DEVELOPED AND TESTED WITH THE PROS

Just like Soudal Quick-Step, we leave nothing to chance, and we share the same focus on results-driven innovation in everything we do. The race clothing is the result of CFD modeling followed by extensive pattern engineering and fabric research, then further testing in the wind tunnel and on the road.

And those products in the collection that are not made for WorldTour racing are still heavily influenced by the feedback and knowledge we acquire from working with the pros.

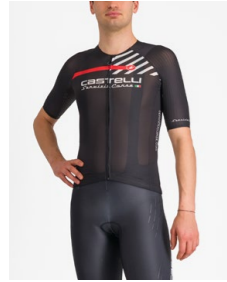

With Castelli Servizio Corse you can have the exact same pieces as the professional athletes. Not less—expensive replicas, but the exact same pieces made using the same fabrics, and components, with the same fit and finish, by the same people who produce the pieces you see on the pros racing in the WorldTour.

WHAT IT IS / PRODUCT FEATURES

More than a decade of speed innovation and knowledge. Our fastest jersey is now faster.

- CFD-based fabric placement and seam construction
- Bonded sleeve endings for comfort
- Lightweight body fabric for optimal cooling, breathability, and comfort
- Elastic at waist to keep jersey in place and support loaded pockets
- 3 rear cargo pockets
- YKK® Vislon® zipper for easy use

MORE THAN A DECADE OF SPEED
 INNOVATION AND KNOWLEDGE. OUR
 FASTEST JERSEY IS NOW FASTER.

In the world of performance cycling, we seek out more watts and more speed from our equipment. Dressing for speed is one of the best ways to get faster, since 80% of the drag on a cyclist comes from the body. Drawing on more than a decade of innovation and knowledge in making professional riders faster, the Aero Race 8S Jersey is the result of using the most modern methods and fabrics to create the fastest jersey we've ever made. The S stands for "speed." The sleeve construction uses CFD engineering for optimal seam placement. The engineered ribbed shoulder fabric has been designed specifically for the greatest aerodynamic advantage at race speeds, with a CdA savings of up to 6% over previous aero jerseys. The rest of the jersey is designed for maximum comfort. The body fabric is smooth and stretchy, allowing for a perfect fit, and it feels great against the skin. The elastic at the waist keeps the jersey in place while supporting the three back pockets when they are loaded. The Aero Race 8S Jersey is the ultimate piece of equipment to help you turn your watts into speed.

ROSSO CORSA

CLIMBER'S A/C JERSEY

4300659

SIZES	WEIGHT
XXS-3XL	119 g (M)

TEMPERATURE RANGE
22-40°C / 71-104°F

WHAT IT IS / PRODUCT FEATURES

Created for the hottest days when aerodynamics still matter. This jersey allows ample airflow, is quick to dry, and blocks more than 90% of UV rays on your back. A great choice for long summer rides or hot lunchtime rides in the middle of summer — or just add a base layer and it becomes a great three-season jersey

- CFD-based fabric placement and seam construction
- Engineered rapid cooling, light weight, and aero efficiency
- Airflow shoulder construction
- Flusso 3D fabric on front
- StradaPro 3D back for breathability
- Elbow-length stretch sleeves with raw-cut edges
- Elastic around waist to keep jersey in place and support pockets
- YKK® Vislon® zipper
- UPF 13

LIGHT. DRY. FAST.

Racing in the Alps in July is for a select few, but the products that come out of that experience are absolutely amazing for the rest of us. We made this jersey for hot days in the high mountains, based on direct feedback from the pros. They wanted a jersey to keep them cool on hot days without sacrificing aerodynamics. The Climber's 4.0 Jersey uses the same CFD-based seam construction as our Aero Race 8S Jersey, but we've used the most aerodynamic 3D mesh fabrics we could find for optimal cooling. These fabrics also have a great soft and stretchy quality to them, giving this jersey a comfortable fit too, which you need for big days in the mountains. And since this jersey is meant to be used in the sun, we've also made sure the fabric on the back blocks 90% of UV rays.

WHAT IT IS /PRODUCT FEATURES

Designed to be your favorite jersey for every ride except race day. Espresso comfort and style, revised and refined. 2.0.

- Castelli-engineered Air_0 Stretch fabric for breathability, comfort, and perfect fit
- Fabric optimized for breathability and aerodynamics
- Raw-cut sleeve endings for comfort
- 3 back pockets with fourth zippered security pocket for valuables
- Printed zippered key pocket
- Full-length YKK® Vislon® zipper with easy-use zipper pull
- Elastic at waist with silicone to keep jersey in place
- UPF 30

YOUR FAVOURITE JERSEY.
REVISED & REFINED.
2.0 .

When we set out to make the original Espresso Jersey, we wanted the jersey that we'd always reach for no matter if you normally wear an aero race-fit jersey or a more regular cut jersey. We developed a fabric that would allow for a close-to-body fit without being constrictive or feeling tight. Our proprietary Air_0 fabric also offers great breathability and moisture management, and amazingly tests well in the wind tunnel.

With innovation in our DNA and a healthy obsession for details, we set about perfecting our favourite jersey. The updates for Espresso 2.0 Jersey include even better fit: close to body but never restricting. We focused a lot of attention on improving the pocket structure, giving even better support and compression while reducing pocket sag and we added a nice finish to the edge.

Of course the 4th zip pocket remains as an essential for valuables. You can find the updated subtle logos in tone on tone color, and our signature red scorpion on the zipper puller.

WHAT IT IS / PRODUCT FEATURES

Comfort and aerodynamics meet in the fastest, most comfortable Free Aero Race Bibshort to date.

- Aero-optimized Forza2 Stretch fabric for maximum comfort and aerodynamic advantage
- Aero-optimized fabric delivers 3% decrease in CdA
- Lightweight minimalist stripe mesh bib straps to minimize weight and keep you cool
- Silicone leg grippers to keep leg endings in place
- Progetto X2 Air Seamless seat pad for comfort even on your longest rides
- Back pocket for extra storage or race radio
- Short fabric rated to 50+ UPF protection

DEVELOPED TO MEET THE DEMANDS OF THE PERFORMANCE CYCLIST.

From your local training route to the world's toughest bike races, the Free Aero Race S Bibshort was developed to meet the demands of the performance cyclist. When you swing a leg over a bike, the first thing you want out of your bibshorts is comfort. The Forza2 Stretch fabric molds to the body without constriction, allowing the fabric to move with every pedal stroke. The bib straps are kept lightweight and minimal while still being supportive, stretchy, and breathable to maintain a high level of comfort. The silicone grippers at the leg endings keep the short in place right where you want it. And, of course, we've used our Progetto X2 Air Seamless seat pad so you can stay comfortable even on the longest training days. In the modern world of performance cycling, aerodynamics has quickly become one of the most important components. After countless hours in the wind tunnel, we've aero optimized the bibshort to give you a 3% decrease in CdA, making it the fastest Free Aero Race Bibshort we've ever created. This means every watt you produce can be used to make you go forward faster.

WHAT IT IS / PRODUCT FEATURES

The next evolution of the suit that started a revolution.

- CFD-based fabric placement and seam construction
- Lightweight body fabric for optimal cooling, breathability, and comfort
- Aero-optimized Forza2 Stretch fabric for maximum comfort and aerodynamic advantage
- Silicone leg grippers to keep leg endings in place
- Progetto X2 Air Seamless seat pad for comfort even on your longest rides

The next evolution of the suit that started a revolution. Before the Sanremo Speed Suit made its debut in 2011 at Paris-Roubaix, the thought of wearing a speed suit for anything but a time trial seemed insane. But after it achieved victory in its first outing, the way cyclists dressed for racing changed forever. In its latest evolution, the Sanremo S Speed Suit is even faster. The top part uses our newest and fastest Aero Race 8S Jersey with CFD seam placement and engineered ribbed fabric on the sleeves for an aerodynamic advantage. The bottom is based on our new aero-optimized Free Aero Race S Bibshort. As always, the suit opens completely in the front for added ventilation and easier nature breaks and has three pockets on the back for storage. We've also used our Progetto X2 Air seat pad for comfort during the toughest rides or races.

WHAT IT IS /PRODUCT FEATURES

The fastest suit for racing against the clock.

- Pure speed equipment, created for WorldTour racing
- Developed using years of experience of CFD analysis, wind tunnel testing, and WorldTour racing
- Fabrics developed and tested extensively for maximum aerodynamics at speeds of 45 km/h and above
- Reduced seaming for maximum aerodynamics
- No-sew mesh race number holder to prevent number flapping in wind
- Extra-long legs with flat leg endings with PU grip elastic on the inside

THE FASTEST SUIT
FOR RACING AGAINST THE
CLOCK

Having access to the fastest riders in the world definitely has its benefits. And thanks to the UCI rules meaning we need to make this product commercially available, those benefits can also be offered to you. After spending countless hours in the wind tunnel at the Politecnico University of Milano we have tested and optimised this new Body Paint V TT suit to be the fast for the widest range of conditions. The real benefits of the suit are felt at speeds above 45 km/h and the suit is optimised for extreme time trial positions. The fabrics and materials are intricately sourced and placed together, to ensure we see the best results in the wind tunnel and on the road.

The silicone grippers at the leg endings keep the short in place right where you want it. And, of course, we've used our Progetto X2 Air Seamless seat pad so you can stay comfortable even on the longest training days. In the modern world of performance cycling, aerodynamics has quickly become one of the most important components. After countless hours in the wind tunnel, we've aero optimized the bibshort to give you a 3% decrease in CdA, making it the fastest Free Aero Race Bibshort we've ever created. This means every watt you produce can be used to make you go forward faster.

WHAT IT IS / PRODUCT FEATURES

This road speedsuit brings all the aero performance of a TT suit with the comfort, function, and moisture management needed for the road. Over a decade of development on the roads of the WorldTour and in the wind tunnel.

- CFD-based fabric placement and seam construction
- Castelli engineered Air_0 Stretch fabric for breathability, comfort and perfect fit
- Engineered for aero efficiency at 30 to 55 km/h
- Fabric optimized for aerodynamics and breathability
- To be paired with Bolero SS base layer for added aero gains
- Airflow shoulder construction
- Elbow-length stretch sleeves with raw-cut edge
- Reduced seaming on bottom for maximal aero gain
- Progetto X² Air Seamless Donna seat pad
- Contains bluesign® certified fabrics

4300715

SIZES	WEIGHT	KISS ^{air} ²
XXS-XXL	285 g (L)	

TEMPERATURE RANGE
15°-35°C / 59°-95°F

WHAT IT IS /PRODUCT FEATURES

Simply engineered to be the fastest suit for racing against the clock.

- Pure speed equipment, created for World Tour racing
- Developed over two years based on hundreds of hours of CFD analysis, wind tunnel testing and WorldTour racing
- Fabrics developed and tested extensively for maximum aerodynamics at speeds of 45 km/h and up
- Reduced seaming for maximum aerodynamics
- Mesh race number window to prevent number flapping in the wind
- Extra-long legs with flat leg endings with PU grip elastic on the inside

THE FASTEST SUIT FOR RACING AGAINST THE CLOCK

Having access to the fastest riders in the world definitely has its benefits. And thanks to the UCI rules meaning we need to make this product commercially available, those benefits can also be offered to you. After spending countless hours in the wind tunnel at the Politecnico University of Milano we have tested and optimised this new Body Paint V TT suit to be the fast for the widest range of conditions. The real benefits of the suit are felt at speeds above 45 km/h and the suit is optimised for extreme time trial positions. The fabrics and materials are intricately sourced and placed together, to ensure we see the best results in the wind tunnel and on the road.

CASTELLI CYCLING

PRO MESH W SLEEVELESS

4300729

SIZES	WEIGHT
XXS-XXL	46g (S)

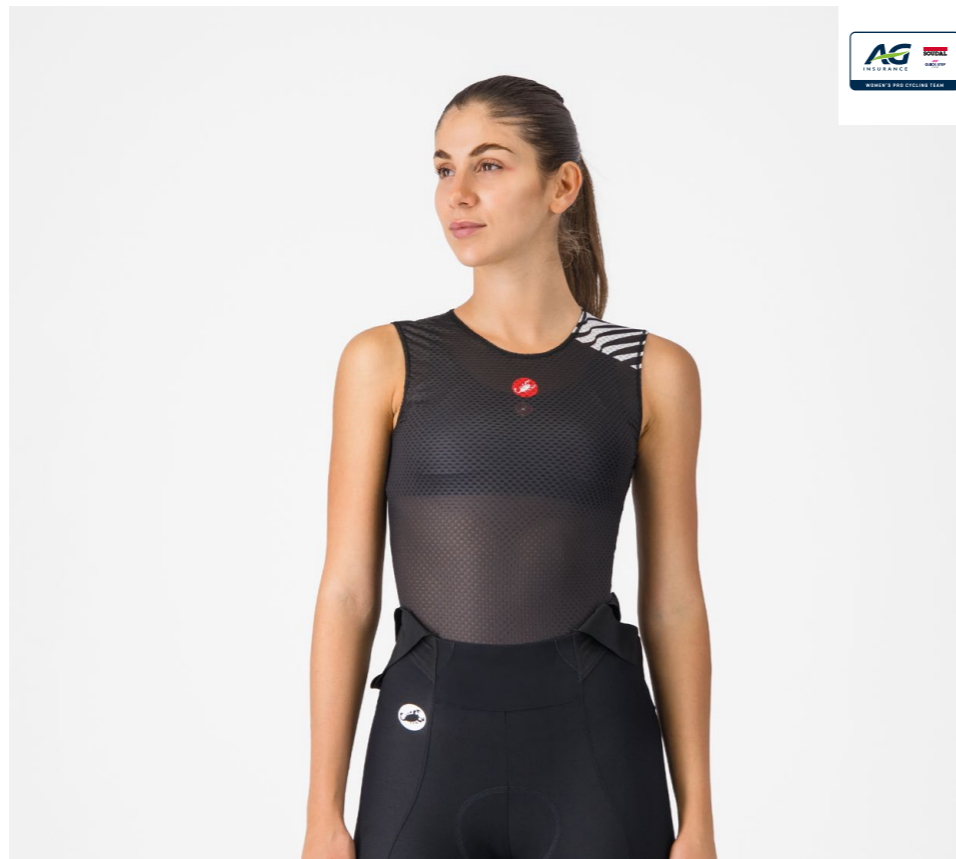

TEMPERATURE RANGE

15°-28°C / 59°-82°F

WHAT IT IS /PRODUCT FEATURES

Grand Tours winning base layer with a graphic print that shows your style on the inside.

- 3D mesh fabric for excellent moisture management
- Sublimated print graphic
- Waist hem stays flat under shorts

WOMEN'S PROTECTION

CASTELLI CYCLING

THERMAL W LS JERSEY

4300632

SIZES	WEIGHT
XXS-XXL	223 g (L)

TEMPERATURE RANGE

10-18°C / 50-64°F

WHAT IT IS / PRODUCT FEATURES

Made to keep your core warm while providing enough ventilation to keep you from overheating. Brushed fleece inside for warmth. Stretch side panels keep it fitting perfectly.

- Mid-weight Warmer X-Stretch brushed fabric
- Ideal for cool conditions, with or without a vest
- Race cut with highly elastic fabric provides close-to-body fit without feeling tight
- Drop-pocket construction for better fit around waist and better pocket position
- Covered YKK® Vislon® zipper
- 3 rear pockets

CASTELLI CYCLING

PRO LIGHT W WIND VEST

4300481

SIZES	WEIGHT
XXS-XXL	66 g (L)

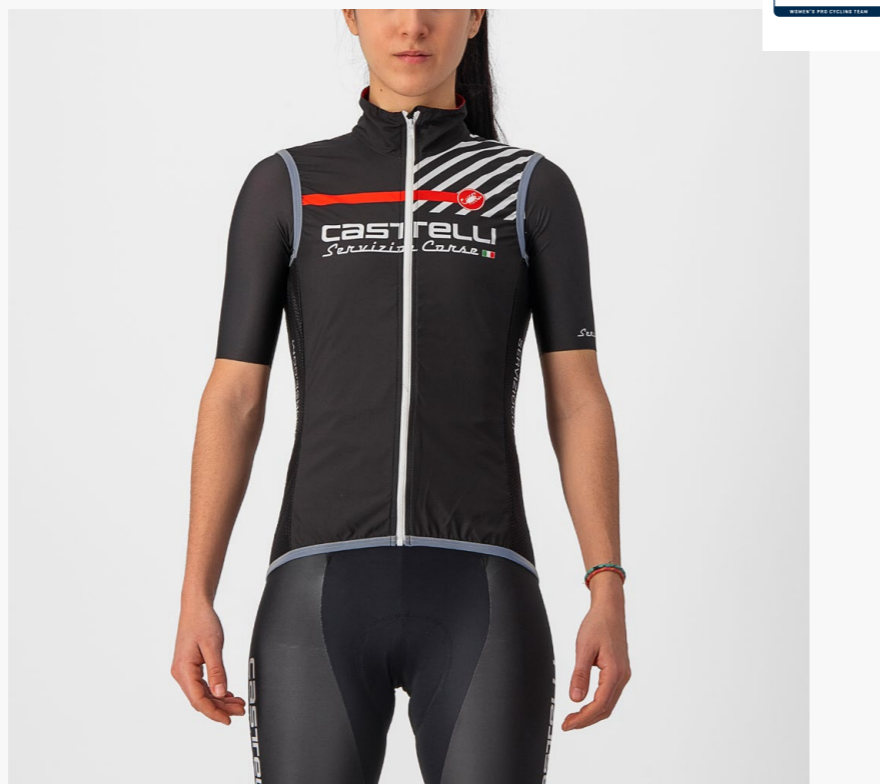

TEMPERATURE RANGE

14°-20°C / 58°-68°F

WHAT IT IS /PRODUCT FEATURES

Lightweight and packable wind shell that fits close to body with a stretch breathable back and high collar. It effectively blocks wind on the front without causing overheating.

- Impossibly light weight and compact wind vest
- Printed woven front and shoulders with low air permeability to block wind while remaining breathable
- Mesh back for full breathability
- YKK® Vislon® zipper for easy opening and closing

PROGETTO X²
SEAMLESS X²

Pro-level seat pad for maximum comfort. New seamless skin-care layer is softer against the skin and reduces abrasion. Separate saddle-shaped cushioning layer with progressive damping through high-density foam and gel inserts.

KISSair²

High-performance seat pad for all conditions. Single-piece construction with infinitely variable thickness. Updated with more supportive padding and a softer, stretchier fabric next to the skin.

HOW IT WORKS

01. CONTACT

To request information, please contact Castelli Servizio Corse by e-mail: please contact the Castelli Office in your country (www.castelli-cycling.com), or send your request to Castelli Servizio Corse, castelli.team@mvc46.eu or visit us at www.castelli-cycling.com

To request a quote, download and fill out the order form from serviziocorse.com with the styles we offer. Indicate quantities needed per style and submit via e-mail. Size breakdowns are helpful, but unnecessary for a quote. You will receive the requested quote shortly.

04. FINAL ORDER SUBMISSION

Submit your final order and you will be provided with a PDF copy to approve. This is your last opportunity to make revisions or correct errors.

02. DESIGN

Completed designs prepared on Castelli templates need to be submitted with your quote request. For every logo not supplied in vector-graphic format, a small fee will be incurred. Vector formats include: .ai, .eps, and .pdf (open).

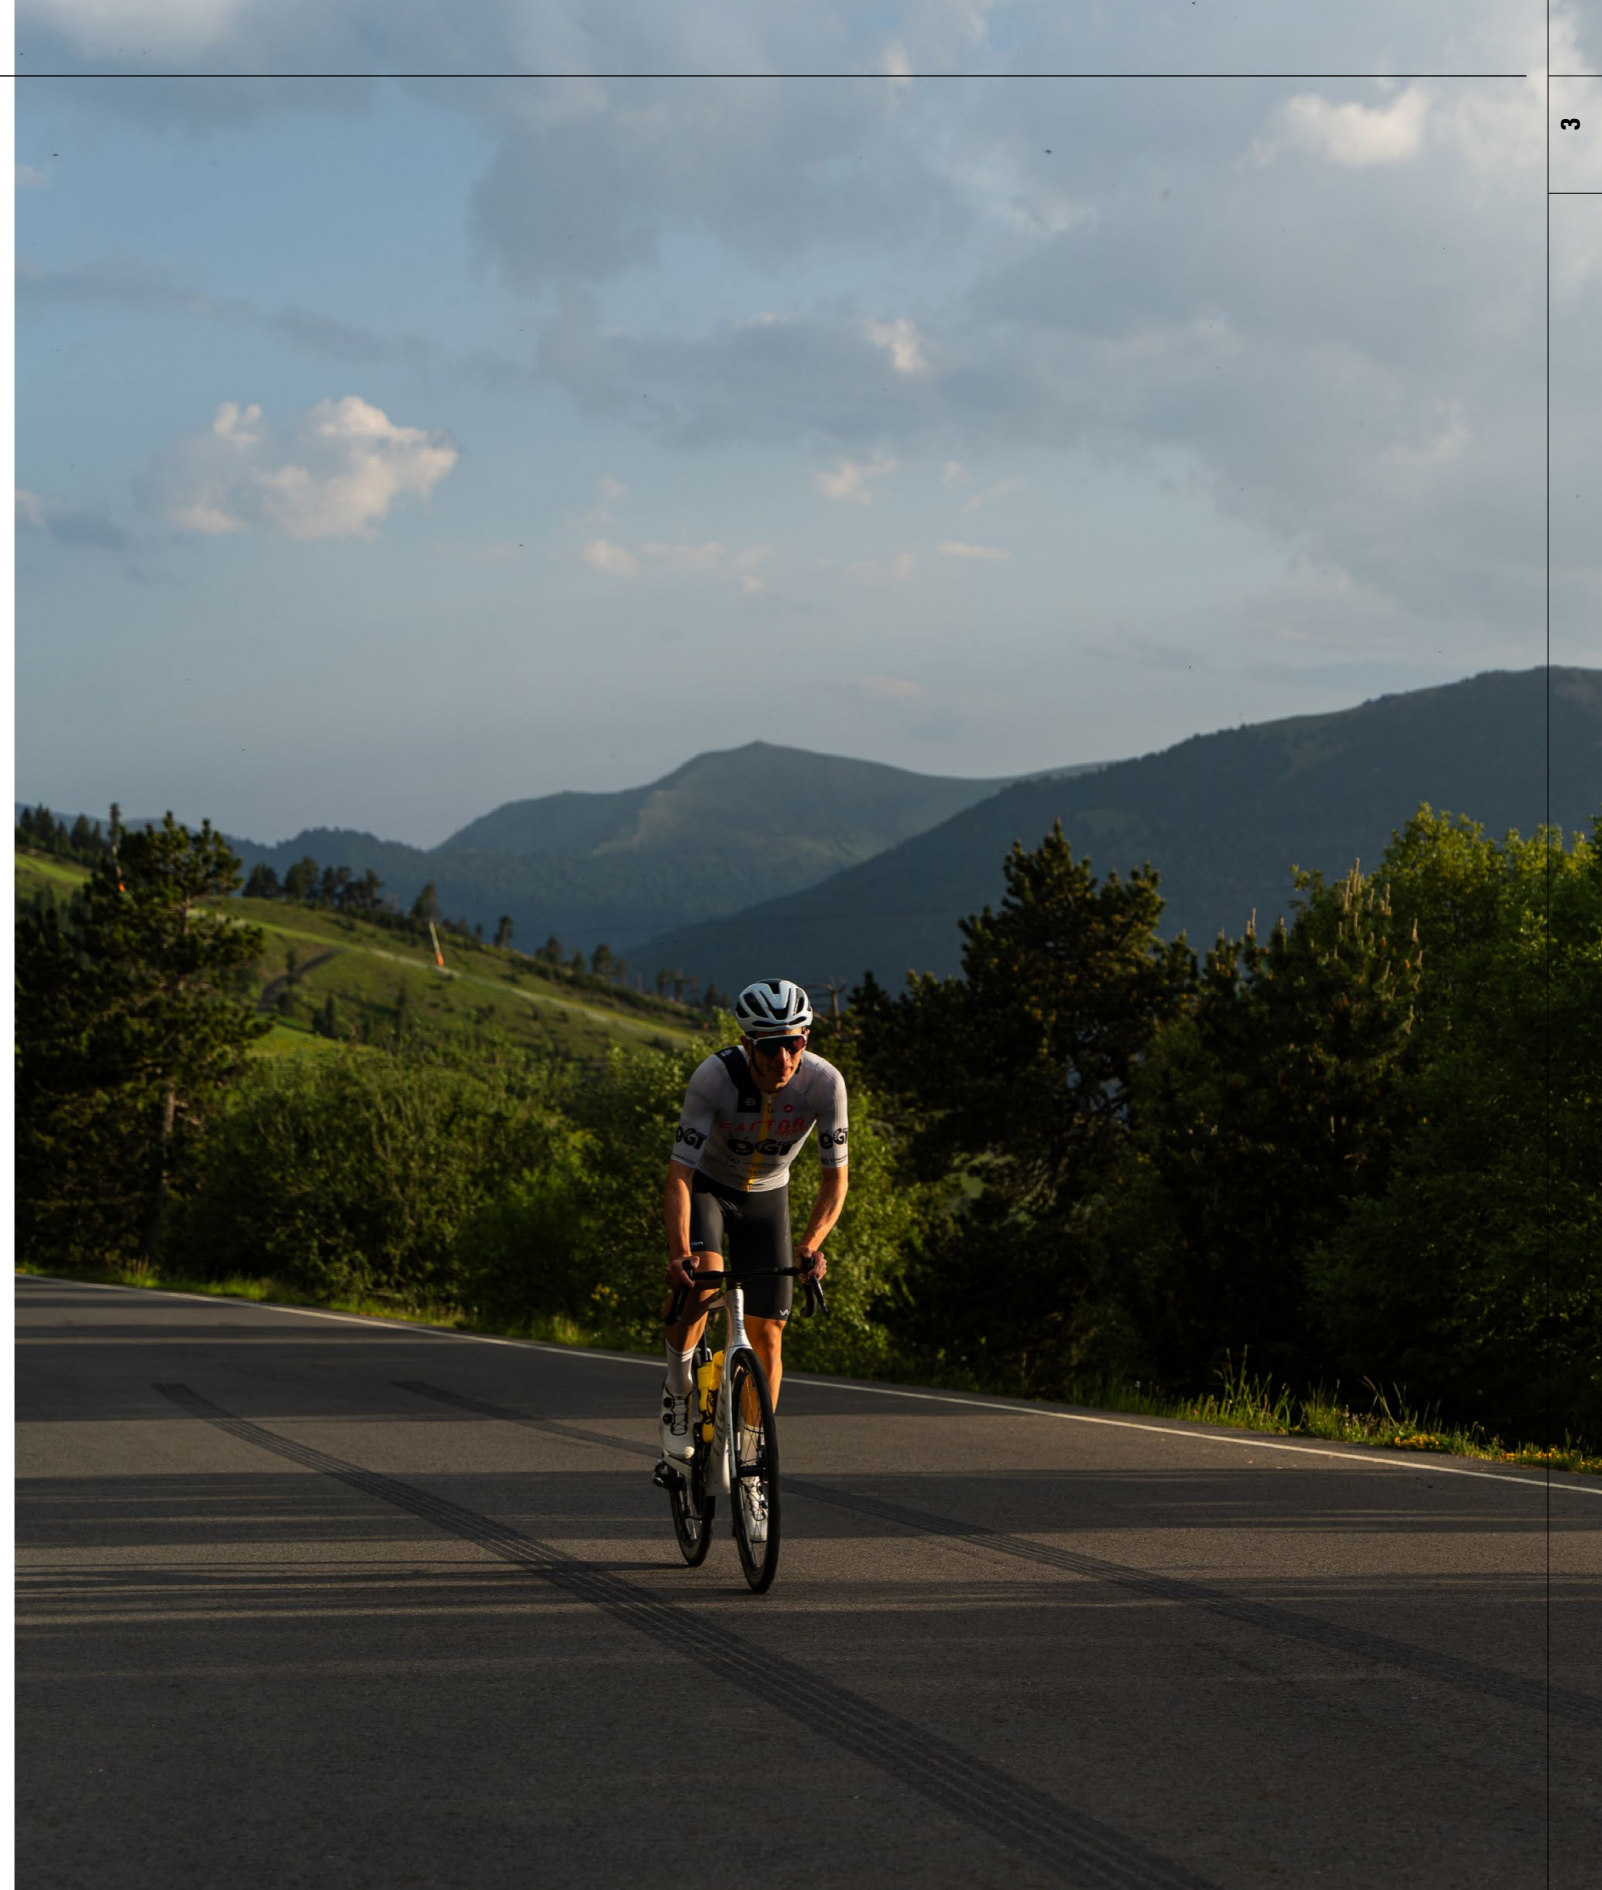

After submitting your design and quote, you will receive shortly an electronic art file of your final design. A full-size color proof printed on fabric can be ordered for an additional fee.

05. PRODUCTION

Once approvals for art, color and units, and deposit money have been received production will begin. No additional changes can be made at this time. Completion time is 8 weeks from the day approvals are received.

03. CONTACT

We will put you in contact with our representatives in your area so that you can see samples of all the pieces and check sizes, fit, and materials.
