CREATED BY

DEVELOPED AND TESTED WITH THE PROS

Just like Quick-Step Alpha Vinyl, we leave nothing to chance, and we share the same focus on results-driven innovation in everything we do. The race clothing is the result of CFD modeling followed by extensive pattern engineering and fabric research, then further testing in the wind tunnel and on the road.

And those products in the collection that are not made for WorldTour racing are still heavily influenced by the feedback and knowledge we acquire from working with the pros.

With Castelli Servizio Corse you can have the exact same pieces as the professional athletes.

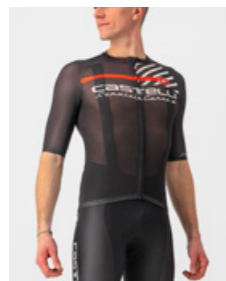

Not less-expensive replicas, but the exact same pieces made using the same fabrics, and components, with the same fit and finish, by the same people who produce the pieces you see on the pros racing in the WorldTour.

AERO RACE 6.0 JERSEY

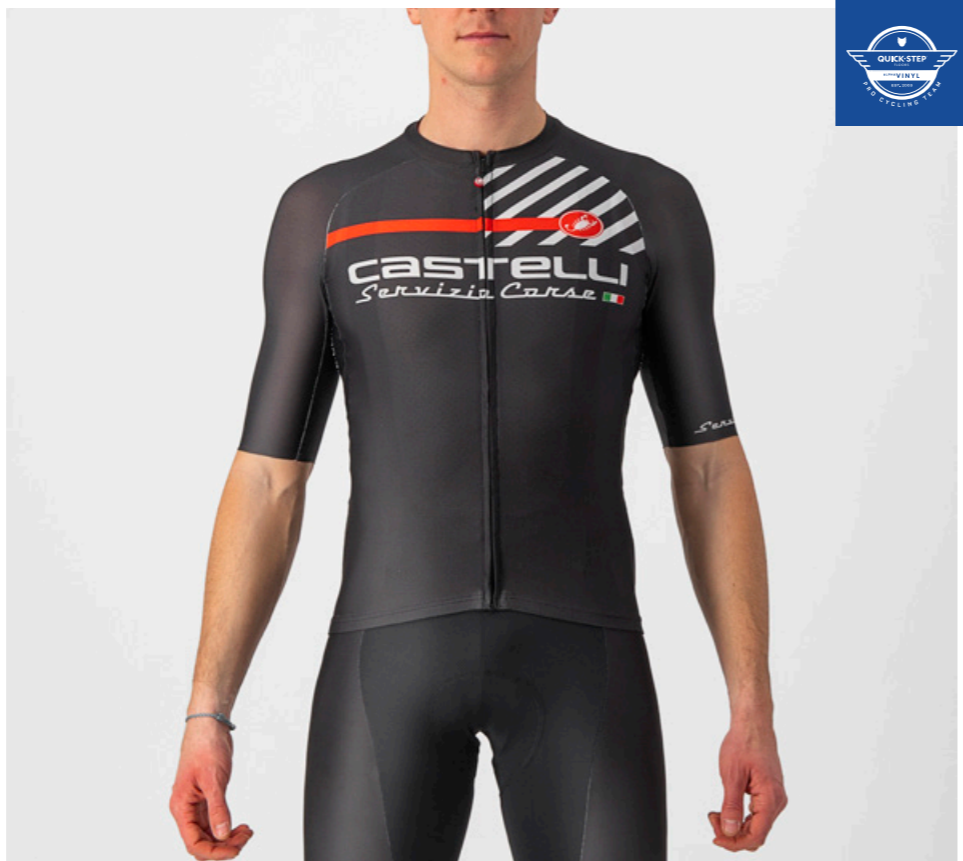

4300410

SIZES	WEIGHT
XXS-3XL	103 g (L)
TEMPERATURE RANGE	
18°-32°C / 65°-90°F	

WHAT IT IS /PRODUCT FEATURES

Class-leading aerodynamics is only the beginning. This jersey is engineered for all-day comfort with excellent moisture management, comfortable fit and three full-size pockets for cargo.

- CFD-based fabric placement and seam construction
- Engineered for aero efficiency at 30 to 55 km/h
- Airflow shoulder construction
- Velocity Rev2 fabric on front and sleeve
- 3D mesh back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- YKK® Vislon® zipper
- Drop tail allows perfect pocket placement while keeping jersey fitting well at waist
- Reflective piping

THE FIRST AERO JERSEY PROJECT WAS CALLED SPLIT SECOND

When Castelli engineered the first aero jersey for road racing back in 2006, everyone thought we were crazy. Back then, aero was only for TTs. Performance clothing meant moisture management. And you could win the Tour de France with a baggy jersey that was little more than a polyester T-shirt. Even our aerodynamic consultants expected limited gains, so we named the jersey Split Second, though, like now, we thought even small gains were worth pursuing. In the end the gains were pretty substantial, and we completely revolutionized the look of the pro peloton. We're now on the sixth major revision of our aero jersey. Each generation has become more aero and better fitting. The Aero Race W Jersey benefits heavily from CFD analysis of wake flow in the riding position for fabric and seam placement. It also benefits from pro riders' feedback, as we've worked to make the jersey comfortable for their long hours of training and then racing in every possible weather condition. It's our most aero and most comfortable Aero Race Jersey yet. But we're already working on an update.

ROSSO CORSA

CLIMBER'S 3.0 SL JERSEY

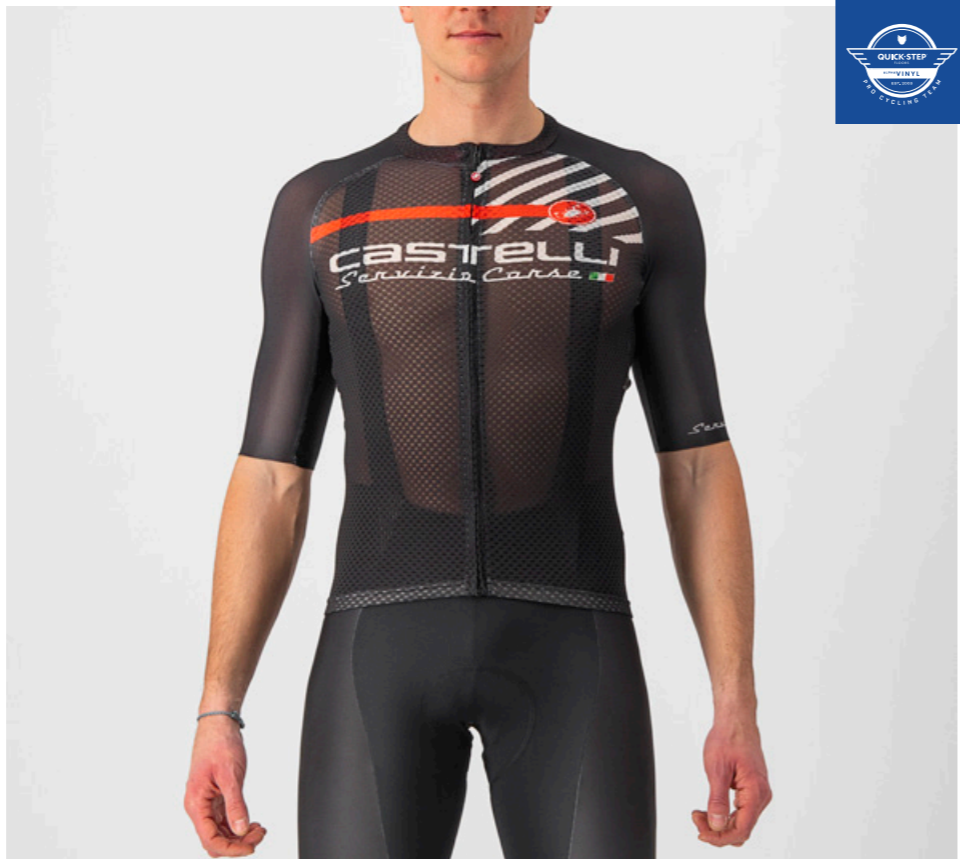

4310411

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	106 g (M)	22-40°C / 72-104°F

WHAT IT IS / PRODUCT FEATURES

Created for the hottest days and biggest mountains, this jersey allows ample airflow, is quick to dry and blocks more than 90% of UV rays on your back. A great choice for your long summer rides, or add a base layer and it's a three-season jersey.

- CFD-based fabric placement and seam construction
- Engineered rapid cooling, light weight and aero efficiency
- Airflow shoulder construction
- Flusso 3D fabric on front and sleeve
- StradaPro 3D back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- YKK® Vislon® zipper
- Drop tail for perfect pocket placement while keeping jersey fitting well at waist

**LIGHT, DRY AND FAST**

Racing in the Alps in July is for a select few, but the products that come out of that experience are absolutely amazing for the rest of us. We made this jersey for the rigors of pro racing in hot weather and in the high mountains. It's extremely lightweight and features open fabrics for additional airflow and quick dry-ing. And by using the same patterning as the Aero Race Jersey, we make sure you get maximum aerodynamics as well. Even if you don't race over the Galibier this summer, you'll love the soft stretch and great fit of this jersey, and you'll appreciate how it keeps you cool on the hottest days. Maybe you'll even do like the pro riders do and use it on wet days because it doesn't soak up any moisture. And you'll certainly appreciate that the fabric on the back blocks more than 90 percent of UV rays.

ROSSO CORSA

ENDURANCE EQUIPE JERSEY

4300502

SIZES	WEIGHT	TEMPERATURE RANGE
XXS-3XL	103 g (L)	18°-32°C / 65°-90°F

WHAT IT IS / PRODUCT FEATURES

Our performance jersey for longer efforts when your jersey needs to do more than slice the wind. This jersey brings extra pocket space and stay-dry fabrics to do everything well.

- Velocity dimpled fabric on front for improved wicking and faster drying
- Air Mesh sleeves with raw-cut sleeve endings
- Full-length YKK® Vislon® zipper with neck protector
- Nervato fabric at armholes for improved aerodynamics
- Silicone gripper elastic at waist
- 3 open rear pockets in Castelli original dropped-pocket design
- Zippered rear pocket
- Reflective piping at bottom of pockets

CASTELLI CYCLING

SQUADRA JERSEY

4300412

SIZES	WEIGHT	TEMPERATURE RANGE
XXS-5XL	167g (L)	18°-32°C / 65°-90°F

WHAT IT IS / PRODUCT FEATURES

The perfect all-around jersey for everything but racing. Comfortable stretch fit, excellent moisture management, four-way stretch sleeves with raw-cut edges are just some of the features.

- ProSecco Micromesh main body fabric to keep you dry
- Mesh side panels for breathability
- Velocity Rev2 fabric on sleeves with close-to-body fit and raw-cut endings
- Covered YKK® Vislon® zipper
- Drop tail with 3 rear pockets
- Reflective piping

CASTELLI CYCLING

COMPETIZIONE 2 JERSEY

4320506

SIZES	WEIGHT	TEMPERATURE RANGE
XXS-5XL	135 g (M)	18°-30°C / 65°-86°F

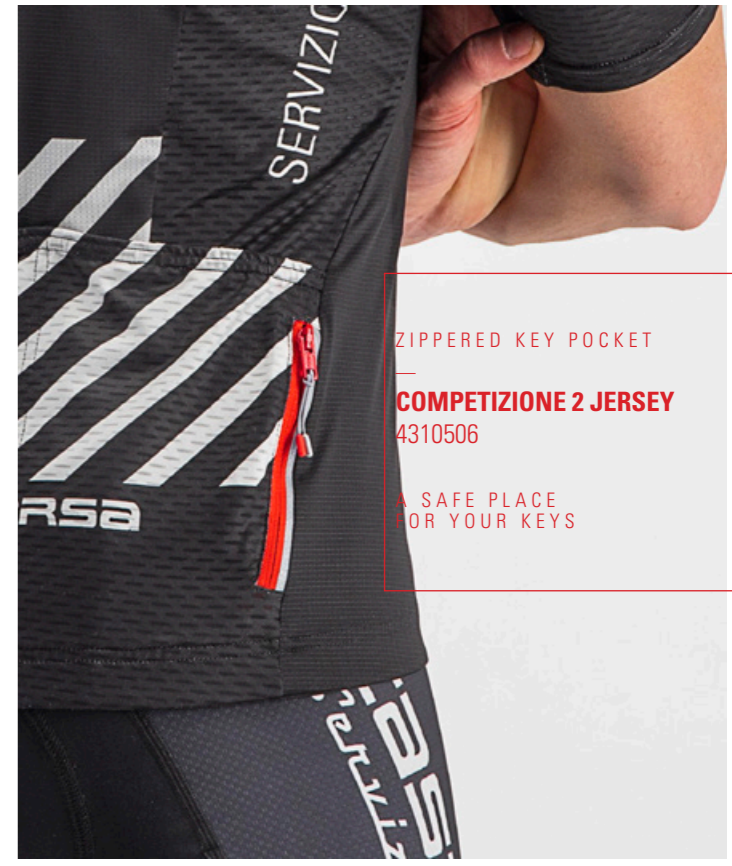

WHAT IT IS / PRODUCT FEATURES

The ideal all-around jersey for all your riding, offering comfort in training and speed in fast group rides.

Constructed with super-stretchy fabrics for a great fit on any body shape without feeling too tight.

Perfect for fast rides and the perfect match to the Competizione Bibshort.

- Strada micromesh ventilated stretch fabric on front and back for great fit and moisture management
- Tailwind dimpled stretch fabric on shoulders, side panels, and pocket for perfect fit
- Full-length YKK® Vislon® zipper is easiest-sliding zipper available
- Silicone gripper elastic at waist prevents jersey from riding up

ROSSO CORSA

FREE AERO RC BIBSHORT

4300561

SIZES	WEIGHT	
XXS-3XL	184 g (M)	
TEMPERATURE RANGE		
15-35°C / 59-95°F		

WHAT IT IS / PRODUCT FEATURES

The perfect mix of speed and comfort. Engineered for WorldTour level racing, which also makes it supremely comfortable for every ride and rider.

- High-compression 215 g/m2 Forza 2 fabric provides exceptional muscle support and compression
- Progetto X² Air seamless seat pad is soft against the skin but well padded for long-distance comfort
- Minimalist bib straps allow maximum airflow, while a reinforced yoke keeps the straps flat over the shoulders
- Rear mesh pocket
- 5-panel construction for reduced seams and less chafing
- Soft waistband with raw-cut edge panels for extra stretch and comfort
- Raw-cut leg ending engineered to stay put without silicone grippers

INNOVATIVE EVOLUTION

The Free Aero RC Bibshort is our top race short, which also means that it's insanely comfortable even if you never pin on a number.

It's fair to say that we've been working on this short for the past 15 years. That's how long it's been since the original Free Aero Race Bibshort was first introduced, initially as our top-of-the-line race short. The various versions of the Free have dressed all our pro women's teams over this time, and it also became the best-selling women's short in the history of Castelli because, simply put, this is the short that does everything well.

The concept is quite simple: start with the best pad we know how to make, surround it with a supportive short with good muscle compression, and then remove everything else that's not absolutely necessary.

You feel Free thanks to the reduced number of panels and the reduced number of seams. In fact, the short portion has just 5 panels compared to 10 in the previous generation.

You feel Free because of further refinements to the Progetto X² Air seamless seat pad. The two densities of foam plus the gel pads provide progressive damping, while the separate Skin Care Layer is soft and stretchy to move with your skin.

You feel Free thanks to the most minimal bibs you've ever seen in a short, including open-weave straps for maximum airflow. But we reinforced the yoke so the straps stay in place and made the mesh back narrow for coverage that is minimal yet just enough to hold the shorts in place. And the bib elegantly frames a convenient pocket at the center back.

You feel Free because this is the first high-end short that doesn't need any sort of gripper or elastic at the end of the leg to keep the leg in place. Getting this right meant 28 prototypes and our most extensive test program ever, and it results in the most comfortable leg ending we've ever made.

The Forza 2 fabric has 32% Lycra® with a high modulus for exceptional muscle support and just the right amount of compression. There's reflective piping on the back. And all logos are either stitched or embossed for durability.

PROGETTO X²

TEMPERATURE RANGE

14-32°C / 57-90°F

WHAT IT IS / PRODUCT FEATURES

CFD and significant testing create the fastest road racing suit, optimized for high speeds when the race splits apart.

- Made to be the fastest option for high-speed road racing
- Dimpled shoulder and sleeve fabric for boundary-layer aerodynamics
- Smooth body for reduced skin friction and laminar flow
- Premio-based short portion for aero comfort
- Progetto X² Air seamless seat pad for all-day comfort
- 2-way YKK® zipper
- Logos on leg applied by pad printing process on dyed fabric
- Sleeves to hold numbers over 2 rear pockets

**PUSHING THE LIMITS OF SPEED**

Military test pilots in the 1960s coined a phrase for pushing the aircraft to its limits, going all in, and risking their lives at the edge. The throttle levers with the knobs or balls at the top were pushed all the way forward against the cockpit wall: Balls to the Wall.

BTW is for those days, those races where you never drop out of your 53x11 or 12, when you're sometimes in the gutter or cornering at the limit of adhesion. When you're all in, taking risks.

Like the planes that inspired the phrase, the BTW Speed Suit uses cutting-edge research and construction in the pursuit of speed: CFD analysis, 3D test mannequins, fabric research and testing, numerous wind tunnel tests, and then testing in the WorldTour. At the beginning of the research project, we were set to sacrifice comfort in the name of speed, but in the end we kept fully breathable, fully stretchy fabrics. There's a little more Lycra®, so you won't stay quite as dry, and the shoulder fabric is slightly heavier. And it doesn't have the Sanremo front opening, so your pee stops will be a bit more challenging.

All that is a small price to pay for an incredible THREE PERCENT total aero drag savings compared to the fastest-in-class Sanremo Speed Suit. That 3 percent is at higher speeds, especially in the 45-65 kph range, when it really counts.

You can get the BTW suit in your team graphics through Castelli's custom program, or this stealthy ninja black version to tear up your local Strava segments or group rides.

WHAT IT IS / PRODUCT FEATURES

Simply engineered to be the fastest suit for racing against the clock.

- Pure speed equipment, created for World Tour racing
- Developed over two years based on hundreds of hours of CFD analysis, wind tunnel testing and WorldTour racing
- Fabrics developed and tested extensively for maximum aerodynamics at speeds of 45 km/h and up
- Reduced seaming for maximum aerodynamics
- No-sew race number window to prevent number flapping in the wind
- Extra-long legs with flat leg endings with PU grip elastic on the inside

**YOU'LL THANK THE UCI**

If we could we would keep this suit an industrial secret, a competitive advantage for our pro riders. But the UCI rules say we have to make it commercially available to keep the playing field even for all teams. So here it is.

We don't want to give away too many of the secret details that make it so fast, but there are a few details that you can see: amazing fit in the TT position, slippery fabrics, reduced seaming, and long legs with flat endings and flat grip tape to keep them in place. The long sleeves have a thumb loop to prevent them from riding up. There's a window pocket on the back so you can place the race number out of the wind — and the window stretches and breathes, unlike others on the market.

Hundreds and hundreds of hours have gone into engineering this suit. We don't say how many because we haven't even tried to keep count. We have access to the test facilities at the Norwegian Technical University in Trondheim, where our detailed process addresses fabric selection and suit construction.

This suit was made for WorldTour riders. It's optimized for speeds above 45 km/h and for extreme positions. At those speeds and with the right setup it's the fastest suit we've ever tested. Thanks, UCI.

ROSSO CORSA

GABBA RoS

4300566

SIZES

XXS-3XL

WEIGHT

245 g (L)

TEMPERATURE RANGE

9-16°C / 48-61°F

WHAT IT IS / PRODUCT FEATURES

Now in a fully printed graphic version. This is the original jacket/ jersey that started an entire new product class: the Gabba. It's a water-resistant short-sleeve jacket that's equally ideal for dry conditions. Made to be worn with our Nano Flex arm warmers, it allows you to keep your core warm without overheating.

- The 4th generation of the Gabba, from the inventors of the Gabba
- Now more water resistant than ever
- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for extra stretch and breathability
- Taped shoulder seams for extra rain protection
- YKK® Vislon® zipper for easy sliding, covered for extra wind and rain protection
- 2 rear pockets with pump sleeve are easily accessed with gloved hands
- Dropped tail with large black reflective panel

In 2010 Castelli introduced the Gabba to the pros and changed the way pros race in the rain. And cold. And ride in training. Every other performance cyclist soon saw the need for a Gabba in his or her wardrobe.

We've made some minor updates along the way, but for the fourth-generation Gabba we started with a clean slate to make a significant upgrade. That involved moving it to near waterproof levels, which meant developing a new exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabric. We made the front-facing fabric warmer with a light brushing, while the rear-facing fabrics are lighter yet more water repellent than the previous Gabba.

We made it better in the rain through seam sealing on the shoulders and a covered zipper. It has two pockets that are easier to access with gloved hands, though we provide an internal sleeve to keep your pump or other items from moving around.

It's not easy to make a better Gabba. We'll keep trying.

ROSSO CORSA

PERFETTO RoS LONG SLEEVE

4300565

SIZES

XXS-5XL

WEIGHT

296g (L)

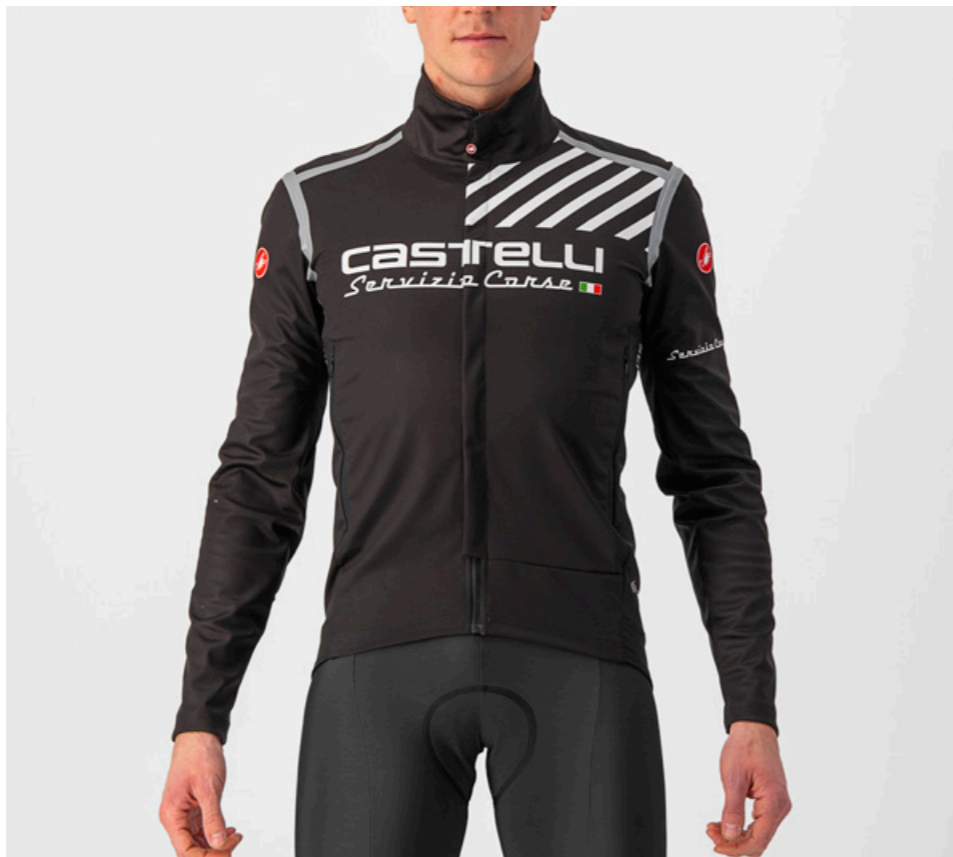

TEMPERATURE RANGE

4°-14°C / 39°-57°F

WHAT IT IS / PRODUCT FEATURES

Now in a fully printed graphic version! The long-sleeve Gabba is one of our most versatile pieces. 100% wind protection with GORE-TEX INFINIUM™ WINDSTOPPER® water protection and best-in-class breathability. With a light base layer it's good for mild temperatures, or with a thermal layer you can take it below freezing.

- Castelli exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for extra stretch and breathability
- Taped shoulder seams for extra rain protection
- YKK® Vislon® zipper for easy sliding, covered for extra wind and rain protection
- 2 rear pockets with pump sleeve are easily accessed with gloved hands
- Gabba-style dropped tail with large black reflective panel

The Perfetto RoS is the one jacket that does everything well. We initially designed it as a cool-weather training and extreme-weather race piece for our pro riders, but in reality it excels in many conditions thanks to its full wind protection, great fit through stretchy fabrics, and best-in-class breathability.

The current version represents the biggest performance upgrade in the four generations of this jacket. RoS in the name signifies Rain or Shine. The emphasis should be on dry-weather comfort, which is where this jacket really excels, but then you get near waterproof protection if you do get caught in the rain. We worked with Gore to develop two new Castelli exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabrics. We use a light fleece-lined water resistant version on the forward-facing surfaces and a lighter, stretchier fabric on the back that maintains the breathability of the previous fabric while improving water repellency at the same time.

The Perfetto RoS is that ideal weight: no built-in insulation so you can layer over a light base layer for moderate conditions. Or you can add a thermal jersey underneath and take it to very cold conditions. You decide.

The Perfetto family features are all there: excellent fit, easy-sliding YKK® zipper, long tail to protect from wheel spray, reflective panel on the back, and discreet styling that belies the jacket's racing pedigree.

This is the one jacket that belongs in every cyclist's quiver.

Elite level thermal bib shorts for more comfortable riding on cool days, with or without leg or knee warmers.

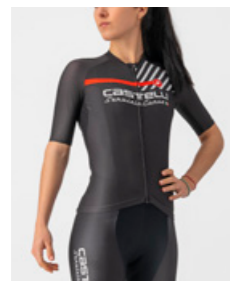

- Printed ThermoFlex fabric on thighs and back panel
- Nano Flex 3G fabric on front center portion for warmth with maximum stretch and water repellency
- Long cut to just above the knee with raw-cut edge
- Minimalist bib straps, as found on the Free Aero RC Bibshort, don't add extra bulk
- Rear pocket at bottom of bib straps
- Reflective tabs on back of legs
- Progetto X² Air Seamless seat pad for long hours in the saddle

TEMPERATURE RANGE

18°-30°C / 64°-86°F

WHAT IT IS / PRODUCT FEATURES

Engineered to be the most aerodynamic jersey for road racing, this jersey features extremely comfortable high-stretch fabric with excellent moisture management and three full-size pockets for cargo to make it ideal even if you never pin on a number.

- CFD-based fabric placement and seam construction
- Engineered for aero efficiency at 30 to 55 km/h
- Airflow shoulder construction
- Velocity Rev2 fabric on front and sleeve
- 3D mesh back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- YKK® Vislon® zipper
- Drop tail allows perfect pocket placement while keeping jersey fitting well at waist

THE FIRST AERO JERSEY PROJECT WAS CALLED SPLIT SECOND

When Castelli engineered the first aero jersey for road racing back in 2006, everyone thought we were crazy. Back then, aero was only for TTs. Performance clothing meant moisture management. And you could win the Tour de France with a baggy jersey that was little more than a polyester T-shirt. Even our aerodynamic consultants expected limited gains, so we named the jersey Split Second, though, like now, we thought even small gains were worth pursuing. In the end the gains were pretty substantial, and we completely revolutionized the look of the pro peloton. We're now on the sixth major revision of our aero jersey. Each generation has become more aero and better fitting. The Aero Race W Jersey benefits heavily from CFD analysis of wake flow in the riding position for fabric and seam placement. It also benefits from pro riders' feedback, as we've worked to make the jersey comfortable for their long hours of training and then racing in every possible weather condition. It's our most aero and most comfortable Aero Race Jersey yet. But we're already working on an update.

CASTELLI CYCLING

ENDURANCE EQUIPE W JERSEY

4300503

SIZES	WEIGHT
XXS-2XL	94 g (S)
TEMPERATURE RANGE	
18°-30°C / 64°-86°F	

WHAT IT IS /PRODUCT FEATURES

Our performance jersey for longer efforts when your jersey needs to do more than slice the wind. This jersey brings extra pocket space and stay-dry fabrics to do everything well.

- Velocity dimpled fabric on front for improved wicking and faster drying
- Air Mesh sleeves with raw-cut sleeve endings
- Full-length YKK® Vislon® zipper with neck protector
- Nervato fabric at armholes for improved aerodynamics
- Silicone gripper elastic at waist
- 3 open rear pockets in Castelli original dropped-pocket design
- Zippered rear pocket
- Reflective piping at bottom of pockets

4300573

SIZES	WEIGHT	
XXS-2XL	160 g (S)	
TEMPERATURE RANGE		
15-35°C / 59-95°F		

WHAT IT IS / PRODUCT FEATURES

The perfect mix of comfort and speed. Engineered for top-level racing, which also makes it supremely comfortable for every ride and rider.

- High-compression 215 g Forza 2 fabric with 32% Lycra® content provides exceptional muscle support and compression
- Women's-specific Progetto X² Air Donna seamless seat pad is soft against the skin but well padded for long-distance comfort
- Minimalist bib straps allow maximum airflow, while a reinforced yoke keeps the straps flat over the shoulders
- Rear mesh pocket
- 5-panel construction for reduced seams and less chafing
- Stitched scorpion logo patch and embossed Castelli word-mark for durability
- Reflective piping on back of legs
- Raw-cut edge at waist for extra stretch and comfort
- Raw-cut leg ending engineered to stay put without silicone grippers

INNOVATIVE EVOLUTION

The Free Aero RC Bibshort is our top race short, which also means that it's insanely comfortable even if you never pin on a number.

It's fair to say that we've been working on this short for the past 15 years. That's how long it's been since the original Free Aero Race Bibshort was first introduced, initially as our top-of-the-line race short. The various versions of the Free have dressed all our pro women's teams over this time, and it also became the best-selling women's short in the history of Castelli because, simply put, this is the short that does everything well.

The concept is quite simple: start with the best pad we know how to make, surround it with a supportive short with good muscle compression, and then remove everything else that's not absolutely necessary.

You feel Free thanks to the reduced number of panels and the reduced number of seams. In fact, the short portion has just 5 panels compared to 10 in the previous generation.

You feel Free because of further refinements to the Progetto X² Air seamless seat pad. The two densities of foam plus the gel pads provide progressive damping, while the separate Skin Care Layer is soft and stretchy to move with your skin.

You feel Free thanks to the most minimal bibs you've ever seen in a short, including open-weave straps for maximum airflow. But we reinforced the yoke so the straps stay in place and made the mesh back narrow for coverage that is minimal yet just enough to hold the shorts in place. And the bib elegantly frames a convenient pocket at the center back.

You feel Free because this is the first high-end short that doesn't need any sort of gripper or elastic at the end of the leg to keep the leg in place. Getting this right meant 28 prototypes and our most extensive test program ever, and it results in the most comfortable leg ending we've ever made.

The Forza 2 fabric has 32% Lycra® with a high modulus for exceptional muscle support and just the right amount of compression. There's reflective piping on the back. And all logos are either stitched or embossed for durability.

WHAT IT IS / PRODUCT FEATURES

Simply engineered to be the fastest suit for racing against the clock.

- Pure speed equipment, created for World Tour racing
- Developed over two years based on hundreds of hours of CFD analysis, wind tunnel testing and WorldTour racing
- Fabrics developed and tested extensively for maximum aerodynamics at speeds of 45 km/h and up
- Reduced seaming for maximum aerodynamics
- No-sew race number window to prevent number flapping in the wind
- Extra-long legs with flat leg endings with PU grip elastic on the inside

YOU'LL THANK THE UCI

If we could we would keep this suit an industrial secret, a competitive advantage for our pro riders. But the UCI rules say we have to make it commercially available to keep the playing field even for all teams. So here it is.

We don't want to give away too many of the secret details that make it so fast, but there are a few details that you can see: amazing fit in the TT position, slippery fabrics, reduced seaming, and long legs with flat endings and flat grip tape to keep them in place. The long sleeves have a thumb loop to prevent them from riding up. There's a window pocket on the back so you can place the race number out of the wind — and the window stretches and breathes, unlike others on the market.

Hundreds and hundreds of hours have gone into engineering this suit. We don't say how many because we haven't even tried to keep count. We have access to the test facilities at the Norwegian Technical University in Trondheim, where our detailed process addresses fabric selection and suit construction.

This suit was made for WorldTour riders. It's optimized for speeds above 45 km/h and for extreme positions. At those speeds and with the right setup it's the fastest suit we've ever tested. Thanks, UCI.

GABBA RoS W

4300578

SIZES	WEIGHT	
XXS-2XL	305 g (L)	
TEMPERATURE RANGE		
9°-16°C / 48°-61°F		

WHAT IT IS /PRODUCT FEATURES

Now in a fully printed graphic version! This is the original jacket/ jersey that started an entire new product class: the Gabba. It's a water-resistant short-sleeve jacket that's equally ideal for dry conditions. Made to be worn with our Nano Flex arm warmers, it allows you to keep your core warm without overheating.

- The 4th generation of the Gabba, from the inventors of the Gabba
- Now more water resistant than ever
- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for extra stretch and breathability
- Taped shoulder seams for extra rain protection
- YKK® Vislon® zipper for easy sliding, covered for extra wind and rain protection
- 2 rear pockets with pump sleeve are easily accessed with gloved hands
- Dropped tail with large black reflective panel

In 2010 Castelli introduced the Gabba to the pros and changed the way pros race in the rain. And cold. And ride in training. Every other performance cyclist soon saw the need for a Gabba in his or her wardrobe. We've made some minor updates along the way, but for the fourth-generation Gabba we started with a clean slate to make a significant upgrade. That involved moving it to near waterproof levels, which meant developing a new exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabric. We made the front-facing fabric warmer with a light brushing, while the rear-facing fabrics are lighter yet more water repellent than the previous Gabba. We made it better in the rain through seam sealing on the shoulders and a covered zipper. It has two pockets that are easier to access with gloved hands, though we provide an internal sleeve to keep your pump or other items from moving around. It's not easy to make a better Gabba. We'll keep trying.

ROSSO CORSA

PERFETTO RoS W LONG SLEEVE

4300577

SIZES	WEIGHT	
XXS-XXL	282 g (S)	
TEMPERATURE RANGE		
4°-14°C / 39°-57°F		

WHAT IT IS /PRODUCT FEATURES

Now in a fully printed graphic version! The long-sleeve Gabba is one of our most versatile pieces. 100% wind protection with GORE-TEX INFINIUM™ WINDSTOPPER® water protection and best-in-class breathability. With a light base layer it's good for mild temperatures, or with a thermal layer you can take it below freezing.

- Castelli exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for extra stretch and breathability
- Taped shoulder seams for extra rain protection
- YKK® Vislon® zipper for easy sliding, covered for extra wind and rain protection
- 2 rear pockets with pump sleeve are easily accessed with gloved hands
- Gabba-style dropped tail with large black reflective panel

In 2010 Castelli introduced the Gabba to the pros and changed the way pros race in the rain and cold. And the way they dress for cool-weather training. The Gabba also happens to be the perfect cool-weather piece for all the non-pro cyclists out there because of how it keeps your core warm and dry while not being too hot. The latest Gabba is the fifth generation, and this current version is essentially waterproof while maintaining the breathability and wind protection that have always made the Gabba so good. It uses two separate Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabrics: warmer and 100% waterproof over the front, shoulders, and sleeves, along with a lighter, more breathable, and stretchier fabric on the back that is sufficiently protective against the water that hits your back. The "2" part of the name refers to the updates to the latest version, including a YKK® Vislon® zipper with both top and bottom openings for more adjustable ventilation. The reflectivity on the back is more visible, the seam at the top of the shoulder has been moved to the back, and the three pockets hold more gear. Typically, we'll layer the Gabba over a sleeveless base layer and short-sleeve jersey, and pair it with Nano Flex arm warmers for cooler and/or wet conditions, or Seamless warmers for mild conditions. The Gabba RoS 2 W is a must-have for autumn and spring riding.

4300582

SIZES	WEIGHT	
XXS-2XL	259 g (S)	
TEMPERATURE RANGE		
2-12°C / 36-54°F		

WHAT IT IS /PRODUCT FEATURES

Performance tight for cool to cold weather training, maintaining lines and features from the Free Aero RC Bib Short.

- Printed ThermoFlex fabric on thighs and back panel
- Nano Flex 3G fabric on front center portion and back of leg soft warmth with maximum stretch and water repellency
- Nano Flex stretch woven fabric with brushed fleece inside from front of knee to ankle for splash protection on wet roads
- Raw-cut edge ankle means zipper is not necessary
- Minimalist bib straps, as found on the Free Aero RC Bibshort, don't add extra bulk
- Rear pocket at bottom of bib straps
- Reflective tabs on back of legs
- Progetto X2 Air Seamless seat pad for long hours in the saddle

The Free Aero RC Bibtight is made to be your first choice for most of your winter riding. Everything about it is focused on keeping you comfortable and at the right temperature. Every detail, every fabric, every seam will make your winter riding better. This is the tight for those cool to cold days. Not for bitter cold, when you'll want to use a Sorpasso or Polare. Not for mild days, when you'll use leg warmers or a Semifreddo Bibtight. This is for maximum comfort on those days when you need warmth but you're not fighting for survival — those days when you're doing long rides getting ready for the season. Most of the tight is constructed from our Nano Flex 3G fabric. Our third generation of Nano Flex is luxuriously soft, warm, and stretchy. But it also offers excellent breathability, keeps a lot of the wind out, and has our updated Nano Flex water-repellent finish. The lower legs are in our lighter-weight Nano Flex stretch woven with a lightly brushed inside and with leading water repellency. The bib straps are our Drop Tail design so that you can pull down the tights for nature breaks without removing the straps. In addition, you can cross the straps in the front or back, as you prefer. This is supposed to be your long-ride comfort tight, so the Progetto X2 Air Seamless Donna pad will be protecting your backside.

ROSSO CORSA

FAST FEET SOCK

4300299

SIZES	WEIGHT	TEMPERATURE RANGE
SM/LX/XXL	45 g (Pair)	10°-30°C / 50°-86°F

WHAT IT IS /PRODUCT FEATURES

For road racing or when you can't wear a Fast Feet TT Shoecover, this sock saves watts.

- Castelli's Fast Feet project – for road riding in warm conditions
- The sock portion is based on a normal sock for in-shoe comfort
- The leg portion is constructed with engineered grooved Lycra® to help detach airflow

ROSSO CORSA

FAST FEET TT SHOECOVER

4300521

SIZES	WEIGHT	TEMPERATURE RANGE
S-2XL	53 g (Pair)	10°-30°C / 50°-86°F

WHAT IT IS /PRODUCT FEATURES

The fastest covering for your feet, for the high speeds of time trial racing.

- Castelli's Fast Feet project – for time trials
- Extensively tested for the fastest foot covering for time trialing
- Silicone-coated stretch fabric over the shoe smooths out airflow
- Engineered grooved Lycra® in the ankle portion helps detach airflow
- Flat polyurethane tape at the top to keep shoecover in place

CASTELLI CYCLING

PERFORMANCE CYCLING CAP

4300428

SIZES

UNI

WHAT IT IS /PRODUCT FEATURES

Sublimated polyester brings an elevated level of moisture management compared to a traditional cotton cap.

- Wicking mesh polyester with sublimation print
- Eight-Panel Pro design

CASTELLI CYCLING

CLASSIC CYCLING CAP

4300031

SIZES

UNI

WHAT IT IS /PRODUCT FEATURES

This cap can perform at different levels. Ideal as an extra layer for those chillier days underneath a helmet or your style to show up at your cycling pub to celebrate the Tour of Flanders.

- Cotton twill
- Classic 4-panel construction

CASTELLI CYCLING

HEAD THINGY

4300076

SIZES

UNI

WHAT IT IS /PRODUCT FEATURES

This Head Thingy is a versatile product and can be used in multiple ways. Neckwarmer, headband, hat, mask, hood and more.

- 100% polyester jersey for maximum moisture management
- Seamless continuous-tube construction
- Sublimated graphic
- Summer weight
- Protects from the sun's rays or provides a little extra warmth on cool days

CASTELLI CYCLING

THERMAL SKULLY 2

4300524

SIZES

UNI

WHAT IT IS /PRODUCT FEATURES

This hat keeps your head warm when building your base for next season in winter or early spring. Pair it with a balaclava when it is freezing cold outside.

- Thermoflex is warm, soft and stretchy
- Flat-lock stitching
- Contoured to cover ears
- Raw-cut edge lies flat and doesn't bunch under helmet
- Reflective detailing on back

PROGETTO X²
SEAMLESS X²

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISSair²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

HOW IT WORKS

01. CONTACT

To request information, please contact Castelli Servizio Corse by e-mail: please contact the Castelli Office in your country (www.castelli-cycling.com), or send your request to Castelli Servizio Corse, castelli.team@mvc46.eu or visit us at www.castelli-cycling.com/custom

To request a quote, download and fill out the order form from serviziocorse.com with the styles we offer. Indicate quantities needed per style and submit via e-mail. Size breakdowns are helpful, but unnecessary for a quote. You will receive the requested quote shortly.

04. FINAL ORDER SUBMISSION

Submit your final order and you will be provided with a PDF copy to approve. This is your last opportunity to make revisions or correct errors.

02. DESIGN

Completed designs prepared on Castelli templates need to be submitted with your quote request. For every logo not supplied in vector-graphic format, a small fee will be incurred. Vector formats include: .ai, .eps, and .pdf (open).

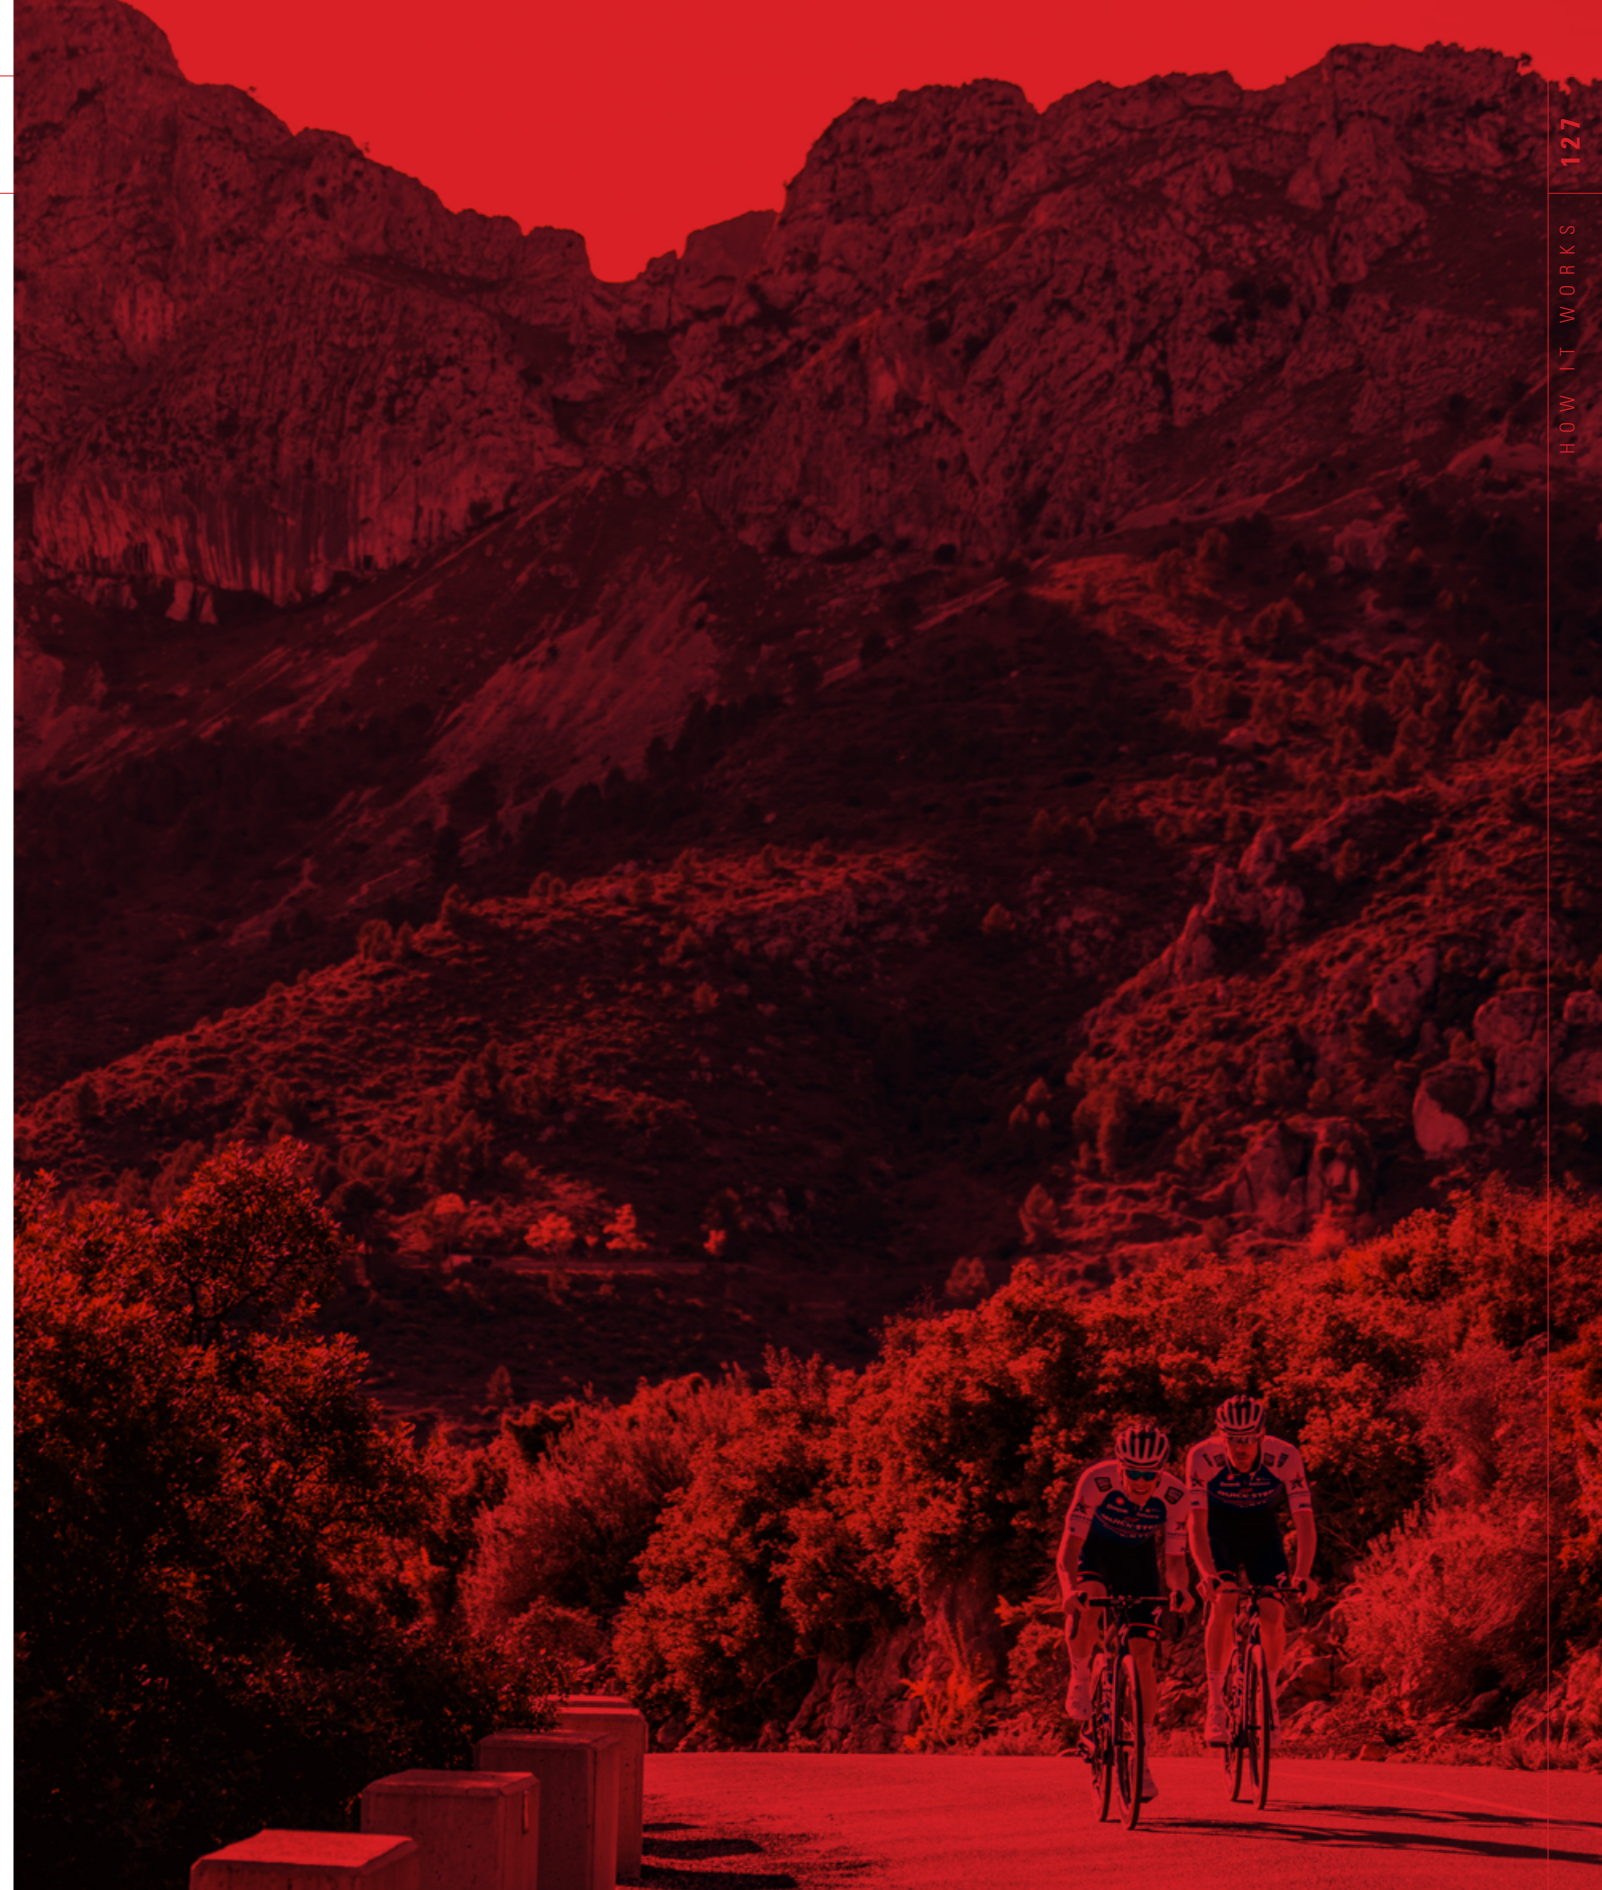

After submitting your design and quote, you will receive shortly an electronic art file of your final design. A full-size color proof printed on fabric can be ordered for an additional fee.

05. PRODUCTION

Once approvals for art, color and units, and deposit money have been received production will begin. No additional changes can be made at this time. Completion time is 8 weeks from the day approvals are received.

03. CONTACT

We will put you in contact with our representatives in your area so that you can see samples of all the pieces and check sizes, fit, and materials.
