT
WAS CALLED SPLIT SECOND

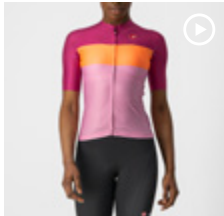

When Castelli engineered the first aero jersey for road racing back in 2006, everyone thought we were crazy. Back then, aero was only for TTs. Performance clothing meant moisture management. And you could win the Tour de France with a baggy jersey that was little more than a polyester T-shirt. Even our aerodynamic consultants expected limited gains, so we named the jersey Split Second, though, like now, we thought even small gains were worth pursuing. In the end the gains were pretty substantial, and we completely revolutionized the look of the pro peloton. We're now on the sixth major revision of our aero jersey. Each generation has become more aero and better fitting. The Aero Race W Jersey benefits heavily from CFD analysis of wake flow in the riding position for fabric and seam placement. It also benefits from pro riders' feedback, as we've worked to make the jersey comfortable for their long hours of training and then racing in every possible weather condition. It's our most aero and most comfortable Aero Race Jersey yet. But we're already working on an update.

CLIMBER'S 2.0 W JERSEY
4522058

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	98 g (S)	22-40°C / 72-104°F

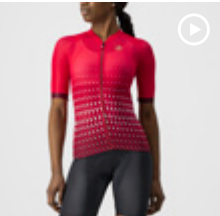

WHAT IT IS /PRODUCT FEATURES

Created for hot weather, this jersey allows ample airflow through the front fabric, is quick to dry and blocks more than 90% of UV rays on your back. A great choice for your long summer rides, or add a base layer and it's a three-season jersey.

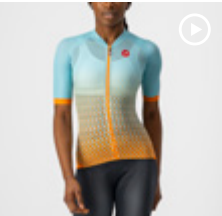

- Flusso 3D fabric on front and sleeve
- StradaPro 3D back for breathability
- Engineered rapid cooling, light weight and aero efficiency
- Raw-cut sleeve ending lies flat for comfort without binding
- YKK® Vislon® zipper

LIGHT ACQUA-POP ORANGE

487
FOG BLUE/
LIGHT ACQUA-
MOONLIT OCEAN

We made this jersey specifically for hot weather, with a meshy fabric on the front that allows a lot of air to flow through the fabric to cool you, while on the back we've created a fabric that blocks over 90% of UV rays while also being airy and lightweight. But don't think of it as a niche jersey that you only bring out for hot days. Add a base layer underneath it and you'll use it from mid spring to early fall, and the stretch of the fabrics that make it fit so great mean that it's extremely comfortable.

CASTELLI CYCLING

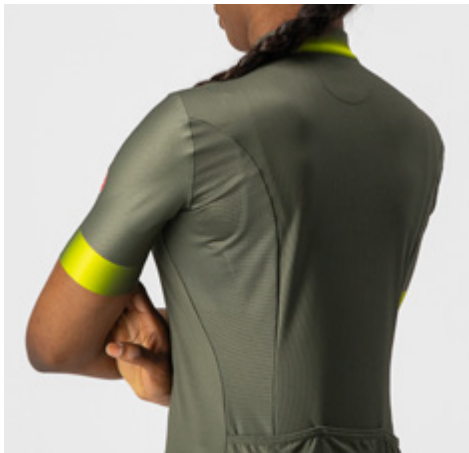

GRADIENT JERSEY
4521050

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	119 g (S)	16-35°C / 61-95°F

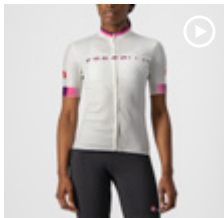

WHAT IT IS /PRODUCT FEATURES

Clean, solid-color design but with a touch of bright gradient fade color on a jersey featuring our comfortable long-ride Squadra jersey construction.

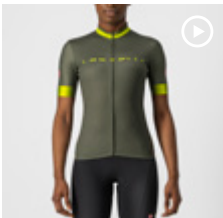

- ProSecco Micromesh main body fabric to keep you dry
- Mesh side panels for breathability
- Velocity Rev2 fabric on sleeves with close-to-body fit and raw-cut edges
- Covered YKK® Vislon® zipper
- Drop tail with 3 rear pockets with reflective piping

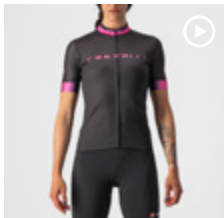

The first thing you notice about this jersey is the pops of color. But take a closer look and you'll see how carefully it's been constructed. We start with great fabrics: the main body in Pro-Secco Micromesh, combined with mesh side panels for extra breathability and stretch. Then we use our Velocity Rev2 four-way-stretch fabric on the sleeves, providing unmatched fit and comfort while allowing us to leave a raw edge for even greater comfort. We use our drop-tail pocket design to place the pockets at the perfect height, and we finish it all with a YKK® Vislon® zipper that slides easier than any other. This jersey is so much more than its graphic.

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	119 g (S)	15-35°C / 59-95°F

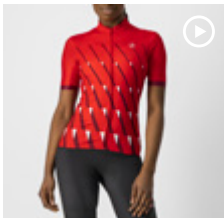

WHAT IT IS /PRODUCT FEATURES

This sublimation-printed jersey offers performance for every ride, with the perfect main body fabric, four-way-stretch sleeves with raw-cut endings, and a drop-tail construction.

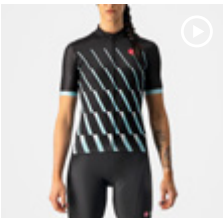

- ProSecco Micromesh main body fabric to keep you dry
- Mesh side panels for breathability
- Velocity Rev2 fabric on sleeves with close-to-body fit and raw-cut edges
- Covered YKK® Vislon® zipper
- Drop tail with 3 rear pockets with reflective piping

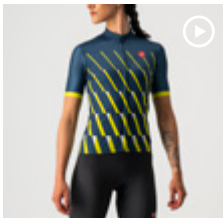

Beyond the climbing-inspired graphic, this jersey is built on Castelli's most popular jersey cut. We start with great fabrics: the main body in ProSecco Micromesh, combined with mesh side panels for extra breathability and stretch. Then we use our Velocity Rev2 four-way-stretch fabric on the sleeves, providing unmatched fit and comfort while allowing us to leave a raw edge for even greater comfort. We use our drop-tail pocket design to place the pockets at the perfect height, and we finish it all with a YKK® Vislon® zipper that slides easier than any other. This jersey is so much more than its graphic.

DOLCE JERSEY
4522060

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	106 g (S)	18-38°C / 64-100°F

WHAT IT IS /PRODUCT FEATURES

A fresh take on gradient fades, built on our Competizione 2 model with performance fit but stretchy fabrics that flatter.

- Strada micromesh ventilated stretch fabric on front and back for great fit and moisture management
- Tailwind dimpled stretch fabric on sleeves, side panels, and pockets for perfect fit
- Anatomic side panels that wrap around to back
- Full-length YKK® Vislon® zipper is easiest-sliding zipper available
- Silicone gripper elastic at waist prevents jersey from riding up

Gradient fades have been the fad for a few seasons now, but the Dolce Jersey graphic breathes new life into the theme. It's built using our new Competizione 2 base jersey. We've updated the construction with the side panels that finish in the pockets. We've updated the fabrics so that the back doesn't stretch too long when you load up the pockets. And we've updated the sleeve fabric as well as the fit, maintaining super-stretchy fabrics for a great fit on any body shape without feeling too tight.

FENICE JERSEY
4522061

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	107 g (S)	18-38°C / 64-100°F

WHAT IT IS /PRODUCT FEATURES

A delicate element stripe across the chest, sleeves, and pocket on a clean solid-color jersey built on the Competizione 2 base, creating a rich fabric and texture story in a design that's both stunning and technical.

- Strada micromesh ventilated stretch fabric on front and back for great fit and moisture management
- Tailwind dimpled stretch fabric on sleeves, side panels, and pockets for perfect fit
- Anatomic side panels that wrap around to back
- Full-length YKK® Vislon® zipper is easiest-sliding zipper available
- Silicone gripper elastic at waist prevents jersey from riding up

The Fenice Jersey graphic is the perfect combination of a clean, technical performance look with an elegant stripe across the chest, sleeves, and pocket. The otherwise solid-colored jersey allows the technical texture of the fabrics to stand out, especially the dimpled stretch Tailwind fabric on the sleeves, side panel, and pockets. You'll be noticeable while being supremely comfortable.

VELOCISSIMA JERSEY

4522065

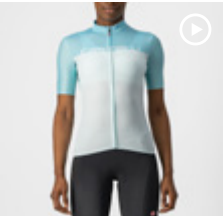

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	96 g (S)	16-38°C / 61-100°F

- WHAT IT IS /PRODUCT FEATURES
- Performance and comfort align in the Velocissima Jersey, which uses three different dyed fabrics for rich color in a technical construction.
- ProSecco Strada Donna main body fabric for great moisture management
 - Velocity Rev2 fabric for 4-way-stretch sleeves with raw-cut sleeve endings
 - Stretch-mesh side panels for better fit and breathability
 - Dyed fabrics for rich colors with sublimated overprint
 - Drop-pocket design for better placement of 3 rear pockets
 - Silicone gripper elastic
 - YKK® Vislon® zipper with scorpion zipper pull for easier grip

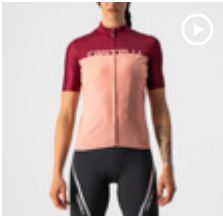

The name Velocissima means “very fast” in Italian, and indeed there’s a lot of speed in this jersey, even though it wasn’t designed as a race jersey. It brings together three different fabrics for fit as well as comfort. The main jersey fabric is a soft 100% polyester micromesh with Castelli’s ProSecco wicking treatment to keep you dry. Side panels are in a stretch mesh for ventilation and improved fit. The sleeves are lifted directly from Castelli’s pro race jersey, but in this case because the four-way-stretch fabric with raw-cut sleeve endings is as comfortable as it is aerodynamic. The Velocissima Jersey is not lacking in technical details, but it was also designed to look good. The fabrics are piece dyed for rich color, and then they get a sublimated overprint for the tone-on-tone graphic over the shoulders. It’s finished with construction details like the three pockets that drop below the silicone waistband for easier access, while the easy-sliding YKK® zipper makes ventilation adjustment easy.

WHAT IT IS /PRODUCT FEATURES

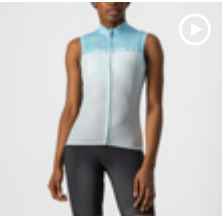

The performance jersey for hot days and reducing your cyclist’s tan, with ProSecco fabric on the front and back and stretch-mesh side panels to keep you cool.

- ProSecco Strada Donna main body fabric for great moisture management
- Stretch-mesh side panels for better fit and breathability
- Dyed fabrics for rich colors with sublimated overprint
- Drop-pocket design for better placement of 3 rear pockets
- Silicone gripper elastic
- YKK® Vislon® zipper with scorpion zipper pull for easier grip

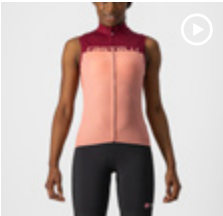

The Velocissima Sleeveless Jersey is made for hot days or for when you’re trying to get rid of the tan lines on your arms. Except for the sleeves, it has all the features of Castelli’s technical comfort Velocissima Jersey. The main fabric is a soft 100% polyester micromesh with Castelli’s ProSecco wicking treatment to keep you dry. Side panels are in a stretch mesh for ventilation and improved fit.

SKYLIGHT

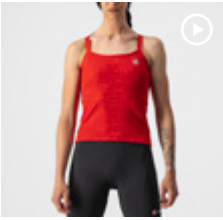

And now for something totally different. We've created a performance jacquard-knit fabric. It took a while to get there because we weren't willing to compromise fit, stretch, moisture management or comfort. It still feels like a Castelli jersey, but with the design actually integrated into the fabric. Beyond the fabric, we've finished this jersey with thoughtful design touches like the collar that tapers to the zipper, Castelli's drop-pocket design with reflective piping, and a raw-cut elastic sleeve ending.

CASTELLI CYCLING

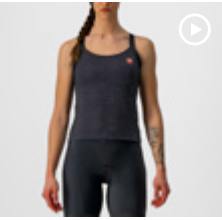

PROMESSA JACQUARD BAVETTE TOP
4521056

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	66 g (S)	22°-40°C / 72°-104°F

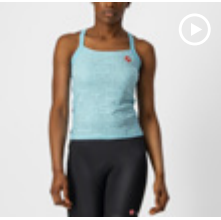

- WHAT IT IS /PRODUCT FEATURES
- Cycling top for hot days, or for when you want to even out your tan lines or look great at your indoor cycling class.
- Jacquard-knit extra-wicking stretch fabric
 - 2-way stretch for great fit while holding pockets in place
 - Raw-edge elastic trim for straps and collar
 - Zippered rear pocket

SKYLIGHT

For those rides when you don't need three pockets or sun protection on your shoulders, there's the Promessa Jacquard Bavette Top. This top is great for your evening rides at the height of summer, or when you're trying to get rid of your cyclist tan lines or want to look great at your SoulCycle class. The Bavette uses a new performance jacquard knit that brings the graphic directly into the construction of the fabric without compromising fit, stretch, moisture management or comfort. We've finished it off with a zippered pocket.

CASTELLI CYCLING

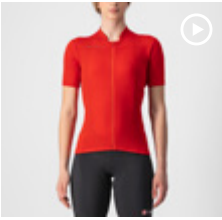

ANIMA 3 JERSEY
4520068

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	109 g (S)	18°-32°C / 64°-90°F

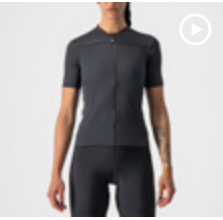

- WHAT IT IS /PRODUCT FEATURES
- The perfect solid-colored jersey with all the Castelli technical details for performance on every ride.
- ProSecco Strada Donna fabric provides great moisture management
 - Contrast inner collar and zipper-protection flap
 - YKK® Vislon® zipper with scorpion zipper pull
 - Drop tail with 3 rear pockets
 - Silicone gripper elastic at waist
 - Reflective piping

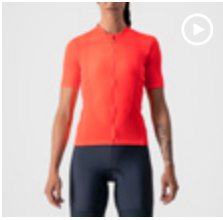

The name “Anima” means soul in Italian, and that’s what this jersey captures. It means getting the little details right, like perfect fit; soft, quick-drying, stretchy fabric; an easy-sliding YKK® zipper; and Castelli’s innovative drop-tail pocket construction. We keep the styling clean and let the details make it special.

085
LIGHT BLACK

472
SKYLIGHT/LIGHT ACQUA

For those days when you don't need to load up the pockets or deal with changing weather conditions, the Solaris Sleeveless Jersey leaves you feeling freer. We've stripped it down to the bare essentials, even leaving off the gripper elastic so there's nothing to bind or distract from the extreme comfort of this jersey.

CASTELLI CYCLING

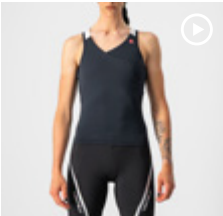

SOLARIS TOP4522062

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	109 g (S)	22-40°C / 72-104°F

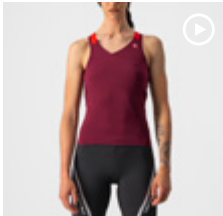

WHAT IT IS /PRODUCT FEATURES

Hot-weather riding top with a double-layer front and racer back with two rear pockets.

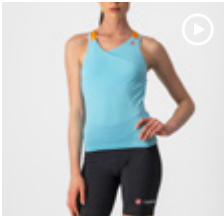

- Softflex fabric for soft stretch with a cotton-like hand
- Racer back construction
- Double-layer cross-wrap front with 3 cm elastic band under bust
- 2 rear pockets

085
LIGHT BLACK/WHITE

421
BORDEAUX/RED

472
SKYLIGHT/POP ORANGE

We don't recommend this for long or even medium-length rides in full sun, but this is the best option we know of for those evening rides in the hottest days of summer, or if you're trying to even out your tan. The top features a wrap construction across the front with an elastic band under the bust, but with the racer back construction it works well with many sports bras. The Softflex fabric is stretchy for a great fit, and there are 2 pockets on the back.

UNLIMITED

UNLTD SENTIERO JERSEY

4522085

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	112 g (S)	16-35°C / 61-95°F

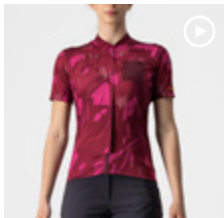

WHAT IT IS /PRODUCT FEATURES

All the performance of a Castelli race jersey, just without the aerodynamics and tight fit.

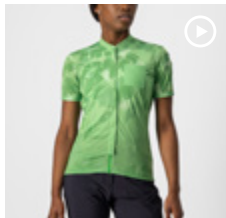

- Lightweight polyester/elastane blend fabric for excellent fit and moisture management
- Medium fit for comfort on the trail or road
- Partially covered YKK® Vislon® zipper
- 3 rear pockets with extra zippered security pocket
- Chest pocket
- No-sew sleeve hem finishing
- Silicone gripper elastic

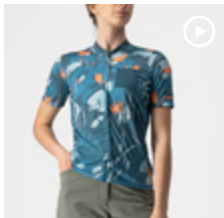

All the performance you expect from a Castelli jersey except for the aerodynamics. That's why this is the ideal jersey when you're riding anything from asphalt to gravel to dirt — anytime you value comfort over aerodynamics. The feature list includes a new 95-gram 92/8 polyester/elastane fabric that keeps you dry while providing plenty of stretch. It has a YKK® Vislon® front zipper that's partially covered for a clean look. There's a fourth zippered key pocket, silicone gripper elastic at the waist, and bonded no-sew sleeve endings. It's perfectly at home on the trail or the tarmac.

TRAIL TECH W TEE

4522054

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	93 g (S)	18-38°C / 64-100°F

WHAT IT IS /PRODUCT FEATURES

Performance jersey tech with relaxed-fit style and comfort. Ready for an all-day adventure ride.

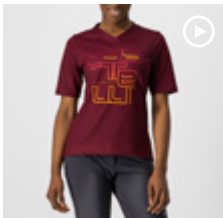

- Relaxed-fit trail tee
- Bluesign 110 g quick-drying polyester allows airflow to keep you cool
- V-neck
- Shaped longer rear hem for full coverage when in riding position
- Sublimation-printed graphic

There are lots of trail tees out there, but most seem to not really be made to ride in. The Castelli Trail Tee features a lighter-weight 100% polyester fabric for quick drying and excellent moisture management, with a 3D mesh construction that lets air flow through to keep you cool. No more feeling like you're riding in a plastic bag. And the fabric is Bluesign approved, so it's good for the planet. The tee is cut for everything from fast trail riding to enduro, since it fits with a back protector and elbow pads. And because all the Unlimited shorts have pockets, you can complete the relaxed look and feeling of freedom with this performance trail tee.

FREE UNLIMITED W BIBSHORT4522055

SIZES	WEIGHT	PROGETTO X ²
XS-XL	157 g (S)	
TEMPERATURE RANGE		
15-35°C / 59-95°F		

WHAT IT IS /PRODUCT FEATURES

Comfort, performance, protection, and storage. Designed for gravel but equally at home on adventure or endurance rides, or if you just love pockets. Drop-tail bib straps.

- High-compression 215 g Forza 2 fabric with 32% Lycra® content provides exceptional muscle support and compression
- Dyneema® side panels to protect in the event of a tumble, 15x stronger than steel
- Women's-specific Progetto X² Air Donna seamless seat pad is soft against the skin but well padded for long-distance comfort
- Drop-tail bib straps can cross in front or back and allow pee breaks without removing bibs
- Large compression pocket on each leg
- Raw-cut edge at waist for extra stretch and comfort
- Raw-cut leg ending engineered to stay put without silicone grippers

This is the no-compromise gravel or endurance MTB short. It combines the best features of Castelli's premier race short, the Free Aero RC Bibshort, with Dyneema® side panels for protection in case of a fall, and side pockets for storage. It's made first and foremost for riding comfort. It uses the top-of-the-line Progetto X² Air Donna seamless seat pad that provides progressive damping and the softest, stretchiest skin contact layer available. The Forza 2 fabric provides just the right level of compression and muscle support for your longest rides. The bib straps are Castelli's drop-tail design, stretchy enough to be pulled down for a pee break while providing enough pull to keep your shorts in place. They're free floating so you can choose to cross them in front or back. At the leg ending there's a raw-cut edge that you'll hardly feel, and the combination of the Forza 2 fabric with just the right length and circumference means that no silicone gripper is required. It's a big leap forward in terms of comfort. The two large leg pockets are lined with an extremely light and fast-wicking fabric so you won't notice the extra layer, yet they hold a surprising amount of gear, allowing you to forgo a traditional pocketed cycling jersey. The Unlimited short really does know no limits.

UNLIMITED W BIBSHORT

4522089

SIZES	WEIGHT	KISSAIR ²
XS-XL	203 g (S)	
TEMPERATURE RANGE		
14-32°C / 57-90°F		

WHAT IT IS /PRODUCT FEATURES

Equally at home on tarmac or gravel, the Unlimited Bibshort knows no bounds. With four discreet hidden pockets, it's ready for your next adventure.

- Made for fast riding on unlimited terrain
- 200 g/m² nylon/Lycra® fabric with best-in-class abrasion and tear resistance
- 2 mesh rear pockets built into mesh bib straps
- Double-layer side panels reduce abrasion if you fall, while also creating 2 useful side pockets
- Raw-cut leg ending with vertical silicone grip strips to hold leg in place
- KISS Air² Donna seat pad for all-day comfort

We made this short to meet Castelli's high standards for comfort and performance in a cycling short while adding a few extra features that come in handy for riding on any surface. You'll find our normal exceptional fit as well as the KISS Air² Donna seat pad. What makes this short special is the extremely durable Unlimited Lycra® fabric. It has higher abrasion resistance and tear resistance while not compromising on stretch, moisture management or comfort. In addition, we use double-layer side panels for the old track rider's trick of fabric-sliding-on-fabric should you fall. This short isn't really meant to be indestructible, but it significantly increases the chances that sliding out on gravel will mean you need to just brush yourself off rather than having to buy a new pair of shorts. That second layer on the side panel also makes for convenient side pockets, with a flap over the top to prevent the contents from falling out. For added convenience while riding on and off road, you have two mesh pockets on the lower back that compress gear next to your body to keep it from bouncing around. This short adds durability and storage without compromising comfort — for unlimited amounts of fun.

UNLIMITED

UNLIMITED W BAGGY SHORT

4521544

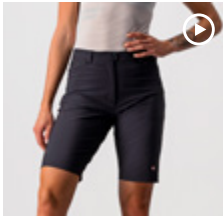

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	188 g (S)	15-35°C / 59-95°F

WHAT IT IS /PRODUCT FEATURES

The baggy short that's not too baggy. It's so light and stretchy you might forget you're wearing a baggy short. It has no liner so you can wear it with your favorite cycling short.

- Stretch woven fabric with DWR finish
- Extremely light so you won't even feel it on
- 2 front pockets and 1 zippered pocket
- Stretch jacquard waistband with zippered front opening
- Scorpion button logo

There are those days when a baggy short just seems like the right look. But you always debate whether you're willing to compromise comfort for that look, and you end up wearing Lycra®. So we set out to make a better baggy. We reached for a stretch woven fabric that gives great stretch but in an unbelievably light-weight yet durable fabric. We gave it a DWR finish so mud and water roll off. We gave the short two top-opening pockets like jeans so that whatever you put in there won't fall out. We made the cut fairly close to body so you look good off the bike but the short doesn't balloon out when you're on the bike. It all just kinda disappears. The short doesn't have its own seat pad, so wear this over your favorite Castelli short.

WEIGHT

145 g (S)

PROGETTO X²

TEMPERATURE RANGE

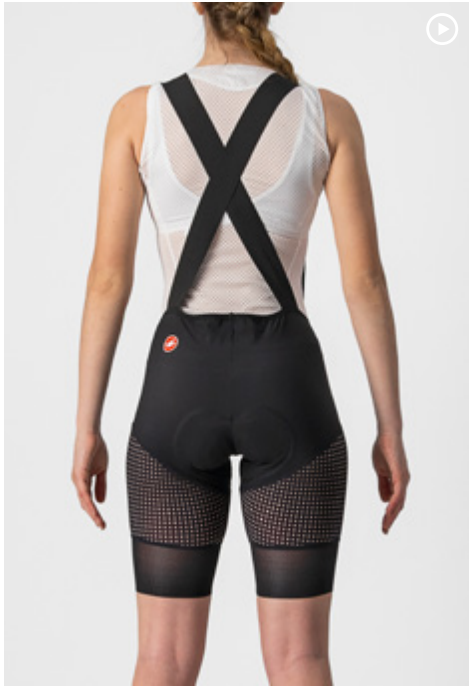

15-35°C / 59-95°F

WHAT IT IS /PRODUCT FEATURES

Made to be the ultimate liner under your baggy shorts. Featuring the supremely comfortable Progetto X² Air Donna seamless seat pad in the coolest minimalist short, with drop-tail construction for pee breaks without removing the bib straps.

- Women's-specific Progetto X² Air Donna seamless seat pad for long rides and rough trails
- 170 g Force fabric through hips to keep seat pad in place
- Perforated leg panels are light for maximum ventilation and cooling
- Giro Air leg grippers are cool and hold legs in place
- Drop-tail bib straps can cross in front or back and allow pee breaks without removing bibs

There's no reason to accept a mediocre short just because you want to wear baggies. This liner is made for ultimate comfort under your baggies. First and foremost, this short features the top-of-the-line Progetto X² Air Donna seamless seat pad. The pad has two separate components: a soft, stretchy Skin Care Layer that coddles your skin, and a separate Cushioning Layer with dual-density foam and gel pads for progressive damping. The best pad is worthless if moves around, so we've constructed the hip area in our compressive Force fabric, which holds the pad in place while providing good ventilation. The legs are light and airy with perforated fabric to keep you cool, and are held in place by our gauze-like Giro Air elastic. The beauty of this leg construction is that you can adjust the length to your preference — so they're long enough to keep your baggy short from rubbing against your leg, for example. The bib straps are Castelli's drop-tail design, stretchy enough to be pulled down for a pee break while providing enough pull to keep your shorts in place. They're free floating so you can choose to cross them in front or back.

PRO ISSUE 2 W SHORT SLEEVE

4520121

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	39 g (S)	15°-35°C / 59°-95°F

WHAT IT IS /PRODUCT FEATURES

Made to keep you dryer in cool to warm conditions, this base layer moves moisture away from the skin.

- 100% polyester 3D mesh fabric
- Reduced seaming at shoulders for extra comfort
- Wider collar to fit under aero jerseys
- Flat waist hem to lie flat in shorts

001
WHITE

001
WHITE

This is the piece our pros requested for those in-between conditions, like Spain in February or Belgium in April. You're not looking for warmth from your base layer, just something to move the moisture away from your body and help your race jersey perform. Our 3D mesh fabric creates dead air space next to your skin, while the polyester capillary action moves sweat away.

WHAT IT IS /PRODUCT FEATURES

This is the original jacket/jersey that started an entire new product class: the Gabba. It's a functionally water resistant short-sleeve jacket that's equally ideal for dry conditions. Made to be worn with our Nano Flex arm warmers, it allows you to keep your core warm without overheating.

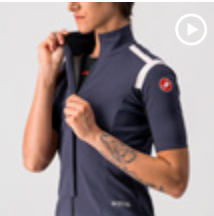

- The 4th generation of the Gabba from the inventors of the Gabba
- Now more water resistant than ever
- Castelli exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ 203 WINDSTOPPER® Stretch on rear-facing surfaces for extra stretch and breathability
- Taped shoulder seams (reflective for color 085) for extra rain protection
- YKK® Vislon® zipper for easy sliding, covered for extra wind and rain protection
- 2 rear pockets with pump sleeve are easily accessed with gloved hands
- Dropped tail with large black reflective panel

PERFETTO VEST
IS NOW EVEN MORE
PERFECT

The Perfetto Vest has been a favorite with everyone from our pro riders to Castelli staff to performance cyclists everywhere. But we wanted to make it even more perfect, so we developed a new exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabric that is both lighter and more water repellent than the old fabric while maintaining the stretch and breathability. We matched it up with better water repellency in the back while maintaining the breathability, and further improved details like the back pockets and reflectivity. A more perfect Perfetto Vest.

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

With just a base layer it's a wind-protection jersey for mild conditions. Alternatively, use it like a vest over a jersey with added protection over your shoulders. Lightweight, breathable front wind protection with allover water repellency.

- Lightest Castelli short-sleeve wind protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front and sleeves
- Nano Flex Light Woven on back for breathable stretch with good water protection
- YKK® Vislon® zipper for easy ventilation adjustment on the fly
- 2 rear pockets with pump sleeve
- Gabba-style dropped tail with reflective panel

LIGHTER, MORE PACKABLE, MORE BREATHABLE

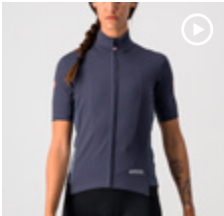

The Perfetto Light started life as a request from our pro riders: “I want to wear the Gabba all the time, but sometimes it’s too hot.” So a somewhat lighter and more breathable Gabba became the Perfetto Light. The Perfetto Light is improved in nearly every way: it’s now lighter, with thinner fabrics on the front and back, which make it easier to stuff in a pocket. It has both better rain protection and improved breathability. It has two larger pockets that better complement the three pockets on the jersey you wear underneath this jacket. The new Perfetto Light is closer to a Per-fetto Vest with sleeves, which makes it perfect for your spring and fall training and racing in cool conditions.

WHAT IT IS /PRODUCT FEATURES

This fully waterproof, highly breathable, and extremely lightweight and packable (half a pocket) jacket featuring an innovative fit system is perfect for any rain ride or long descent.

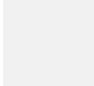

- The lightest and most packable fully waterproof Castelli GORE-TEX® jacket
- GORE-TEX® SHAKEDRY™ product technology sheds water yet offers unmatched breathability
- The entire lower back is in GORE-TEX® Topo stretch fabric to expand in diameter if you have a few extra winter kilos or full pockets
- Reflective tape on back of both sleeves for high visibility in low-light conditions
- YKK® Vislon® waterproof zipper slides easily for ventilation adjustments
- Internal wrist gaiter seals wrist and integrates with glove to keep water out

WHAT IT IS /PRODUCT FEATURES

The go-to jacket for rain protection, whether for all-day use or emergency use, since it easily stashes away in a jersey pocket. With discreet styling and 360° reflectivity, it can do double duty as a commute jacket.

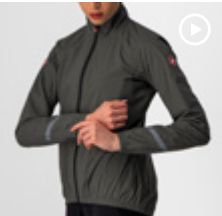

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Stuff pocket integrated into mesh vent at top of back
- Waterproof zipper and contrast seam sealing keep water out
- 360° reflectivity

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you'd expect from Castelli, we also gave it an amazing on-bike fit, yet it's still roomy enough to fit over a Gabba. It has all the trappings of a performance rain jacket, with the waterproof zipper, long tail, long sleeves, and wrist closures that can go over gloves, yet we knew you wouldn't want to break the bank with it, so the only real compromise compared to our top-of-the-line offerings is in breathability.

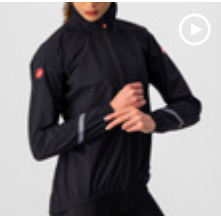

We kept the styling toned down and added a bright colorway in Brilliant Pink so that you can easily use this as a commute jacket and still look great when you get to the office. If you're going to wear it over office attire you may want to go up one size.

ARIA SHELL W JACKET

4520089

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	82 g (S)	10°-18°C / 50°-65°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

An extremely light and packable wind shell that fits close to body, with stretch breathability panels, allowing you extend the temperature range of your favorite Castelli pieces.

- Ultralight windproof woven microfiber front
- Striped mesh fabric at sides and sleeve back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Integrated pack sack
- YKK® Vislon® zipper
- Reflective piping

NOT YOUR OLD-STYLE WIND JACKET

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to re-invent a classic. In reality, the Aria Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era. This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

ARIA W VEST

4520088

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	60 g (S)	12°-20°C / 54°-68°F

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective pipin

NEAR WEIGHTLESS PROTECTION

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

CASTELLI CYCLING

SQUADRA STRETCH W JACKET

4521529

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	99 g (S)	10°-18°C / 50°-64°F

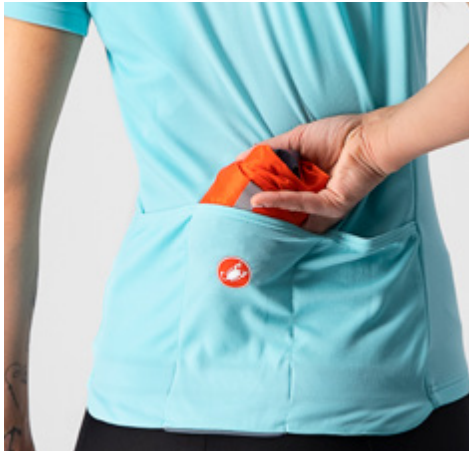

WEATHER CONDITIONS

WHAT IT IS /PRODUCT FEATURES

The Squadra Stretch shell keeps the wind off on cool-weather rides or long descents, while the stretch panels keep the jacket fitting close to body and eliminate flapping fabric.

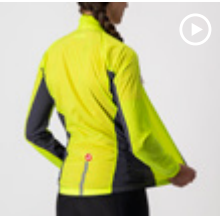

- Coated ripstop nylon front and back and front of sleeves to keep wind off
- Tightly knit stretch panels on sides and sleeves allow for perfect fit
- High collar to keep drafts out
- Reflective details on chest and lower back for low-light visibility

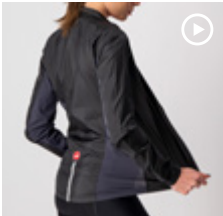

This is a modern interpretation of the wind shell jacket, the one you keep in your pocket for a long descent or put on for the first hour of the ride until the day warms up. That jacket used to be a simple affair — a nylon shell — but the lack of stretch meant that it had to be cut on the generous side to fit all body shapes, both on and off the bike.

We've completely reimagined what the shell jacket should be and how it's constructed. We've added panels on the sides and the sleeves in a very high-stretch yet tightly knit fabric that allows us to give the jacket a modern, close-to-body fit for aero gains on any terrain, and it actually keeps more heat in than a jacket that's flapping about. We've kept it very compact so that it can pack away into minimal space in a jersey pocket.

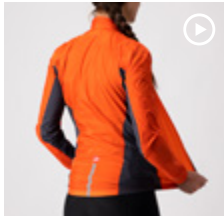

The stretch panels are treated for water repellency, which will help in a light mist, but this is not meant to be a true rain jacket.

MEN'S TRIATHLON

SET A NEW
PERSONAL BEST

This suit, which set a new course record at Kona in its first race with Cameron Wurf, uses everything we know to make your next long-distance race your fastest ever.

In 2016 we started our aero research project with the Norwegian Technical University in Trondheim. Besides having a couple of brilliant professors and PhD students to come up with ideas and do the basic research, they have a couple of wind tunnels, rapid prototyping capabilities, CFD analysis and a true desire to make fast stuff. The first big success from the research was Team Sky's TT suit that placed four riders in the top eight at the opening Tour de France time trial. Then the UCI made it illegal. So this suit isn't UCI legal (but neither is your bike). It's faster than the pro cyclists' suits and very illegal due to the silicone ribs in the arms. The main body fabric is an impossibly light 50 denier — usually in sports clothing 40 denier is considered ultrafine. The legs and sleeves are long for aerodynamics, while the light fabrics are great for dealing with heat since they're thin enough to not get weighed down, yet the 8% Lycra® content holds a bit of moisture next to your skin for rapid cooling. The insane stretch allows us to make something that truly fits like a second skin on the bike but that doesn't restrict in any way on the swim or run.

Our KISS Tri pad offers some welcome padding while you're on the bike but is thin enough to not bother you on the run. This suit offers real time savings on the bike leg while providing cooling and comfort on the run, but it was made with the expectation of being worn under a swimskin or wetsuit for the swim. It's optimized for high speeds — top age groupers or pro athletes, or anyone looking to set a new PR.

TRIATHLON DISCIPLINES

WHAT IT IS /PRODUCT FEATURES

The fastest long-distance race suit Castelli has ever made. The sleeve texture saves minutes on the bike leg, while the overall suit excels in both speed and comfort. Record holder for fastest-ever Kona bike split with Cam Wurf, 2018.

- Pro-level long-distance race suit to deliver real aero benefits on the bike while providing comfort and cooling on the run
- 50-denier upper-body fabric is the thinnest, smoothest fabric for light weight and maximum aerodynamics
- Active cooling for the run with moisture evaporating directly next to the skin
- Silicone speed ribs on the sleeves induce turbulence to reduce drag on one of the most exposed parts of the body
- Elbow-length sleeves and knee-length legs for maximum aerodynamics
- Support short portion to keep everything in place on the run
- 2 rear pockets for ample nutrition storage
- KISS Tri pad

TRIATHLON DISCIPLINES

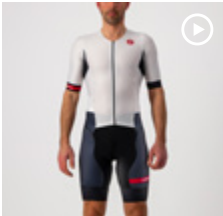

WHAT IT IS /PRODUCT FEATURES

Performance race suit ideal for 70.3 and full-distance racing. Aerodynamics for speed, without compromising pockets and comfort to help you through the big race.

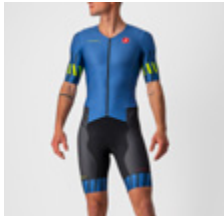

- Second-generation Sanremo short sleeve suit is faster than ever
- Velocity Rev2 main body fabric delivers aerodynamics with excellent fit and moisture management
- Back fabric is our Velocity mesh for breathability, yet it blocks 94% of UV rays for significant sun protection (UPF 16)
- Elbow-length sleeves with raw-cut edges for maximum comfort and aerodynamics
- Castelli's Sanremo front opening makes it easier to bend for cycling and straighten out for the run and swim, while also allowing for easier nature breaks or opening up for extra-hot runs
- 2 rear pockets lie flat in the swim but allow generous room for nutrition
- New short construction fits more securely with more muscle support
- GIRO® flat leg grippers on longer legs for maximum aerodynamics
- KISS Tri seat pad that provides comfort on the bike and that you almost don't feel during the run

FREE SPEED 2 RACE TOP
8620093

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XS-3XL	110 g (L)	  

WHAT IT IS /PRODUCT FEATURES

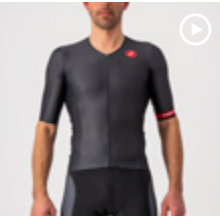

Speed top for full-distance racing, or even to use just for the bike leg for improved aero performance. Includes a fastener to attach to shorts.

- Freedom of movement in the water, aerodynamics on the bike, comfort on the run
- Velocity Rev2 aero fabric on front-facing surfaces
- UPF 16 Velocity mesh back blocks 94% of UV light with generous breathability
- 2 rear pockets lie flat and prevent nutrition from bouncing around
- GIRO³ flat gripper elastic lies flat on lower back
- SnapLock fastener at lower back to clip to Free Tri Short to prevent riding up during swim or bike leg
- YKK® Camlock® zipper
- Elbow-length sleeves for maximum aerodynamics

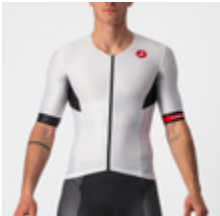

THE RIGHT RACE JERSEY
FOR SPEED AND COMFORT

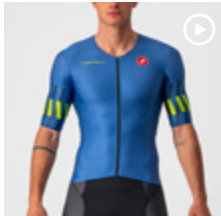

Some triathletes choose long sleeves for the extra speed. Some for the comfort. Some for sun protection. This jersey gives you all three. The aerodynamic speed is unmatched. It's what Castelli does best. We have a year-round testing and development program with the Norwegian Technical University in Trondheim to make our race gear the slickest around. The comfort is what comes from our expert pattern engineers and soft performance Italian fabrics. We reduce the number of seams so that there is less chafing and less to bother you when you should be concentrating on pounding out the run. Sun protection ... well, you've trained untold hours for this day. We focus on speed, but we still manage to block 94% of UV rays with our back Velocity mesh fabric that doesn't compromise speed, comfort or breathability. You may want to add some sunscreen, but this fabric provides UPF 16 protection, which is a significant help. Your cotton T-shirt is probably UPF 8. Take note of the well-thought-out details: Castelli's generous two pockets lie flat but hold a lot of gear and nutrition. The SnapLock fasteners clip to Castelli shorts to prevent the top from riding up during the swim or bike.

ROSSO CORSA

FREE TRI 2 SLEEVELESS TOP
8622091

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XS-3XL	85 g (M)	  

WHAT IT IS /PRODUCT FEATURES

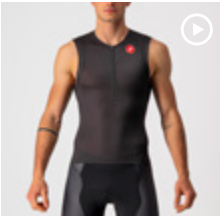

As much speed and comfort as you can get in a traditional sleeveless tri top.

- Freedom of movement in the water, aerodynamics on the bike, comfort on the run
- Velocity Rev2 aero fabric on front-facing surfaces
- UPF 16 Velocity mesh back blocks 94% of UV rays, with generous breathability
- 2 rear pockets lie flat and prevent nutrition from bouncing around
- GIRO³ flat gripper elastic lies flat on lower back
- SnapLock fastener at lower back to clip to Free Tri Short to prevent top from riding up during swim or bike leg
- YKK® Camlock® zipper

A TRI TOP HAS NEVER BEEN
THIS COMFORTABLY FAST

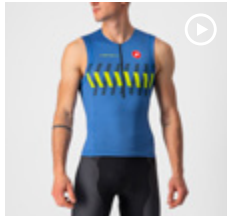

Tri fashion (and the wind tunnel) have pushed toward short-sleeve tops, but we think there's still a place for the traditional sleeveless top. It's more comfortable on the run and cooler in hot weather ... and maybe you're just a traditionalist. We've packed this top full of features: the front fabric comes straight from our Tour de France winning Aero Race Jersey, and the back fabric offers maximum breathability. The top has two generous pockets for whatever you need to carry. It has SnapLock fasteners that clip on to Castelli shorts to prevent the top from riding up during the swim and to keep coverage of the lower back on the bike — then you unclip for added comfort during the run. The YKK® zipper makes adjusting the ventilation easier than ever. Finally, we've taken extra care around the armhole to make it lie flat for speed yet remain soft to prevent chafing.

ROSSO CORSA

FREE TRI 2 SHORT
8622092

SIZES	WEIGHT	
XS-3XL	129 g (M)	KISS TRI

TRIATHLON DISCIPLINES

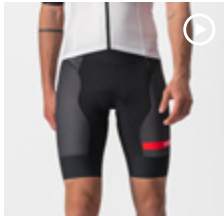

A tri race short that's so comfortable you'll train in it. Clips to the Castelli Free race top (short sleeve or sleeveless) for all the advantages of a one-piece suit.

- Instadry Speed fabric is fast in the swim with minimal water absorption
- Free construction for great anatomic fit
- KISS Tri seat pad is comfortable on the bike and virtually disappears on the run
- SnapLock fastener at waist to clip jersey into place for swim and bike
- Flat-lock stitching
- Pocket at center back for gel
- GIRO® leg gripper elastic for more comfort
- Longer length for improved aerodynamics

THE ULTIMATE RACE SHORT

You know Castelli can make a great bike short. This one doesn't disappoint, thanks to amazing fit, the quick-drying Instadry fabric that gives compressive muscle support, and the renowned KISS Tri seat pad. New GIRO® leg grippers hold the longer legs in place without riding up. For the swim we've made the short smoother through the water, and the back pocket will lie flat to avoid catching water. The SnapLock closure clips to your Castelli top to keep it from riding up. On the run, the short basically disappears. The KISS Tri seat pad is thin enough you don't really notice it, while the Instadry Speed fabric provides the support you need, and here you'll appreciate the extra support layer in the front.

ELITE SPEED SUIT
8622093

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XS-3XL	229 g (M)	  

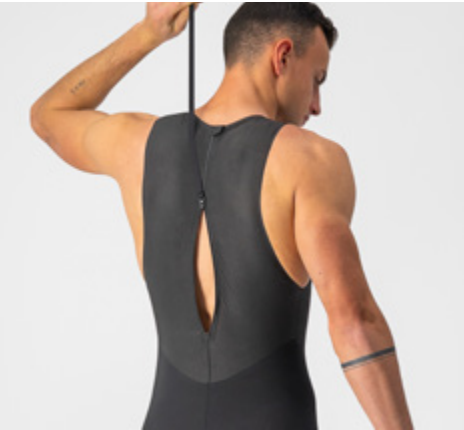

WHAT IT IS /PRODUCT FEATURES

Innovative fabrics, patterning, and construction make the fastest short-distance race suit.

- Fastest suit for sprint and Olympic-distance racing
- Engineered stretch woven fabric with woven-in leg grippers allows nearly seamless construction for maximum speed in the water
- Polyester mesh stretch woven fabric over chest for better breathability on bike and run
- Necessary seams are bonded rather than stitched to lie flat
- Saddle liner for on-bike comfort
- Rear 40cm YKK® zipper with elastic cord closing at bottom to prevent unintentional opening during swim
- Water-repellent finish for maximum swim speed

DON'T TAKE OUR WORD FOR IT

Internal testing by the German Triathlon Federation (DTU) shows that this is the fastest swimming tri suit they've ever tested. Then Castelli adds the aero speed on the bike and run. You'll get to the finish line faster. The secret is in Castelli's unique engineered stretch woven fabric. Rather than stitching together different fabrics for different functions, we actually change the texture and performance of the fabric in the areas where it needs to perform different functions. This is most evident at the leg opening, where a gripper elastic is woven into the inside of the fabric to hold the leg in place, while the rest of the leg is smooth for speed in the water. This technique allows the lower portion of the suit to be made from a single piece of fabric. And the suit tests fast in the wind tunnel on the bike as well. But the DTU also wanted extra cooling on the upper body for the run, so there's a different fabric on the chest and back that stays cooler and wicks away moisture. This suit was developed for pure speed, and it delivers in every discipline.

WHAT IT IS /PRODUCT FEATURES

A completely new approach for sprint and short distance racing to meet the needs of World Triathlon professionals. Developed in close collaboration with the German Triathlon Federation (DTU).

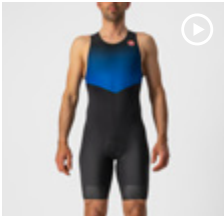

- Pro level short-distance race suit for best possible swim performance
- Water repellent treatment and minimum amount of seams for reduced water resistance
- Combination of light fabric on the upper body and compressive fabric in the hip area and legs for muscle support
- Quick drying fabrics
- Rear 40cm YKK® zipper with elastic cord closing at the bottom to avoid unintentional opening during the swim
- Silicone leg gripper holds suit in place
- Thin fleece seat liner

SPRINT AND
SHORT DISTANCE SUIT
FOR THE HIGHEST LEVEL

We set out to design this suit to be prepared for any battle on the World Triathlon circuit. In World Triathlon racing you can't afford losing valuable seconds in the water due to bad equipment. Therefore we put in everything you'd expect from a suit that has to prove suitability on the highest level of pro racing. Hydrodynamic properties lay the foundations for the first discipline. High performance fabrics and optimized patterning for best aerodynamics and comfort on the bike till the finish line.

WOMEN'S TRIATHLON

SET A NEW
PERSONAL BEST

This suit uses everything we know to make your next long-distance race your fastest ever. It was born from our aero research project at the Norwegian Technical University at Trondheim. Besides having a couple of brilliant professors and PhD students to come up with ideas and do the basic research, they have a couple of wind tunnels, rapid prototyping capabilities, CFD analysis and a true desire to make fast stuff. We've been working on aero technologies specifically relating to fabrics, construction and boundary-layer textures to make you cut through the wind. Due to the silicone ribs in the arms, this suit would be illegal in cycling but it's super fast for tri. The main body fabric is an impossibly light 50 denier — usually in sports clothing 40 denier is considered ultrafine. The legs and sleeves are long for aerodynamics, while the light fabrics are great for dealing with heat since they're thin enough to not get weighed down, yet the 8% Lycra® content holds a bit of moisture next to your skin for rapid cooling. The insane stretch allows us to make something that truly fits like a second skin on the bike but that doesn't restrict in any way on the swim or run.

Our KISS Tri pad offers some welcome padding while you're on the bike but is thin enough to not bother you on the run. This suit delivers real time savings on the bike leg while providing cooling and comfort on the run, but it was made with the expectation of being worn under a swimskin or wetsuit for the swim. It's optimized for high speeds — top age groupers or pro athletes, or anyone looking to set a new PR.

TRIATHLON DISCIPLINES

WHAT IT IS /PRODUCT FEATURES

The fastest long-distance race suit Castelli has ever made. The sleeve texture saves minutes on the bike leg, while the overall suit excels in both speed and comfort. Fastest female bike split with Laura Philipp in Kona 2019.

- Pro-level long-distance race suit to deliver real aero benefits on the bike while providing comfort and cooling on the run
- 50-denier upper-body fabric is the thinnest, smoothest fabric for light weight and maximum aerodynamics
- Active cooling for the run with moisture evaporating directly next to the skin
- Silicone speed ribs on the sleeves induce turbulence to reduce drag on one of the most exposed parts of the body
- Elbow-length sleeves and knee-length legs for maximum aerodynamics
- 2 rear pockets for ample nutrition storage
- KISS Tri pad

TRIATHLON DISCIPLINES

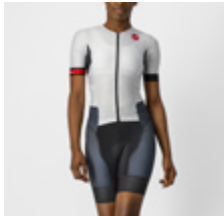

Performance race suit ideal for 70.3 and full-distance racing. Aerodynamics for speed, without compromising pockets and comfort to help you through the big race.

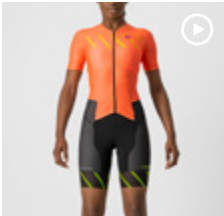

- Second-generation Sanremo short sleeve suit is faster than ever
- Velocity Rev2 main body fabric delivers aerodynamics with excellent fit and moisture management
- Back fabric is our Velocity mesh for breathability, yet it blocks 94% of UV rays for significant sun protection (UPF 16)
- Elbow-length sleeves with raw-cut edges for maximum comfort and aerodynamics
- Castelli's Sanremo front opening makes it easier to bend for cycling and straighten out for the run and swim
- 2 rear pockets lie flat in the swim but allow generous room for nutrition
- New short construction fits more securely with more muscle support
- GIRO® flat leg grippers on longer legs for maximum aerodynamics
- KISS Tri seat pad that provides comfort on the bike and that you almost don't feel during the run

THE GOOD-AT-EVERYTHING RACE SUIT

The best triathletes are the ones who are good at everything. That's why we put so much into this suit.

Let's start in reverse order:

Run: At this point in the race, fatigue sets in. You'll love the comfort of this suit. The front Samremo opening construction doesn't pull you forward, and you can open it up when you feel too hot. The fabrics are quick drying, light and cool. The seat pad that felt so good on the bike is small enough you hardly feel it. The two rear pockets compress your gels so they don't bounce around. The long legs with GIRO® leg gripper elastic don't ride up and don't bind. Maybe you'll even notice that you don't have as many burning spots where you've been chafed raw. Somehow, you're thinking that comfort gives you an extra push, some extra speed.

Bike: You relish these couple of hours to put some distance into the other women. This suit benefits from the aero research of Castelli's Pro PR suit but is tuned for speeds ranging from medium to high. The legs and sleeves provide excellent coverage while the back gives decent sun protection and the two pockets hold plenty of nutrition. And you appreciate the Castelli know-how in seat pad construction. Put your head down and pass a few more riders.

Swim: The reduced seaming and long arms and legs help you cut through the water while the pockets lie flat and don't catch water. The fit is snug and the lightweight fabrics don't hold as much water. The shoulder area is extra stretchy for freedom of movement even under a wetsuit or swimskin.

FREE SPEED 2 W RACE TOP

8620097

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XS-XL	96 g (S)	  

WHAT IT IS /PRODUCT FEATURES

Speed top for full-distance racing, or even to use just for the bike leg for improved aero performance. Includes a fastener to attach to shorts.

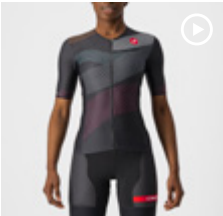

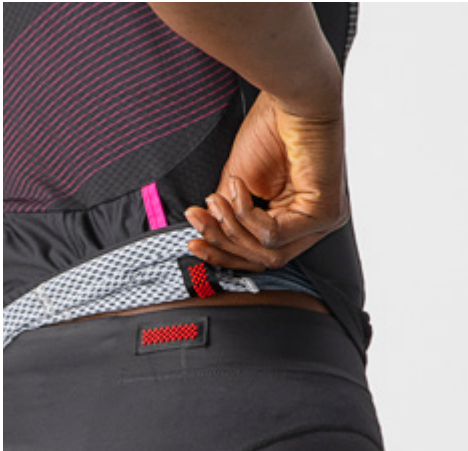

- Freedom of movement in the water, aerodynamics on the bike, comfort on the run
- Velocity Rev2 aero fabric on front-facing surfaces
- UPF 16 Velocity mesh back blocks 94% of UV light with generous breathability
- 2 rear pockets lie flat and prevent nutrition from bouncing around
- GIRO® flat gripper elastic lies flat on lower back
- SnapLock fastener at lower back to clip to Free Tri Short to prevent riding up during swim or bike leg
- YKK® Camlock® zipper
- Elbow-length sleeves for maximum aerodynamics

THE RIGHT RACE JERSEY
FOR SPEED AND COMFORT

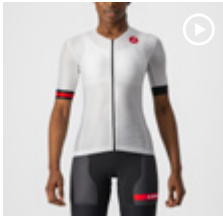

Some triathletes choose long sleeves for the extra speed. Some for the comfort. Some for sun protection. This jersey gives you all three. The aerodynamic speed is unmatched. It's what Castelli does best. We have a year-round testing and development program with the Norwegian Technical University in Trondheim to make our race gear the slickest around.

The comfort is what comes from our expert pattern engineers and soft performance Italian fabrics. We reduce the number of seams so that there is less chafing and less to bother you when you should be concentrating on pounding out the run.

Sun protection ... well, you've trained untold hours for this day. We focus on speed rather than total sun protection, but we still manage to block 94% of UV rays with our back Velocity mesh fabric that doesn't compromise speed, comfort or breathability. You may want to add some sunscreen, but this fabric provides UPF 16 protection, which is a significant help. Your cotton T-shirt is probably UPF 8. Take note of the well-thought-out details: Castelli's generous two pockets lie flat but hold a lot of gear and nutrition. The SnapLock fasteners clip to Castelli shorts to prevent the top from riding up during the swim or bike.

ROSSO CORSA

FREE 2 W TRI SINGLET

8622095

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XS-XL	91 g (S)	  

WHAT IT IS /PRODUCT FEATURES

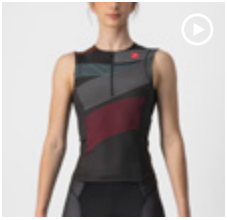

As much speed and comfort as you can get in a traditional sleeveless tri top.

- Freedom of movement in the water, aerodynamics on the bike, comfort on the run
- Velocity Rev2 aero fabric on front-facing surfaces
- UPF 16 Velocity mesh back blocks 94% of UV rays, with generous breathability
- 2 rear pockets lie flat and prevent nutrition from bouncing around
- GIRO³ flat gripper elastic lies flat on lower back
- SnapLock fastener at lower back to clip to Free Tri Short to prevent top from riding up during swim or bike leg
- YKK® Camlock® zipper

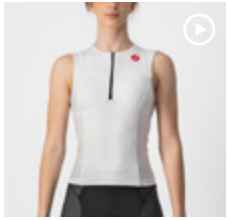

A TRI TOP HAS NEVER BEEN THIS COMFORTABLY FAST

Tri fashion (and the wind tunnel) have pushed toward short-sleeve tops, but we think there's still a place for the traditional sleeveless top. It's more comfortable on the run and cooler in hot weather ... and maybe you're just a traditionalist.

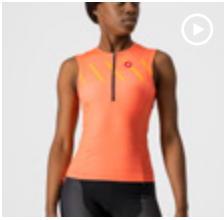

We've packed this top full of features: the front fabric comes straight from our Tour de France winning Aero Race Jersey, and the back fabric offers maximum breathability. The top has two generous pockets for whatever you need to carry. It has SnapLock fastners that clip on to Castelli shorts to prevent the top from riding up during the swim and to keep coverage of the lower back on the bike — then you unclip for added comfort during the run. The YKK® zipper makes adjusting the ventilation easier than ever. Finally, we've taken extra care around the armhole to make it lie flat for speed yet remain soft to prevent chafing.

TRIATHLON DISCIPLINES

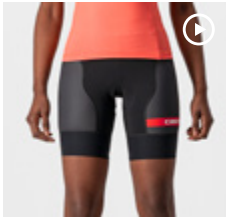

WHAT IT IS /PRODUCT FEATURES

A tri race short that's so comfortable you'll train in it. Clips to the Castelli Free race top (short sleeve or sleeveless) for all the advantages of a one-piece suit.

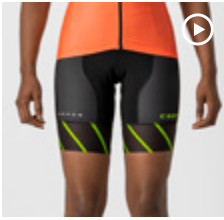

- Instadry Speed fabric is fast in the swim with minimal water absorption
- Free construction for great anatomic fit
- KISS Tri seat pad is comfortable on the bike and virtually disappears on the run
- SnapLock fastener at waist to clip jersey into place for swim and bike
- Flat-lock stitching
- Pocket at center back for gel
- GIRO⁴ leg gripper elastic for more comfort
- Longer length for improved aerodynamics

THE ULTIMATE RACE SHORT

You know Castelli can make a great bike short. This one doesn't disappoint, thanks to amazing fit, the quick-drying Instadry fabric that gives compressive muscle support, and the renowned KISS Tri seat pad. New GIRO⁴ leg grippers hold the longer legs in place without riding up. For the swim we've made the short smoother through the water, and the back pocket will lie flat to avoid catching water. The SnapLock closure clips to your Castelli top to keep it from riding up. On the run, the short basically disappears. The KISS Tri seat pad is thin enough you don't really notice it. This short is so comfortable you'll be using it for training rides as well as racing.

LIKE THE ULTIMATE RACE SHORT, ONLY LESS

This isn't quite a "boy short" with a very low waist and short legs, but it is a shorter short than the Castelli Free 2 W Tri Short. It's still very much a performance race product, but just shorter in the waist by a few cm and shorter in the legs as well.

ROSSO CORSA

ELITE W SPEED SUIT
8622098

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XS-XL	215 g (S)	  

WHAT IT IS /PRODUCT FEATURES

Innovative fabrics, patterning, and construction make the fastest short-distance race suit.

- Fastest suit for sprint and Olympic-distance racing
- Engineered stretch woven fabric with woven-in leg grippers allows nearly seamless construction for maximum speed in the water
- Polyester mesh stretch woven fabric over chest for better breathability on bike and run
- Necessary seams are bonded rather than stitched to lie flat
- Bonded internal 2nd layer modesty panels at critical points
- Open back construction
- Saddle liner for on-bike comfort
- Water-repellent finish for maximum swim speed

DON'T TAKE OUR WORD FOR IT

Internal testing by the German Triathlon Federation (DTU) shows that this is the fastest swimming tri suit they've ever tested. Then Castelli adds the aero speed on the bike and run. You'll get to the finish line faster. The secret is in Castelli's unique engineered stretch woven fabric. Rather than stitching together different fabrics for different functions, we actually change the texture and performance of the fabric in the areas where it needs to perform different functions. This is most evident at the leg opening, where a gripper elastic is woven into the inside of the fabric to hold the leg in place, while the rest of the leg is smooth for speed in the water. This technique allows the lower portion of the suit to be made from a single piece of fabric. And the suit tests fast in the wind tunnel on the bike as well. But the DTU also wanted extra cooling on the upper body for the run, so there's a different fabric on the chest that stays cooler and wicks away moisture. This suit was developed for pure speed, and it delivers in every discipline.

PROGETTO X²
SEAMLESS

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISSair²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

KISSTRI

Specifically designed for the triathlete. Minimum bulk doesn't get in the way during the swim and run legs. Extra fast drying foam prevents chafing on the bike.

A SMALL GESTURE CAN MAKE A BIG DIFFERENCE

At Castelli we know how important it is to make a contribution to our planet in terms of sustainability and environmental impact. This catalog is the result of small steps taken with a view toward making more responsible choices, and we have decided to work with partners who can respect this vision of ours. We have chosen more natural papers, originating from forests that are managed more carefully, and inks and printing methods that ensure the lowest possible ecological impact and easy recyclability once this catalog has served its purpose. It's a small contribution to a healthier planet.
