In 2010 Castelli introduced the Gabba to the pros and changed the way pros race in the rain and cold. And the way they dress for cool-weather training. The Gabba also happens to be the perfect cool-weather piece for all the non-pro cyclists out there because of how it keeps your core warm and dry while not being too hot. The latest Gabba is the fifth generation, and this current version is essentially waterproof while maintaining the breathability and wind protection that have always made the Gabba so good. It uses two separate Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabrics: warmer and 100% waterproof over the front, shoulders, and sleeves, along with a lighter, more breathable, and stretchier fabric on the back that is sufficiently protective against the water that hits your back. The “2” part of the name refers to the updates to the latest version, including a YKK® Vislon® zipper with both top and bottom openings for more adjustable ventilation. The reflectivity on the back is more visible, the seam at the top of the shoulder has been moved to the back, and the three pockets hold more gear. Typically, we'll layer the Gabba over a sleeveless base layer and short-sleeve jersey, and pair it with Nano Flex arm warmers for cooler and/or wet conditions, or Seamless warmers for mild conditions. The Gabba RoS 2 is a must-have for autumn and spring riding.

WHAT IT IS /PRODUCT FEATURES

This is the original jacket/jersey that started an entire new product class: the Gabba. It's a water-resistant short-sleeve jacket that's equally ideal for dry conditions. Made to be worn with our Nano Flex arm warmers, it allows you to keep your core warm without overheating.

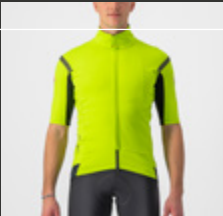

- The 5th generation of the Gabba, from the inventors of the Gabba
- Now more water-resistant than ever
- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for greater stretch and breathability
- Taped shoulder seams for extra rain protection
- Top- and bottom-opening YKK® Vislon® zipper for easy sliding, covered for additional wind and rain protection
- 3 rear pockets
- Reflective panel at bottom of pockets

## PERFETTO PERFECTED

---

The Perfetto collection represents the best of Castelli's athlete driven R&D. And the relentless pursuit of improving every detail no matter how minute it may seem. The relentless pursuit of perfection.

The Perfetto name translates to Perfect – perhaps a bit pretentious for a product name had we come up with it ourselves, but we didn't. Instead it came from listening to feedback from athletes using the jacket and that word kept coming up. Reviewers thought it was perfect, we had the goal of making the perfect jacket.

For Winter 2022 the Perfetto collection is updated across the board, men's and women's. Small updates, like a double slider zipper and a touch more room through the chest, more reflectivity and larger pockets. A further step for the Perfetto towards its lofty aspirations.

The Perfetto RoS 2 is the one jacket that does everything well.

If you look carefully, the Perfetto RoS 2 Jacket is essentially a long-sleeve version of the Gabba RoS 2. So it's just a warmer Gabba? Not really.

The full sleeves fully turn it into a jacket, but one that covers a wide range of conditions. Like the Gabba, the RoS insignia signifies that it excels in dry conditions thanks to the high breathability, as well as in wet conditions thanks to the Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabrics. There's a light fleece-lined water-resistant version on the forward-facing surfaces and a lighter and stretchier fabric on the back that maximizes the breathability while providing excellent water repellency.

The Perfetto RoS 2 Jacket keeps all the cold wind out while being much more breathable than the typical polyurethane membranes used on most jackets that try to compete with the Perfetto. When you stay drier, you don't need as many layers underneath. The beauty of this jacket is that it doesn't have any insulation on its own, so a thin base layer is just right for mild conditions, while adding an insulating layer (a thermal jersey or Castelli's Alpha 2nd Layer) will take you to cold temperatures. You decide.

The "2" part of the name refers to the updates to the latest version, including a YKK® Vislon® zipper with both top and bottom openings for more adjustable ventilation. The reflectivity on the back is more visible, the seam at the top of the shoulder has been moved to the back, and the three pockets hold more gear. While the Perfetto remains decidedly a performance fit, the new model has a touch more room through the chest, shoulder, and biceps.

This is the one jacket that belongs in every cyclist's quiver.

WHAT IT IS /PRODUCT FEATURES

With just a base layer, this is a wind-protection jersey for mild conditions. Alternatively, use it over a jersey like a vest with added protection on your shoulders. Lightweight, breathable front wind protection with allover water repellency.

- Lightest Castelli short-sleeve wind protection
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front and sleeves
- Nano Flex Light Woven on back for breathable stretch with good water protection
- Top- and bottom-opening YKK® Vislon® zipper for easy ventilation adjustment on the fly
- 3 rear pockets
- Reflective panel at bottom of pockets

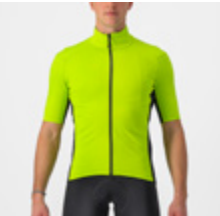

The Perfetto RoS 2 Wind Jersey started life as a request from our pro riders: I want to wear the Gabba all the time, but sometimes it's too hot. So a somewhat lighter and more breathable Gabba became the Perfetto Light. With the fourth generation, we've also changed the name from Perfetto Light to Perfetto RoS 2 Wind Jersey. And it has become a staple in our autumn and spring wardrobes because it's so useful in so many situations ... which makes it very hard to define. In one sense it's a warmer vest, since it has the same construction as the Perfetto RoS 2 Vest but with short sleeves. In another sense it's a less warm Gabba. In another sense it's a jersey with front wind protection. Regardless of how YOU define it, you'll appreciate how it gives the right amount of protection on cool days while maintaining a high level of breathability. It makes you feel warm and protected, yet offers almost the same lightness and freedom of movement as a summer jersey. For mild days, we'll use it as a jersey over a light base layer with Seamless arm warmers. For rides in cooler or changeable conditions, we'll layer it over a jersey, with either Seamless or Nano Flex arm warmers. The "2" part of the name refers to the updates to the latest version, including a YKK® Vislon® zipper with both top and bottom openings for more adjustable ventilation. The reflectivity on the back is more visible, the three

WHAT IT IS /PRODUCT FEATURES

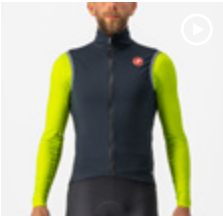

Made to be the perfect vest. GORE-TEX INFINIUM™ WINDSTOPPER® wind and water protection on the front, and a breathable nanotechnology water-repellent back. Stretch fit, and packable into half a pocket when not needed. This is a core piece of your cycling wardrobe.

- Best race or training vest with windproof front and breathable rain-repelling back
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front
- Nano Flex Light Woven on back for breathable stretch with good water protection
- Top- and bottom-opening YKK® Vislon® zipper for easy ventilation adjustment on the fly
- 3 rear pockets
- Reflective panel at bottom of pockets and around armholes

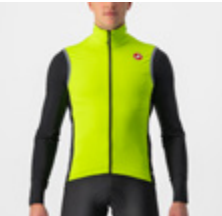

The Perfetto RoS 2 Vest is our attempt at the perfect vest. It's warm and windproof yet breathable thanks to the Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabric on the front and the membrane-free Nano Flex stretch woven back fabric. It's splash resistant for wet roads or changing conditions. It's light and packable, easily fitting in a jersey pocket with room to spare. It has three rear pockets of its own and a two-way YKK® Vislon® zipper you can open it from the bottom to access gear in your jersey pockets. It has 360° reflectivity thanks to the reflective trim on the armholes and reflective band below the pockets. It fits close to body with a high collar that feels oh-so-comfy for cooler conditions.

For serious winter riding in all conditions, the Alpha Ultimate Insulated Jacket brings premium insulation to this do-everything-well jacket. Castelli's Alpha RoS 2 Jacket set a new standard in winter cycling comfort. The Alpha Ultimate Insulated takes that up a notch with stretchier fabrics and Alpha insulation that provides warmth without bulk. The jacket is lighter and more comfortable, with similar warmth and breathability. In fact, it's almost 30% lighter, with more stretch to feel even more comfortable. The fabrics make it possible. The fully waterproof and highly breathable Polartec® NeoShell® outer fabric has a high level of four-way stretch. This layer keeps wind and rain out while also letting sweat escape. The insulation is Polartec® Alpha® active insulation, which provides incredible warmth for its weight while also aiding in breathability. Fabrics alone don't make the jacket. The front has one zipper for the insulating layer and a separate zipper for the outer shell, so you can open the outside for ventilation while keeping the insulating layer closed. This allows for better overall ventilation during a climb or effort, yet you'll be drier when you close everything back up for the downhill. All the other features are carefully considered to make this your ultimate winter jacket.

Cyclingnews.com says this jacket is “sets an all-new benchmark in what a winter cycling jacket can achieve” and it’s exactly what we think the perfect winter jacket should be. We started with a list of things we didn’t like about the current jackets and set out to solve them—and in the process made our best jacket ever.

The first issue to resolve related to moisture management. Even the best of the currently available fabrics provide a good level of breathability but can’t keep up with the sweat generated during high-intensity riding. So we invented a double-layer construction that allows you to open an outer wind-protection layer while keeping the insulation layer closed and thereby allowing airflow inside the jacket to evacuate moisture while avoiding direct contact with the skin. On a long climb we’ll completely open the outer layer to allow moisture to escape, and when we start the descent we close the outer layer and are completely dry inside. It works so well that sometimes it feels like magic. New for this year is a softer, warmer 3D insulation-layer fabric that provides better warmth, moisture management and fit. Next we focused on the openings: neck, waist and, most of all, wrists. The neck comes up high and is shaped to move with you, whether you’re standing or in an aero position being a January hero and attacking your mates. For the waist we’ve created a stretch layer with a silicone bead that lies flat and completely seals out wind without bunching or riding up. New for this year is a brand-new double-layer wrist opening with an inner layer to go under your glove that seals tight to your wrist, and an outer layer that goes over your glove so that any rain will roll down the outside of the glove and not end up inside.

Of course, the ultimate jacket will also hold up well in wet conditions, so we used GORE-TEX INFINIUM™ WINDSTOPPER® fabric along with waterproof seam taping on critical seams around the shoulder. Other seams are hidden out of direct water flow, and the water-repellent treatment on the fabric is sufficient to prevent most moisture from entering. We call it “essentially waterproof,” using our own subjective judgment to find a balance between water protection, breathability and comfort. It doesn’t mean that no drop will ever come in, but we do longish rides in real rain and stay completely dry. All these features make it a favorite of our staff and most of our ambassadors, and the most versatile performance jacket for cold-weather training we’ve ever created.

SAVILE BLUE/RED

As summer turns to autumn we still have a few months of amazing riding, but when we have to start dressing warmer we miss the freedom of wearing just a jersey. That's why we made this jacket. We used the lightest, stretchiest fabrics we have to make a jacket that cuts out most of the wind, remains highly breathable, provides remarkably high levels of water protection, and just basically disappears so you don't really notice it. This is a performance piece, so we've kept it focused on the task at hand. There's nothing superfluous on it, unless you consider the big reflective panel on the back to be unnecessary. We don't. We've given it a close-to-body fit so there's no fabric flapping in the wind, which also helps keep the jacket warmer. The pockets are generous and easily reachable, the zip slides easily, and the logoing is discreet.

MEN'S JACKETS

21

This is the jacket for going fast on those in-between days when it's too warm for a jacket and too cold for a jersey. Traditionally, you might have used a vest and arm warmers on a day like this, but this jacket does it better. Rather than blocking all the wind on the body, the stretch woven fabric lets a small amount of air through. It blocks enough air that you don't get cold but lets enough through to keep you drier. Working together with the outer fabric is Polartec® Alpha® insulation in key areas to nearly weightlessly add more warmth without reducing breathability. The jacket is cut close to body, making it our most aerodynamic jacket. Not that that you need aerodynamics in the winter, but we're firm believers in Fast Is Fun. The close fit also makes it warmer than the minimalist fabrics would normally allow.

Other features are strictly rider focused: The easy-sliding YKK® Vislon® zipper makes one-hand ventilation simple. Three rear pockets have plenty of room for whatever you need on long rides. It's cut short to not bunch up in the front or back. Reflective details help you be seen. The fabric is water repellent to keep splashes and brief showers at bay.

WHAT IT IS /PRODUCT FEATURES

Combining two of our best-performing products, the Perfetto RoS Long Sleeve with the Sorpasso RoS Bibtight, this suit brings our widest range of winter riding comfort. Why go for the one-piece suit? Eliminating the layers around the waist and the bib straps brings extra comfort, and the lack of an opening at the waist keeps you warmer by preventing cold air from coming in.

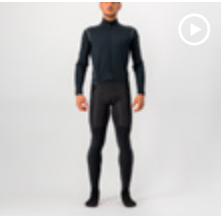

- UPPER BODY:
- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
  - GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for extra stretch and breathability
  - Taped reflective shoulder seams for extra rain protection
  - YKK® Vislon® zipper for easy sliding, covered for greater wind and rain protection
  - Zippered ventilation opening on side of chest
  - 2 rear pockets with pump sleeve are easily accessed with gloved hands
- LOWER BODY:
- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
  - Nano Flex Xtra Dry fabric panel on upper front and thigh for increased warmth
  - Anatomic cut to hip and knee
  - Reflective panels at ankle for maximum visibility from behind
  - YKK® Camlock® zipper at ankle

WHAT IT IS /PRODUCT FEATURES

Mid-weight GORE-TEX® shell jacket for all-day riding in the rain, cut to fit over insulation layers but with Topo stretch panels to help the jacket move with you. This is serious equipment for your wettest, nastiest days on the bike, when anyone else would stay inside.

- 3-layer mid-weight GORE-TEX® fabric for total rain protection
- Stretch panels in GORE-TEX® Topo fabric bring better fit in shoulders and stretch in wrist for easy on/off with gloves
- 2 large rear pockets for easy access with gloved hands
- Long tail for splash protection
- Covered YKK® AquaGuard® zipper
- Zipper flap at neck for extra comfort

This jacket is made for those days when speed and light weight are sacrificed for the most effective barrier possible against the rain and cold outside. If you've never had a jacket like this, you've never experienced the feeling of going out only because you have to and then enjoying one of the most epic days ever. We went with a heavier-weight GORE-TEX® fabric for extra durability and because we gave this jacket a little more generous cut and don't want the fabric flapping around. But we still made it so that you can ride in an aggressive position, helped by stretch panels around the shoulders. We've added the same stretch panels around the wrists so that you can put it on and take it off over your Diluvio gloves, and we added stretch panels on the sides in case you load up your pockets. Even though this is an absolute extreme-conditions jacket, it can still fold up small enough to be stuffed in a jersey pocket—or, more likely, in a bag, because this jacket is a must on your next multiday adventure.

WHAT IT IS /PRODUCT FEATURES

This elegant jacket provides full waterproof protection with a stretch fit for comfort and aerodynamic performance. The jacket is protective enough to wear all day yet looks good on a gravel ride or when you’re meeting your mates at the café.

- Tempesta Stretch fabric with windproof PU membrane provides 10,000 mm waterproofness with 20,600 g/m²/24h breathability
- Taped shoulder seams for waterproofing
- Stretchy for extremely comfortable fit that moves with you
- Packable enough to fit in jersey pocket
- Covered easy-sliding YKK® Vislon® zipper
- Extra-long tail for protection from wheel spray
- Vent on back
- Reflective stripe at lower back

030  
DARK GRAY

656  
FIERY RED

This jacket does three things really well: the Tempesta Stretch fabric provides full waterproof protection, the four-way stretch makes it fit any body type, and it looks great on and off the bike. Compared with our more expensive GORE-TEX® Idro jackets, you give up the best-in-class breathability and extreme packability, but you gain stretch fit and increased durability. We developed the fabric to our own specifications to make a jacket that is fully waterproof, comfortably stretchy, packable enough to fit in a jersey pocket, and with an appearance and hand that make it look great. This is meant to be a rain shell worn over a jersey, so we’ve foregone the external pockets and kept the construction simple to minimize seams. We’ve given it a vent on the back to prevent overheating, a covered zip to keep spray out and reflectivity for safety.

--	------------	--	-----------

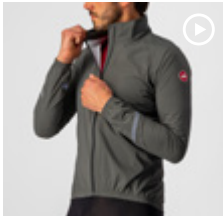

WHAT IT IS /PRODUCT FEATURES

The go-to jacket for rain protection, whether for all-day use or emergency use, since it easily stashes away in a jersey pocket. With discreet styling and 360° reflectivity, it can do double duty as a commute jacket.

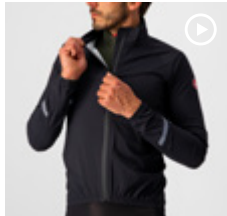

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Stuff pocket integrated into mesh vent at top of back
- Waterproof zipper and contrast seam sealing keep water out
- 360° reflectivity

ELECTRIC LIME

075  
MILITARY GREEN

085  
LIGHT BLACK

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you’d expect from Castelli, we also gave it an amazing on-bike fit, yet it’s still roomy enough to fit over a Gabba. It has all the trappings of a performance rain jacket, with the waterproof zipper, long tail, long sleeves, and wrist closures that can go over gloves, yet we knew you wouldn’t want to break the bank with it, so the only real compromise compared to our top-of-the-line offerings is in breathability. We kept the styling toned down and added a bright colorway in Fiery Red so that you can easily use this as a commute jacket and still look great when you get to the office. If you’re going to wear it over office attire you may want to go up one size.

An extremely light and packable wind shell that fits close to body, with stretch breathability panels, allowing you extend the temperature range of your favorite Castelli pieces.

- Ultralight windproof woven microfiber front
- Striped mesh fabric at sides and sleeve back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Integrated pack sack
- YKK® Vislon® zipper
- Reflective Castelli wordmark

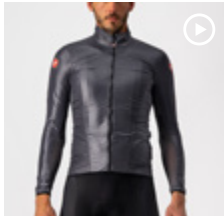

NOT YOUR OLD-STYLE WIND JACKET

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to re-invent a classic. In reality, the Aria Shell Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era.

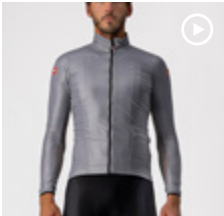

This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

XS-3XL	75 g (L)	12°-20°C / 54°-68°F

	FRONT ONLY
	<div><div></div><div></div><div></div><div></div><div></div></div>

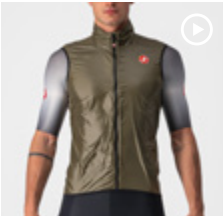

WHAT IT IS /PRODUCT FEATURES

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

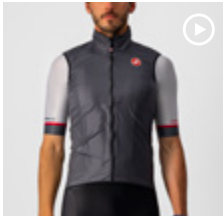

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective piping

NEAR WEIGHTLESS PROTECTION

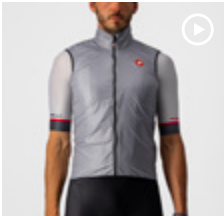

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	66 g (M)	12°-20°C / 54°-68°F

FRONT/SLEEVES

WHAT IT IS /PRODUCT FEATURES

The Squadra Stretch Vest is the simple yet elegant solution to keep the wind off your core in cool conditions while providing a close-to-body fit and excellent ventilation.

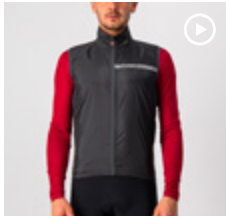

- Coated ripstop nylon front and back to keep wind off
- Tightly knit stretch panels on sides for perfect fit and ventilation
- High collar to keep drafts out
- Reflective details on chest and lower back for low-light visibility

We've completely reengineered our entry-level vest. A new coated ripstop fabric keeps the wind off the front and spray off the back, while the tightly knit side panels allow the vest to stretch to fit a wide range of shapes while keeping a close-to-body fit that eliminates fabric flapping in the wind. The collar is cut high and the back long for extra protection, and the color blocking of the stretch panels and the reflective details on the chest and tail give it an elegant design touch.

TEMPERATURE RANGE			
12°-17°C / 54°-63°F			
		LIGHT RAIN	

WHAT IT IS /PRODUCT FEATURES

Warm, stretchy, water-repellent and highly visible: the ideal mix for a spring and autumn jersey. Using the same fabric as our Nano Flex arm warmers, this premium jersey provides our best performance fit and 360° reflectivity. Ideal with the Perfetto RoS Vest.

- Nano Flex 3G fabric features warm brushed fleece inside with 20% elastane for stretch and Castelli's unequaled Nano Flex water-repellent finish
- Reflective fabric inserts at shoulder and on central pocket
- 3 rear pockets
- YKK® Vislon® zipper
- Embossed logo

Ready to move up to a better cool-weather jersey? The Tutto Nano RoS Jersey features a number of upgrades compared to what you've probably been using.

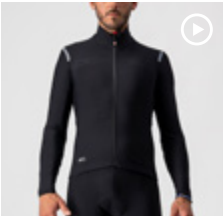

First is the stretch fit that moves perfectly with you, made possible by the Nano Flex 3G fabric, the same fabric we use to make our arm and leg warmers as well as our Sorpasso tights. This close-to-body fit actually makes the jersey warmer by avoiding fabric flapping in the wind.

Second is the tighter knit of the fabric compared to traditional thermal jersey fabrics. It lets less air through so you stay warmer.

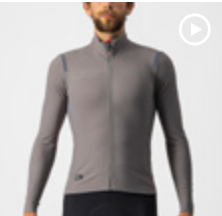

Next is Castelli's proprietary nanotechnology water-repellent finish. On dry days you won't even know it's there, but when you get some light rain or wet roads then you stay drier.

Last is the 360° reflectivity, thanks to the panels on the shoulders and lower back.

Of course, the Castelli attention to detail is there, with the easy-sliding YKK® Vislon® zipper with rubberized pull and the silicone gripper elastic to prevent the jersey from riding up.

FLIGHT JERSEY AIR4522518

SIZESXS-3XL

WEIGHT190 g (M)

NANO FLEX

TEMPERATURE RANGE10°-16°C / 50°-61°F

WET ROADS

WHAT IT IS /PRODUCT FEATURES

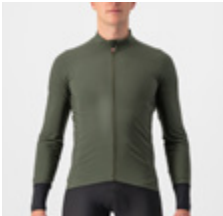

Next-level fabric technology makes this jersey faster, water repellent, and warmer even though it's lighter. Like an Aero Race Jersey for cool conditions.

- Nano Flex Light woven fabric all around partially blocks wind, but lack of a membrane guarantees maximum breathability
- 3D Mesh fabric from Castelli's base layer range used as front lining for extra warmth and moisture management
- YKK® Vislon® zipper
- Raw-cut wrists integrate easily with gloves
- Close-to-body fit
- 3 rear pockets
- Reflective wordmark on back pocket

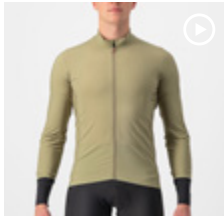

We've used the Nano Flex Light stretch woven fabric on the back of Perfetto vests and Beta jackets for a few years now. A tightly woven fabric, it keeps a lot of the wind out while being relatively thin and compact. And the lack of a membrane means that much more moisture can escape. Now we bring this fabric into a jersey that is lightweight yet surprisingly warm thanks to the way it keeps more wind out than a traditional jersey. We line the front of the jersey with a fabric that comes straight from our technical base layers for a little added warmth and to help move moisture away from your body. This jersey actually covers a wider range of temperatures than our traditional knit jerseys. Use it with a light sleeveless base layer for mild days, with a light long-sleeve base layer for moderate days, or with a Flanders Warm or Miracolo base layer and vest to stay comfortable in surprisingly cool temperatures. The stretch woven fabric is aerodynamic, and we give this jersey a close-to-body fit. Think of it as your Aero Race Jersey for spring and fall days.

PRO THERMAL MID LS JERSEY4521516

SIZESXS-3XL

WEIGHT228 g (L)

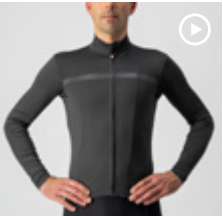

TEMPERATURE RANGE14°-19°C / 57°-66°F

WHAT IT IS /PRODUCT FEATURES

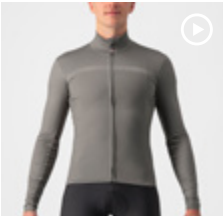

A favorite piece among our sponsored pros, this jersey is a bit lighter and a bit stretchier and features a closer cut for an aero fit.

- Mid-weight Warmer X-Stretch brushed fabric
- Ideal for cool conditions, with or without a vest
- Race cut with highly elastic fabric provides close-to-body fit without feeling tight
- Drop-pocket construction for better fit around waist and better pocket position
- Easy-sliding YKK® Vislon® zipper
- Embossed line across chest
- Reflective vertical stripe on center pocket

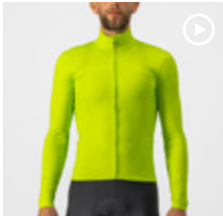

For those first cool fall days or the last remnants of spring, the Pro Thermal Mid LS Jersey gives you some extra warmth. The secret is in the fabric. Compared to our standard Warmer fabric, we've lightened it up a touch and added some spandex/elastane for more stretch. It has a close-to-body aero fit without feeling too tight. It's a performance piece for every ride, with our drop-pocket construction and YKK® Vislon® zipper for easy one-handed adjustment. Why would you want a less warm thermal jersey? One situation is in conditions that are too cool for a short-sleeve jersey and it just feels better to cover up and add this bit of warmth. Another situation is a higher-intensity ride where it's easy to overheat. In keeping with the pro technical function of this jersey, we've kept the design details very clean, with an embossed stripe across the chest and a reflective vertical stripe on the pocket for low-light visibility.

PRO THERMAL MID SS JERSEY

4522520

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	188 g (M)	15°-20°C / 59°-68°F

WHAT IT IS /PRODUCT FEATURES

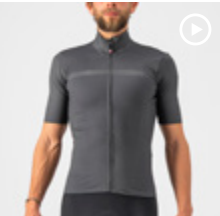

A favorite piece among our sponsored pros, this jersey is a bit lighter and a bit stretchier and features a closer cut for an aero fit.

- Mid-weight Warmer X-Stretch brushed fabric
- Ideal for cool conditions, with or without a vest
- Race cut with highly elastic fabric provides close-to-body fit without feeling tight
- Drop-pocket construction for better fit around waist and better pocket position
- Easy-sliding YKK® Vislon® zipper
- Embossed line across chest
- Reflective vertical stripe on center pocket

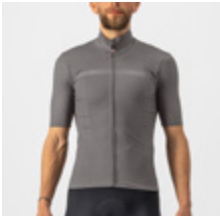

Ideal for cool days when you still want a short-sleeve jersey but need something a little warmer to take the chill off. The fabric is lightly brushed on the inside, and the bit of elastane gives a perfect stretch fit.

We'll also use this jersey with arm warmers and a vest on cooler days — either an Aria Vest that will go in a pocket once the air warms up, or a Perfetto Vest for a day that will stay cool. This jersey gives that extra level of comfort underneath.

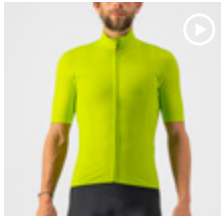

As a piece designed for the pros, it stays wonderfully minimalist: three rear pockets, easy-sliding YKK® zipper, sleeves cut to just above the elbows. But we've added a reflective stripe to help keep you visible.

PRO THERMAL MID VEST

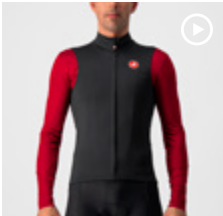

4520513

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	189 g (L)	10°-18°C / 50°-64°F

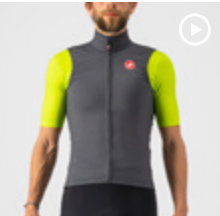

WHAT IT IS /PRODUCT FEATURES

This thermal vest is a favorite of our pro riders since it adds some extra warmth for your core without sacrificing breathability or causing overheating. We built it without a windproof membrane, so you'll never feel damp inside.

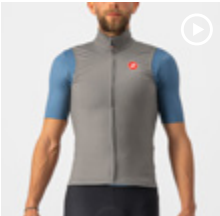

- Mid-weight Warmer X-Stretch brushed fabric
- 3 back pockets
- Elastic at waist
- YKK® Vislon® zipper
- 3 rear pockets

PURO 3 JERSEY FZ

4518511

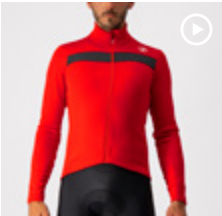

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	288 g (L)	14°-20°C / 57°-68°F

WHAT IT IS /PRODUCT FEATURES

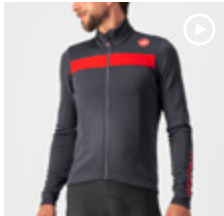

Our most popular jersey, thanks to the warmth and excellent moisture management of our Warmer brushed-fleece fabric; the clean, purposeful design; and the large reflectivity panels on the chest and below the pockets on the back.

- Warmer fabric is a thickly brushed polyester fleece giving comfortable warmth with excellent moisture management
- Reflective panels on front and back
- Gripper elastic at waist
- 3 rear pockets
- Easy-sliding YKK® Vislon® zipper

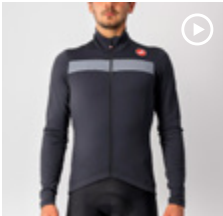

The third generation of the Puro Jersey, our most popular winter jersey, is better than ever. The thickly brushed fabric is warm inside yet with excellent breathability with enough stretch for non-restrictive fit. The reflective panels front and back provide excellent day and night visibility. Otherwise it's a no-nonsense technical piece aimed at comfort and warmth while making you look good.

VENTAGLIO JERSEY

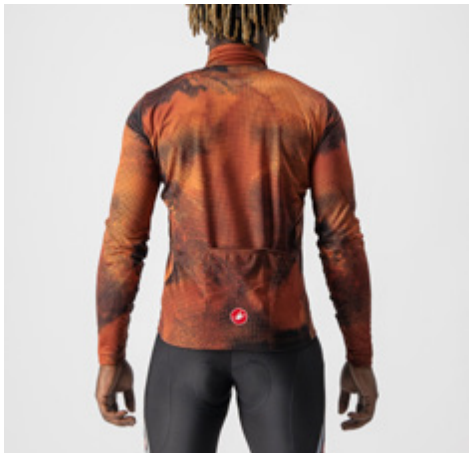

4522521

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	244 g (M)	14°-18°C / 57°-64°F

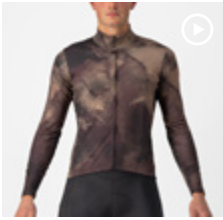

WHAT IT IS /PRODUCT FEATURES

Made to keep your core warm while providing enough ventilation to keep you from overheating. Brushed fleece inside for warmth. Stretch side panels keep it fitting perfectly.

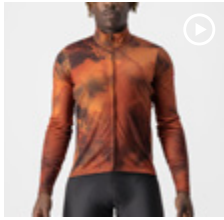

- Warmer fabric on body and sleeves
- Warmer X-Stretch side panels
- Gripper elastic at waist
- 3 rear pockets
- Easy-sliding YKK® Vislon® zipper with neck protector

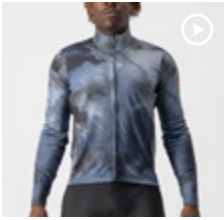

The thermal jersey is the first step into cool weather clothing, where Castelli has set the standard for what clothing can do. We've taken the same approach here. You'll wear this jersey on cool days, so we've given it a brushed fleece backing but kept the fabric stretchy for a great fit. Since you're using it in conditions that aren't cold enough for a jacket, we've engineered the fabric to let some air in so you don't overheat. We think a jersey like this should be pure function, so you've got our three spacious rear pockets, silicone gripper elastic, and easy-sliding YKK® Vislon® zipper.

WHAT IT IS /PRODUCT FEATURES

Made for long hours in the widest range of conditions, this tight features our ultra-stretchy, warm and water-repellent Nano Flex 3G fabric with the extra warmth of Nano Flex Xtra Dry on the hips and thighs, along with an anatomical cut and the Progetto X<sup>2</sup> Air Seamless seat pad for long-distance comfort.

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- Nano Flex Xtra Dry fabric panel on upper front and thighs for extra warmth, and on back to protect from road spray
- Anatomic cut to hips and knee
- Reflective inserts for maximum visibility from behind
- Lie-flat elastic bib straps
- YKK® Camlock® zippers at ankles
- Progetto X<sup>2</sup> Air Seamless pad for long hours in the saddle

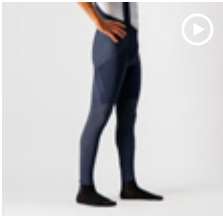

The name of this tight, Sorpasso, means “overtaking” in Italian. That’s what we’ve tried to do with this tight, to make it a bit faster, better, more comfortable. It’s made to be technical equipment for riding in the widest range of winter conditions. The main part of the tight uses our Nano Flex 3G fabric, the third generation of our nanotechnology fabric treatment that adds a high level of water repellency without affecting the breathability, stretch or warmth of the fabric. You get a highly stretchy, compressive fit that moves with you, focusing on warmth and comfort.

But then we add a few panels of the Nano Flex Xtra Dry fabric to provide a bit more wind protection and warmth in the front panel and over the thighs, and in the back for extra protection from road spray.

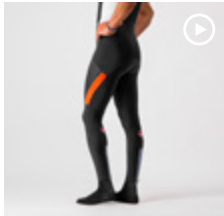

It’s not only about the fabrics: anatomical patterning gives a bend at the knee and the hip, while the seamless bib straps lie flat and securely keep everything in place. Our generously padded Progetto X<sup>2</sup> Air Seamless seat pad make long rides more comfortable, and you have multiple reflective panels to keep you visible. We’ve designed this as the go-to tight for a full winter’s riding.

WHAT IT IS /PRODUCT FEATURES

This thermal bibknicker is made for long hours in cool conditions. It features our top-of-the-line seat pad and fabrics, and the design is focused around comfort.

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- Nano Flex Xtra Dry fabric panel on upper front and thighs for extra warmth, and on back to protect from road spray
- Anatomic cut to hips and knee
- Reflective inserts for maximum visibility from behind
- Lie-flat elastic bib straps
- Progetto X<sup>2</sup> Air Seamless pad for long hours in the saddle

Our top-selling Sorpasso Bibtight is also available in a 3/4-length version for those cool but not quite cold rides or for those of you who just like the feeling of not covering your lower leg. The fabrics are exceptionally soft, stretchy and warm, with our Nano Flex 3G covering most of the body and panels of Nano Flex Xtra Dry covering the front, thighs and center back. We’ve given it the most comfortable seat pad and bib strap construction we can.

030  
DARK GRAY

414  
SAVILE BLUE

The Free Aero RC Bibtight is made to be your first choice for most of your winter riding. Everything about it is focused on keeping you comfortable and at the right temperature. Every detail, every fabric, every seam will make your winter riding better.

This is the tight for those cool to cold days. Not for bitter cold, when you'll want to use a Sorpasso or Sorpasso Wind. Not for mild days, when you'll use leg warmers or a Semifreddo Bibtight. This is for maximum comfort on those days when you need warmth but you're not fighting for survival — those days when you're doing long rides getting ready for the season.

Most of the tight is constructed from our Nano Flex 3G fabric. Our third generation of Nano Flex is luxuriously soft, warm, and stretchy. But it also offers excellent breathability, keeps a lot of the wind out, and has our updated Nano Flex water-repellent finish. The lower legs are in our lighter-weight Nano Flex stretch woven fabric with a lightly brushed inside and with leading water repellency. For the rest of the tight we've kept it simple: minimalist Free bib straps that you won't notice, and raw-cut leg endings that are stretchy enough to not need ankle zippers, improving comfort when you pull shoecovers over the top.

This is supposed to be your long-ride comfort tight, so the Progetto X² Air Seamless pad will be protecting your backside.

WET ROADS

WHAT IT IS /PRODUCT FEATURES

The performance comfort tight for cool conditions when you want to cover up but not be weighed down.

- Thermoflex fabric from waist to knee for extra stretch and warmth
- Nano Flex stretch woven fabric with brushed fleece inside at lower leg for splash protection on wet roads
- Progetto X<sup>2</sup> Air Seamless pad for long-distance comfort
- Minimalist mesh bib straps
- Zipperless ankle to reduce bulk inside shoecovers
- Reflective tabs on back of legs

Semifreddo — it's an Italian desert that's chilled but not frozen. Exactly like the conditions we designed this tight for. This tight was made for cool days when you're not quite sure if you'll be warm enough with shorts and leg warmers or if you'll overheat with a full thermal tight. In those conditions the Semifreddo is the tight you need.

The thighs and hips are kept warm with our Thermoflex fabric. Soft, fleecy, and especially stretchy, it's more comfortable than shorts and warmers. The lower leg uses our thinner Nano Flex stretch woven fabric so you don't overheat. Water protection is limited to the lower legs, so wet roads aren't a problem, but this isn't your tight when rain is threatening.

The Progetto X<sup>2</sup> Air Seamless pad finishes out the comfort focus on our best tight for moderate conditions.

NANO FLEX PRO RACE BIBSHORT

4520521

SIZES	WEIGHT	<div><div>PROGETTO X<sup>2</sup></div><div>NANO FLEX</div></div>
XS-3XL	205 g (L)	

TEMPERATURE RANGE

12°-20°C / 54°-68°F

WET ROADS

WHAT IT IS /PRODUCT FEATURES

The original Omloop knee-length thermal short now in full Nano Flex 3G fabric for all conditions from dry to cold to wet.

- Nano Flex 3G fabric is water repellent, stretchy and warm thanks to the luxuriously soft brushed inside
- Reduced seams for comfort and to prevent water from coming in during wet rides
- Knee-length cut for extra warmth that doesn't require a gripper elastic
- Mesh bibs don't add warmth to the upper body so you can dress for the conditions
- Progetto X<sup>2</sup> Air Seamless seat pad for long hours in the saddle

You could call this a "convergence" product. A few years back we pioneered the first Omloop thermal short, inspired by pro riders cutting off their knee warmers to just the bend of the knee at the Omloop Het Nieuwsblad on a brisk sunny morning. We set about making a bibshort cut right to the bend of the knee and realized that we could make it without a gripper elastic and that the extra 10 centimeters of fabric add a lot of warmth. Those first Omloop shorts were made for cool, dry conditions, like the race that inspired them, using our Thermoflex fabric.

Fast-forward to 2020 and the new third generation of our Nano Flex fabric is as soft, stretchy, breathable and warm as our Thermoflex fabric, so now we can make this short ideal for cool and dry conditions, but it's also excellent on wet days.

It's still a pro tool: this short is identical to the model supplied to Team Quick Step-Alpha Vinyl.

The do-everything tight: great in dry conditions, water repellent for light rain and wet roads, reduced seams for comfort, reflective band for visibility. And the tone-on-tone embossed logos give it that tech stealth look.

- The bibtight that’s great in every possible condition
- New Nano Flex 3G fabric is exceptionally warm and soft yet with even better rain protection
- Reduced seaming for improved comfort and fit
- Mesh bib straps don’t hold moisture
- KISS Air² seat pad for long-distance comfort
- Reflective leg ending with ankle zip
- Embossed logos for durability

IT JUST HAPPENS  
TO BE GOOD  
IN THE RAIN TOO

Our Nano Flex 3G fabric is the result of a decade of development. It’s our best all-around fabric for winter tights: warm, stretchy, luxuriously soft, highly breathable and on top of that it features our proprietary third generation of nanotechnology water-repellent finish. While other companies are using simple chemical water-repellent finishes, we create a nanotechnology mechanical repellency to enhance a chemical DWR finish. You stay drier and more comfortable.

Even though this tight features our latest water-repellency technology, don’t think of it as just a niche rain tight. The fabric makes for a great dry-weather tight, and the reduced-seam anatomical cut makes it extremely comfortable. We use the pro-level KISS Air² seat pad along with a mesh bib and zippered ankles. This is the tight that’s good at everything.

WET ROADS

Minimalist meets performance in this tight with extreme-comfort Thermoflex fabric along with our fleeced Nano Flex stretch-woven lower leg for splash protection. Especially good when you don't want a deep-winter tight.

- Thermoflex fabric from knee to waist for warmth and comfort
- Nano Flex stretch-woven fabric with brushed fleece inside at lower leg for splash protection from wet roads
- KISS Air<sup>2</sup> seat pad
- Mesh bib straps
- Zipperless ankle to reduce bulk inside shoecovers
- Reflective inserts on thighs for visibility on back and sides

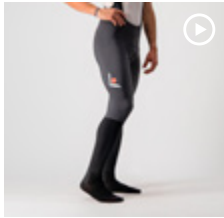

The ideal tight for most of your winter riding, the Velocissimo is focused on comfort for riding in mild to cool conditions. We've used our Thermoflex fabric for most of the tight. It's not our warmest fabric, nor does it repel water like Nano Flex, but it is the softest, stretchiest winter tight fabric. The comfort is immediate and lasting. For the lower leg from just below the knee, we switch to our Nano Flex fleeced stretch-woven fabric that's both warm and highly water repellent for protection against spray coming off wet roads. It's also highly stretchy, and we leave a raw edge so we can construct the ankles without zippers while making sure the tight remains easy to put on and take off. The KISS Air<sup>2</sup> seat pad and mesh bibs keep your bum and upper body happy, while large reflective detailing keeps you visible.

- High-visibility reflective stripes above knee in front and above calf on back
- Ankle zips for easy on/off

010  
BLACK

This is our warmest tight, for tough guys who don't let a little cold keep them indoors.

Our warmest GORE-TEX INFINIUM™ WINDSTOPPER® fabric covers the entire front of the tight to keep the cold wind out. We use water-repellent Nano Flex 3G on the bum and the back of the lower legs for splash protection from wet roads, while Thermoflex on the back of the thighs gives extra stretch for the renowned Castelli fit. This is now the most comfortable wind tight we've ever made.

We've kept the bib straps to a minimum so that you can layer your upper body exactly as you wish, without an unwanted thermal layer covering your stomach.

With more of us riding at night, we've placed large reflective inserts on both the front and back of the legs, where the up-and-down pedaling motion grabs the attention of approaching motorists.

010  
BLACK

Our entry-level wind bibtight doesn't compromise cold-weather performance. This is the right tight for you if you're on a budget or if your winter riding includes only a few days of truly biting cold. Or if you want a wind tight with extra stretch. The reason this is our entry-level tight is that we swap out the GORE-TEX INFINIUM™ WINDSTOPPER® wind protection front for an Italian-made wind protection fabric with a polyester wind membrane. Some brands use this fabric on their top-of-the-line tights. Compared to the GORE-TEX fabric you give up some breathability, but on the other side you gain extra stretch. Seat pad duties are handled by our Kiss Air2 pad, which is not a huge step down from the X² — in fact, it's the choice of some of our pro riders.

The rest of the tight is pure premium performance: the back of the legs is in our Nano Flex 3G water-repellent fabric from our top-of-the-line tights, and you also have flat-lock seams, YKK® Camlock® zippers at the ankles, and reflective strips on the lower legs.

GAVIA JACKET  
4520510

SIZES	WEIGHT		
S-3XL	236 g (L)		
TEMPERATURE RANGE			
2°-16°C / 36°-61°F			
	WATERPROOF		WINDPROOF

WHAT IT IS /PRODUCT FEATURES

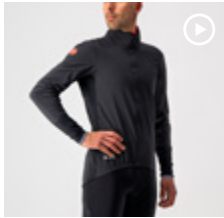

Mid-weight GORE-TEX® shell jacket for all-day riding in the rain, cut to fit over insulation layers but with Topo stretch panels to help the jacket move with you. This is serious equipment for your wettest, nastiest days on the bike, when anyone else would stay inside.

- 3-layer mid-weight GORE-TEX® fabric for total rain protection
- Stretch panels in GORE-TEX® Topo fabric bring better fit in shoulders and stretch in wrist for easy on/off with gloves
- 2 large rear pockets for easy access with gloved hands
- Long tail for splash protection
- Covered YKK® AquaGuard® zipper
- Zipper flap at neck for extra comfort

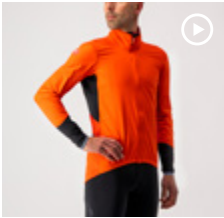

This jacket is made for those days when speed and light weight are sacrificed for the most effective barrier possible against the rain and cold outside. If you’ve never had a jacket like this, you’ve never experienced the feeling of going out only because you have to and then enjoying one of the most epic days ever.

We went with a heavier-weight GORE-TEX® fabric for extra durability and because we gave this jacket a little more generous cut and don’t want the fabric flapping around. But we still made it so that you can ride in an aggressive position, helped by stretch panels around the shoulders. We’ve added the same stretch panels around the wrists so that you can put it on and take it off over your Diluvio gloves, and we added stretch panels on the sides in case you load up your pockets.

Even though this is an absolute extreme-conditions jacket, it can still fold up small enough to be stuffed in a jersey pocket—or, more likely, in a bag, because this jacket is a must on your next multiday adventure.

WHAT IT IS /PRODUCT FEATURES

The long-sleeve Gabba is one of our most versatile pieces. 100% wind protection with GORE-TEX INFINIUM™ WINDSTOPPER® water protection and best-in-class breathability. With a light base layer it's good for mild temperatures, or with a thermal layer you can ride it below freezing. If you have just one jacket in your cycling wardrobe, this should be it.

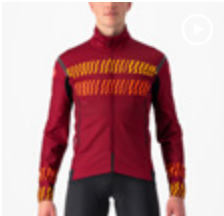

- Sublimation print graphic on the do-everything Perfetto RoS 2 Jacket base
- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for greater stretch and breathability
- Taped shoulder seams for extra rain protection
- Top- and bottom-opening YKK® Vislon® zipper for easy sliding, covered for additional wind and rain protection
- Zippered ventilation opening on side of chest
- 3 rear pockets
- Reflective panel at bottom of pockets

GOLDENROD

421  
BORDEAUX/  
GOLDENROD-ORANGE RUST

The Unlimited version of the Perfetto RoS 2 Jacket is simply a graphic treatment making it look more at home on any surface but not sacrificing any of the performance. When we think about what we want in a gravel jacket, we keep coming back to the Perfetto since it really is perfect for so many conditions. We just want it to look different. The Perfetto RoS 2 excels in dry conditions thanks to the high breathability, as well as in wet conditions thanks to the Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabrics. There's a light fleece-lined water-resistant fabric on the forward-facing surfaces and a lighter and stretchier fabric on the back that maximizes the breathability while providing excellent water repellency. The Perfetto RoS 2 Jacket keeps all the cold wind out while being much more breathable than the typical polyurethane membranes used on most jackets that try to compete with the Perfetto. When you stay drier, you don't need as many layers underneath. The beauty of this jacket is that it doesn't have any insulation on its own, so a thin base layer is just right for mild conditions, while adding an insulating layer (a thermal jersey or Castelli's Alpha 2nd Layer) will take you to cold temperatures. You decide. The "2" part of the name refers to the updates to the latest version, including a YKK® Vislon® zipper with both top and bottom openings for more adjustable ventilation. The reflectivity on the back is more visible, the seam at the top of the shoulder has been moved to the back, and the three pockets hold more gear. While the Perfetto remains decidedly a performance fit, the new model has a touch more room through the chest, shoulder, and biceps. This is the one jacket that belongs in every cyclist's quiver.

Good for everything from road riding to bikepacking, this vest packs a surprising amount of warmth into a surprisingly small amount of space. The microfiber shell fabric keeps the wind out, while the Polartec® Alpha® Direct insulating layer provides exceptional warmth with minimal weight. The stretch side panels improve fit and ventilation and are treated to be water repellent, as is the rest of the vest. There's a zippered chest pocket for valuables, and two large back pockets for easy access. The wide range of conditions that this vest covers means that you'll use it on the road in the spring and autumn, wear it on your gravel rides in the mountains during the summer, and stash it in your handlebar bag on your next bikepacking adventure.

UNLIMITED

UNLIMITED TRAIL JERSEY

4522505

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	263 g (M)	12°-17°C / 54°-63°F

WHAT IT IS /PRODUCT FEATURES

The warmest all-road jersey with extreme performance, disguised as an adventure jersey.

- High-loft brushed polyester fleece fabric keeps you warm and dry, while the 5% elastane content helps it stretch for perfect fit
- Tight knit keeps some wind away from your skin for extra warmth
- 3 cargo-style rear pockets and a zippered chest pocket
- YKK® Vislon® zipper for easy opening/closing
- Neutral fit

Gravel and off-road riding often mean somewhat slower speeds and more variability, so we can ride in cooler conditions before putting on a full jacket. This jersey was made to provide a high level of warmth, especially at lower wind speeds, to give that perfect balance of warmth without overheating. Style-wise, it's influenced more by outdoor than pro racing, but Castelli's DNA is still there for the on-bike performance, sacrificing only aerodynamics. All-road features include the higher-volume pockets as well as the zippered chest pocket so you don't lose valuables.

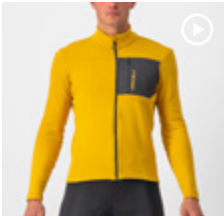

This jersey is excellent as a layering piece under an Unlimited Puffy Vest or an Aria Vest.

UNLIMITED THERMAL JERSEY

4522500

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	241 g (M)	14°-18°C / 57°-64°F

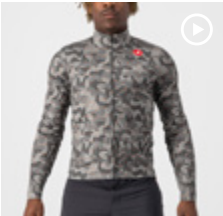

WHAT IT IS /PRODUCT FEATURES

For cool-weather gravel rides, the Unlimited Thermal Jersey keeps your core warm while providing enough ventilation to keep you from overheating. Stretch side panels keep it fitting perfectly. Pair it with a Perfetto Vest to extend the comfort range of this jersey.

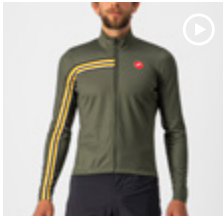

- Warmer fabric on body and sleeves
- Warmer X-Stretch side panels
- Gripper elastic at waist
- 3 rear pockets
- Easy-sliding YKK® Vislon® zipper with neck protector

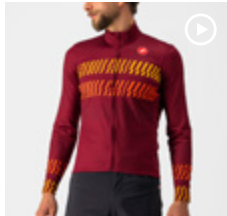

Riding on gravel often means a little bit lower speeds at a higher effort level, so breathability becomes even more important and you can dress a bit lighter. Our Unlimited Thermal Jersey features our Warmer brushed fleece fabric, which provides a high level of insulation while letting just the right amount of air through for ventilation without causing a chill. We keep this piece very functional with the three rear pockets and a silicone gripper at the waist, while the YKK® Vislon® zipper is the easiest sliding we've ever found, so it's quick to adjust as your temperature changes.

UNLIMITED MERINO LONG SLEEVE  
4522506

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	226 g (L)	15°-20°C / 59°-68°F

WHAT IT IS /PRODUCT FEATURES

Performance merino wool trail-style top for cool-weather rides or for layering for cold rides on any surface.

- 195 g/m² 41% merino wool with 51% recycled polyester and 8% elastane fabric gives wool's warmth with polyester's wicking and durability
- Shaped longer tail covers back when in riding position
- Neutral fit
- Zippered microfiber nylon front security pocket

Perfect for those cool autumn rides or endurance rides, or even as an insulating layer, this mid-weight Italian milled merino/poly mix offers just the right level of warmth and wicking. Use it next to your skin for those cool days to take off the chill, or add a long-sleeve base layer to take it cooler. Add an Unlimited Puffy vest and you're riding well into fall, or wear it under a jacket and you'll cover the entire winter.

This is also a great choice for your long endurance or bikepacking rides, as it continues to keep you warm while benefiting from wool's natural ability to not stink.

The weight of this garment and the more open knit favor breathability, so it's one of our cooler long-sleeve jerseys, but the layering abilities make this a highly versatile piece.

It's made to use with a vest, and with the thought that you have pockets on your shorts and bags on your bike, so we keep the Merino top without rear pockets.

UNLIMITED BAGGY SHORT  
4520027

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	108 g (L)	18°-32°C / 59°-90°F

WHAT IT IS /PRODUCT FEATURES

The baggy-short look without the feel, thanks to the slimmer fit and stretch woven fabric. It's ready for long-distance endurance rides, but it's also a great-looking casual short off the bike.

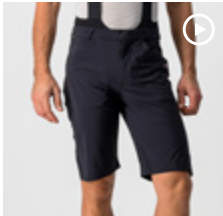

- Stretch woven fabric with DWR finish
- Extremely light so you won't even feel it on
- 2 front pockets and 1 zippered rear pocket
- Stretch waistband with zippered front opening
- Scorpion button logo

IF YOU HAVE TO GO BAGGY

There are those days when a baggy short just seems like the right look. But you always debate whether you're willing to compromise comfort for that look, and you end up wearing Lycra®. So we set out to make a better baggy. We reached for a stretch woven fabric that gives great stretch but in an unbelievably lightweight yet durable fabric. We gave it a DWR finish so mud and water roll off. We gave the short two top-opening pockets like jeans so that whatever you put in there won't fall out. We made the cut fairly close to body so you look good off the bike but the short doesn't balloon out when you're on the bike. It all just kinda disappears. The short doesn't have its own seat pad, so wear this over your favorite Castelli short. The Superleggera is a good choice for warmer weather, or the Unlimited if you want the extra pockets.

The short doesn't have its own seat pad, so wear this over the Unlimited Ultimate Liner or your favorite Castelli short. The Superleggera is a good choice for warmer weather, or the Unlimited Bibshort if you want the extra pockets.

UNLIMITED TRAIL BAGGY SHORT4522012

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	194 g (M)	14-35°C / 57-95°F

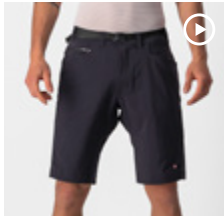

WHAT IT IS /PRODUCT FEATURES

The performance baggy short with ultralight stretch woven fabric and adjustable ventilation to keep you cool.

- 165 g 4-way-stretch woven Cordura® fabric with DWR finish
- Double-slider zippered ventilation along full length of legs
- Extremely light so you won’t even feel it on
- 2 front pockets
- Adjustable webbing belt for secure fit at waist, with zippered front opening
- Scorpion button logo
- Looser fit at home on any trail

This baggy short is made for hard trail duty, when you want the look of a baggy but the freedom of Lycra®. The fabric is extremely light, just 165 grams per square meter, but hard wearing thanks to 64% Cordura® yarns. The 10% elastane gives it four-way stretch. Not only does it dry quickly, but the water-repellent fabric treatment means it sheds light rain and stays cleaner. The cut is slightly looser so it moves with you, never restricting. Yet the adjustable webbing belt at the waist lets you lock it in place so it won’t slide down. With the ultimate trail short you should never feel too hot, so you can open up the zippered ventilation openings that run the full length of the legs, made to work with the mesh legs of the Castelli Unlimited Ultimate Liner. You’ve never been this cool in a baggy short.

UNLIMITED ULTIMATE LINER4522013

SIZES	WEIGHT	PROGETTO X <sup>2</sup>
XS-3XL	179 g (M)	
TEMPERATURE RANGE		
14-35°C / 57-95°F		

WHAT IT IS /PRODUCT FEATURES

Made to be the ultimate liner under your baggy shorts. Featuring the supremely comfortable Progetto X<sup>2</sup> Air seamless pad in the coolest minimalist short, with three pockets on the back.

- Progetto X<sup>2</sup> Air seamless pad for long rides and rough trails
- 170 g Force fabric through hips to keep pad in place
- Perforated leg panels are light for maximum ventilation and cooling
- GIRO Air leg grippers are cool and hold legs in place
- Minimalist bib straps as found on Free Aero RC Bibshort
- 3 rear pockets sit above waistband of baggy shorts

There’s no reason to accept a mediocre short just because you want to wear baggies. This liner is made for ultimate comfort under your baggies. First and foremost, this short features the top-of-the-line Progetto X<sup>2</sup> Air seamless seat pad. The pad has two separate components: a soft, stretchy Skin Care Layer that cuddles your skin, and a separate Cushioning Layer with dual-density foam and gel pads for progressive damping. The best pad is worthless if moves around, so we’ve constructed the hip area in our compressive Force fabric, which holds the pad in place while providing good ventilation. The legs are light and airy with perforated fabric to keep you cool, and are held in place by our gauze-like GIRO Air elastic. The beauty of this leg construction is that you can adjust the length to your preference — so they’re long enough to keep your baggy short from rubbing against your leg, for example. Likewise, the top of the short is an exercise in minimalism. The front of the thin bib straps is an open knit that lets air flow right through, while the back is also narrow to stay cool. However, we reinforce the yoke so the straps stay in the right place and don’t bunch up. On the back, just above the height of the waist of your baggy, there are three pockets so you can wear this short with a T-shirt and still have space to stash your gear.

CASTELLI CYCLING

INSIDER JERSEY  
4522524

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	86 g (M)	20°-40°C / 68°-104°F

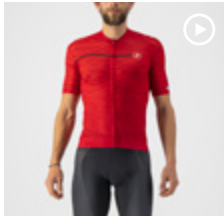

WHAT IT IS /PRODUCT FEATURES

The lightest jersey we’ve ever made is ideal for your cybersport suffer sessions.

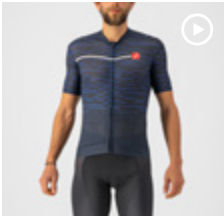

- 3D Mesh lightweight 93% polyester / 7% elastane wicks moisture and dries quickly
- HEIQ Fresh Tech silver free odor control treatment
- Semi open mesh allows maximum air flow without becoming too transparent
- Full length zip makes for easy on and off
- 2 rear pockets for stashing whatever you need
- Can be used as hot weather outdoor jersey

INDOOR TRAINING  
NEVER LOOKED THIS GOOD

We made this jersey for the rigors of indoor training. The 3D Mesh fabric allows maximum airflow for cooling while wicking away moisture to keep you dry. We made it on the limit of not being too transparent in case you want to wear it for group training sessions, or if you’re using it at home and want to take it off after warming up the long zipper means it comes off easy. We put a couple of pockets on the back so you can stash your AirPods or phone or headband or whatever you haul to your training station. We’ve kept the collar low and the waist short for maximum cooling. It just happens to be a great hot weather jersey that you’ll pull back out come August.

INSIDER SLEEVELESS  
4522525

SIZES	WEIGHT	TEMPERATURE RANGE
XS-3XL	52 g (M)	20°-40°C / 68°-104°F

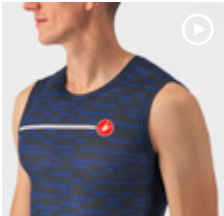

WHAT IT IS /PRODUCT FEATURES

Sleeveless top to help cool your indoor sessions when used with a fan.

- 3D Mesh lightweight 93% polyester / 7% elastane wicks moisture and dries quickly
- HEIQ Fresh Tech silver-free odor-control treatment
- Semi-open mesh allows maximum airflow and cooling
- Rear pocket

611  
DARK RED

414  
SAVILE BLUE

We’ve made this sleeveless top to actually cool you more than not wearing a top at all. It works because it will spread out sweat over a wider area to aid in evaporative cooling. Of course, it’s not going to make your indoor sessions sweat-free, but it will make them more comfortable. It’s intentionally simple and is cut close to body, and there’s a pocket on the back. We finish it with the HEIQ Fresh Tech natural odor-control treatment that prevents odor buildup in the garment over time.

MEN'S BASE LAYERS

BASE - LAYERS OVERVIEW

CASTELLI CYCLING

COLD DAYS 2ND LAYER  
4522531

SIZES  
XS-3XL

WEIGHT  
101 g (M)

WHAT IT IS /PRODUCT FEATURES

Maximum insulation and moisture management for cold rides, to layer between a base layer and a jacket.

- Polartec® Alpha® 90 fabric high-loft active insulation made from recycled PET
- Maximum breathability
- Asymmetrical zip
- High collar

The Polartec® Alpha® fabric is an amazing insulator, and it's soft, stretchy, and lightweight. A couple of years ago we thought it would make an excellent fabric for a base layer, but it tended to feel wet and clammy against the skin. But when looking for more insulation for sub-freezing gravel rides, we tried using the Alpha® prototypes as a second layer on top of a Prosecco base layer — and stumbled into the best combination for cold riding. We worked on the details and created this second layer for cold rides. We've given it a half zip so it doesn't create bulk over the lower torso, and we've mounted the zip slightly off-center to avoid the bulk of multiple zippers at the neck. We've kept the fit close to body so you have the choice to tuck it into your tights or leave it out like we do. We also found that it works well over a Flanders, Bandito, Miracolo, or Seamless base layer.

BANDITO WOOL LS BASELAYER  
4522532

SIZES	WEIGHT	TEMPERATURE RANGE
XS-2XL	141 g (M)	-4°-10°C / 25°-50°F

WHAT IT IS /PRODUCT FEATURES

Lightweight merino wool blend for warmth and moisture management during moderate-intensity and cold rides.

- 125 g/m² 48% merino / 47% recycled polyester / 5% elastane fabric gives the warmth of wool with the durability and wicking of polyester
- Machine washable
- High collar

010  
BLACK

The natural warmth of wool is mixed with recycled polyester to improve wicking in this warm and comfortable base layer. It's stretchy for a great fit, the sleeves are long enough to cover to the wrists, and you might even use it to lounge around the house. It's that comfortable.

CASTELLI CYCLING

BANDITO WOOL SS BASELAYER

4522565

SIZES	WEIGHT	TEMPERATURE RANGE
XS-2XL	113 g (M)	8°-14°C / 46°-57°F

WHAT IT IS /PRODUCT FEATURES

Short-sleeve lightweight merino wool base layer to wear under a Gabba or jersey for cool rides.

- 125 g/m² 48% merino / 47% recycled polyester / 5% elastane fabric gives the warmth of wool with the durability and wicking of polyester
- Machine washable
- Low collar

ROSSO CORSA

MIRACOLO WOOL LONG SLEEVE

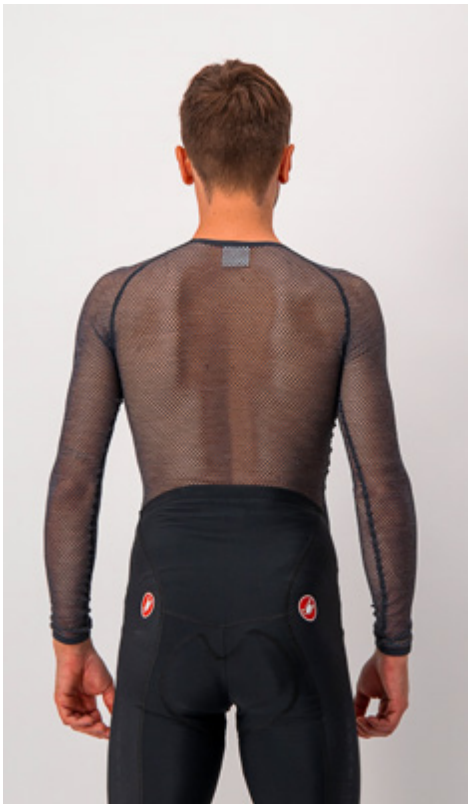

4521522

SIZES	WEIGHT	TEMPERATURE RANGE
XS-2XL	112 g (M)	4°-15°C / 39°-59°F

WHAT IT IS /PRODUCT FEATURES

In cool conditions the mesh construction gives the warmth of wool but won't wet out on high-intensity rides.

- Merino wool mesh mixed with nylon for strength and elastane for stretch
- Minimalist finishing at collar, wrist, and waist for minimal bulk
- Raglan sleeve to avoid seam on shoulder under bib strap
- Woven scorpion logo label at side collar

008  
GRAY

“What is that?” lit up our social media channels when Tao Geoghegan Hart wore a prototype of this base layer up and over the Stelvio on his way to winning the 2020 Giro d’Italia. Those conditions highlight where this piece excels: it provides a surprising amount of warmth by pulling moisture away from the body, keeping you warm always, but the mesh construction means it’s not too hot. Great under a jersey for high intensity, or for layering under a jacket.

SIZES	WEIGHT	TEMPERATURE RANGE
<b>SM/LX/2XL</b>	<b>88 g (L)</b>	<b>20°-40°C / 68°-104°F</b>

WHAT IT IS /PRODUCT FEATURES

Our lightest and airiest base layer wicks moisture away from your skin, while the open mesh helps hold the jersey up and away from the skin. It's good for warm conditions, and some riders even like it on a hot day, as it allows airflow between the jersey and skin.

- Magic Mesh 90% polyester, 10% Elastane wicking fabric
- Minimalist lightweight construction
- Reduced seams for maximum comfort

WARMER CONDITIONS

This is our base layer for the warmest conditions. The mesh is open to create a space on the skin for sweat to evaporate. The 10% elastane content makes it very stretchy and helps in the moisture retention so that you're always getting evaporative cooling.

- Water-repellent thermal and breathable Nano Flex fabric
- Flat-lock stitching with single seam
- Double-sided silicone grippers to keep warmers in place

NANO FLEX  
ALL-CONDITION  
WARMERS

Choose Nano Flex for warmers that are great in dry conditions but also give some extra protection and warmth in wet conditions. We invented the category of water-protective thermal fabrics, and Castelli's proprietary Nano Flex is often imitated but never equaled. No compromises for any conditions.

TEMPERATURE RANGE	
8°-20°C / 46°-68F	

WHAT IT IS /PRODUCT FEATURES

Thermoflex is luxuriously warm and stretchy in dry conditions but is not intended for wet conditions.

- Thermoflex fleece fabric is warm, stretchy and soft
- Single-piece construction with flat-lock seams
- Embossed Castelli wordmark logos
- Dual-sided silicone gripper elastic at top prevents sliding down

THERMOFLEX  
LUXURIOUS FLEECY  
WARMTH

If you don't need the extra wet weather protection of Nano Flex, or if you've always been happy with traditional warmers, you'll find that Castelli's Thermoflex warmers offer the softest, most luxurious fabric combined with careful attention to construction details.

4520584

SIZES	WEIGHT
SM-LX	67 g / 74 g / 52 g (Pair)

TEMPERATURE RANGE
10°-20°C / 50°-98°F

WHAT IT IS /PRODUCT FEATURES

A wide temperature range combined with seamless comfort makes this our most versatile warmer.

- Mid-weight seamless arm warmer
- Surprisingly warm without causing overheating
- Unique polyester/nylon/Lycra® 78%/15%/7% blend
- Fully seamless construction
- Folds up extra small

A BETTER ARM WARMER

After years of collaborations with the best teams in the World Tour we set out to make a better seamless arm warmer. Others on the market are made with a nylon/Lycra® blend that tends to hold moisture, but we knew we could get better moisture management with a polyester yarn. Working with polyester makes it more difficult to get the right stretch, return and manufacturing consistency, though. It took a year longer than we thought, but we're all glad we stuck with it. These warmers are a pro rider favorite because they're crazy light and they're extremely warm for their weight, yet even in milder conditions you don't overheat. They're so stretchy you hardly feel them on, yet when you take them off they occupy a fraction of the space that normal warmers would take in your pocket.

WHAT IT IS /PRODUCT FEATURES

The long-sleeve Gabba is one of our most versatile pieces. 100% wind protection with GORE-TEX INFINIUM™ WINDSTOPPER® water protection and best-in-class breathability. With a light base layer it's good for mild temperatures, or with a thermal layer you can ride it below freezing. If you have just one jacket in your cycling wardrobe, this should be it.

- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for greater stretch and breathability
- Taped shoulder seams for extra rain protection
- Top- and bottom-opening YKK® Vislon® zipper for easy sliding, covered for additional wind and rain protection
- Zippered ventilation opening on side of chest
- 3 rear pockets
- Reflective panel at bottom of pockets

The Perfetto RoS 2 is the one jacket that does everything well.

If you look carefully, the Perfetto RoS 2 Jacket is essentially a long-sleeve version of the Gabba RoS 2. So it's just a warmer Gabba? Not really.

The full sleeves fully turn it into a jacket, but one that covers a wide range of conditions. Like the Gabba, the RoS insignia signifies that it excels in dry conditions thanks to the high breathability, as well as in wet conditions thanks to the Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabrics. There's a light fleece-lined water-resistant version on the forward-facing surfaces and a lighter and stretchier fabric on the back that maximizes breathability while providing excellent water repellency.

The Perfetto RoS 2 Jacket keeps all the cold wind out while being much more breathable than the typical polyurethane membranes used on most jackets that try to compete with the Perfetto. When you stay drier, you don't need as many layers underneath. The beauty of this jacket is that it doesn't have any insulation on its own, so a thin base layer is just right for mild conditions, while adding an insulating layer (a thermal jersey or Castelli's Alpha 2nd Layer) will take you to cold temperatures. You decide.

The "2" part of the name refers to the updates to the latest version, including a YKK® Vislon® zipper with both top and bottom openings for more adjustable ventilation. The reflectivity on the back is more visible, the seam at the top of the shoulder has been moved to the back, and the three pockets hold more gear. While the Perfetto remains decidedly a performance fit, the new model has a touch more room through the chest, shoulder, and biceps.

This is the one jacket that belongs in every cyclist's quiver.

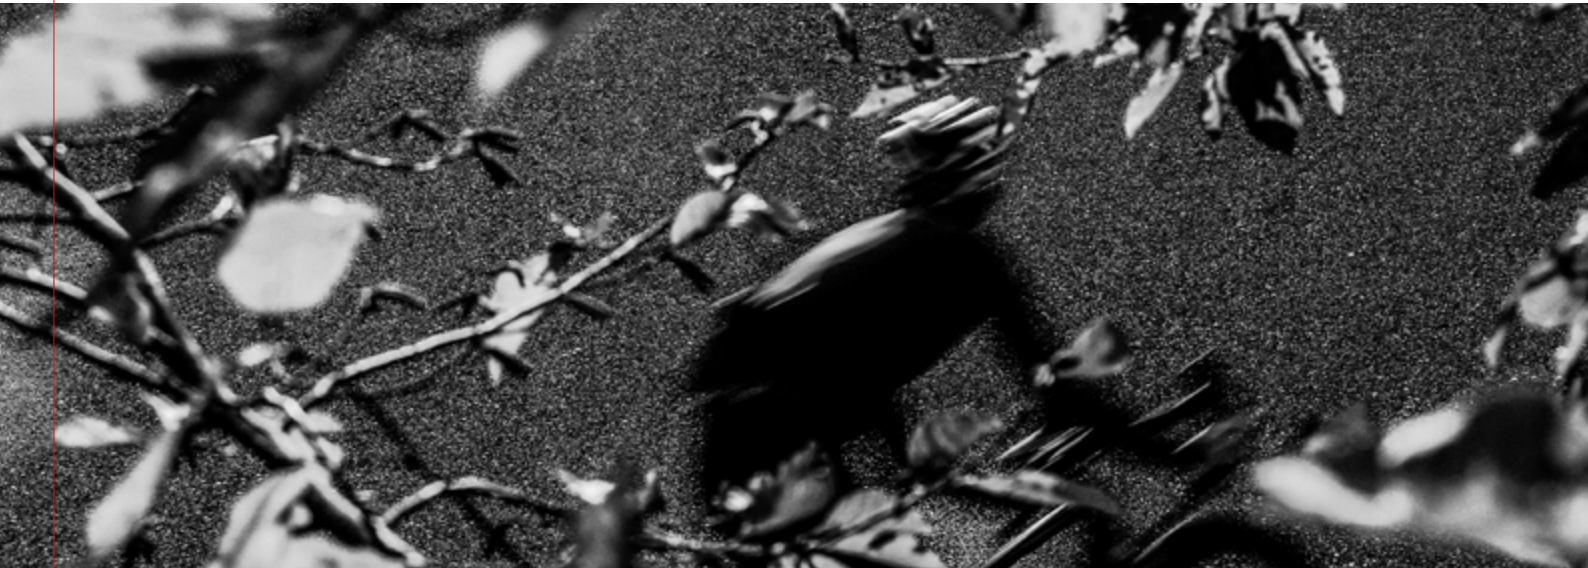

In 2010 Castelli introduced the Gabba to the pros and changed the way pros race in the rain and cold. And the way they dress for cool-weather training. The Gabba also happens to be the perfect cool-weather piece for all the non-pro cyclists out there because of how it keeps your core warm and dry while not being too hot.

The latest Gabba is the fifth generation, and this current version is essentially waterproof while maintaining the breathability and wind protection that have always made the Gabba so good. It uses two separate Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabrics: warmer and 100% waterproof over the front, shoulders, and sleeves, along with a lighter, more breathable, and stretchier fabric on the back that is sufficiently protective against the water that hits your back.

The “2” part of the name refers to the updates to the latest version, including a YKK® Vislon® zipper with both top and bottom openings for more adjustable ventilation. The reflectivity on the back is more visible, the seam at the top of the shoulder has been moved to the back, and the three pockets hold more gear.

Typically, we’ll layer the Gabba over a sleeveless base layer and short-sleeve jersey, and pair it with Nano Flex arm warmers for cooler and/or wet conditions, or Seamless warmers for mild conditions.

The Gabba RoS 2 W is a must-have for autumn and spring riding.

883  
MELON

The Perfetto RoS 2 Wind Jersey started life as a request from our pro riders: I want to wear the Gabba all the time, but sometimes it's too hot. So a somewhat lighter and more breathable Gabba became the Perfetto Light. With the fourth generation we've also changed the name from Perfetto Light to Perfetto RoS 2 Wind Jersey. And it has become a staple in our autumn and spring wardrobes because it's so useful in so many situations ... which makes it very hard to define. In one sense it's a warmer vest, since it has the same construction as the Perfetto RoS 2 Vest but with short sleeves. In another sense it's a less warm Gabba. In another sense it's a jersey with front wind protection. Regardless of how YOU define it, you'll appreciate how it provides the right amount of protection on cool days while maintaining a high level of breathability. It makes you feel warm and protected, yet it offers almost the same lightness and freedom of movement as a summer jersey. For mild days, we'll use it as a jersey over a light base layer with Seamless arm warmers. For rides in cooler or changeable conditions, we'll layer it over a jersey, with either Seamless or Nano Flex arm warmers. The "2" part of the name refers to the updates to the latest version, including a YKK® Vislon® zipper with both top and bottom openings for more adjustable ventilation. The reflectivity on the back is more visible, the three pockets hold more gear, and the extended "tail" has been reduced to make the piece more packable.

WHAT IT IS /PRODUCT FEATURES

Made to be the perfect vest. GORE-TEX INFINIUM™ WINDSTOPPER® wind and water protection on the front, and a breathable nanotechnology water-repellent back. Stretch fit, and packable into half a pocket when not needed. This is a core piece of your cycling wardrobe.

- Best race or training vest with windproof front and breathable rain-repelling back
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch lightweight fabric on front
- Nano Flex Light Woven on back for breathable stretch with good water protection
- Top- and bottom-opening YKK® Vislon® zipper for easy ventilation adjustment on the fly
- 3 rear pockets
- Reflective panel at bottom of pockets and around armholes

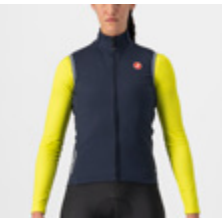

The Perfetto RoS 2 Vest is our attempt at the perfect vest. It's warm and windproof yet breathable thanks to the Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® fabric on the front and the membrane-free Nano Flex stretch woven back fabric. It's splash resistant for wet roads or changing conditions. It's light and packable, easily fitting in a jersey pocket with room to spare. It has three rear pockets of its own and a two-way YKK® Vislon® zipper you can open from the bottom to access gear in your jersey pockets. It has 360° reflectivity thanks to the reflective trim on the armholes and reflective band below the pockets. It fits close to body with a high collar that feels oh-so-comfy for cooler conditions.

CHALK/RED

For serious winter riding in all conditions, the Alpha Ultimate Insulated Jacket brings premium insulation to this do-everything-well jacket. Castelli’s Alpha RoS 2 Jacket set a new standard in winter cycling comfort. The Alpha Ultimate Insulated takes that up a notch with stretchier fabrics and Alpha insulation that provides warmth without bulk. The jacket feels lighter and more comfortable, with similar warmth and breathability. In fact, it’s almost 30% lighter, with more stretch to feel even more comfortable. The fabrics make it possible. The fully waterproof and highly breathable Polartec® NeoShell® outer fabric has a high level of four-way stretch. This layer keeps wind and rain out while also letting sweat escape. The insulation is Polartec® Alpha® active insulation, which provides incredible warmth for its weight while also aiding in breathability. Fabrics alone don’t make the jacket. The front has one zipper for the insulating layer and a separate zipper for the outer shell, so you can open the outside for ventilation while keeping the insulating layer closed. This allows for better overall ventilation during a climb or effort, yet you’ll be drier when you close everything back up for the downhill. All the other features are carefully considered to make this your ultimate winter jacket.

WHAT IT IS /PRODUCT FEATURES

The Go Jacket is Castelli's most versatile jacket. It can be used as a light shell in mild conditions or go to cold conditions by adding insulating layers underneath. Stretchy, comfortable, breathable, windproof, water resistant, elegant, and lightweight, this jacket has it all. Get out and Go.

- Full soft-shell construction with GORE-TEX INFINIUM™ WINDSTOPPER® 150 keeps cold wind out while offering exceptional breathability
- Excellent stretch with neutral fit for extra comfort
- Stretch panel at wrist
- Zippered front pocket
- YKK® Vislon® zipper with rubberized zipper pull
- No-sew waist construction for clean, technical look
- 3 rear pockets
- Large reflective strip across pockets for low-light visibility

If you're looking for just one jacket to do it all, start here. We used our lightest GORE-TEX INFINIUM™ WINDSTOPPER® three-layer stretch fabric, which makes it great for milder conditions, and the stretch gives it a great fit. It's the same outer fabric as we use for our Alpha RoS 2 Jacket, called "The benchmark in how the best winter jackets should perform" by Cyclingnews.com, but the Go Jacket forgoes the Alpha's integrated liner so you can decide how much insulation you need. Add a Flanders Warm base layer and thermal jersey to extend the comfort range to subfreezing temperatures. But the fabric is only the start. We've tailored the fit to be close to body but not too close. It gives a good drape to the jacket, rounded out by details like the no-sew finishing to the hem and the zippered colored front pocket. The hidden internal cuffs are a nice comfort touch, and you'll appreciate how they eliminate drafts from the wrist. There are three pockets on the back, with a large reflective strip stretching across the entire bottom of the pockets for nighttime visibility. Where does this jacket fit in our line? It's similar in warmth to the Perfetto RoS W Long Sleeve, but it has a more tailored and elegant look, with a slightly more relaxed fit, and it's not quite as protective in wet weather.

WHAT IT IS /PRODUCT FEATURES

This mid-weight wind jacket is perfect for those autumn and spring rides when you want to cut the chill but don't want to overheat. Add an extra insulating layer and it can take you through most of the winter.

- Our lightest jacket for fall or light winter riding
- GORE-TEX INFINIUM™ WINDSTOPPER® X-Mid front and sleeves for wind protection with exceptional breathability
- Warmer fleece fabric on back for additional breathability
- Asymmetrical YKK® Vislon® zipper
- 3 rear pockets

This is the jacket we made for cold-weather riding. Not necessarily for extreme cold when you're in survival mode, but when you want to be able to ride hard without feeling weighed down or overheating. The allover GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast keeps the wind out, while the fleece liner provides a high level of insulation. It will keep light rain at bay as well, with best-in-class ventilation. Little details abound, like the scorpion zipper pull, so it's easy to open with gloved hands, and the double-layer wrist to interface with your gloves without cold air coming in.

WHAT IT IS /PRODUCT FEATURES

This fully waterproof, highly breathable, and extremely light-weight and packable (half a pocket) jacket featuring an innovative fit system is perfect for any rain ride or long descent.

- The lightest and most packable fully waterproof Castelli GORE-TEX® jacket
- GORE-TEX® SHAKEDRY™ product technology sheds water yet offers unmatched breathability
- The entire lower back is in GORE-TEX® Topo stretch fabric to expand in diameter if you have a few extra winter kilos or full pockets
- Reflective tape on back of both sleeves for high visibility in low-light conditions
- YKK® Vislon® waterproof zipper slides easily for ventilation adjustments
- Internal wrist gaiter seals wrist and integrates with glove to keep water out

WHAT IT IS /PRODUCT FEATURES

Fully waterproof jacket for when you need full protection, whether from rain or just from cold. Styled so you can wear it off the bike too.

- GORE-TEX® PACLITE® PLUS technology is guaranteed to keep you dry
- Fully seam sealed and with waterproof zippers
- Hood designed to fit under helmet when riding in wet conditions
- 2 front pockets
- Side zippers so you can widen hemline for better ventilation
- Reflective logo on back

Riding off-road and the improvements in breathability in hard shell fabrics have made us reconsider hard shell jackets. The Trail Endurance GT Jacket is a women's-specific jacket that's made to cover rainy rides on any surface, or cold rides when you really want to keep the elements out and you're not as concerned about going fast.

We've used GORE-TEX® PACLITE® Plus for the extra breathability, but that allows the jacket to compress down to low volume in your bags. It has two front pockets that can open for ventilation, and a zipper at each side that can be opened to give extra width to the hemline and allow ventilation out the bottom.

The hood is cut to fit under your helmet for riding in the rain — you don't really care if your helmet gets wet. The wrists have an anatomic cut to better fit around your hand and keep any rain from running down into your gloves.

While this jacket is first and foremost a technical on-bike piece, it's also designed to look good when you're off the bike, for your next adventure or bikepacking ride.

EMERGENCY 2 W RAIN JACKET

4521550

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	143 g (S)	6°-18°C / 43°-64°F

WATERPROOF

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

The go-to jacket for rain protection, whether for all-day use or emergency use, since it easily stashes away in a jersey pocket. With discreet styling and 360° reflectivity, it can do double duty as a commute jacket.

- Deluge Light 2.5-layer waterproof fabric keeps rain off with 10,000 mm water column
- Slight amount of stretch for excellent fit in riding position
- Folds into half a jersey pocket for emergency situations
- Stuff pocket integrated into mesh vent at top of back
- Waterproof zipper and contrast seam sealing keep water out
- 360° reflectivity

Just like the name says, we wanted to create the ideal simple emergency rain jacket. We made it completely waterproof and compact, and, as you'd expect from Castelli, we also gave it an amazing on-bike fit, yet it's still roomy enough to fit over a Gabba. It has all the trappings of a performance rain jacket, with the waterproof zipper, long tail, long sleeves, and wrist closures that can go over gloves, yet we knew you wouldn't want to break the bank with it, so the only real compromise compared to our top-of-the-line offerings is in breathability. We kept the styling toned down and added a bright colorway in Brilliant Pink so that you can easily use this as a commute jacket and still look great when you get to the office. If you're going to wear it over office attire you may want to go up one size.

4520089

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	82 g (S)	10°-18°C / 50°-65°F

WET ROADS

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

An extremely light and packable wind shell that fits close to body, with stretch breathability panels, allowing you extend the temperature range of your favorite Castelli pieces.

- Ultralight windproof woven microfiber front
- Striped mesh fabric at sides and sleeve back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Integrated pack sack
- YKK® Vislon® zipper
- Reflective piping

NOT YOUR OLD-STYLE  
WIND JACKET

If you're like us, there's a reason you're not using your old-style wind jacket more. With waterproof jackets like the Idro being lighter and more compact than ever, we felt it was time to re-invent a classic. In reality, the Aria Jacket is very different from your flappy old jacket that either didn't protect you or didn't breathe. This jacket is an impossibly light layer that keeps the wind off the front of your body while allowing ample breathability through the mesh side panels. But what you'll really appreciate is how we use the stretch panels in the sides and on the back of the sleeves to make this jacket fit like a second skin: no flapping fabric, no cold air circulating inside the jacket, no more looking like a throwback to the Armstrong era. This jacket is light and warm enough to wear for the entire ride in mild conditions, but if you do want to take it off it folds into a side panel pocket and stuffs away in minimal space in your pocket or seat bag.

ARIA W VEST4520088

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	60 g (S)	12°-20°C / 54°-68°F

FRONT ONLY

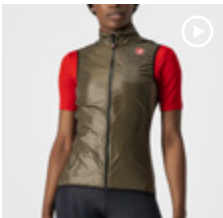

WHAT IT IS /PRODUCT FEATURES

Our lightest and most packable wind shell that fits close to body with a stretch breathable back. It effectively blocks wind on the front without causing overheating.

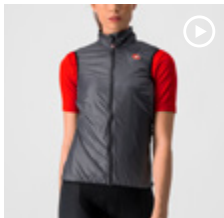

- Ultralight windproof woven microfiber front
- Striped mesh back is stretchy to avoid fabric flapping in the wind
- Folds up extremely small
- Rear pocket
- YKK® Vislon® zipper
- Reflective pipin

NEAR WEIGHTLESS PROTECTION

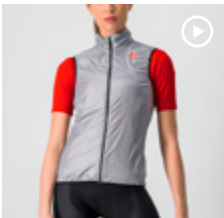

We have reinterpreted the classic wind vest to make it as svelte as the rest of your wardrobe. This vest is designed to completely block the wind on the front while allowing ample breathability on the back. The fabrics are so impossibly light that you'll be surprised at how much warmer you stay with this vest over your standard jersey. But the magic comes from the cut and the stretch fabric on the back, which take up all the loose fabric and make the vest fit close to body without feeling tight or looking ridiculous. When you're ready to take it off, the vest folds into its rear pocket and stashes away, taking up minimal space in your jersey pocket.

CASTELLI CYCLING

SQUADRA STRETCH W JACKET4521529

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	99 g (S)	10°-18°C / 50°-64°F

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

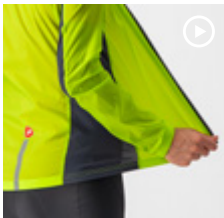

The Squadra Stretch shell keeps the wind off on cool-weather rides or long descents, while the stretch panels keep the jacket fitting close to body and eliminate flapping fabric.

- Coated ripstop nylon front and back and front of sleeves to keep wind off
- Tightly knit stretch panels on sides and sleeves allow for perfect fit
- High collar to keep drafts out
- Reflective details on chest and lower back for low-light visibility

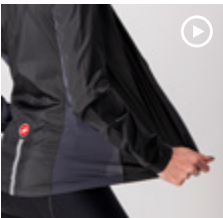

This is a modern interpretation of the wind shell jacket, the one you keep in your pocket for a long descent or put on for the first hour of the ride until the day warms up. That jacket used to be a simple affair — a nylon shell — but the lack of stretch meant that it had to be cut on the generous side to fit all body shapes, both on and off the bike.

We've completely reimagined what the shell jacket should be and how it's constructed. We've added panels on the sides and the sleeves in a very high-stretch yet tightly knit fabric that allows us to give the jacket a modern, close-to-body fit for aero gains on any terrain, and it actually keeps more heat in than a jacket that's flapping about. We've kept it very compact so that it can pack away into minimal space in a jersey pocket.

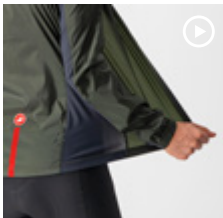

The stretch panels are treated for water repellency, which will help in a light mist, but this is not meant to be a true rain jacket.

LIGHT RAIN

WHAT IT IS /PRODUCT FEATURES

Warm, stretchy, water-repellent and highly visible: the ideal mix for a spring and autumn jersey. Using the same fabric as our Nano Flex arm warmers, this premium jersey provides our best performance fit and 360° reflectivity. Ideal with the Perfetto RoS Vest.

- Nano Flex 3G fabric features warm brushed fleece inside with 20% elastane for stretch and Castelli's unequaled Nano Flex water-repellent finish
- Reflective fabric inserts at shoulder and on central pocket
- 3 rear pockets
- YKK® Vislon® zipper
- Embossed logo

Ready to move up to a better cool-weather jersey? The Tutto Nano RoS Jersey features a number of upgrades compared to what you've probably been using.

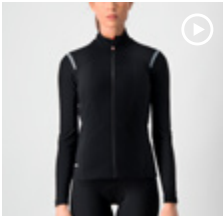

First is the stretch fit that moves perfectly with you, made possible by the Nano Flex 3G fabric, the same fabric we use to make our arm and leg warmers as well as our Sorpasso tights. This close-to-body fit actually makes the jersey warmer by avoiding fabric flapping in the wind.

Second is the tighter knit of the fabric compared to traditional thermal jersey fabrics. It lets less air through so you stay warmer.

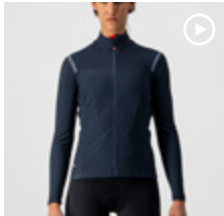

Next is Castelli's proprietary nanotechnology water-repellent finish. On dry days you won't even know it's there, but when you get some light rain or wet roads then you stay drier.

Last is the 360° reflectivity, thanks to the panels on the shoulders and lower back.

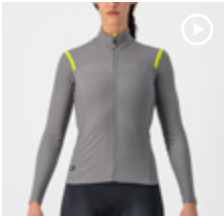

Of course, the Castelli attention to detail is there, with the easy-sliding YKK® Vislon® zipper with rubberized pull and the silicone gripper elastic to prevent the jersey from riding up.

883  
MELON

This engineered 3D thermal fabric provides extra warmth and comfort and a unique cross-dyed color effect. This jersey offers lots of layering options: use it alone in mild conditions, layer it under a vest in cool conditions, or wear it under a jacket on your coldest rides.

The extra-high collar has our Zen construction to protect the neck, while the Vislon® zipper is the easiest-sliding zipper available.

CASTELLI CYCLING

SINERGIA 2 JERSEY FZ

4521531

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	218 g (S)	12°-18°C / 54°-64°F

WHAT IT IS /PRODUCT FEATURES

The perfect foundation thermal jersey for fall and spring riding. The warm fabric and the drop-pocket construction are the keys to this jersey's performance.

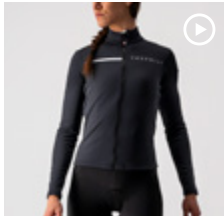

- Warmer fabric
- Castelli stripe logo across upper chest
- Lightweight YKK® Vislon® easy-sliding zipper
- 3 rear pockets with Castelli drop-pocket construction
- Reflective piping at back

Most of us use long-sleeve jerseys for a few days in the spring and fall, then extend their range with a vest in cooler weather, and then pull them back out for insulation duty under a jacket in extreme cold. So a thermal jersey shouldn't be too bulky or complicated, yet you don't want boring.

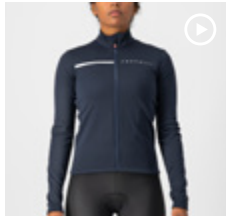

We built this with all the essential features, like great fabric and fit, perfect pockets, and our lightweight easy-sliding YKK® Vislon® zipper.

BLACK/SILVER REFLEX

We made this tight for serious winter riding. That means keeping you protected and comfortable in the widest possible range of conditions. Easy to say, but harder to actually do.

The main part of the tight uses our Nano Flex 3G fabric, the third generation of our proprietary nanotechnology fabric treatment that adds a high level of water repellency without affecting the breathability, stretch or warmth of the fabric. You get a highly stretchy, compressive fit that moves with you, for luxurious comfort with the best protection on the market. We add Nano Flex Xtra Dry panels to provide a bit more wind protection and warmth in the front and over the thighs.

It's not only about the fabrics: anatomical patterning gives a bend at the knee and the hip, while the seamless bib straps lie flat so you hardly notice them. Our generously padded women's-specific Progetto X<sup>2</sup> Air Seamless seat pad make long rides more comfortable, and you have multiple reflective panels to keep you visible.

We've designed this as the go-to tight for a full winter's riding.

The Free Aero RC Bibtight is made to be your first choice for most of your winter riding. Everything about it is focused on keeping you comfortable and at the right temperature. Every detail, every fabric, every seam will make your winter riding better.

This is the tight for those cool to cold days. Not for bitter cold, when you'll want to use a Sorpasso or Polare. Not for mild days, when you'll use leg warmers or a Semifreddo Bibtight. This is for maximum comfort on those days when you need warmth but you're not fighting for survival — those days when you're doing long rides getting ready for the season.

Most of the tight is constructed from our Nano Flex 3G fabric. Our third generation of Nano Flex is luxuriously soft, warm, and stretchy. But it also offers excellent breathability, keeps a lot of the wind out, and has our updated Nano Flex water-repellent finish. The lower legs are in our lighter-weight Nano Flex stretch woven with a lightly brushed inside and with leading water repellency. The bib straps are our Drop Tail design so that you can pull down the tights for nature breaks without removing the straps. In addition, you can cross the straps in the front or back, as you prefer.

This is supposed to be your long-ride comfort tight, so the Progetto X<sup>2</sup> Air Seamless Donna pad will be protecting your backside.

Semifreddo — it's an Italian desert that's chilled but not frozen. Exactly like the conditions we designed this tight for. This tight was made for cool days when you're not quite sure if you'll be warm enough with shorts and legwarmers or if you'll overheat with a full thermal tight. In those conditions the Semifreddo is the tight you need. The thighs and hips are kept warm with our Thermoflex fabric. Soft, fleecy, and especially stretchy, it's more comfortable than shorts and warmers. The lower leg uses our thinner Nano Flex stretch woven fabric so you don't overheat. Water protection is limited to the lower legs, so wet roads aren't a problem, but this isn't your tight when rain is threatening. The bib straps are our Drop Tail design so that you can pull down the tights for nature breaks without removing the straps. In addition, you can cross the straps in the front or back, as you prefer. The Progetto X<sup>2</sup> Air Seamless Donna pad finishes out the comfort focus on our best tight for moderate conditions.

WHAT IT IS /PRODUCT FEATURES

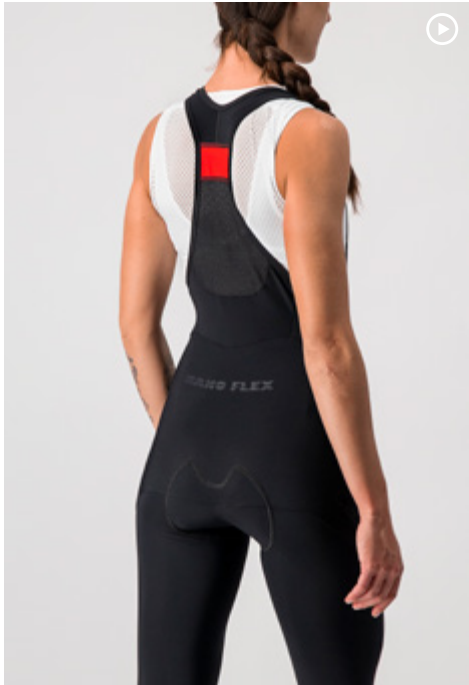

The do-everything tight: great in dry conditions, water repellent for light rain and wet roads, reduced seams for comfort, reflective band for visibility. And the tone-on-tone embossed logos give it that tech stealth look.

- The bibtight that’s great in every possible condition
- New Nano Flex 3G fabric is exceptionally warm and soft yet with even better rain protection
- Reduced seaming for improved comfort and fit
- Mesh bib straps don’t hold moisture
- KISS Air² Donna seat pad for long-distance comfort
- Reflective leg ending with ankle zip
- Embossed logos for durability

IT JUST HAPPENS  
TO BE GOOD  
IN THE RAIN TOO

Our Nano Flex 3G fabric is the result of a decade of development. It’s our best all-around fabric for winter tights: warm, stretchy, luxuriously soft, highly breathable and on top of that it features our proprietary third generation of nanotechnology water-repellent finish. While other companies are using simple chemical water-repellent finishes, we create a nanotechnology mechanical repellency to enhance a chemical DWR finish. You stay drier and more comfortable.

Even though this tight features our latest water-repellency technology, don’t think of it as just a niche rain tight. The fabric makes for a great dry-weather tight, and the reduced-seam anatomical cut makes it extremely comfortable. We use the pro-level KISS Air² Donna seat pad along with a mesh bib and zippered ankles. This is the tight that’s good at everything.

FRONT ONLY

WHAT IT IS /PRODUCT FEATURES

Our warmest tight, providing full-length front wind protection. This is the right choice if you venture out in very cold conditions or just like dressing extra warm.

- Full GORE-TEX INFINIUM™ WINDSTOPPER® X-Fast front for total wind protection
- Nano Flex G3 on seat and lower back leg for splash protection from wet roads
- Thermoflex back of thigh for extra warmth and stretch
- Mesh bibs don't hold moisture
- KISS Air² Donna seat pad gives great cushioning without excessive bulk
- High-visibility reflective stripes above knee in front and above calf on back
- Ankle zips for easy on/off

This is our warmest tight for cold riding conditions. Our warmest GORE-TEX INFINIUM™ WINDSTOPPER® fabric covers the entire front of the tight to keep the cold wind out. We use water-repellent Nano Flex 3G on the bum and the back of the lower legs for splash protection from wet roads, while Thermoflex on the back of the thighs gives extra stretch for the renowned Castelli fit. This is now the most comfortable wind tight we've ever made. We've kept the bib straps to a minimum so that you can layer your upper body exactly as you wish, without an unwanted thermal layer covering your stomach. With more of us riding at night, we've placed large reflective inserts on both the front and back of the legs, where the up-and-down pedaling motion grabs the attention of approaching motorists.

WHAT IT IS /PRODUCT FEATURES

Warmer shorts with Nano Flex protection are great for cool fall days, or together with knee or leg warmers for colder conditions. The minimalist seaming and logoining make this short look like it means business.

- New Nano Flex 3G fabric is exceptionally warm and soft yet with even better rain protection
- Reduced seaming for improved comfort and fit
- Mesh bib straps don't hold moisture
- KISS Air<sup>2</sup> Donna seat pad for long-distance comfort
- Embossed logos for durability

010  
BLACK

Riding off-road and the improvements in breathability in hard shell fabrics have made us reconsider hard shell jackets. The Trail Endurance GT Jacket is a women's-specific jacket that's made to cover rainy rides on any surface, or cold rides when you really want to keep the elements out and you're not as concerned about going fast. We've used GORE-TEX® PACLITE® Plus for the extra breathability, but that allows the jacket to compress down to low volume in your bags. It has two front pockets that can open for ventilation, and a zipper at each side that can be opened to give extra width to the hemline and allow ventilation out the bottom.

The hood is cut to fit under your helmet for riding in the rain — you don't really care if your helmet gets wet. The wrists have an anatomic cut to better fit around your hand and keep any rain from running down into your gloves. While this jacket is first and foremost a technical on-bike piece, it's also designed to look good when you're off the bike, for your next adventure or bikepacking ride.

WHAT IT IS /PRODUCT FEATURES

The long-sleeve Gabba is one of our most versatile pieces. 100% wind protection with GORE-TEX INFINIUM™ WINDSTOPPER® water protection and best-in-class breathability. With a light base layer it's good for mild temperatures, or with a thermal layer you can ride it below freezing. If you have just one jacket in your cycling wardrobe, this should be it.

- Sublimation print graphic on the do-everything Perfetto RoS 2 Jacket base
- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for greater stretch and breathability
- Taped shoulder seams for extra rain protection
- Top- and bottom-opening YKK® Vislon® zipper for easy sliding, covered for additional wind and rain protection
- Zippered ventilation opening on side of chest
- 3 rear pockets
- Reflective panel at bottom of pockets

WINDPROOF

WHAT IT IS /PRODUCT FEATURES

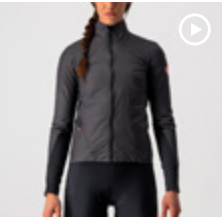

The jacket that's very warm yet extremely packable for your adventure or multiday rides. Woven microfiber windproof outer layer with Polartec® Alpha® Direct insulation.

- Coated windproof microfiber woven outer shell with DWR treatment
- Polartec® Alpha® Direct insulation layer for maximum loft with minimum bulk
- Nano Flex stretch woven fabric on underside of sleeves, sides, and lower back adds stretch and breathability
- Zippered pockets on chest and back
- 2 large rear pockets covered with flap to look right when off the bike
- YKK® Vislon® zipper with U-shaped zipper pull
- Woven inner label and vintage scorpion logo on sleeve

When the challenge is distance rather than speed, this jacket brings warmth and comfort with styling that looks right both on the bike and at the food stop. We're doing more and more long adventure rides. Sometimes that means rides with major elevation changes. Or riding through the cold of night and the heat of the day. Or multiday bikepacking rides. This jacket shines in those situations because it provides a lot of insulation and warmth when you need it, but it packs down small in your seat bag when you don't need it. The outer layer is a fabric you've seen on some high-end down jackets from some big brands. We like it because it's so light yet it keeps the wind out. Then on the inside, Polartec® Alpha® Direct is the lightest, most packable, and highest-wicking insulation available. It's warm like a synthetic down but doesn't require an inner layer that would reduce breathability and add weight. For your next Unlimited adventure, just stick this jacket and a GORE-TEX Idro Jacket in your bag and you're ready for anything.

UNLIMITED TRAIL W JERSEY

4522539

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	222 g (S)	12°-17°C / 54°-63°F

- WHAT IT IS /PRODUCT FEATURES
- The warmest all-road jersey with extreme performance, disguised as an adventure jersey.
- High-loft brushed polyester fleece fabric keeps you warm and dry, while the 5% elastane content helps it stretch for perfect fit
  - Tight knit keeps some wind away from your skin for extra warmth
  - 3 cargo-style rear pockets and a zippered front pocket
  - YKK® Vislon® zipper for easy opening/closing
  - Neutral fit

Gravel and off-road riding often mean somewhat slower speeds and more variability, so we can ride in cooler conditions before putting on a full jacket. This jersey was made to provide a high level of warmth, especially at lower wind speeds, to give that perfect balance of warmth without overheating.

Style-wise it's influenced more by outdoor than pro racing, but Castelli's DNA is still there for the on-bike performance, sacrificing only aerodynamics. All-road features include the higher-volume pockets as well as the zippered front pocket so you don't lose valuables.

This jersey is excellent as a layering piece under a Perfetto Vest or an Aria Vest.

UNLIMITED W THERMAL JERSEY

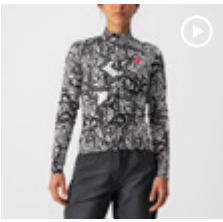

4522540

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	261 g (S)	13°-18°C / 55°-64°F

- WHAT IT IS /PRODUCT FEATURES
- The thermal jersey that's ideal for Unlimited riding, both on tar-mac and on dirt, thanks to the exceptional warmth of our heavier-weight Warmer fabric.
- Maximum warmth from printable version of our Warmer polyester fabric with brushed fleece inner layer
  - YKK® Vislon® zipper with protective tab at top
  - 3 rear pockets with Castelli drop-pocket construction
  - Reflective piping

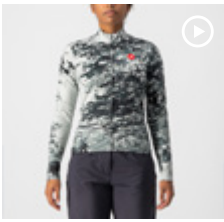

With the changing speeds and intensities of riding on gravel, a thermal jersey becomes even more useful. The sublimation-printed Warmer fabric has a luxurious fleece inside yet offers enough breathability to keep you from overheating. We've kept the construction simple on this jersey with three rear pockets, a full-length YKK® Vislon® zipper, and silicone gripper elastic at the waist. This piece layers well with a Perfetto or Aria vest.

UNLIMITED W BAGGY SHORT

4521544

SIZES	WEIGHT
XS-XL	174 g (S)

WHAT IT IS /PRODUCT FEATURES

The baggy short that’s not too baggy. It’s so light and stretchy you might forget you’re wearing a baggy short. It has no liner so you can wear it with your favorite cycling short.

- Stretch woven fabric with DWR finish
- Extremely light so you won’t even feel it on
- 2 front pockets and 1 zippered pocket
- Stretch jacquard waistband with zippered front opening
- Scorpion button logo

There are those days when a baggy short just seems like the right look. But you always debate whether you’re willing to compromise comfort for that look, and you end up wearing Lycra®. So we set out to make a better baggy.

We reached for a stretch woven fabric that gives great stretch but in an unbelievably lightweight yet durable fabric. We gave it a DWR finish so mud and water roll off. We gave the short two top-opening pockets like jeans so that whatever you put in there won’t fall out. We made the cut fairly close to body so you look good off the bike but the short doesn’t balloon out when you’re on the bike. It all just kinda disappears.

The short doesn’t have its own seat pad, so wear this over your favorite Castelli short.

010  
BLACK

UNLIMITED

UNLIMITED DT W LINER BIBSHORT

4522056

SIZES	WEIGHT
XS-XL	145 g (S)

TEMPERATURE RANGE

15-35°C / 59-95°F

WHAT IT IS /PRODUCT FEATURES

Made to be the ultimate liner under your baggy shorts. Featuring the supremely comfortable Progetto X² Air Donna seamless seat pad in the coolest minimalist short, with drop-tail construction for pee breaks without removing the bib straps.

- Women's-specific Progetto X² Air Donna seamless seat pad for long rides and rough trails
- 170 g Force fabric through hips to keep seat pad in place
- Perforated leg panels are light for maximum ventilation and cooling
- Giro Air leg grippers are cool and hold legs in place
- Drop-tail bib straps can cross in front or back and allow pee breaks without removing bibs

There's no reason to accept a mediocre short just because you want to wear baggies. This liner is made for ultimate comfort under your baggies. First and foremost, this short features the top-of-the-line Progetto X² Air Donna seamless seat pad. The pad has two separate components: a soft, stretchy Skin Care Layer that coddles your skin, and a separate Cushioning Layer with dual-density foam and gel pads for progressive damping. The best pad is worthless if moves around, so we’ve constructed the hip area in our compressive Force fabric, which holds the pad in place while providing good ventilation. The legs are light and airy with perforated fabric to keep you cool, and are held in place by our gauze-like Giro Air elastic. The beauty of this leg construction is that you can adjust the length to your preference — so they’re long enough to keep your baggy short from rubbing against your leg, for example. The bib straps are Castelli’s drop-tail design, stretchy enough to be pulled down for a pee break while providing enough pull to keep your shorts in place. They’re free floating so you can choose to cross them in front or back.

COLD DAYS W 2nd LAYER

4522554

SIZES	WEIGHT	
XS-XL	90 g (S)	
TEMPERATURE RANGE		
-8°-7°C / 18°-45°F		

WHAT IT IS /PRODUCT FEATURES

Maximum insulation and moisture management for cold rides, to layer between a base layer and a jacket.

- Polartec® Alpha® 90 fabric high-loft active insulation made from recycled PET
- Maximum breathability
- Asymmetrical zip
- High collar

The Polartec® Alpha® fabric is an amazing insulator, and it's soft, stretchy, and lightweight. A couple of years ago we thought it would make an excellent fabric for a base layer, but it tended to feel wet and clammy against the skin. But when looking for more insulation for sub-freezing gravel rides, we tried using the Alpha prototypes as a second layer on top of a Prosecco base layer — and stumbled into the best combination for cold riding. We worked on the details and created this second layer for cold rides. We've given it a half zip so it doesn't create bulk over the lower torso, and we've mounted the zip slightly off-center to avoid the bulk of multiple zippers at the neck. We've kept the fit close to body so you have the choice to tuck it into your tights or leave it out like we do. We also found that it works well over a Flanders, Bandito, or Miracolo base layer.

010

ROSSO CORSA

FLANDERS 2 W WARM LONG SLEEVE

4519547

SIZES	WEIGHT	TEMPERATURE RANGE
XS-XL	103 g (S)	-2°-10°C / 28°-50°F

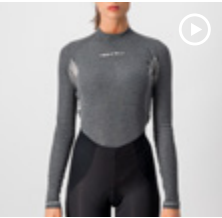

WHAT IT IS /PRODUCT FEATURES

Warm, dry, comfortable and very soft. This base layer feels warm from the moment you put it on. The best choice for cold-weather riding.

- SottoZero Fleece multi-denier 100% polyester fabric
- Flat-lock stitching
- Mesh armpit insert
- Flat hem tucks away in tights

BLUSTERY WEATHER?  
NO PROBLEM

This product was made for the conditions of Flanders in February. Or basically any month in Flanders between September and May. High-loft fleece on the inside provides warmth to spare, and you'll love the softness on your skin with the excellent moisture management of this 100% multi-denier fabric. It's stretchy for a perfect fit, and the flat-lock seams add an extra touch of quality.

ROSSO CORSA BRA

4518550

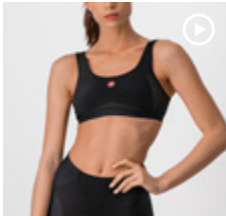

SIZES	WEIGHT
XS-XL	38 g (S)

- WHAT IT IS /PRODUCT FEATURES
- It's a cycling bra, not a sports bra. Not overly restrictive like a jogging bra, it's cool and offers just enough support for cycling.
- Superlight stretch fabric perfect for cycling
  - Mesh inserts for extreme breathability keep you cool and dry
  - Back hook-and-eye closure with 3-position regulation for easy on and off
  - Molded cups with full coverage
  - Medium support thanks to contoured seams and underbust elastic for enhanced fit and support

IT'S JUST FOR CYCLING

We wanted to make a bra for the unique demands of cycling. Compared to other sports there's less impact but requires a higher level of moisture management. We've engineered in just the right amount of support - you'd certainly never go running in this bra but it's just right for cycling.

CASTELLI CYCLING

COMMUTER REFLEX JACKET  
4521537

SIZES	WEIGHT	TEMPERATURE RANGE
S-3XL	319 g (M)	-2°-15°C / 28°-59°F

	WATERPROOF		WINDPROOF

WHAT IT IS / PRODUCT FEATURES

Designed for the rigors of commuting in all weather, this jacket keeps everything out while fitting over your office attire, but where it really shines, quite literally, is with the allover reflectivity that lights up at night yet is practically unnoticeable during the day.

- Castelli-exclusive 3-layer allover reflex fabric with 20,000 mm water column waterproofing and 20,000 MVTR breathability
- Taped seams for fully waterproof construction
- Cut to fit over normal clothes, longer in front and back for extra coverage
- No-sew bottom hem for very clean look
- No-sew external zipper flap
- Inner gaiter can be closed to seal out drafts or left open for ventilation
- Velcro wrist closure to effectively seal against glove

This is the Castelli of commute jackets, made to deliver maximum function on the bike and then look great when you get to work.

We wanted a jacket that provides maximum visibility during those night commutes but doesn't look ridiculous with all kinds of silver reflective bands and strips when you get to the office. We applied a nearly unnoticeable reflective print on the entire surface of the jacket. You don't really see it when you're riding in the daytime or wearing the jacket off the bike, but at night the jacket reflects a distinctive pattern to get you noticed.

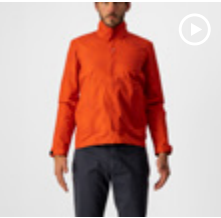

We didn't stop at the reflectivity. The 20,000 mm water column means no water is coming through, ever. And the 20,000 MVTR breathability means that a good amount of moisture will escape. But it's the ventilation details that make this jacket stand out: there's a gaiter at the waist that you can close to seal out the wind or leave open to let some air come in from the bottom to keep you cooler. This inner gaiter allows us to make a jacket that hangs straight at the bottom — a much cleaner and more refined look than a jacket with wrinkles from an internal elastic.

## A SMALL GESTURE CAN MAKE A BIG DIFFERENCE

At Castelli we know how important it is to make a contribution to our planet in terms of sustainability and environmental impact. This catalog is the result of small steps taken with a view toward making more responsible choices, and we have decided to work with partners who can respect this vision of ours. We have chosen more natural papers, originating from forests that are managed more carefully, and inks and printing methods that ensure the lowest possible ecological impact and easy recyclability once this catalog has served its purpose. It's a small contribution to a healthier planet.
