DEVELOPED AND TESTED WITH THE PROS

Castelli is dedicated to making the fastest clothing in the world. We know that race results come through relentless attention to the smallest of details. So we approach every garment questioning how we can make it faster.

We do the basic research, then we test the concepts internally, then we test them with professional athletes and in the wind tunnel.

Right from the start of our triathlon activities we partnered with professional athletes. Together with them we are continuously improving and innovating our triathlon range to make sure that our athletes have the best and fastest equipment for their races.

AVAILABLE FOR YOUR TEAM

With Castelli Servizio Corse you can have the exact same pieces as the professional athletes. Not less—expensive replicas, but the exact same pieces made using the same fabrics, and components, with the same fit and finish, by the same people who produce the pieces you see on the pros racing around the world.

TRIATHLON DISCIPLINES

WHAT IT IS /PRODUCT FEATURES

The fastest long-distance race suit Castelli has ever made. The sleeve texture saves minutes on the bike leg, while the overall suit excels in both speed and comfort. Record holder for fast-est-ever Kona bike split with Cam Wurf, 2018.

- Pro-level long-distance race suit to deliver real aero benefits on the bike while providing comfort and cooling on the run
- 50-denier upper-body fabric is the thinnest, smoothest fabric for light weight and maximum aerodynamics
- Active cooling for the run with moisture evaporating directly next to the skin
- Silicone speed ribs on the sleeves induce turbulence to reduce drag on one of the most exposed parts of the body
- Elbow-length sleeves and knee-length legs for maximum aerodynamics
- Support short portion to keep everything in place on the run
- 2 rear pockets for ample nutrition storage
- KISS Tri pad

SET A NEW
PERSONAL BEST

This suit uses everything we know to make your next long-distance race your fastest ever. It was born from our aero research project at the Norwegian Technical University at Trondheim. Besides having a couple of brilliant professors and PhD students to come up with ideas and do the basic re-search, they have a couple of wind tunnels, rapid prototyping capabilities, CFD analysis and a true desire to make fast stuff. We’ve been working on aero technologies specifically relating to fabrics, construction and bound-ary-layer textures to make you cut through the wind. Due to the silicone ribs in the arms, this suit would be illegal in cycling but it’s super fast for tri. The main body fabric is an impossibly light 50 denier — usually in sports clothing 40 denier is considered ultrafine. The legs and sleeves are long for aerodynamics, while the light fabrics are great for dealing with heat since they’re thin enough to not get weighed down, yet the 8% Lycra® content holds a bit of moisture next to your skin for rapid cooling. The insane stretch allows us to make something that truly fits like a second skin on the bike but that doesn’t restrict in any way on the swim or run. Our KISS Tri pad offers some welcome padding while you’re on the bike but is thin enough to not bother you on the run. This suit delivers real time savings on the bike leg while providing cooling and comfort on the run, but it was made with the expectation of being worn under a swimskin or wet-suit for the swim. It’s optimized for high speeds — top age groupers or pro athletes, or anyone looking to set a new PR.

ROSSO CORSA

FREE SANREMO 2 SUIT SHORT SLEEVE
4300474

SIZES	WEIGHT	
XXS-3XL	218 g (L)	KISS^{TRI}

TRIATHLON DISCIPLINES

WHAT IT IS /PRODUCT FEATURES

Performance race suit ideal for 70.3 and full-distance racing. Aerodynamics for speed, without compromising pockets and comfort to help you through the big race.

- Second-generation Sanremo short sleeve suit is faster than ever
- Velocity Rev2 main body fabric delivers aerodynamics with excellent fit and moisture management
- Back fabric is our Velocity mesh for breathability, yet it blocks 94% of UV rays for significant sun protection (UPF 16)
- Elbow-length sleeves with raw-cut edges for maximum comfort and aerodynamics
- Castelli's Sanremo front opening makes it easier to bend for cycling and straighten out for the run and swim, while also allowing for easier nature breaks or opening up for extra-hot runs
- 2 rear pockets lie flat in the swim but allow generous room for nutrition
- New short construction fits more securely with more muscle support
- GIRO⁴ flat leg grippers on longer legs for maximum aerodynamics
- KISS Tri seat pad that provides comfort on the bike and that you almost don't feel during the run

ROSSO CORSA

FREE SPEED 2 RACE TOP

4300465

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XXS-3XL	110 g (L)	  

WHAT IT IS /PRODUCT FEATURES

Speed top for full-distance racing, or even to use just for the bike leg for improved aero performance. Includes a fastener to attach to shorts.

- Freedom of movement in the water, aerodynamics on the bike, comfort on the run
- Velocity Rev2 aero fabric on front-facing surfaces
- UPF 16 Velocity mesh back blocks 94% of UV light with generous breathability
- 2 rear pockets lie flat and prevent nutrition from bouncing around
- GIRO³ flat gripper elastic lies flat on lower back
- SnapLock fastener at lower back to clip to Free Tri Short to prevent riding up during swim or bike leg
- YKK® Camlock® zipper
- Elbow-length sleeves for maximum aerodynamics

THE RIGHT RACE JERSEY
FOR SPEED AND COMFORT

Some triathletes choose long sleeves for the extra speed. Some for the comfort. Some for sun protection. This jersey gives you all three. The aerodynamic speed is unmatched. It's what Castelli does best. We have a year-round testing and development program with the Norwegian Technical University in Trondheim to make our race gear the slickest around.

The comfort is what comes from our expert pattern engineers and soft performance Italian fabrics. We reduce the number of seams so that there is less chafing and less to bother you when you should be concentrating on pounding out the run.

Sun protection ... well, you've trained untold hours for this day. We focus on speed rather than total sun protection, but we still manage to block 94% of UV rays with our back Velocity mesh fabric that doesn't compromise speed, comfort or breathability. You may want to add some sunscreen, but this fabric provides UPF 16 protection, which is a significant help. Your cotton T-shirt is probably UPF 8. Take note of the well-thought-out details: Castelli's generous two pockets lie flat but hold a lot of gear and nutrition. The SnapLock fasteners clip to Castelli shorts to prevent the top from riding up during the swim or bike.

ROSSO CORSA

FREE TRI 2 SLEEVELESS TOP

4300592

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XXS-3XL	85 g (M)	  

WHAT IT IS /PRODUCT FEATURES

As much speed and comfort as you can get in a traditional sleeveless tri top.

- Freedom of movement in the water, aerodynamics on the bike, comfort on the run
- Velocity Rev2 aero fabric on front-facing surfaces
- UPF 16 Velocity mesh back blocks 94% of UV rays, with generous breathability
- 2 rear pockets lie flat and prevent nutrition from bouncing around
- GIRO® flat gripper elastic lies flat on lower back
- SnapLock fastener at lower back to clip to Free Tri Short to prevent top from riding up during swim or bike leg
- YKK® Camlock® zipper

A TRI TOP HAS NEVER BEEN
THIS COMFORTABLY FAST

Tri fashion (and the wind tunnel) have pushed toward short-sleeve tops, but we think there's still a place for the traditional sleeveless top. It's more comfortable on the run and cooler in hot weather ... and maybe you're just a traditionalist. We've packed this top full of features: the front fabric comes straight from our Tour de France winning Aero Race Jersey, and the back fabric offers maximum breathability. The top has two generous pockets for whatever you need to carry. It has SnapLock fasteners that clip on to Castelli shorts to prevent the top from riding up during the swim and to keep coverage of the lower back on the bike — then you unclip for added comfort during the run. The YKK® zipper makes adjusting the ventilation easier than ever. Finally, we've taken extra care around the armhole to make it lie flat for speed yet remain soft to prevent chafing.

ROSSO CORSA

FREE TRI 2 SHORT

4300593

SIZES	WEIGHT	KISS TRI
XXS-3XL	129 g (M)	

TRIATHLON DISCIPLINES

WHAT IT IS /PRODUCT FEATURES

A tri race short that's so comfortable you'll train in it. Clips to the Castelli Free race top (short sleeve or sleeveless) for all the advantages of a one-piece suit.

- Instadry Speed fabric is fast in the swim with minimal water absorption
- Free construction for great anatomic fit
- KISS Tri seat pad is comfortable on the bike and virtually disappears on the run
- SnapLock fastener at waist to clip jersey into place for swim and bike
- Flat-lock stitching
- Pocket at center back for gel
- GIRO® leg gripper elastic for more comfort
- Longer length for improved aerodynamics

ALSO AVAILABLE
FULLY PRINTED

**FREE TRI 2 SHORT
FULLY PRINTED**
4300594

THE ULTIMATE RACE SHORT

You know Castelli can make a great bike short. This one doesn't disappoint, thanks to amazing fit, the quick-drying Instadry fabric that gives compressive muscle support, and the renowned KISS Tri seat pad. New GIRO® leg grippers hold the longer legs in place without riding up. For the swim we've made the short smoother through the water, and the back pocket will lie flat to avoid catching water. The SnapLock closure clips to your Castelli top to keep it from riding up. On the run, the short basically disappears. The KISS Tri seat pad is thin enough you don't really notice it. This short is so comfortable you'll be using it for training rides as well as racing.

MEN'S SHORT DISTANCE

ROSSO CORSA

SD TEAM RACE SUIT
4300526

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XXS-3XL	251 g (L)	  

WHAT IT IS /PRODUCT FEATURES

A completely new approach for sprint and short distance racing to meet the needs of World Triathlon professionals. Developed in close collaboration with the German Triathlon Federation (DTU).

- Pro level short-distance race suit for best possible swim performance
- Water repellent treatment and minimum amount of seams for reduced water resistance
- Combination of light fabric on the upper body and compressive fabric in the hip area and legs for muscle support
- Quick drying fabrics
- Rear 40cm YKK® zipper with elastic cord closing at the bottom to avoid unintentional opening during the swim
- Silicone leg gripper holds suit in place
- Thin fleece seat liner

SPRINT AND SHORT DISTANCE SUIT
FOR THE HIGHEST LEVEL

We set out to design this suit to be prepared for any battle on the World Triathlon circuit. In World Triathlon racing you can't afford losing valuable seconds in the water due to bad equipment. Therefore we put in everything you'd expect from a suit that has to prove suitability on the highest level of pro racing. Hydrodynamic properties lay the foundations for the first discipline. High performance fabrics and optimized patterning for best aerodynamics and comfort on the bike till the finish line.

ROSSO CORSA

ELITE SPEED SUIT
4300595

SIZES	WEIGHT	TRIATHLON DISCIPLINES
XXS-3XL	229 g (M)	  

WHAT IT IS /PRODUCT FEATURES

Innovative fabrics, patterning, and construction make the fastest short-distance race suit. Used by DTU athletes in Tokyo 2020.

- Fastest suit for sprint and Olympic-distance racing
- Engineered stretch woven fabric with woven-in leg grippers allows nearly seamless construction for maximum speed in the water
- Polyester mesh stretch woven fabric over chest for better breathability on bike and run
- Necessary seams are bonded rather than stitched to lie flat
- Saddle liner for on-bike comfort
- Rear 40cm YKK® zipper with elastic cord closing at bottom to prevent unintentional opening during swim
- Water-repellent finish for maximum swim speed

DON'T TAKE OUR WORD FOR IT

Internal testing by the German Triathlon Federation (DTU) shows that this is the fastest swimming tri suit they've ever tested. Then Castelli adds the aero speed on the bike and run. You'll get to the finish line faster. The secret is in Castelli's unique engineered stretch woven fabric. Rather than stitching together different fabrics for different functions, we actually change the texture and performance of the fabric in the areas where it needs to perform different functions. This is most evident at the leg opening, where a gripper elastic is woven into the inside of the fabric to hold the leg in place, while the rest of the leg is smooth for speed in the water. This technique allows the lower portion of the suit to be made from a single piece of fabric. And the suit tests fast in the wind tunnel on the bike as well. But the DTU also wanted extra cooling on the upper body for the run, so there's a different fabric on the chest and back that stays cooler and wicks away moisture. This suit was developed for pure speed, and it delivers in every discipline.

For maximum sun protection with minimal insulation.

Solare fabric keeps the chill off without causing overheating

UPF 50+ protection

Polyester based for excellent moisture management

Double-side silicone elastic at top for excellent grip

NON-CUSTOMIZABLE

NON-CUSTOMIZABLE

HOW IT WORKS

01. CONTACT

To request information, please contact Castelli Servizio Corse by e-mail: please contact the Castelli Office in your country (www.castelli-cycling.com), or send your request to Castelli Servizio Corse, castelli.team@mvc46.eu or visit us at www.castelli-cycling.com

To request a quote, download and fill out the order form from serviziocorse.com with the styles we offer. Indicate quantities needed per style and submit via e-mail. Size breakdowns are helpful, but unnecessary for a quote. You will receive the requested quote shortly.

04. FINAL ORDER SUBMISSION

Submit your final order and you will be provided with a PDF copy to approve. This is your last opportunity to make revisions or correct errors.

02. DESIGN

Completed designs prepared on Castelli templates need to be submitted with your quote request. For every logo not supplied in vector-graphic format, a small fee will be incurred. Vector formats include: .ai, .eps, and .pdf (open).

After submitting your design and quote, you will receive shortly an electronic art file of your final design. A full-size color proof printed on fabric can be ordered for an additional fee.

05. PRODUCTION

Once approvals for art, color and units, and deposit money have been received production will begin. No additional changes can be made at this time. Completion time is 8 weeks from the day approvals are received.

03. FIT KIT REQUEST

We will put you in contact with our representatives in your area so that you can see samples of all the pieces and check sizes, fit, and materials.

SIZE CHARTS

MEN (UNISEX)

		XXS	XS	S	M	L	XL	2XL	3XL	4XL	5XL

M	S - M	60 - 70 Kg
L	L - XL	70 - 80 Kg
XL	2XL - 3XL	> 80 Kg

KISSTRI

Multi-density KISS TRI-pad foam is optimized for aerobar position on the bike, and practically disappears during the swim and run.

01.
SEAMLESS SKIN
CARE LAYER

A super soft, brushed microfiber top that maximizes comfort and fit. Seamlessly engineered to eliminate chafing and abrasion. Flexible to move with you. Bacteriostatic treatment to avoid saddle sores and infection.

02.
MULTI
DENSITY
FOAM

Specifically designed for the triathlete. Minimum bulk doesn't get in the way during the swim and run legs. Extra fast drying foam prevents chafing on the bike.
