ROSSO CORSA

AERO RACE 7.0 JERSEY
4234300

SIZES	WEIGHT	FIT
XS-3XL	98 g (M)	RACE

TEMPERATURE RANGE
18-35°C / 64-95°F

WHAT IT IS / PRODUCT FEATURES

Class-leading aerodynamics paired with all-day comfort. This jersey is engineered to save you watts while managing moisture and providing comfort for the longest rides.

- CFD-based fabric placement and seam construction
- Engineered for aero efficiency at 30 to 55 km/h
- To be paired with Bolero SS base layer for added aero gains, or without base layer for hot days
- Airflow shoulder construction
- Elbow-length stretch sleeves with raw-cut edge
- Elastic around waist to keep jersey in place and support pockets
- YKK® Vislon® zipper
- Contains bluesign® certified fabrics

AERODYNAMICS
AND COMFORT

When Castelli engineered the first aero jersey for road racing back in 2006, everyone thought we were crazy, even a few of the pro riders. Back then, aero was only for TTs. Performance clothing meant moisture management. And you could win the Tour de France with a baggy jersey that was little more than a polyester T-shirt with pockets on the back. Even our aerodynamic consultants expected limited, if any, gains, so we named the jersey the Split Second. In the end, the gains were pretty substantial, and we completely revolutionized the look of the pro peloton. We're now on the seventh major revision of that jersey, and we've found even more gains. Still heavily benefitting from CFD analysis of wake flow in the riding position for fabric and seam placement, along with pro rider feedback, this jersey is both fast and comfortable for long days in the saddle. And for those days when it really matters, wear our Bolero SS base layer under the jersey for even larger aero gains.

CERAMIC BLUE/WHITE

CLIMBER'S 4.0 JERSEY
4234301

SIZES	WEIGHT	FIT
XS-3XL	118 g (M)	RACE

TEMPERATURE RANGE
22-40°C / 72-104°F

WHAT IT IS /PRODUCT FEATURES

Created for the hottest days when aerodynamics still matter. This jersey allows ample airflow, is quick to dry, and blocks more than 90% of UV rays on your back. A great choice for long summer rides or hot lunchtime rides in the middle of summer — or just add a base layer and it becomes a great three-season jersey

- CFD-based fabric placement and seam construction
- Engineered rapid cooling, light weight, and aero efficiency
- Airflow shoulder construction
- Flusso 3D fabric on front
- StradaPro 3D back for breathability
- Elbow-length stretch sleeves with raw-cut edge
- Elastic around waist to keep jersey in place and support pockets
- YKK® Vislon® zipper
- Contains bluesign® certified fabrics

LIGHT, DRY AND FAST

Racing in the Alps in July is for a select few, but the products that come out of that experience are absolutely amazing for the rest of us. We made this jersey for hot days in the high mountains, based on direct feedback from the pros. They wanted a jersey to keep them cool on hot days without sacrificing aerodynamics. The Climber's 4.0 Jersey uses the same CFD-based seam construction as our Aero Race 7 Jersey, but we use the most aerodynamic 3D mesh fabrics we could find for optimal cooling. These fabrics also have a great soft and stretchy quality to them, giving this jersey a comfortable fit too, which you need for big days in the mountains. And since this jersey is meant to be used in the sun, we've also made sure the fabric on the back blocks 90% of UV rays

FREE AERO RC PRO BIBSHORT
4234231

SIZES	WEIGHT	FIT
XS-3XL	184 g (M)	RACE
TEMPERATURE RANGE		
15-35°C / 59-95°F		progetto X ²

WHAT IT IS / PRODUCT FEATURES

The perfect mix of comfort and speed. Engineered for top-level racing, which also makes it supremely comfortable for every ride and rider.

- High-compression 215 g Forza 2 fabric with 32% Lycra® content provides exceptional muscle support and compression
- Progetto X² Air seamless seat pad is soft against the skin but well padded for long-distance comfort
- Minimalist bib straps allow maximum airflow, while a reinforced yoke keeps the straps flat over the shoulders
- Rear mesh pocket
- 5-panel construction for reduced seams and less chafing
- Reflective piping on back of legs
- Raw-cut edge at waist for extra stretch and comfort
- Raw-cut leg ending engineered to stay put without silicone grippers

SANREMO BTW SPEED SUIT
4234302

SIZES	WEIGHT	FIT
XS-3XL	226 g (M)	RACE

TEMPERATURE RANGE	
15°-35°C / 59°-95°F	progetto X2 AIR SEAMLESS

WHAT IT IS /PRODUCT FEATURES

This road speedsuit brings all the aero performance of a TT suit with the comfort, function, and moisture management needed for the road. Over a decade of development on the roads of the WorldTour and in the wind tunnel.

- CFD-based fabric placement and seam construction
- Engineered for aero efficiency at 30 to 55 km/h
- Fabric optimized for aerodynamics and breathability
- To be paired with Bolero SS base layer for added aero gains
- Airflow shoulder construction
- Elbow-length stretch sleeves with raw-cut edge
- Reduced seaming on bottom for maximal aero gain
- Progetto X2 Air Seamless seat pad
- Contains bluesign® certified fabrics

FAST MADE FASTER.

This is the suit that started a revolution. Before the San Remo Speedsuit made its debut in 2011 at Paris-Roubaix, the thought of wearing a speed suit for anything but a time trial seemed insane. But after it achieved victory in its first outing, the way cyclists dressed for racing changed forever. In its latest evolution, the San Remo BTW Speed Suit is even faster. On top we use our new redesigned Aero 7 Jersey, which is paired with the reduced-seam bottoms from our Body Paint 4.X speedsuit, a combination that is slippery against the wind. As always, the suit opens completely in the front for added ventilation and easier nature breaks and has three pockets on the back for storage. We've also used our Progetto X2 Air seat pad for comfort during the toughest rides or races. For extra aerodynamic gains, pair this suit with our Bolero SS base layer. Extensive hours in the wind tunnel have shown this combination to be the fastest yet.

NANO FLEX		

WHAT IT IS / PRODUCT FEATURES

Made for long hours in the widest range of conditions, this tight features our ultra-stretchy, warm and water-repellent Nano Flex 3G fabric with the extra warmth of Nano Flex Xtra Dry on the hips and thighs, along with an anatomical cut and the Progetto X² Air Seamless seat pad for long-distance comfort.

- Nano Flex 3G fabric for our best mix of warmth, stretchy compression, softness and water repellency
- Nano Flex Xtra Dry fabric panel on upper front and thighs for extra warmth, and on back to protect from road spray
- Anatomic cut to hips and knee
- Reflective inserts for maximum visibility from behind
- Lie-flat elastic bib straps
- YKK® Camlock® zippers at ankles
- Progetto X² Air Seamless pad for long hours in the saddle

The name of this tight, Sorpasso, means “overtaking” in Italian. That’s what we’ve tried to do with this tight, to make it a bit faster, better, more comfortable. It’s made to be technical equipment for riding in the widest range of winter conditions. The main part of the tight uses our Nano Flex 3G fabric, the third generation of our nanotechnology fabric treatment that adds a high level of water repellency without affecting the breathability, stretch or warmth of the fabric. You get a highly stretchy, compressive fit that moves with you, focusing on warmth and comfort.

But then we add a few panels of the Nano Flex Xtra Dry fabric to provide a bit more wind protection and warmth in the front panel and over the thighs, and in the back for extra protection from road spray.

It’s not only about the fabrics: anatomical patterning gives a bend at the knee and the hip, while the seamless bib straps lie flat and securely keep everything in place. Our generously padded Progetto X² Air Seamless seat pad make long rides more comfortable, and you have multiple reflective panels to keep you visible. We’ve designed this as the go-to tight for a full winter’s riding.

WHAT IT IS / PRODUCT FEATURES

This is the original jacket/jersey that started an entire new product class: the Gabba. It's a water-resistant short-sleeve jacket that's equally ideal for dry conditions. Made to be worn with our Nano Flex arm warmers, it allows you to keep your core warm without overheating.

- The 5th generation of the Gabba, from the inventors of the Gabba
- Now more water-resistant than ever
- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for greater stretch and breathability
- Taped shoulder seams for extra rain protection
- Top- and bottom-opening YKK® Vislon® zipper for easy sliding, covered for additional wind and rain protection
- Zippered ventilation opening on side of chest
- 3 rear pockets
- Reflective panel at bottom of pockets

	WINDPROOF

WHAT IT IS / PRODUCT FEATURES

The long-sleeve Gabba is one of our most versatile pieces. 100% wind protection with GORE-TEX INFINIUM™ WINDSTOPPER® water protection and best-in-class breathability. With a light base layer it's good for mild temperatures, or with a thermal layer you can ride it below freezing. If you have just one jacket in your cycling wardrobe, this should be it.

- Castelli-exclusive GORE-TEX INFINIUM™ WINDSTOPPER® 205 Warm brushed water-resistant fabric on front-facing surfaces
- GORE-TEX INFINIUM™ WINDSTOPPER® 203 Stretch on rear-facing surfaces for greater stretch and breathability
- Taped shoulder seams for extra rain protection
- Top- and bottom-opening YKK® Vislon® zipper for easy sliding, covered for additional wind and rain protection
- Zippered ventilation opening on side of chest
- 3 rear pockets
- Reflective panel at bottom of pockets

4232096

SIZES	WEIGHT	FIT
XS-2XL	53 g (M)	TAILORED

TEMPERATURE RANGE
15°-28°C / 59°-82°F

WHAT IT IS / PRODUCT FEATURES

WorldTour winning base layer with a Wolfpack graphic print that shows your love for the team on the inside.

- 3D mesh fabric for excellent moisture management
- Sublimated print graphic
- Waist hem stays flat under shorts

PRO-LEVEL BASE

The pro cyclists we work with know the importance of the right base layer for the conditions. The Pro Mesh is made for the widest range of conditions and is designed to keep you dry in cool to mild temperatures. We'll even put it under a Flanders Warm base layer in the coldest conditions. We've given it a graphic print so you can show off that you have something special when you open your jersey zip.
